ADDITIONAL INFORMATION

The West Virginia Purchasing Division is soliciting bids on behalf of West Virginia Offices of the Insurance Commissioner (OIC) to establish a contract for a database administrator staffing service. The Database Administrator position is needed to provide technical expertise to meet the temporary contracted staffing needs of the OIC Information Technologies Unit. These services will be used to create and modify stored procedures, control data exchange with outside entities, and patch and maintain Oracle and Microsoft SQL databases currently used by the OIC per the attached specifications and terms and conditions.

SCHEDULE OF EVENTS

Line	Event	Event Date
------	-------	------------

1. CONTRACT TERM; RENEWAL; EXTENSION: The term of this Contract shall be determined in accordance with the category that has been identified as applicable to this Contract below:

Term Contract

Initial Contract Term: The Initial Contract Term will be for a period of one (1) year date listed on the first page of this Contract and the Initial Contract Term ends on the effective end date also shown on the first page of this Contract.

Renewal Term: This Contract may be renewed upon the mutual written consent of the Agency, and the Vendor, with approval of the Purchasing Division and the Attorney General's office (Attorney General approval is as to form only). Any request for renewal should be delivered to the Agency and then submitted to the Purchasing Division thirty (30) days prior to the expiration date of the initial contract term or appropriate renewal term. A Contract renewal shall be in accordance with the terms and conditions of the original contract. Unless otherwise specified below, renewal of this Contract is limited to ~~Three~~ (3) successive one (1) year periods or multiple renewal periods of less than one year, provided that the multiple renewal periods do not exceed the total number of months available in all renewal years combined. Automatic renewal of this Contract is prohibited. Renewals must be approved by the Vendor, Agency, Purchasing Division and Attorney General's office (Attorney General approval is as to form only)

General's Office (Attorney General approval is as to form only).

2. INSURANCE: The apparent successful Vendor shall furnish proof of the insurance identified by a checkmark below and must include the State as an additional insured on each policy prior to Contract award. The insurance coverages identified below must be maintained throughout the life of this contract. Thirty (30) days prior to the expiration of the insurance policies, Vendor shall provide the Agency with proof that the insurance mandated herein has been continued. Vendor must also provide Agency with immediate notice of any changes in its insurance policies, including but not limited to, policy cancelation, policy reduction, or change in insurers. The apparent successful Vendor shall also furnish proof of any additional insurance requirements contained in the specifications prior to Contract award regardless of whether that insurance requirement is listed in this section.

Vendor must maintain:

Commercial General Liability Insurance in at least an amount of: One Million Dollars per occurrence.

Automobile Liability Insurance in at least an amount of: Personal limits per occurrence.

Professional/Malpractice/Errors and Omission Insurance in at least an amount of: One Million Dollars per occurrence. Notwithstanding the foregoing, Vendor's are not required to

list the State as an additional insured for this type of policy.

Commercial Crime and Third Party Fidelity Insurance in an amount of: _____ per occurrence.

Cyber Liability Insurance in an amount of: _____ per occurrence.

Builders Risk Insurance in an amount equal to 100% of the amount of the Contract.

Pollution Insurance in an amount of: _____ per occurrence.

Aircraft Liability in an amount of: _____ per occurrence.

[Notwithstanding anything contained in this section to the contrary, the Director of the Purchasing Division reserves the right to waive the requirement that the State be named as an additional insured on one or more of the Vendor's insurance policies if the Director finds that doing so is in the State's best interest.

3. WORKERS' COMPENSATION INSURANCE: Vendor shall comply with laws relating to workers compensation, shall maintain workers' compensation insurance when required, and shall furnish proof of workers' compensation insurance upon request.

4. [Reserved]

5. LIQUIDATED DAMAGES: This clause shall in no way be considered exclusive and shall not limit the State or Agency's right to pursue any other available remedy. Vendor shall pay liquidated damages in the amount specified below or as described in the specifications:

_____ for _____

Liquidated Damages Contained in the Specifications.

