RE: CEOI - 0613 VET 2200000001 – Beckley Veterans Nursing Facility

Dear Ms. Lyle,

Alpha Associates, Incorporated is pleased to submit this Expression of Interest to provide architecture, engineering services for Beckley Veterans Nursing Facility. Our highly skilled personnel make us the perfect partnering firm for this upcoming project.

Over the past 52 years Alpha has been providing high quality professional architectural and engineering design services to various clients throughout the State of West Virginia. We have completed numerous laboratory design projects for the WVU Health Science Center including renovation of more than 80,000 square feet of among others.

The Project Team

Alpha Associates, Incorporated is a West Virginia owned and operated small business that offers several services under one roof, including architecture, civil and structural engineering, surveying, interior design, and construction administrative services. The personnel that will be dedicated to your project are highly qualified professionals and support staff with the technical expertise to meet and exceed expectations of this project.

Summary

Alpha's full team of architects, civil and structural engineers, landscape designers, surveyors, cost estimators, and construction administrators will prove to be a benefit to Beckley Veterans Nursing Facility throughout this project. We are excited about the opportunity to work with you to complete this project and look forward to discussing it with you in more detail.

Thank you for your time and consideration.

Sincerely,

ALPHA ASSOCIATES, INCORPORATED

Matthew Echard, PE

WHY BARTON

54+	Years' Experience
180+	Healthcare Clients
2300+	Healthcare Projects

ABOUT US

Barton Healthcare—a division of Barton Associates—has completed more than 2,300 projects for over 180 healthcare facilities which have given us an unwavering knowledge of their infrastructure needs. We understand that healthcare projects are often highly sensitive and complex in nature and require a customized engineering approach. Barton Healthcare has an extensive portfolio of state-of-the art facilities including surgical, emergency, outpatient surgical, treatment/diagnostic, nursing services, patient support services, medical offices and general support services. Our history of working with many repeat clients since our inception in 1968 is a testament to our commitment to technical accuracy and customer service. We apply focus, dedication, practicality, precision, and longevity to each project we deliver and live by these principles to help us achieve our mission—**We Make Buildings Work.**

Barton Associates, an employee-owned company, provides quality engineering solutions for clients throughout the Mid-Atlantic Region with office locations in York, State College and Pittsburgh, PA. Our team of registered professional engineers, designers, technicians, and support staff do more than just design MEP and architectural lighting systems. We offer a holistic approach to any new construction, addition or renovation project ranging from energy studies and facility master planning to systems design and sustainability. Barton considers ways to minimize energy consumption, conserve resources and enhance indoor environmental quality for every project we complete. Energy Conservation is a priority in every design and our staff of professionals are trained, licensed and/or certified to design MEP systems and evaluate the performance of these systems. We also utilize building information modeling for greater team collaboration.

PERSONNEL

77	Total
29	Registered Engineers
24	Designers
7	CADD/BIM Technicians
3	Construction Services
8	Administrative
5	Interns

Whether we are serving as the prime professional or as a sub consultant to an architectural, engineering, contracting, construction management or other professional firm, Barton provides an extensive list of services within various MEP-related disciplines:

SERVICES

- Feasibility Studies, Facility Assessments & Master Planning
- Energy Modeling, Life Cycle Costs & Payback Analysis
- Construction Cost Estimating
- Construction Drawings & Specifications Preparation
- Construction Contract Administration
- Peer Review Services
- Trouble-shooting existing Systems and Components

MECHANICAL SYSTEM DESIGN

- Heating, Ventilation & Air Conditioning
- Plumbing
- Fire Protection
- Central Energy/Utility Plants
- Building Automation Systems

ELECTRICAL SYSTEM DESIGN

- Lighting
- Power Generation & Distribution
- Information Technology
- Fire Alarm & Security

ARCHITECTURAL LIGHTING DESIGN

ADDED VALUE SERVICES

- Building Information Modeling (BIM)
- Sustainable Design
- Energy Analysis & Audits

STATEMENT OF QUALIFICATIONS.

Alpha Associates, Incorporated is a West Virginia-based architectural and engineering design firm that provides services in the areas of architectural design, interior design, construction administration, civil engineering, structural engineering, landscape design, project management, and surveying. Our clients benefit from our unique combination of extensive design and construction experience, advanced technological tools, dedicated principals, and highly skilled staff members.

