## 1 Cover Letter

May 05 2022

**Re: Response to the State of West Virginia Offices of Insurance Commissioner (STATE) Request for Quote: Technical Staffing Services – Data Base Administrator**

Katherine Tople

3Di, Inc. ("3DI") appreciates the opportunity to respond to the State of West Virginia Purchasing Division soliciting bids on behalf of West Virginia Offices of the Insurance Commissioner (OIC) to establish a contract for a database administrator staffing service.

3Di understands that the STATE is seeking request for quote from vendors to provide technical expertise to meet the temporary contracted staffing needs of the OIC Information Technologies Unit.

Having worked with many government agencies for over 25 years, 3Di has become a trusted partner and has implemented some of the most successful technology projects for government agencies, providing temporary IT Staff and Professional Services on an as-needed basis, as well as providing thought leadership on the use of technology in government. 3Di has provided support and maintenance for the needs of several government agencies, including Los Angeles Housing and Community Investment Department (LAHCID), City of Los Angeles, County of Los Angeles, City of Seattle, Los Angeles Unified School District (LAUSD), Los Angeles Department of Building and Safety (LADBS), City of Las Vegas (NV), Los Angeles Department of Water and Power (LADWP), Los Angeles World Airports (LAWA), the U.S Securities and Exchange Commission, El Paso County (CO), and City of Atlanta to name a few.

3Di also has extensive experience in designing, developing, implementing, integrating, and maintaining public sector applications and systems. Over the past 25 years, 3Di has delivered over 250 projects worth over \$70 Million in public sector all over the United States.

3Di, Inc. is a private S Corporation, Incorporated in the State of California, located at 3 Pointe Drive, Suite 307, Brea, CA 92821. The Company phone number is (714) 257-1100; Fax number is (714) 257-1386 and e-mail address is [marketing@3disystems.com](mailto:marketing@3disystems.com). The Federal Tax ID is 33-0647719

3Di would like to make available to the STATE the following people as our points of contacts for technical and contractual matters, negotiations or interview:

- Mihir Desai, Vice President & CFO,
  - 3 Pointe Drive, Suite 307, Brea, CA 92821, Phone: 714-257-1100 Ext. 143, Mobile: 949-254-5681, Fax: 714-257-1386
  - Email: [marketing@3disystems.com](mailto:marketing@3disystems.com) or [Mihir.Desai@3disystems.com](mailto:Mihir.Desai@3disystems.com)
- Carlos Culebro, Director of Sales - Services
  - 3 Pointe Drive, Suite 307, Brea, CA 92821, Phone: 203-449-8839, Fax: 714-257-1386,
  - email: [Carlos.Culebro@3disystems.com](mailto:Carlos.Culebro@3disystems.com)

Our offer package contains the following:

1. Cover letter and Resume of proposed personnel
2. Completed CRFQ Form
3. Addendum Acknowledgement Form

We acknowledge and accept the insurance requirements, terms and conditions and appreciate your consideration of our proposal. We are looking forward to the start of a long and mutually beneficial business relationship with the State of West Virginia.

Sincerely,

Mihir Desai  
Vice President & CFO

## 2 Resume of Proposed Personnel: Mary Chaitanya Mekala

### Experience Summary

12+ Years of experience in IT Industry, with strong hands on experience in managing Oracle database 19c, 18c, 12c, 11g, 10g, 9i,8i Databases. on Exadata, Red hat, Linux, HP Unix, Solaris and Windows platforms along with Golden Gate Technology