Liquidated Damages Are Not Included in this Contract.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

Database Administrator – Parvez Adil, Oracle Certified Professional DBA

Summary:

Senior IT professional with over 20 years of IT experience including over 12 years as an Oracle DBA. Mr. Adil worked in various IT roles as Technical Lead, Data Architect, Oracle/SQL Server DBA, developer programmer / systems analyst / data warehouse ETL/ business intelligence and database engineer. I have worked on all kinds of databases (OLTP, DSS and ERP). My experience details are as follows:

- Installation, configuration Oracle RDBMS servers for single and multiple instances. Configure high availability solution as RAC (Real Application Cluster), RAC One Node, ASM, standby Data Guard for DR, OEM (Oracle Enterprise Manager), application servers, RAID storage configuration, Golden Gate for replication. Perform backup / recovery / database cloning using RMAN, user managed backup, refresh schemas using Data Pump. Performance tuning and monitoring, reviewing ADDM, AWR, ASH reports. Create services for RAC instances, applying patches and upgrade. Data migration from SQL Server, Sybase, legacy systems to Oracle. SQL Server database to Oracle, Oracle to PostgreSQL.
- Experienced in as PeopleSoft System Administrator and Oracle Applications DBA (E-Business suites).
- Perform as SQL Server DBA and Sybase DBA.
- Experience in Data warehouse and data marts, and business intelligence systems. Develop ETL for Data Warehouse and Data Marts, load data into fact and dimension tables.
- Design database architecture, data modeling, logical and physical designing, define referential integrity constraints and rules, table partitions, materialized views, build data dictionaries and repositories. Develop stored procedure, functions, triggers, packages using PL/SQL, Transact-SQL, loading flat file data into Oracle tables using SQL*Loader, Create Ad hoc queries. Develop automation scripts using Python, Perl, Unix Shell scripts.
- Data Migration from on Premises to Oracle Cloud and AWS.
- Perform system administration (Unix and Linux, Windows) duties.
- Project management, team lead, resource planning, Agile/Scrum methodology, SDLC, project life cycle. Gathering requirements and changing into technical specifications, develop standard policies & procedures, Mentor junior team members and conduct training sessions for improvements. Allocate work to onsite/offshore teams.
- Prepare performance improvement plan, proactively communicate with other supporting group, taking ownership of tasks/activities, respond to CIM calls, handle critical incidents/events, RCA (root cause analysis) and ensure response time and SLA succeeds without any breaches. Provide on-call support on 24/7.

Technical Skills:

RDBMS: Oracle, SQL Server, Sybase, DB2, PostgreSQL, MySQL

Big Data, Hadoop, NoSQL (HDFS, MongoDB, Cassandra).

DevOps (Jenkins, Jira, Git, Ansible, Puppet, Docker / Kubernetes, Terraform, Bamboo), SVN.

Cloud technologies (AWS, Azure, Oracle Cloud).

Tools and technologies: Oracle Enterprise Manager, RAC, ASM, Exadata, ODA, Golden Gate, Data Guard, Erwin.

Toad, SQL Developer, Weblogic, Tuxedo, Tomcat, NetBackup, ServiceNow, SCOM, Nimsoft, Splunk,

ETL and BI: Oracle (ODI and OBIEE), SSIS, SSRS, Informatica, Pentaho, Business Objects.

Languages: Python, Perl, COBOL, Java, C/C++, Visual Basic, SQL/PL/SQL, T-SQL, Shell scripts, Java Scripts,

ERP: Peoplesoft, Oracle eBusiness Suites 11i/R12

Operating System: Unix, Linux, Windows, VMware, Virtualbox, Docker, Vagrant.

Professional Trainings:

- Oracle – Real Application Clusters (RAC) • OEM Grid Control • Oracle Performance Tuning • WebLogic System Administration Training from Oracle University.
- System Administration for Unix and Linux administrator.

ERP Training courses:

- PeopleSoft - PeopleTools 1 & II for Developer, • PeopleSoft System Administrator, • PeopleSoft – Installation & Upgrade, • PeopleSoft Security from Oracle University.
- Oracle Applications DBA (11i & R12 e-Business Suites).

Professional Experience:

ITS-NYS

09/2017 to date.

Sr. Database Administrator

- Responsibilities include installation, configuration database instances, performing backup/recovery/cloning, refresh schemas, database monitoring, performance tuning, resolving issues, upgrade databases from 11g to 12c in multitenant using CDB and PDB, data migration, apply patches, and capacity planning. Configured three nodes RAC environment with ASM with standby Data Guard. Performing migration from on-Premises to Oracle Cloud and AWS. Provided technical consulting for the database design and architecture and capacity planning. Deploy and maintain database replications using Golden Gate. Migrate databases to Exadata.
- Performing data architect duties for data warehouse architecture, enhancing data model design, create new subject areas for data marts. Develop and integrate ETLs, develop data repositories and metadata. Working closely with stakeholders and other teams. Work on Applying changes, patches, upgrade,
- Data migration from Oracle to PostgreSQL. Perform SQL Server DBA duties, Configured SQL Server 2017 on Linux environment with Docker and Vagrant.
- Configuring development environment for Big Data using Hadoop and NoSQL (MongoDB and Cassandra). Provide development and production support, and proactively communicated and followed up. Perform on-call support on 24/7.

