**Subject: JFHQ TAG Wing Renovation Design
CEOI 0603 ADJ2200000006**

Dear Sirs and Madams,

Montum Architecture, LLC is pleased to submit this Statement of Qualifications to provide architectural and engineering services. Montum is headed by Tom Pritts, an architect with 17 years of experience designing a multitude of project types. He will be the primary contact for the duration including construction administration services, provide all architectural design efforts, and lead the design team.

Montum has teamed with Miller Engineering, Inc. to provide mechanical, electrical, and plumbing design services. Experience-based design is a keystone to their approach to your project.

Noah Accord of EarthRes will be the structural engineer for the project. Tom and Noah have a common employment history, completing dozens of designs together.

The design team has reviewed the four goals listed in the Goals/Objectives section of the EOI solicitation and the proposed approach is summarized below. Further documentation is presented in the firm profiles, qualifications, and experience sections of the EOI response.

Goal 2.1 – The design team prides themselves in starting new projects looking at all of the existing conditions, project needs, and limitations that inform the best approach to the design process and goals of the project. Our project sheets clearly reflect the extent of previous experience in working in that manner. Thorough assessment of existing conditions is the first key component to developing the project needs. Efforts will include the work identified in the EOI.

Montum Architecture, LLC

55 ER Path, Keyser, WV 26726 ● 304-276-7151 ● tom@montumarch.com
montumarch.com

Goal 2.2 – Will coordinate with local utility companies, review original design drawing for the complex, and solicit bids for utility locating services as necessary for the project.

Goal 2.3 – The design team’s modus operandi is to work from a master planning perspective on everything we do in order to holistically understand the needs of the project and to integrate new work into overall operation of systems or facilities. In addition to existing building evaluations, functional and stylistic needs are identified with the Owner’s stakeholders. This information is then boiled down into design plans, phasing approach if necessary, and budgetary impacts. Code evaluation and authority approval are an integral part of this process.

Goal 2.4 - Each primary designer remains as the primary point person as the project progresses into construction. The continuity of the design-decision knowledgebase positively impacts the administration of construction activities.

The primary goal for any project is to provide exemplary designs that function to the greatest extent possible for the given budget constraints. We feel that by striving to spend every project dollar to our best ability will inherently serve our client’s best interest.

Thank you for taking the time to review the attached information about the design team and we are grateful for your consideration.

Respectfully submitted,
Montum Architecture LLC

Thomas Pritts, AIA, CSI-CCS, LEED-AP

Montum

Architecture

Montum Architecture

Montum Architecture, LLC was founded in 2017 to provide architectural design services to clients in West Virginia and western Maryland. Staff includes one licensed architect performing all tasks and duties. This ensures the utmost coordination of building plans and specifications with minimal potential for miscommunication.

Legal Organization

Montum Architecture is a Limited Liability Corporation initially filed in the State of West Virginia. The company is also registered in the State of Maryland as a foreign LCC.

Communication

Tom Pritts will be the primary point of contact for Montum's architectural services. Montum will manage communications with sub-consultants on this project.

Project Budget

Previous work experience has shown a consistent +/-2% bid-to-budget ratio.

Project Schedule

Montum will monitor and adjust the design tasks in order to complete the design work on the established timetables. They will also work diligently during project construction to maintain the contractual constraints placed as part of the contractor's bid.

Design Software

Montum utilizes Autodesk Revit for all design projects incorporating three-dimensional modeling and parametric reporting.

Miller Engineering, Inc.

Firm Profile

Our engineered solutions involve a detailed assessment process: investigation, observation, communication with stakeholders, system analysis, building modeling and engagement from our entire team. We approach each and every project with this process and the guiding principle that buildings are designed to be livable and function in their intended purpose.

Over the past 13 years Miller Engineering, Inc. (MEI) has engineered solutions for over \$20.1M in mechanical system upgrades, repairs and renovations for projects of all scopes and sizes, with clients ranging from private owners to local and state governments.