Since 1969, Alpha has had provided architectural and engineering design services for clients throughout the state of West Virginia. We have worked with many organizations as well as local, state and federal governments on numerous building projects, including additions, renovations and new construction. Our work is diverse and includes clients in historical renovations, commercial, educational and governmental facilities, developers and private organizations. In this proposal, you will find examples that showcase the Alpha Team's exceptional project experience on similar type facilities.

Alpha has the knowledge and understanding in design and construction to complete this project seamlessly from the initial project inspections to the development of plans. The Alpha team will be your expert for this project.

Alpha's philosophy has always been to provide exemplary services for fair fees. We have always believed that the best way to succeed as a business is to go above and beyond the basic requirements of our contracts and do everything necessary to successfully complete the given project. What is best for the client is inevitably best for us too.

Everyone at Alpha, from the President to the administrative staff, all work towards the goal of completing successful projects. Our principals are involved with projects from the earliest stages right through final completion and beyond. They will consistently update you on your project by using effective communication tools to manage the projects and all the involved parties. Our skilled staff of twenty-one (21) architects, engineers, surveyors and administrative personnel all work diligently towards producing drawings and specifications that will deliver our clients successful projects, completed on time and within budget.

Alpha has thrived for over 52 years because we are a professional organization dedicated to providing superior architectural and engineering design services to our clients. While our staff is large enough to handle any size project, we are also small enough to give each and every one of our projects the individual attention to detail that will make them successful projects for our clients.

THINK ALPHA FIRST.

STAFF PLANNING

TO BE ASSIGNED TO YOUR PROJECT.

All work to be performed for the Beckley Veterans Nursing Facility Project will be managed out of Alpha's Morgantown office. In addition to your dedicated Project Team, Alpha's staff of 21 includes engineers, architects, architectural designers, technicians, and support staff that are available to assist with any potential project needs.

SCHEDULE AND BUDGET.

Alpha Associates, Incorporated has an excellent track record of producing projects on time and within the Owner's budget. Many A/E firms can claim the same successes, but the determining factor is the tools the firms utilize to achieve the budgets, both in regard to funds and time. Alpha utilizes a number of tools, both traditional and modern to exceed our clients' expectations.

A project schedule is a dynamic, ever changing entity. Your project schedule depends on many factors including:

- Preferred construction method
- Changes to project scope
- Unique construction elements

The Alpha Team has an excellent track record of meeting project deadlines. Alpha recently completed construction on a project in Morgantown that went from design to completion in just over 12 months. This project was completed for a private developer and had a construction cost in excess of \$20 million.

Successful project management depends upon consensus regarding work efforts, milestones and goals. The team has found the development of detailed work plans, which delineate tasks and deliverables for each project phase, in concert with the client and full project team, is the most effective means of establishing expectations about efforts required by the respective disciplines. In addition to guiding the efforts of the design team, The work plan sets forth specific time frames and decision points for Owner and user reviews, comments and approvals.

Developing an overall project schedule is a critical task that must take into account many factors: building type, owner's desire for occupancy, scope of work and level of documentation, whether contract(s) is bid or negotiated, available fee, and prior experiences on similar projects. Once the design process begins, a very detailed, realistic project schedule can be developed and communicated to all involved.

In a world where "time is money", the schedule of a project is almost as important as controlling the cost. Alpha works diligently to control the budget of a project. The best way to control the cost of a project is to avoid the "scope creep" that can occur.

Alpha's in house cost estimators, combined with an excellent relationship with contractors throughout the area, will provide the client with the most accurate estimates early in the design process. The Alpha estimators begin at the schematic design phase of the project and develop a line item estimate of probable construction costs that can be carried through each of the project phases. At each phase the project estimate is updated to include a more detailed estimate in order that the accuracy can be enhanced. During these updated estimates, specific increases or decreases can be identified allowing the owner to make informed decisions moving forward on important budget issues for the project.

Many projects employ the use of alternatives to control the budget through obtaining actual contractor pricing during the bid process. This allows flexibility for the owner in determining the costs of portions of the project that may be optional and critical for budget control.

CAPACITY AND SOFTWARE.

OUR CAPABILITIES

Alpha Associates, Incorporated is prepared to commit staff and resources to the West Virginia Division of Natural Resources. Alpha has the qualified and experienced personnel, administrative support, along with the production equipment and resources to ensure the successful completion of this project. We are confident in our ability to provide the WVDNR with a committed and dependable design team. Our multidisciplinary design team is prepared to meet and exceed the expectations of the State by committing any resources necessary to meet the project schedule.