Environment: (Oracle 11g, 12c, 19c, OEM, SQL Server, NoSQL, Peoplesoft, E-Business Suite, Solaris, AIX, Linux)

HCL America,

08/2016 to 07/2017

Sr. Database Administrator / Team Lead

- Performed installation and configuration RAC, Data Guard in development, testing, production environments, database backup/recovery/cloning using RMAN with Comm-Vault, refreshinf schemas, managed database security, database monitoring, performance tuning, finding RCA (root cause analysis) using ADDM, AWR, ASH reports, troubleshooting and resolved issues, upgrade databases from 11g to 12c in multitenant environment (CDB and PDB). Database migration to Exadata. Prepared run books, apply patches, rollback, configure database wallet for encryption. Implemented SOX compliance for security best practices.
- Lead offshore DBA teams. SNOW managing queue to meet response time, prevent SLA breaches and penalties,
- Provided technical consulting for the database design and architecture and capacity planning. Provide development and production support, and proactively communicated and followed up. Perform on-call support on 24/7, CIM calls with other teams, worked closely with vendors, coordination with other IT teams.

Environment: (Oracle 11g, 12c, OEM, Exadata, Peoplesoft, eBusiness Suites, SQL Server, Solaris, Linux)

Credit Suisse, NC

07/2014 to 06/2016

Sr. Database Administrator

- Responsibilities included installation and configuration RAC environments, upgrade from Oracle 11g to Oracle 12c. Configured wallet, SCAN listener. Applied patches, created database instances and migrated databases.
 - Performed database backup/recovery/cloning using RMAN, refresh schemas using Data pump, maintain database security, performance tuning and monitoring and diagnosis and resolved issues.
 - Database failover and switchover standby Data Guard manually and using Data Guard broker. SRDF failover/switchover. Configured schema replication using Golden Gate.
 - Installed and configured and upgrade OEM - 11g & 12c. Prepared run books for deployments, enhanced data model using Erwin. Provided support for quarterly maintenance window, quarterly DR test, process flow test.
 - Performed secondary duties for SQL Server DBA. Perform secondary Sybase DBA support
 - Hands on using i2MS, MyAccess, ServiceNow, HPAM (Asset Manager), EDOM, Control-M (job scheduler).
- Environment: (Oracle 10g, 11g, 12c, OEM 11g & 12c, Golden Gate, SQL Server 8R2 & 12, Solaris, AIX, Linux)

JP Morgan Chase, Chicago, IL

09/2012 to 06/2014

Sr. Database Administrator

- Responsibilities included installation and configuration of database servers, Oracle 11g OEM Grid Control. Applied patches and upgraded 11gR1 RAC to 11gR2. Created and maintained databases, performed backup/recovery/cloning using RMAN, implemented SOX compliance for database security, performance

tuning and monitoring and diagnosis issues and resolved. Configured **Data Guard** standby databases and maintained using Data Guard broker.

- Database migration from Solaris to Linux. Migrated data from **SQL Server to Oracle**. Prepared database growth estimations, involved in data modeling using Erwin, replication using Golden Gate.
- Supported as Sybase DBA for installation, upgrades, performance tuning, monitoring, backup/recovery.

Environment: (Oracle 10g, 11g, OEM grid control, Web Logic, Golden Gate, SQL Server, AIX, Linux)

University of Wisconsin, WI

11/2009 to 07/2012

Sr. Database Administrator / Lead DBA

- Responsibilities included installation and configuration of Oracle server and clients, applied patches, and created and upgrade databases. Lead four DBAs and two system administrators.
- Prepared upgrade planning for migration from Oracle 9iR2 to Oracle 11g. Migrated databases from Oracle 9i R2 to Oracle 11g R1 to HP-UX Itanium. Installed and configured Oracle RAC and Data Guard, Installed and configured Web Logic and OEM 10g & 11g, and deployed OMS and OEM agents. Configured RMAN for backup and recovery and cloning. Performed database performance tuning, monitoring, diagnosed problems and resolved issues.
- Enhanced data model logical & physical design, deployed ETL jobs for extracting data from ERP system for data warehouse.
- Performed as backup system admin for Peoplesoft System Administrator. Installed and configured PIA environment that consisting of Weblogic, and tuxedo, application server, process scheduler, integration broker, PS Tools. Applied patches and bundles, and involved in customization for PeopleSoft (Campus solutions, HCM and Financial), moved projects, installed client and configuration manager, application designer, code migration using data mover.