*With a strict attention to detail and commitment to delivering a job done well and done right the first time, every time, **MEI has accumulated a change order percentage of less than 0.1% over the past 8 years.***

Our team has unique skill-sets regarding engineered renovation solutions. Each member of the team has hands-on mechanical system experience including installation, construction, design and maintenance.

*Miller Engineering takes pride in being **different by design** and that difference shines through in all phases of our work and continued relationships with our clients.*

Additional Benefits

- Experienced and Licensed Professional Engineers
- Quality, Value-Engineered Project Delivery
- Qualified Construction Representative on Staff
- LEED-AP Certified
- Below Industry Change Order Status
- Building Information Modeling
- Interactive Solutions Provider
- Emergency Facility Response

Engineering Design and Consultation

Engineering for Success

MULTIPLE ENGINEERING DISCIPLINES. MULTIPLE MARKETS. MANY SUCCESSES.

EARTHRES is a multi-disciplinary engineering consulting firm. We help our clients succeed with planning, designing and permitting projects across many industries, including solid waste, mining, energy, manufacturing, food and beverage, commercial, and government.

Our knowledge across industries is broad. Our engineering discipline is deep. We advocate for your success.

- Engineering
- Geosciences
- Water Resources
- Regulatory/Permitting/Compliance
- Environmental Services

Energy Facilities Engineering and Design

Clients trust our decades of oil and gas pipeline experience with their new asset, operations, and maintenance engineering requirements. They also appreciate our operating company focus that helps them understand the regulatory requirements and optimize the commercial aspects of the entire natural gas, natural gas liquids, oil and refined products value chain. We support the following segments of the energy industry:

- Upstream
- Midstream
- Downstream
- Unconventional Gas Services

Using our staff of licensed professional engineers and NACE® certified technicians, we provide operating companies with:

- Operations Engineering Support
- Energy Facilities Permitting
- Oil & Gas Construction Engineering Support & Inspection
- Energy Environmental Services

Mine to Market

Our firm's reputation is well known in the mining industry for mine planning, reserves analysis, mining engineering, process plant design, permitting, construction, reclamation, assessment for yield and efficiency improvements, process monitoring, and expert litigation services.

- Mine Permitting
- Hydrogeologic Services
- Mine Design & Operations Support
- Mine Planning
- Mining Engineering
- Mineral Processing Design / Evaluation / Operation
- Geologic Services
- Beneficial Reuse
- Process Control / Instrumentation
- Mineral Evaluations
- Modeling
- Plant Design
- Structural Design
- Construction Support

Solid Waste Facility Engineering

We know how competitive this industry is and how to manage the market factors to improve our client's bottom line.

- Landfill Engineering
- Facility Planning, Design & Operations Support
- Waste Diversion / Conversion Facilities Engineering
- Construction Engineering Services/CQA
- Biogas Management / Gas to Energy
- Leachate Management
- Water/Wastewater Engineering
- Environmental Investigation & Remediation
- Process Control / Instrumentation
- Monitoring and Reporting
- Air Quality Permitting & Compliance
- Solid Waste Permitting & Compliance
- Geologic & Hydrogeologic Services
- Geotechnical Engineering
- Modeling

Manufacturing/Industrial

Our team helps streamline manufacturing processes aiming at efficiency and profits. We optimize the process variables, including air quality, water and wastewater management, lowering operating costs, while maintaining compliance with environmental regulations and corporate sustainability programs.

- Facilities Permitting and Compliance
- Water Supply
- Air Quality Permitting & Compliance
- Water/Wastewater Engineering
- Environmental Investigation & Remediation
- Sustainability
- Process Control & Instrumentation
- Process Flow Evaluation & Design

Food & Beverage Manufacturing

Our expertise helps you meet strict FDA food safety standards by safeguarding the source for your bottled water and beverage manufacturing, optimizing process flow, proper water treatment, and wastewater management, while reducing operating costs.

