**CRFQ ERP20-04 Addendum No. 1**

**Update to Project Completion Date Requirement**

Because there was a delay in getting this RFQ posted, we now recognize that a completion date of March 31, 2020 will be difficult for any vendor to satisfy. We expect the winning vendor to need an estimated 45 days from award of the Contract to complete this installation.

As a result, please recognize the following change:

- **Section 4.1.4 – The total project must be completed, tested, and service available within 45 days after award of the Contract.**

**Vendor Questions:**

**Q1. "On the pricing page, Appendix A. This service is billed per end so I assume you want the total monthly price of the circuit in the unit price field, but I want to confirm"**

**A1. That is correct. We would like to see a total cost of this service billed monthly. 'Unit Price' on the Pricing Page is synonymous with Monthly Price in this instance, with each unit being equal to one month.**

**Q2. In the instructions under #6 it states the bid opening date is 2/24/2020. Under #7 it states 2/20/2020. Can you confirm the correct date?**

**A2. The correct Bid opening date is 02/24/2020.**

Vendors may bid alternates to a listed model or brand provided that the alternate is at least equal to the model or brand and complies with the required specifications. The equality of any alternate being bid shall be determined by the State at its sole discretion. Any Vendor bidding an alternate model or brand should clearly identify the alternate items in its bid and should include manufacturer's specifications, industry literature, and/or any other relevant documentation demonstrating the

equality of the alternate items. Failure to provide information for alternate items may be grounds for rejection of a Vendor's bid.

This Solicitation is based upon a standardized commodity established under W. Va. Code § 5A-3-61. Vendors are expected to bid the standardized commodity identified. Failure to bid the standardized commodity will result in your firm's bid being rejected.

Vendor shall clearly mark any exceptions, clarifications, or other proposed modifications in its bid. Exceptions to, clarifications of, or modifications of a requirement or term and condition of the Solicitation may result in bid disqualification.

Any request for reciprocal preference must include with the bid any information necessary to evaluate and confirm the applicability of the preference. A vendor will not be permitted to unencrypt files, remove password protections, or resubmit documents after bid opening to make a file viewable if those documents are required with the bid. A Vendor may be required to provide document passwords or remove access restrictions to allow the Purchasing Division to print or electronically save documents provided that those documents are viewable by the Purchasing Division prior to obtaining the password or removing the access restriction.

**DO NOT SUBMIT MATERIAL YOU CONSIDER TO BE CONFIDENTIAL, A TRADE SECRET, OR OTHERWISE NOT SUBJECT TO PUBLIC DISCLOSURE.**

Submission of any bid, proposal, or other document to the Purchasing Division constitutes your explicit consent to the subsequent public disclosure of the bid, proposal, or document. The Purchasing Division will disclose any document labeled “confidential,” “proprietary,” “trade secret,” “private,” or labeled with any other claim against public disclosure of the documents, to include any “trade secrets” as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

**22. INTERESTED PARTY DISCLOSURE:** West Virginia Code § 6D-1-2 requires that the vendor submit to the Purchasing Division a disclosure of interested parties to the contract for all contracts with an actual or estimated value of at least \$1 Million. That disclosure must occur on the form prescribed and approved by the WV Ethics Commission prior to contract award. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

# Segra Appendix A: Service Level Agreement (SLA)

## MASTER SERVICE AGREEMENT DATA & VOICE SERVICE LEVEL AGREEMENT

**General.** This Data & Voice Service Level Agreement (SLA) describes target network performance and service level metrics for end user data and voice services provided by Lumos Networks LLC or its corporate affiliates d/b/a SEGRA via Ethernet or TDM.

### 1. Access Circuit Network Availability.

1.1 "Network Availability" is the percentage of total minutes during a calendar month that the Services are available to the Customer. Network Availability is calculated as follows:

$$\text{Network Availability\%} = \frac{[(\text{Total Minutes in the Month}) - (\text{Sum of Total Outage Minutes})]}{\text{Total Minutes in the Calendar Month}} \times 100$$

The Services shall be deemed to be "unavailable" whenever an outage is recorded on a SEGRA trouble ticket classified as "major" or "critical" by SEGRA Network Operations Center which results in Customer not having the ability to transmit or receive packets by means of the Services, and "Total Outage Minutes" shall be deemed to be the length of time during which the Services are unavailable to the Customer, as reflected on such trouble tickets. "Total outage minutes" shall not include any outages (i) occurring during scheduled maintenance activities; (ii) attributable to any act or omission of Customer; (iii) attributable to Customer's applications, equipment or facilities; (iv) resulting from reasons of Force Majeure or other causes beyond the reasonable control of Segra or (v) lasting ten minutes or less.