USING THE LATEST SOFTWARE

The project team incorporates the latest computer and software capabilities required to complete the working drawings and specifications for this project. Our cost accounting system is top-of-the-line and we have the ability to differentiate fees according to task. We have secure e-mail and internet capability to allow efficient transfer of information between Alpha and the client. We currently have the latest editions of the following software:

- AutoCAD 22
 - REVIT (Editions up to 2022)
 - Civil 3D
 - RISA 3D
 - RISA Floor
 - RISA Foundation
 - MathCAD
 - DJI Phantom 4 RTK Drone
 - Autodesk Suite
 - Enercalc
 - AutoTURN
 - TopCon GR5 GPS System
 - TopCon Total Station with Reflectorless Capabilities
 - Carlson Surveyor & Data Collector

SUMMARY

Mr. Luttrell has worked with Alpha Associates, Inc. since 1996. He is the chief structural engineer on all projects at Alpha. Before coming to Alpha, Mr. Luttrell's graduate work resulted in several contributions to the cold-formed steel deck industry. His new method of analysis for non-uniform loads on composite concrete and cold formed steel decks has been made a permanent part of the Steel Deck Institute's design manual. Mr. Luttrell also worked on projects that involved pre-stressed timber bridge research with WVU Constructed Facilities Center. Since coming to Alpha, Mr. Luttrell has had significant involvement in the effort to begin utilizing modern composite materials in practical bridge applications.

SUMMARY

Mr. Echard joined Alpha Associates, Inc. in early 2016 with a strong belief that his clients deserve intelligent, performance-based and value-oriented solutions. Drawing on experience working across in the United States, Europe, and the Middle-East, Mr. Echard returned to West Virginia to provide world-class service in a historically underserved region while making positive contributions to the future growth of his home state. Mr. Echard places a large value on the collaborative work process, believing that a building's form and function are derived from many contexts. Mr. Echard's office is located in the corporate office in Morgantown, WV.

YANCY D. UNGER, PE, LEED AP / PRINCIPLE IN CHARGE/ 26 YEARS EXPERIENCE

Vice President | Pennsylvania State University, Bachelor of Architectural Engineering

Yancy has over 26 years of management, engineering, and sustainable building design experience. As Principal-in-Charge, Yancy will provide his experience to the design team to assist in system selection and layout for the project as well as applying the lessons learned on past projects. Relevant experience:

- Highlands at Wyomissing - Hybrid Apartments
- St. Francis Hospital - Delaware Hospice Center
- Masonic Village at Sewickley - Apartment Buildings 1 & 2 Interior Renovations
- Masonic Village at Sewickley - Apartment Buildings 4, 5, 6, & 7 Interior Renovations

LAWRENCE R. ZDINAK, JR., PE / PROJECT MANAGER / 26 Years EXPERIENCE

Director of Operations, Pittsburgh | Penn State University, Bachelor of Architectural Eng.

Larry has over 26 years in engineering, management, and business development as well as an extensive list of experience in the education market and with West Virginia University. As Project Manager, Larry will lead project team meetings and will coordinate schedules and deliverables with the owner and members of the design team to maintain project schedules, deliverables, and budgets. Relevant experience:

- Masonic Village at Sewickley - Skilled Care Facility 3rd Floor Renovations
- Masonic Village at Sewickley - Apartment Buildings 1 & 2 Interior Renovations
- Masonic Village at Sewickley - Apartment Buildings 4, 5, 6, & 7 Interior Renovations

DOUGLAS C. BARNHART, PE / LEAD MECHANICAL ENGINEER / 25 YEARS EXPERIENCE

Director of Mechanical Engineering, York | Penn State University, Bachelor of Architectural Engineering

As Lead Mechanical Engineer, Doug will lead and direct Barton's mechanical engineering staff that will be assisting him on this project. He will attend engineering project team meetings and be an integral team member in assessing existing mechanical systems and evaluating potential replacement systems. The following is some of his relevant experience:

- Masonic Village at Sewickley - Apartment Buildings 1 & 2 Interior Renovations
- Highlands at Wyomissing - Hybrid Apartments
- St. Francis Hospital - Delaware Hospice Center

JOHN M. SUNDY, LC / LEAD ELECTRICAL DESIGNER / 29 YEARS EXPERIENCE

Senior Electrical Designer | Point Park University, Bachelor of Electrical Engineering

As Lead Electrical Designer, John will lead and direct Barton's electrical engineering staff that will be assisting him on this project and will attend engineering project team meetings. He will provide oversight of the assessment of all electrical systems for the project and will be an integral team member in sizing of the electrical infrastructure. Relevant experience:

- Masonic Village at Sewickley - Apartment Buildings 1 & 2 Interior Renovations
- Oak Street Health – Multiple PCP Office Fit-outs in PA, NC, SC, MI & OH
- DaVita Healthcare - Multiple Dialysis Clinics in PA, NC, NJ & VA

RUBY MEMORIAL HOSPITAL EMERGENCY ROOM ADDITION & RENOVATION

Morgantown, WV; 2003

Ruby Hospital had only one vacant area in which to create an expansion to its already too small emergency facilities. Alpha successfully inserted the new two and a half story addition between two existing buildings and an elevated pedestrian bridge. The site was steep and confined; an elevated floor slab was used at the main floor, creating a large enclosed mechanical room on the lowest level eliminating the need for roof top units on the addition.

The addition replicated many of the same architectural elements of the adjacent structures, so as to appear of the same time and materials as the existing hospital buildings.

The addition was completed first to accommodate the 24/7 emergency room services, while the existing emergency room was remodeled with larger waiting areas and more exam rooms.

There were no interruptions to medical care during the expansion and remodeling.

WVU CHILDREN'S HOSPITAL RONALD MCDONALD HOUSE FAMILY ROOM

Morgantown, WV; 2013

Alpha Associates, Incorporated provided architectural design and construction administration services for the construction of a Ronald McDonald House Family Room at WVU Children's Hospital. The client previously occupied a suite of waiting rooms that were dark, uninviting, and not suited for handling larger groups. The goal was to open up the space to provide a welcoming, relaxing environment for families dealing with the illness of babies and small children. A dining area, kitchen, mother's room, restroom, waiting area, and reception area were all provided.

PHYSICIAN'S OFFICE CENTER-- UNIVERSITY HEALTH ASSOCIATES

Morgantown, WV

Alpha provided architectural services to renovate portions of the first, second and third floors of the Physician's Office Center.

The eye clinic and dentistry clinic located on the first floor were completely renovated to accommodate the relocation of the Ear Nose and Throat Clinic from the second floor and to construct a new MRI Center. The project was phased so that all departments were minimally affected and still be able to fulfill patient needs.

The second floor was renovated to enlarge the existing Departments of Pediatrics and Orthopedics clinic spaces, as well as add an additional X-Ray room for the Radiology Department.

The third floor renovation included enlarging spaces, addition of casework, and selective demolition and remodeling for the Department of Medicine Clinics.

maj@ba-inc.com

Barton Healthcare provided mechanical, electrical, plumbing engineering and architectural lighting design services for additions and renovations to the 112,000 square foot, four-floor, 88 bed addition and 11,000 square foot renovation to Evangelical Community Hospital's existing 132 bed acute care hospital. The construction project provided new single-occupancy patient rooms to replace the hospital's aging double occupancy rooms. Several other amenities for patients, families, and staff were constructed to improve the patient experience and optimize delivery of care. On the first floor, the addition included a new main entrance and lobby, guest services suite, conference center, a café and gift shop, and shared registration for new pre-admission care and medical infusion suites. The second floor contains a 24-bed intermediate care unit and a renovation that included a new 12-bed intensive care unit. The third floor included a 28-bed medical/surgical unit and the fourth floor encompasses a 24-bed orthopedics unit and gym.

Barton Healthcare provided mechanical, electrical and plumbing design for an approximately 80,000 square foot renovation of 5 patient floors in the West Wing of UPMC Shadyside. Project included two floors of ICU patient units, two floors of medical-surgical patient units and one floor for stem cell and bone marrow transplant patients. The project construction was e phased floor by floor which requires significant coordination of work to minimize shut-downs and service outages for functioning patient floors. The project also incorporated mechanical system infrastructure improvements including cooling tower upgrades, custom air handler unit refurbishments and upgrades, and building controls upgrades.

maj@ba-inc.com

Barton Healthcare provided mechanical, electrical, plumbing and fire protection engineering services for a new, five-story, 275,000 square-foot replacement hospital for UPMC. The new 130-bed hospital was built on the former Hawk Lake Golf Course in West Manchester Township. The project constructed a new state-of-the-art healthcare facility complete with Emergency, Surgical, Women and Babies, Radiology, Cardiac Catherization and general Inpatient Care services for the surrounding community of York.

Barton Healthcare's design of the engineered building systems for the new facility was focused on improving the health, safety and comfort of all patients, employees and community members who are served by this hospital. Barton was proud to collaborate with UPMC, Stantec, Quandel Construction Group and Dawood Engineering for the design of the important new facility.