- Water Sourcing & Permitting
- Process Engineering
- Facilities Permitting
- Water/Wastewater Engineering
- Sustainability
- Regulatory Compliance
- Process Control & Instrumentation
- PCQI certified

Commercial Development

We listen to you. From feasibility to completion, our professional staff joins your vision with fresh ideas. We bring the commercial engineering experience and foresight, and leading technologies necessary to yield the best standards and maintain a cost-effective approach.

- Land Development
- Environmental Investigation & Remediation
- Brownfield Development
- Water Supply
- Process and Mechanical Engineering
- Water/Wastewater Engineering
- Wetlands & Waterway

working with EARTHRES
multi-disciplinary services

The EARTHRES advantage is simply this: our team of experienced, certified, passionate, and hardworking engineers and scientists is invested in your success. That's our advantage and our promise.

Multiple engineering disciplines. Multiple markets. Many successes.

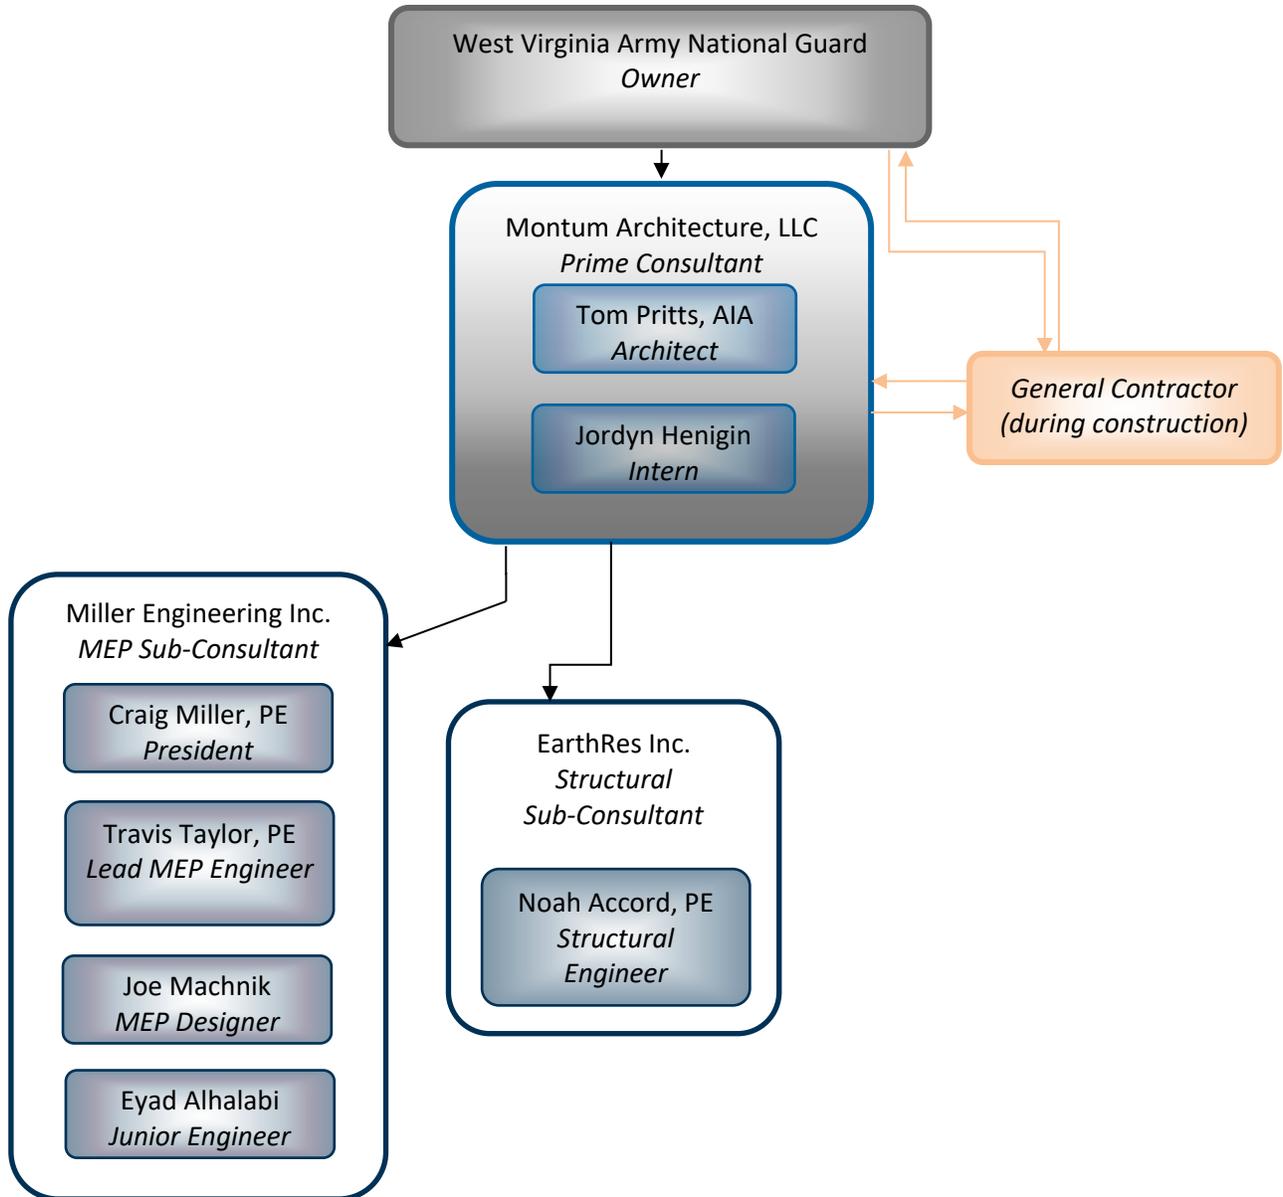

Government

EARTHRES engineers infrastructure development projects from concept through construction, including investigation, remediation, geotechnical assessment and more. We ensure compliance with environmental regulations so you can ensure public health and safety.

- Facilities Permitting
- Environmental Investigation and Remediation
- Civil Engineering
- Solid Waste Engineering
- Shoreline Protection / Restoration
- Water/Wastewater Engineering

Project Organization Chart

Thomas Pritts, AIA, LEED-AP, CSI-CCS

Tom founded Montum Architecture in 2017. He has more than 16 years of experience in design, specification, and project management. During his former employment, Tom has designed and managed dozens of built projects. His experience encompasses a wide range of projects including K-12 and higher education facilities, financial Institutions, emergency services