1.2 The objective for Network Availability is 99.99 %. For any month in which the objective is not met, Customer will receive a credit, which may be applied towards Customer's subsequent monthly invoice(s), up to and not exceeding the monthly recurring charges for the affected Services (i.e., the portion(s) of the Services directly made unavailable as a result of the outage(s) in question) for each cumulative hour or portion thereof during which such Services are unavailable to the Customer (subject to the limitations set forth herein). Unavailability and credits will be prorated and paid in 15-minute increments.

### 2. Access Circuit Mean Time to Repair

2.1 Mean Time to Repair (MTTR) is the average time required to repair service to an operational condition if service(s) are not active or Customer is experiencing consistent service degradation. The MTTR objective is four (4) hours depending on for outages due to electronic equipment failure and fiber optic facilities failure and ten (10) hours for outages due to fiber cuts.

2.2 If the MTTR is not met, Customer may request a credit, to be applied towards Customer's subsequent monthly invoice(s), up to and not exceeding the monthly recurring charges for each hour over the four-hour MTTR (i.e., the portion(s) of the Services directly made unavailable as a result of the outage(s) in question) per violation. For any month in which the objective is not met, customer may receive a credit for each location

2.3 **Exclusion:** MTTR statistics will not include any time lost waiting on repair-related information from customer or access to customer premises.

### 3. Circuit Latency

3.1 "Average Latency" is the monthly average round-trip latency from a core network node to any other designated core network node on the SEGRA network, determined by measuring round-trip network responses over such portions of the network.

3.2 The objective for Average Latency is to not be greater than 8 milliseconds inside a Metropolitan Area. The objective for average latency is to not be greater than 30 milliseconds between Metropolitan markets. For any month in which the objective is not met, Customer will receive a credit, which may be applied towards Customer's monthly invoice, equal to 1/30 of the monthly recurring charges for the Services.

#### **4. Circuit Jitter**

4.1 "Average Jitter" is the monthly average variation in the time between packets arriving, as measured at designated portions of the SEGRA network, determined by measuring Jitter over such portions of the network during a calendar month.

4.2 The objective for Average Jitter is to not be greater than 5 milliseconds. For any month in which the objective is not met, Customer will receive a credit, which may be applied towards Customer's monthly invoice, up to and not exceeding the monthly recurring charges for the Services.

**5. Force Majeure.** Service credits will not be available to Customer, in cases where the Services are delayed as a result of (i) the negligence, acts or omissions of Customer, its employees, contractors or agents or its end users; (ii) the failure or malfunction of testing equipment, applications or systems; (iii) circumstances or causes beyond the control of SEGRA, including instances of Force Majeure (as defined as including war, riots, embargoes, strikes, or other concerted acts of workers (whether SEGRA or others), casualties or accidents, malicious or criminal acts of third parties, or any other causes or circumstances whether of a similar or dissimilar nature to the foregoing, which prevent or hinder the delivery of the Services); or (iv) scheduled service maintenance, alteration, or implementation. Such credits will be granted only if Customer affords SEGRA full and free access to Customer's equipment to perform necessary testing, troubleshooting, or related activities.

#### **6. Chronic Outage and Missed Service Standard**

6.1 Chronic Outage and/or Missed Service Standards is measured as three trouble tickets or missed service standards within a calendar month.

6.2 In the event that the objective for Chronic Outages or Missed Service Standard is exceeded then the affected site will be eligible for an additional 10% credit of the monthly recurring charge.

#### **7. Service Credits**

7.1 In order to receive any of the service credits described in this SLA, Customer must notify SEGRA within ninety days from the time Customer becomes eligible to receive a service credit. Failure to comply with this requirement will forfeit Customer's right to receive a service credit.

7.2 Reports are prepared and credits for documented occurrences are issued within 60 business days of receipt of Customer notice.

## PURCHASING AFFIDAVIT

**CONSTRUCTION CONTRACTS:** Under W. Va. Code § 5-22-1(f), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

**ALL CONTRACTS:** Under W. Va. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §81-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