### Professional Summary

- Deep knowledge and hand on experience on Oracle Database Vault, Data Encryption and other Oracle Security related features
- 5+Yrs Golden Gate experience of installation, upgradation, maintenance, troubleshooting and monitoring.
- Comprehensive experience as Oracle DBA, especially in **Exadata** and Oracle **Goldengate** proficient in Oracle 9i/10g/11g/12c/19c software installations, migrations, database capacity planning
- Worked as a Exadata DBA at Confidential as migration specialist on Oracle 12cR1, 11gR2, Exadata X2, X3 & X6, OEM 13c, RAC, Data Guard, Linux.
- Working on Exadata X2, X3 and X6 machines which included Half Rack and Full Rack
- Ensure bi directional replication across all regions and daily resolving golden gate abends.
- Patch Management: Extensively involved in analyzing the patches for bugs/security vulnerabilities reported and applying the patches on databases.
- Database Cloning/Migration: Extensively involved in database cloning and migration of the databases from one platform to others.
- Server Migration/Server consolidation: Migrating application across the servers in different locations and reducing server maintenance cost by consolidating non critical applications
- Data guard: Extensively involved in configuration and managing of Physical/logical Standby Databases for Disaster Recovery (DR) site
- Data transfer technologies: Well versed with data transfer technologies export/ import, data pump and SQL\*Loader
- Backup and recovery procedures: Strong basics in backup, restore and recovery principles, offline/online backups and recovery matrix. Expertise in configuring RMAN and restoring the databases in different recovery scenarios. Including using FLASH BACK methods for logical recoveries.
- Advanced/New concepts in Oracle 10g/11g: Good knowledge about partitioning, ASM, ASSM, AWR, ADDM, SQL tuning Advisor, Database replay and SQL Performance Analyzer.
- Real Application Clusters: Expertise in converting single instance database to Real Application Cluster (RAC) / Automatic Storage Management (ASM).
- Installation and Configuration of Oracle Data base Server 11gr2 (Both RAC and Non RAC), 11gr1(Both RAC and Non RAC) and 10g in different operating systems.
- Hands On experience on logical standby databases configuration and maintenance.
- Hands on experience in implementation of maintenance & error reporting and successfully gained exposure in ORACLE administration by configuring & maintaining backup policies & procedures including HOT and COLD backup, cloning, Replication, Database Tuning, managing database architecture.
- Replication and Extracting data and applying on production using GoldenGate.
- Performing the oracle up gradation & applying the oracle patches.
- Involved Effectively in Physical and Logical Design of Backup and Recovery planning of Databases.
- Having a very good experience in configuring & trouble shooting the Physical Standby database (Data guard) & DG broker configuration.
- 1+ years in Managing/Installing/Troubleshooting Aurora, MySQL, Postgresql, DynamoDB and MariaDB, MangoDB in production and development on Linux environments.

- Around 2 years of experience in AWS, analysis, design, development, implementation and testing of systems primarily in the distributed web application and client/server environment.
- Manage No SQL and SQL Server databases.
- Experience on Postgress database.
- Knowledge of AZURE cloud computing basics.
- Hands on experience in cloning database in Standalone and RAC environment using traditional backup and restore method and RMAN duplication

### **Technical Expertise**

HARDWARE Intel Pentium III, IV, DEL POWER system.  
 OPERATING SYSTEMS Solaris 10, Linux RHEL6/7, Windows 10  
 LANGUAGES SQL, PL/SQL, Unix Shell Scripting, Perl, Oracle Utilities  
 DATABASES Oracle10g, Oracle11g, Oracle RAC, Oracle 12c, Postgress  
 TOOLS & UTILITIES Enterprise Manager, SQL\*Plus, Import/Export, Datapump, Pgadmin, RMAN, SRVCTL,CRSCTL Grid Control, Control-M, Toad, Putty, F-secure, VNC, Server, Golden Gate, OS watcher

### **Certifications:**

Oracle Cloud Infrastructure 2019 Architect Associate 20c 5/6/2020  
 Oracle Certified Autonomous Database Specialist 18c 20/05/2020  
 ITIL 2011 Foundation Certificate in IT Service Management Certification 108/03/2013  
 Oracle Database 10g: Administration I 11g 25/06/2010

### **Qualifications:**

- Bachelor of Technology (B. Tech) in Computer Science from JNT University , Hyderabad.

### **Assignments:**

The details of the various assignments that I have handled are listed here, in chronological order.

### **Senior Oracle DBA**

**Mar 2019 to till now**

Kohls, WI

### **Responsibilities:**

- Planning/Implementation/troubleshooting Oracle RAC, DR ,Standby HA database.
- Install, configure and maintain Oracle 11g/12c Software on Red Hat Linux platform and Sun Solaris Platform.
- Upgradations and ZDT golden gate migrations
- Install, configure and maintain Oracle 11g/12c RAC software on Red Hat Linux platform.
- Managing more than 400 production/test/dev business critical databases of AT&T hosted across US datacenter. Production database size range from 500G to 5+TB.
- Effectively made use of Indexes, Table Partitioning, Collections, Analytical functions, Materialized Views & Query Re-Write.
- Managing Oracle 10g/11g releases RAC(3-6 Nodes) database in production and development environment
- Golden Gate database replication setup and troubleshooting.
- Closely work with Dev and testing team to fix the performance issue.
- Upgradation of database from 10g to 11gR2 and 11gR2 to 12C.
- Refresh UAT/DEV Database with development to perform periodic testing.
- Working on backup strategy for production and UAT database
- Extensively use O/S commands, Oracle system tables TKPROF, AWR, ADDM reports and other 10 & 11i features to identify and fix performance/locking issues.