buildings, and automotive dealerships. A native of Mineral County, Tom is member of the West Virginia Chapter of American Institute of Architects and was involved in the establishment of the US Green Building Council's West Virginia chapter. He is highly skilled in the design of complex building systems, technical construction detailing and specifying, and construction contract administration. These skills were critical in the development and maintaining of many multi-year, multi-project relationships with Clients in his previous employment.

Project Role: Relationship Manager – Primary Point of Contact

- Principal in Charge
- Design and Project Management
- Concept and Construction Design
- Quality Assurance and Control

- Public Works Building, Fairmont, WV
- Oatesdale Park Little League Fields, Martinsburg, WV
- St. Luke Canopy Replacement, Morgantown, WV
- Freshwater Institute – Aquaculture Building, Shepherdstown, WV
- Clarion Hotel Renovation, Shepherdstown, WV
- Shenandoah Village Apartments – Façade and Deck Replacement, Martinsburg, WV
- Regional Eye Associates/ Surgical Eye Center, Morgantown, WV
- Bavarian Inn – Infinity Pool/ Pool Bar, Shepherdstown, WV

B. Craig Miller, PE

Craig founded Miller Engineering in 2003, and serves as President and Principal Engineer. He has more than 20 years experience in design, specification, operations and project management. During his employment with WVU, Craig was directly involved with approximately \$130 million in new capital construction. His experience with a wide range of projects including HVAC, electrical, plumbing, infrastructure upgrades, building automation, energy efficiency and maintenance/renovation, among others, allows him to serve in multiple capacities within a given project. Craig will serve as the “Relationship Manager” for Miller Engineering as the main communication interface between the Owner, the design team, contractors and end users.

