All submissions are subject to public disclosure without notice.

A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. 41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

43. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

Maintenance ► Elevator Service Plans

Built On Experience

DC Elevator currently maintains thousands of elevators on maintenance contracts across the states of Kentucky, Tennessee, Indiana, Ohio, West Virginia, and Virginia.

We maintain all types of equipment including equipment manufactured by ThyssenKrupp, Otis, Schindler, Kone, Elevator Controls, MCE, Virginia Controls, Smartrise, and others.

Full Maintenance

The Full Maintenance contract provides monthly scheduled maintenance visits. During these visits, all parts outlined in the service agreement are maintained.

We offer the full maintenance contract with two options:

- call back service available seven days/week and 24 hours/day
- optional call back service after 5:00 p.m.

The required annual safety test is part of the agreement.

Examination and Lubrication

Our Examination and Lubrication agreements are custom-tailored in frequency and detail. They are performed monthly, quarterly, or semi-annually, pending your equipment needs. A safety/pressure test is part of the agreement.

The DCE Advantage

Routine maintenance is critical – as with any mechanical device, elevator parts are subject to wear and deterioration over time.

Our skilled and certified technicians keep close track on the wear of your equipment, combining the individual and company experience with current equipment statistics, planning and preparing for efficiency and effectiveness.

Their precautions maximize the useful life and reliability of your equipment. They are the building blocks of the DC Elevator Advantage.

Flexible and Scalable

Our maintenance plans are scalable to the needs of our clients and flexible enough to fit every budget. From Full Maintenance with 24/7 call-back service, maximizing life and reliability of your equipment, to Examination and Lubrication agreements following manufacturer's minimum requirements.

Call or email us today for a detailed estimate!

Your Emergency is Our Urgency

Repair ► Availability ► Maintenance Options

“ In 1977, DC Elevator Company was built on a simple premise – to provide the best service possible, and to do so at reasonable rates.

Forty years later, maintenance and repair are still the key element for our clients.

Cause and Impact

Failing elevator technology can lead to sudden stops, rough landings, failure to open, floor shifting and elevator lurching. As technology ages, elements of the elevator can become unreliable. This can cause breakdowns, leading to elevator downtime.

DC Elevator can help ease these issues: We not only have the know-how to diagnose the cause of the failure but also have access to a vast network of vendors that can quickly supply the parts needed for the repair.

How to Reach Us

You can contact our repair hotline at (304) 345-7222. During our office hours, we will address your needs right away – after hours we will communicate your concern to our next available elevator technician.

The Q&A section on our website at www.dcelevator.com/repair/ provides detailed information.

In the case of an emergency, please always dial 9-1-1.

Maintenance is Key

Prevention is the best way to avoid elevator failure; regular maintenance of parts, periodic lubrication, and planned examination help keeping your vertical transportation unit performing according to specifications, and your passenger and goods moving unhindered and reaching their destination on time, and in time.

Please contact us to get a quote, schedule a site evaluation, or learn more about repair and maintenance options.

DC Elevator

An American Elevator Group Company

Modernization > Commercial

The ownership of a commercially used building comes with a lot of responsibilities, and the list quickly extends to vertical transportation.

Safety Always First – Aesthetics a Close Second

As the building ages, so does the elevator. Time and frequent use can be hard on the cab interior, its fixtures, and the controls. As a building owner, you want to make sure that the passengers riding your elevators are always safe, and that their only concern should be the selection of the right floor.

A misaligned elevator entrance, worn elevator controls, or a ride accompanied by harsh sounds and creaks, can bridge the experience from inconvenient to dangerous. The experience can taint not only the perception of the commercial building, but create real implications like hurt passengers, resulting in elevator downtime, or building code violations which can lead to legal consequences.

A Value-Added Solution

Updating critical components of your installation, like the microprocessor control system, a new set of signal- and operating devices, or the installation of a more current door-operating equipment prevents malfunction and keeps downtime to a minimum.

Your commercial tenants, their customers, and every passenger will appreciate that you keep your vertical transportation unit up-to-date, sporting a contemporary look and feel. That makes its use a smooth and convenient endeavor and delivers a consistent experience at your location.

Visit www.dcelevator.com to see case studies of the commercial modernization solutions we provide.

Please call or email us with your questions, thoughts, and ideas.

Experience Matters

Safety and aesthetics are convincing arguments for the modernization of your vertical transportation systems, but there are also economic reasons to modernize these in older buildings and facilities: It keeps them competitive with newer structures, and adds value to the property, providing a sound financial return on your initial investment.

We recently completed modernization projects for the following customers:

- Baer Building, Charleston
- Charleston Catholic High School
- Farrell Building, Huntington
- Whitaker Square Condominium
Huntington
- Whirlwind Storage, Charleston
UCWV Geary Student Union
- Cabin Creek Health Clinic
- First Presbyterian Church of
Moundsville

The DC Elevator Modernization Process

We have a process in place to provide modernization carefully and to your exact needs. It includes multiple steps, and we have streamlined it over time:

- We consult with you for your needs, set goals, an approximate budget, and the preferred project timeline. Then we survey the vertical transportation equipment on location.
- After careful analysis, we provide recommendations and estimate the budget needed.
- As we finalize the project scope and schedule the individual steps, we formalize the contract and develop a project timeline you can rely on.
- If the modernization is part of the concerted effort to renovate a building, we will work closely with your project manager from start to project completion.

Quality of Performance Matters

Some companies are driven solely by project cost, others by the completion date. Behind every one of our installations, the driving force is the quality of performance.

While budget and time commitments are important for us, we know that in the long run, the performance of our elevators matters most to our clients.

Reliability and Innovation – Advantages of an Open System

At DC Elevator, we always use non-proprietary equipment. One great advantage of an open system is the unrestricted access to parts and services, warranting flexibility and ease of maintenance.

Another is the ability to carefully tailor our solutions to our customers, as we do not have to choose from a limited selection of products, but have full access to the product elements that answer the need for the challenge at hand.

Please contact us today to get started, or visit our website to learn more about all aspects of installation.

Individual Solutions for Varied Customers

While some of our projects in the company history are similar, no two are identical. We have a complete team of estimators and project managers that aid our customers in finding the best possible solution, applying a proven process that draws from the expertise of the individual team member, and decades of experience based on company work history.

A superintendent on staff makes sure that we communicate the unique scope of the project to all parties involved, which keeps the transition from planning to implementation seamless, and the outcome accurately aligned to the specifications of our customers.

We also coordinate timelines and milestones based on best industry practices, making DC Elevator the perfect partner for architects, consultants, builders, and contractors.

Peer-Approved and Customer-Appreciated

DC Elevator employees serve as current and past board members as well as committee chairs of many professional organizations. They have earned the approval and respect of our peers, and have received merits in advancing the quality, innovation, and success of our profession on a local, statewide, and national level. Although we can elaborate and outline the quality, efficiency, and effectiveness of our work and process, we would like you to trust the verdict of our customers. In case studies and with testimonials we want to provide you with an objective measure of the proficiency and extent of our past work. While all our intention is facing forward, we are honored to look back on a history of trust, reliance, and mutual gratitude we share with our clientele of forty years.