Environment: (Oracle 9i, 10g, 11g, OEM, Web Logic, Tuxedo, SQL Server, PeopleSoft, HP-UX, Solaris, Linux)

Dept. of Transport, State of Wisconsin, WI

08/2008 to 11/2009

Sr. Database Administrator

- Responsibilities included maintenance for both type of databases OLTP and DSS (data warehouse, data mart).
- Migrated databases from HP-UX 11.11 PA-RISC to HP Itanium11.23, moved Oracle 10g OEM Grid control packages to Itanium and re-installed OMS & agents,
- Performed backup and restore using RMAN, cloning, refreshed schema objects, and installed and configured Oracle 10g RAC on two nodes cluster, maintained Data Guard standby database using Data Guard broker.
- Participated in data modeling using Erwin (reverse and forward engineering), compared database changes and applied new builds on database, maintain version control for builds. Participated in performance monitoring and tuning, diagnosed and resolved issues accordingly.

Environment: (Oracle 9i, 10g, 10g Grid Control, HP-UX, AIX, Solaris, Linux, Websphere, Toad, SQL Server, DB2)

University of Notre Dame, Indiana

10/2007 to 06/2008

Database Administrator

- Responsibilities included migrate databases from Oracle 9i to Oracle 10g. Applied patches and upgrade. Performed backup, restore and cloning using RMAN. Developed security procedure. Worked on resizing redo logs, developed Shell scripts. Installed and configured Oracle 10g RAC and physical and logical standby Data Guard. Developed ETL packages for data mart and data warehouse using Oracle Warehouse Builder. Created stored procedures using PL/SQL, refresh schema objects using data pump. Provided support for SQL Server database administration. Provided Applications DBA support, applied family packs, upgrade, cloning, concurrent manager, AD utilities.

Environment: (Oracle 9i, 10g, OEM grid control, AIX, Solaris, Linux, 10g AS, Oracle 11i, SQL Server)

US Cellular, Chicago, IL

01/2007 to 08/2007

Database Administrator

- Database migration from Oracle9i to 10g and installed Oracle 10g. Performed backup and recovery using RMAN. Export and import, schemas to refreshed schema objects. Modified PL/SQL stored procedures, functions, and triggers. Configured physical standby Data Guard. Applied patches and upgrade databases, performance tuning and optimization, captured data changes, daily builds. Managed Tuxedo service for database and application server connectivity. Reviewed and enhanced shell scripts.

Environment: (Oracle 8i, 9i, 10g, OEM, Toad, HP UX, Solaris, Linux, Tuxedo, Netbackup, Amdocs)

Morrissey, Chicago, IL
Database Administrator

03/2006 - 12/2006

- Participated in database migration projects from SQL Server to Oracle 9i. Reviewed SQL Server databases and prepared migration plan. Installed and configured the Oracle servers, created databases and migrated database. Reviewed stored procedures, functions, triggers developed in Transact-SQL and converted into Oracle PL/SQL stored procedures, functions, triggers, and applied integrity constraints. Prepared backup and recovery policies and procedures and tested and implemented, performed backup and restore using RMAN, and refreshed schema objects, and user-managed hot backup. Developed logical & physical design using Erwin. Involved in performance tuning and optimization and resolved issues.

Environment: (Oracle 8i, 9i, 10g, SQL Server 2005, OEM, Toad, AIX, Linux)

Adelphia Communications, PA
Database Administrator

10/2004 - 02/2006

- Oracle 10g/9i/8i installation and configuration, upgrades and database migrations. Applied patches. Performed backup/recovery using RMAN with Netbackup, created Shell scripts and scheduled cron jobs. Created table partitioning, refreshed materialized views, schema objects, configured Data Guard for standby database. Involved in supporting data mart and data warehouse maintenance, enhanced data model of logical & physical design using Erwin. Developed ETL processes to load data into fact and dimension tables. Worked on SQL Server database administration, backup and recovery, DTS, database development (developed stored procedure using T-SQL). Migrated SQL Server to Oracle9i using migration workbench. Installed and configured PeopleSoft PeopleTools 8.48 (Application Designer, Configuration Manager, Data Mover, PIA, application server (Tuxedo and WebLogic).

Environment: (Oracle 8i, 9i, 10g, SQL Server 2005, Sun Solaris, AIX, Linux)

CIHI Inc, Toronto, Canada
Developer / Data Architect / DBA

1999 - 2004

Canadian Imperial Bank of Commerce, Canada
Systems Developer

1997 - 1999

Education:

B.S., Osmania University, India

MCA (Master of Computer Applications), Osmania University, India