Project Role: Relationship Manager – Primary Point of Contact

- *Engineer in Responsible Charge*
- *Design and Project Management of Mechanical, Electrical, Plumbing Projects*
- *Concept and Construction Design*
- *Business Operations and Financial Management Oversight*
- *Quality Assurance and Control*

Professional Project Highlights

- WVU Life Sciences Building and Student Recreation Center – Owner’s Engineer
- WV Bldg 25 HVAC Renovations
- Morgantown HS Area 4 HVAC Replacement
- Advanced Surgical Hospital
- Washington High School Athletic Facilities
- Cheat Lake Elementary School
- Cacapon Lodge Addition & Renovations
- South Middle School HVAC Upgrades
- WVDNR Pipestem Piping Replacement

Professional History

2003- Present	Miller Engineering, Inc.	President, Relationship Manager
2002-2003	Casto Technical Services	Existing Building Services Staff Engineer
2001-2002	Uniontown Hospital	Supervisor of Engineering
1995-2001	West Virginia University	Staff Engineer
1990-1995	BOPARC	Caretaker – Krepps Park
1983-1988	University of Charleston	Electrician/HVAC Mechanic

Education

1995	West Virginia University	BS- Mechanical Engineering
1988	University of Charleston	BA- Mass Communications

Licenses and Certifications

- Professional Engineer (West Virginia, Pennsylvania, Maryland, and Ohio)
- Licensed Master Plumber
- LEED-AP Certified

Travis Taylor, PE

Experience in project management facilitates Travis’s ability to create and design constructible projects. Prior to joining the Miller Engineering team he was directly responsible for managing \$10 million in electrical construction budgets. His experiences encompass both new construction and renovation. Travis maintains professional competencies by attending seminars and continuing education classes. As lead engineer he provides HVAC, mechanical, plumbing and electrical design solutions and services for our clients. In addition, he is part of our team’s complete assessment process in both planning and MEP design through construction administration.

Project Role: Lead MEP Engineer

- *Design of Mechanical, Electrical, and Plumbing Systems*
- *Constructible Materials Evaluation*
- *Site Evaluation and Mechanical System Review*
- *Submittal and RFP Review*
- *RFI Coordination, Review, and Response*
- *Construction Observation*

Professional Project Highlights

- *Cacapon Lodge Addition & Renovations*
- *Morgantown High School Area 4 HVAC*
- *South Middle School HVAC Upgrades*
- *South Middle & North Elementary Schools Gymnasium HVAC Upgrades*
- *WVDA Ripley Warehouse Electrical Upgrades*
- *MTEC & Mountainview Elementary HVAC Upgrades*
- *MTEC Welding Shop*

Professional History

2011-Present	Miller Engineering, Inc.	Staff Engineer
2006-2011	Tri-County Electric, Co.	Project Manager
2006-2006	Schlumberger	Field Engineer Trainee - MWD

Education

2006 West Virginia University, BS – Mechanical Engineering

Licenses and Certifications

- Professional Engineer - State of West Virginia
- OSHA 10-hour Course: Construction Safety & Health

Joseph Machnik

Joe brings his extensive experience with mechanical and plumbing construction to provide design and drafting of MEP systems for Miller Engineering. BIM coordination is a responsibility of Joe's to incorporate drawings and models from other firms and clients into MEI's building models to ensure coordination amongst trades. Construction administration duties include submittal review, jobsite visits and meetings, and reviewing pay apps among others.