- Used Automatic Workload Repository (AWR) & Automatic Database Diagnostic Monitor (ADDM) in RAC for Performance Tuning
- Work with the application team to ensure that backout scripts and procedures are in place before releasing changes into production.
- Installation of RAC on 4 node, 6 node cluster and standalone server.
- Analyzing the AWR report for DB Performance issues.
- UNIX Shell scripting and SQL scripting
- Worked on OEM and Grid control for regular database maintenance
- Setup of High Availability of the database using RAC, Standby, Data guard.
- Raising SR with ORACLE for any issue.

Solution Environment Operating system : Windows 2008, AIX, Red hat Linux, Database: Oracle 12c/10g/11g

Oracle DBA  
Citi Bank, Tampa, FL

May 2016 to Feb 2019

**Project**      **CITI KYC**

**Description:** Whether individuals, legal entities or correspondent banks opening accounts or executing high-risk transactions, financial institutions are often responsible for performing initial and ongoing Know Your Customer (KYC) screening. KYC, a broad term, includes the identification of the client profile and an understanding of their business

- Goldengate bidirectional replication between NAM, LATAM, EMEA, APAC and unidirectional replication between APAC to KR, APAC to IDN, LATAM to MX.
- Experience in replication using golden gate, materialized views.
- GG standardization and heart beat monitoring implementation.
- Replication and Extracting data and applying on production using GoldenGate.
- Migrated physical standard files to ORAAS files and Implemented ORAAS databases.
- Hands on experience in implementation of maintenance & error reporting and successfully gained exposure in ORACLE administration by configuring & maintaining backup policies & procedures including HOT and COLD backup, cloning, Replication, Database Tuning, managing database architecture.
- Performing the oracle up gradation & applying the oracle patches.
- Involved Effectively in Physical and Logical Design of Backup and Recovery planning of Databases.
- Having a very good experience in configuring & trouble shooting the Physical Standby database (Data guard) & DG broker configuration.
- Hands on experience in cloning database in Standalone and RAC environment using traditional backup and restore method and RMAN duplication

Solution Environment: Operating system: Windows 2008, AIX, Red hat Linux, Database: Oracle 12c/10g/11g

Oracle DBA  
Motorola, India

Jun 2014 to Apr 2016

**Project**      **Motorola Solutions**

**Description**      Motorola Solutions was the Enterprise Mobility Solutions and Public Safety division of Motorola Inc. which was founded in 1928. Motorola Solutions began trading as a separate independent company on January 4, 2011. It is the legal successor of the old Motorola; the transaction was structured so the old Motorola changed its name to Motorola Solutions and spun off Motorola Mobility as a separate company.

Responsibilities

- Installation and Configuration of Oracle Data base Server 11gr2 (Both RAC and Non RAC), 11gr1(Both RAC and Non RAC) and 10g in different operating systems.
- Experience in replication using golden gate, materialized views.
- Replication and Extracting data and applying on production using GoldenGate.
- Hands on experience in implementation of maintenance & error reporting and successfully gained exposure in ORACLE administration by configuring & maintaining backup policies & procedures including HOT and COLD backup, cloning, Replication, Database Tuning, managing database architecture.
- Performing the oracle up gradation & applying the oracle patches.
- Involved Effectively in Physical and Logical Design of Backup and Recovery planning of Databases.
- Having a very good experience in configuring & trouble shooting the Physical Standby database ( Data guard) & DG broker configuration.
- Hands on experience in cloning database in Standalone and RAC environment using traditional backup and restore method and RMAN duplication

**Solution Environment:** Operating system: Windows 2008, AIX, Red hat Linux Database: Oracle 10g/11g

**Oracle Apps DBA  
FOXTEL, Melbourne, Australia**

**Sep 2013 to June 2014**

Foxtel is an Australian pay television company, operating a duopoly in cable television, a monopoly in direct broadcast satellite television, and IPTV catch-up services. It was formed in 1995 through a joint venture established between News Corp (FOX) and Telstra (TEL).

