## CRFQ ADJ2100000017 - ADDENDUM NO. 1

### Questions:

- Q1: Is asphalt/concrete testing required for this project, if so is contractor responsible for testing costs?
- A1: All asphalt/concrete testing shall be performed in accordance with the WV Department of Transportation, Division of Highways Standard Specifications, Roads and Bridges, adopted 2017, as amended January 1, 2020. The cost of all testing shall be the responsibility of the contractor.
- Q2: How should existing culverts be abandoned on ASP road?
- A2: Existing culverts on ASP Road to be abandoned shall be abandoned in place. Contractor shall remove any portion of the existing pipe which interferes with new construction and contractor shall plug both open ends of the remaining culvert.
- Q3: Can onsite material be used to backfill in place culverts or should stone backfill be assumed in the culvert line item?
- A3: New culverts shall be installed using 6" aggregate bedding material and shall be backfilled using satisfactory soil material, which includes material free of stones larger than 3" in size and free of wet, frozen or organic material.
- 
- Q4: Do prevailing wage rates apply?
- A4: The state of West Virginia does not have prevailing wage rates anymore. However, because this project is partially or fully funded by Federal money, Davis Bacon Wage Rates do apply. Those rates are available on the Federal Department of Labor's website, and contractors should use the rates for Preston County, West Virginia. Per Solicitation CRFQ 0603 ADJ2100000017 issued August 10, 2020, Item 7 of "Additional Terms and Conditions (Construction Contracts Only)", "*The work performed under this contract is federally funded in whole, or in part. Pursuant to 2 CFR 200.317, Vendors are required to pay applicable Davis-Bacon wage rates*".