Project Role: MEP Designer

- *Revit/CADD Coordination of New Construction and Renovation Designs*
- *Building Information Modeling Specialist*

Professional Project Highlights

- Bobtown Elementary HVAC
- WV State Building 25 HVAC Piping Replacement
- Blackwater Falls Boiler Replacement
- Suncrest Middle Gym HVAC
- North Elementary Gym HVAC
- Graftek Steam Systems Evaluations and Modifications
- WV State Building 25 HVAC Piping
- Pipestem Lodge HVAC Piping Replacement
- Westwood Middle Cooling Tower

Professional History

2010 – Present Miller Engineering, Inc. MEP Designer

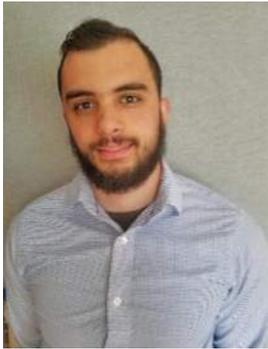

Education

2008 Penn State – Fayette, AS - Building Engineering Systems Technology: *Building Environmental Systems Technology*

2007 Penn State – Fayette, AS - Building Engineering Systems Technology: *Architectural Engineering Technology*

Additional Training

2016 – Shippensburg Pump Company – Steam Systems Training

Eyad Alhalabi

Eyad joined Miller Engineering in June 2019. A recent graduate of West Virginia University, he has been eager to learn the means and methods of MEP consulting. Eyad assists the MEP design team with design calculations and is rapidly learning design software such as Autodesk REVIT. He is also learning construction administrations along with building codes and standards. Eyad is currently preparing to take the Fundamentals of Engineering exam.

Project Role: Junior Engineer

- *Design Calculations*
- *Drafting of MEP Systems*
- *Assist with Construction Administration*

Professional Project Highlights

- Morgantown ALC
- WVDA Ripley Warehouse Electrical Upgrades
- Huntington 8th & 10th Street Pump Stations
- Huntington Floodwall Pump Station Automation
- Hawks Nest Lodge
- Blackwater Falls Lodge

Professional History

2019- Present Miller Engineering, Inc. Junior Engineer

Education

2019 West Virginia University, BS - Mechanical Engineering

Licenses and Certifications

- ASHRAE Student Member

N. BLAINE ACCORD, P.E.

SENIOR PROJECT MANAGER

APPALACHIAN REGION

PO Box 794, Morgantown, WV 26508

PROFESSIONAL REGISTRATIONS

- OSHA Hazard Recognition
- Professional Engineer, KY [REDACTED]
- Professional Engineer, PA [REDACTED]
- Professional Engineer, WV [REDACTED]
- Professional Engineer, MD [REDACTED]
- Adult CPR Certification

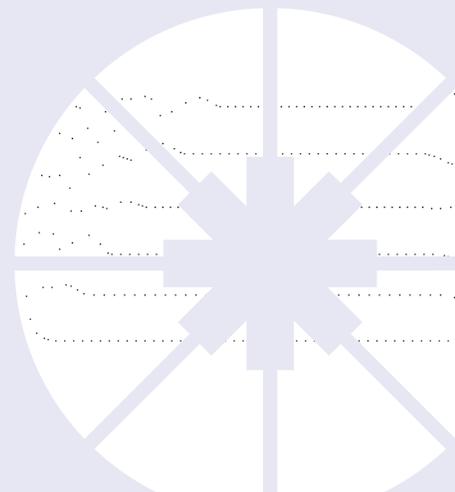

MEMBERSHIPS

- Member, American Concrete Institute (ACI)
- Member, American Institute of Steel Construction (AISC)
- Member, American Society of Civil Engineers (ASCE)

