The Purchasing Division will disclose any document labeled “confidential,” “proprietary,” “trade secret,” “private,” or labeled with any other claim against public disclosure of the documents, to include any “trade secrets” as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

COVID-19 Guidelines for Pre-Construction & Pre-Bid Meetings

The following guidelines are to be used when holding pre-construction and pre-bid meetings. Pre-construction and pre-bid meetings may require case-by-case analysis.

WV Purchasing Division Temporary Pre-bid Meeting Policy – COVID-19 Precautions

1. Pre-bid meetings must be removed from solicitations as a requirement, wherever possible, and replaced with publication of written materials conveying the needed information (except when contrary to agency policy).
2. In instances where site inspections are necessary for bidders to have a full understanding of the project, the Purchasing Division recommends that pre-bid meetings (and the underlying solicitation) be delayed until this period of heightened concern has ended. If delaying the solicitation is not possible or would cause an undue hardship on the spending unit, the pre-bid meeting should be conducted in a manner that minimizes the risk of COVID-19 transmission to the greatest extent possible.
3. Under no circumstances is a spending to conduct a pre-bid meeting that violates a policy or declaration of the Governor's Office.

For existing central solicitations, the spending unit should work with its designated Purchasing Division buyer to issue addenda to modify pre-bid meeting requirements where necessary. On agency delegated solicitations, the spending unit can make the necessary adjustments under their delegated authority.

Department of Transportation Pre-Construction and Pre-bid Meetings Guidelines

- When possible, limit the number of representatives of each vendor to a maximum of two (2).
- Require each vendor representative to wear a mask upon entering and while moving throughout a DOT facility for the duration of the pre-construction and pre-bid meeting.
 - Any representative who arrives at a DOT facility without a mask will not be permitted to enter.
- In areas where a minimum 6ft distancing is not feasible amongst vendors, groups must be staggered during inspections.
- For pre-construction or pre-bid meetings located at the Capitol Complex:
 - Pre-construction or Pre-bid meetings can be conducted by using the West Virginia State Training Center located in Building 7, 2nd Floor.
 - For room scheduling/availability please contact the Facility Scheduler, Jeremy Walker, at 304-414-0840 or by email at dop.registrar@wv.gov

ADDENDUM 2

CRFQ 0803 DOT2100000006

FULL MATRIX TRAILER MOUNTED SOLAR POWERED MESSAGE BOARD

The original language in contract will be listed first with question and answer to follow below.

1. Section 3.1.3.2 and 3.1.3.8 Sign Panel

3.1.3.2 All exposed panels and seams shall be corrosion proof for a minimum of ten (10) years. With construction, all panels/parts shall be assembled as to prevent corrosion or to prevent dissimilar metal reaction from occurring.

3.1.3.8 The sign panel frame shall be constructed of a welded assembly of aluminum alloy channel, or from steel panels powder coated in corrosion proof manner for a minimum of ten (10) years.

Question: "10 years of corrosion-proof manner," are you requesting for us to use stainless steel hardware where applicable to satisfy this request? Are you requesting a galvanized frame and a galvanized mast, this would have the greatest chance of meeting or exceeding the 10 year corrosion proof requirement. A Message Board frame and tower mast are the most critical structural connections of any Message Board.

Answer: Will accept stainless steel hardware.

- 2. 3.1.4.2** Unit shall be designed to accept two (2) power sources: one (1) being a battery bank consisting of four (2) size 4-D, deep cycle, lead acid 12 volt DC batteries wired in parallel.

Question # 1: Would WVDOH be accepting of 6V AGM maintenance free batteries wired in parallel producing a 12V system if the runtime requirements still meet and exceed the specified run time?

Question # 2: Please specify the requirements for the Power Source. This section states to provide two power sources, what are they? Does this section state four (4) 4D batteries, being one power source? Is the 165W Solar Panel the other power source?

Answer question #1: Will accept

Answer question #2: Power source one shall be the battery bank with solar panel. Power source number two shall be 120 volt AC power

Question # 3: The specification requests four 4D AGM batteries if we can provide formal data showing two 4D AGM batteries exceeding the 30 day run time (or the 10-year national averages of solar radiation), will this be acceptable?