Responsibilities:

- Installation and Configuration of Oracle Data base Server 11gr2 (Both RAC and Non RAC), 11gr1(Both RAC and Non RAC) and 10g in different operating systems.
- Implemented Golden Gate technology for optimized results to customer.
- Hands On experience on logical standby databases configuration and maintenance.
- Hands on experience in implementation of maintenance & error reporting and successfully gained exposure in ORACLE administration by configuring & maintaining backup policies & procedures including HOT and COLD backup, cloning, Replication, Database Tuning, managing database architecture.
- Performing the oracle up gradation & applying the oracle patches.
- Involved Effectively in Physical and Logical Design of Backup and Recovery planning of Databases.
- Having a very good experience in configuring & trouble shooting the Physical Standby database (Data guard) & DG broker configuration.
- Hands on experience in cloning database in Standalone and RAC environment using traditional backup and restore method and RMAN duplication

**Solution Environment:** Operating system: Sun Solaris, Windows Database: Oracle 10g/11g/12c

**Oracle DBA  
Marks & Spencer, India**

**Aug 2012 to Sep 2013**

Marks and Spencer is a major British retailer headquartered in the City of Westminster, London. It specializes in the selling of clothing and luxury food products. M&S was founded by Michael Marks and Thomas Spencer in Leeds.

**Responsibilities:**

- Creation and maintenance of oracle databases
- Experience in Oracle HA (highly available) database environments & solutions such as RAC & Golden Gate database replication (active/passive & active/active).
- Privileges, Roles and Users Management
- RMAN backup and restore
- Export & Import of tables, schema and database using logical and datapump
- Troubleshooting with problems regarding the databases and applications
- Tuning of the database instances.
- ADDM and AWR reports generation
- Performing Health check of Oracle databases

Solution Environment: Operating system: Windows 2008, AIX, Red hat Linux , Database: Oracle 10g/11g

Oracle DBA

**Aug-2010to Jul-2012**

**Rolls-royce, Baxa, Morgan Stanley, India**

Rolls-Royce is committed to the marine market and maintaining its world leading position in the design, development, supply and support of products and systems for commercial and naval customers worldwide

**Responsibilities:**

- Oracle RAC installation
- Creation and maintenance of oracle databases
- Dataguard implementation and maintenance.
- Privileges, Roles and Users Management
- RMAN backup and restore
- Export & Import of tables, schema and database using logical and datapump
- Troubleshooting with problems regarding the databases and applications
- Tuning of the database instances.
- Statspack, ADDM and AWR reports generation
- Pre-patch analysis for the patches and document preparation with pre and post installation steps
- Performing Health check of Oracle databases
- Database Migration (HPUX to Windows) and upgrade

Solution Environment Operating system: Windows 2000, HP-UX, Solaris, RedHat Linux, Database: Oracle 10g/11g, Tools SQL \*Plus, OEM, TOAD, RMAN, Exp / Imp, SQLDR.

Oracle DBA

**Dec-2008 to Aug-2010**

**Project : RTA, India**

This project is one of the successful e-Governance Projects of the Government of Andhra Pradesh. This project consists of automation of all Road Transport Authority activities. We deal with the implementation and Database maintenance of the project.

**Responsibilities:**

- Creating and maintaining all Databases required for development, testing, staging and production usage
- Performing RMAN backup and Restore in different instances
- Supporting issues as per SLA
- Privileges, Roles and Users Management
- Segment Space & Extent management

- Export & Import tables, schema & database
- Preparing Known Error Database (KEDB)
- Weekly once Production bounce

Solution Environment: Operating system: Windows XP/2000, HP Unix, Solaris, Languages: Unix, SQL

Database: Oracle 10g / 9i, Tools: TOAD, Developer 2000(D2K)

**Oracle DBA** **June-2008 to Nov - 2008**  
**APCS (Andhra Pradesh Civil Supplies Department), India**

**Project BASIC (Beneficiary Automatic Services in Civil Supplies)**

**Responsibilities:**

The above project is one of the successful E-Governance Projects of the Government of Andhra Pradesh. The project completely automates APCS activities, which includes issuing Fresh/Duplicate/Conversion of Ration Cards, Crystal Reports.

- Role Offshore DBA
- L1 support in database administration
- Maintenance of Oracle database and objects
- Monitoring backups
- Checking alert logs for errors
- Space management
- Generating ADDM and AWR reports
- Solution Environment Operating system: Windows XP/2000, Linux
- Database: Oracle 10g.
- Tools SQL developer

**ADDITIONAL INFORMATION**

The West Virginia Purchasing Division is soliciting bids on behalf of West Virginia Offices of the Insurance Commissioner (OIC) to establish a contract for a database administrator staffing service. The Database Administrator position is needed to provide technical expertise to meet the temporary contracted staffing needs of the OIC Information Technologies Unit. These services will be used to create and modify stored procedures, control data exchange with outside entities, and patch and maintain Oracle and Microsoft SQL databases currently used by the OIC per the attached specifications and terms and conditions.