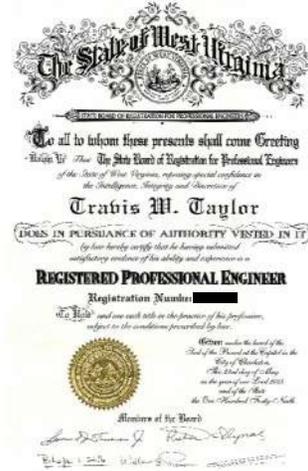

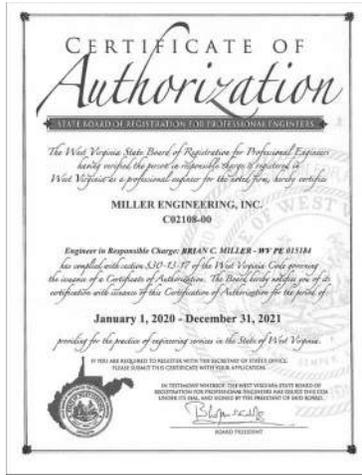

PROFILE

Mr. Blaine Accord has 16 years of professional experience in structural engineering, serving in all sectors at EARTHRES. In addition to design, Blaine is experienced in site inspection, construction administration, and in all aspects of project management. Blaine has designed commercial, industrial, and institutional buildings using materials including: structural steel, reinforced concrete, masonry, and wood. Blaine has significant experience managing multi-disciplinary engineering teams to complete complex projects. Areas of specialization:

- Structural Steel Design
- Reinforced Concrete Design
- Masonry Design
- Wood Design
- Structural Inspection
- Construction Inspection
- Project Management
- ASME B31.3 and B31.8 Code
- Facility As-Built Surveys
- Building Code Analysis

Staff – Proposed Staffing Plan

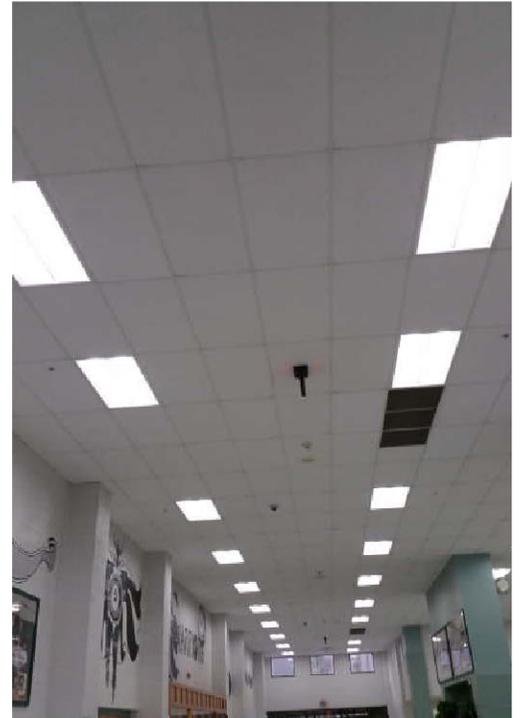

Montum

Architecture

WYOMING COUNTY SCHOOLS WYOMING EAST HIGH SCHOOL HVAC AND ROOF REPLACEMENT

The West Virginia School Building Authority funded replacement of the HVAC systems and roofing at the existing Wyoming East High School in 2017. Montum Architecture is the architect-of-record for the HVAC project and integrated the roofing design consultant's information into bid package scenarios. Work is being performed within an occupied building with close coordination of school daily schedules and calendar of events. Many of the units are being replaced one-for-one with some zones being split into multiple units to allow flexibility of new curriculum within the spaces or needs for additional comfort control. Ceilings are being replaced to meet updated guidelines for educational facility acoustics.

POTOMAC STATE COLLEGE BACHELORS IN SCIENCE OF NURSING RENOVATION

West Virginia University - Potomac State College received the former National Guard Armory in 2016. In addition to recreational facilities, the newly named J. Edward Kelley Center will house the 4-year WVU School of Nursing BSN program. The project converted former meeting spaces into demonstration nursing laboratories and lecture spaces. Office spaces were renovated. Electrical and HVAC systems were updated to meet the new needs.