Answer: Will accept

3. **3.1.4.3** Batteries shall be automatically recharged by a group of solar panels producing a minimum 165 watts of power, located at the highest point on the unit.

Question: Would the WVDOT be accepting of 160 watts of solar if it meets and exceeds the recharge/runtime requirements?

Answer: Will accept.

4. **3.1.4.6** Battery bank shall be housed in lockable heavy duty weatherproof battery boxes.

Question: The solicitation mentions two (2) battery boxes, the additional battery box will increase the price of the trailer and there is no added benefit with an additional battery box for the Message Board. Is one (1) battery box sufficient?

Answer: Will accept one battery box.

5. **3.1.9.6** Shall have a hydraulic brake actuator system and fenders one (1) each wheel, included on trailer.

Question: After talking to manufacturers, they have said that since the weight of the units have reduced so much over the years, that the standard is now electric braking systems. Will this be acceptable to the department?

Answer: Will accept electric brakes

6. **3.1.9.8** Shall have installation of trailer electrical cable and connector (7 Pole) compatible with towing vehicles.

Question: Are you requesting a 7 pole SAE or 7 pole RV style connector? The specification does not list these details, please advise?

Answer: 7 pole RV only. The use of 4 pole to 7 pole adapters will not be accepted.

7. **Question:** Do the message boards require modems for remote access for purposes of changing messages? If so, will the state pay for its own plan with associated modems? If the data plan is to be supplied by the vendor, for how long does it need to be supplied before the state takes over, and what are the requirements of said data plan?

Answer: AT&T is the state's preferred provider for service. The state will pay for its own plan

8. **Question:** Is the state requesting the Full Size Matrix Message Board or the Full Size Three Line Message Board? The title states the Full Size Matrix Message Board and the specification reflect the Full Size Three Line Message Board. A Full Size Matrix Message Board provides the ability to increase and decrease the font size as well as contains graphics capability. A Full Size Three Line Message Board simply provides three lines of eight characters with a default font size. There is no ability to adjust the font size on the Full Size Three Line Message Board.

Answer: The request is for full size full matrix message board.

9. **3.2.6 Warranty and Service Policy:**

3.2.6.1 The unit must be accompanied upon delivery by the unit's manufacturers executed standard warranty and service policy.

Question: The length of the standard warranty is not specified. If warranty duration is not noted, it allows for variances in quality, efficiency, and performance. Some manufacturers offer a one year warranty while other manufacturers offer five years. What duration of the warranty is required for this spec?

Answer: Minimum one year parts and labor.

10. Question: Will there be any bidding preference given to in state vendors as opposed to vendors from out of state?

Answer: Per Sections 15 and 15A of the Instructions to Vendors Submitting Bids, vendor preference is only applied in the purchases of motor vehicles or construction and maintenance equipment and machinery used in highway and other infrastructure projects

15. PREFERENCE: Vendor Preference may be requested in purchases of motor vehicles or construction and maintenance equipment and machinery used in highway and other infrastructure projects. Any request for preference must be submitted in writing with the bid, must specifically identify the preference requested with reference to the applicable subsection of West Virginia Code § 5A-3-37, and must include with the bid any information necessary to evaluate and confirm the applicability of the requested preference. A request form to help facilitate the request can be found at: <http://www.state.wv.us/admin/purchase/vrc/Venpref.pdf>.

15A. RECIPROCAL PREFERENCE: The State of West Virginia applies a reciprocal preference to all solicitations for commodities and printing in accordance with W. Va. Code § 5A-3-37(b). In effect, non-resident vendors receiving a preference in their home states, will see that same preference granted to West Virginia resident vendors bidding against them in West Virginia. Any request for reciprocal preference must include with the bid any information necessary to evaluate and confirm the applicability of the preference. A request form to help facilitate the request can be found at: <http://www.state.wv.us/admin/purchase/vrc/Venpref.pdf>.

11. Question: Want to verify that no bid bond or licensing is required to be submitted with the bid?

Answer: No bid bond is required.