Descriptions of Past Projects Completed – Fire Protection

Camp Dawson FMS4 Fire Protection

Kingwood, WV

Services Provided:

- Fire Protection

Budget: \$130K

Facility Area: 7,400 sq ft

Owner: WVARNG

FMS4 is a vehicle and equipment repair facility located on the Camp Dawson Army National Guard base located near Kingwood, WV. The 7,400 square foot facility includes 4,800 square feet of high bay service area, with the remaining area dedicated to office space, storage, and locker rooms. The facility contains bulk storage of oil and other equipment fluids, requiring fire protection. MEI was tasked with designing a fire protection system which would provide adequate coverage of FMS4 and meet applicable codes. Through research of NFPA 30 and NFPA 13, MEI was able to determine the size of the service and coverage requirements. MEI determined that by providing separation of the bulk storage from the rest of the facility, the fire protection service requirements could be reduced, eliminating a water service upgrade by the utility. Montum Architecture was brought on board to provide architectural support in regards to the separation of the bulk storage room and for the construction of the sprinkler room. The project was successfully completed in December 2019, one month ahead of schedule.

(304) 561-6550

Descriptions of Past Projects Completed – Phased Renovation

Morgantown Municipal Airport

Services Provided:

- Mechanical
- Electrical
- Plumbing
- Fire Alarm/Protection

Estimated Budget: \$1.25M

Facility Area: 12,000 ft²

**Owner: Morgantown
Municipal Airport**

The terminal renovation was initiated to create an improved, more functional space for the terminal offices and the fixed base operator. This project required the maximum re-use of existing HVAC equipment including a renovation and re-configuration of the existing VAV system to serve newly subdivided areas. The existing fire alarm system was evaluated and found to be insufficient, requiring a full replacement. Office areas and the fixed base operator (FBO) offices were moved and enlarged, with modifications to HVAC systems serving those areas. The electrical work includes new electrical distribution in the project area to serve the needs of both the airport and the FBO. Electrical deficiencies relating to the original construction were identified and corrected. New rental space was created along with increasing the size and efficiency of the terminal office spaces. The phased approach necessitated by funding being split over two years required increased document detail and coordination.

Descriptions of Past Projects Completed – MEP

Pipestem Plaza

Services Provided:

- Electrical
- Fire Alarm
- Plumbing
- HVAC
- Accommodation of Existing Systems

Estimated Budget: \$2.2M

Facility Area: 63,000 ft²

Owner: West Virginia Division of Natural Resources

The Pipestem lodge has an outdoor plaza which is above the pool locker rooms and support areas. The plaza concrete deck system has failed, allowing water to damage the structure and the spaces below. The locker rooms and indoor pool were served by a single air handling unit which failed and never handled humidity well. The plaza, along with the locker rooms below, were completely renovated with modern plumbing fixtures and changes to meet ADA requirements. New LED lighting was installed to serve the locker rooms. MEI designed a HVAC solution using a dedicated MAU and exhaust system to serve the indoor pool to provide conditioned air and humidity control. The lockers and adjacent areas were served with fan coil units. All of the new HVAC equipment had chilled and hot water coils tied into the main building loop piping designed by MEI under a previous project. Other improvements include updates to the fire alarm system.

*Bradley S. Leslie, PE, Assistant Chief
State Parks Section*

Phone: (304) 558-2764 ext. 51826

MEI has performed several projects at the Blackwater Falls State Park Lodge that cover many trades. Miller Engineering designed new HVAC systems for the dining room and make up unit for the Kitchen. The units were installed in a manner to not interfere with views of the park. The second floor plumbing piping was upgraded and routed out of the attic for freeze protection. The bathrooms were re-connected with new GFCI receptacles to eliminate nuisance tripping. New panel boards, hallway lighting, and hallway ceilings were installed as well. A MEI project which was just completed is the replacement and re-piping of the hot tub. The existing spa was leaking and had maintenance issues. A new hot tub was installed along with tiling. A new chemical and pump room was installed as well. Miller Engineering was recently contracted to design the replacement of the existing boiler system and convert them from steam to hot water. The project is currently in the final phases of construction.
