Section 3- Emergency Assistance

Project Lead- Data Migration and Support (NBS/WVEDSS)

Emergency Assistance may be utilized for a period of up to 120 hours for each category of service listed below, over a period of 10 calendar days.

Emergency Assistance is only to be used in response to a government declared public health emergency to provide for rapid response to changing

surveillance and reporting requirements to deal with the emergency. Leveraging Emergency Assistance will allow the State to immediately respond to the emergency while scoping and preparing one or more statements of work under the T&M Support procedures of the contract. If

Emergency Assistance is requested the State and the Vendor will determine

which service categories will be utilized. Once Service Categories are determined, Emergency Assistance must be priced at the daily rate for each service category to be utilized in the table below and will be billed at the Emergency Assistance daily rate (the sum of the Emergency Assistance Daily Rates agreed upon in the table). Invoice must include the description "Emergency Assistance, " the number of days of assistance provided (not to exceed 10) and the extended price (unit price X days). Emergency Assistance will be in effect for the shorter of 10 days, or the amount of time

required to execute a deliver order for Time and Material Support, or until the Public Health Emergency is rescinded.

Decisions to request and to terminate Emergency Assistance rest solely with the State of WV. Declaration of a Public Health Emergency by State or Federal Officials does not automatically trigger this provision nor does a declaration that the emergency has ended terminate them.

Emergency Assistance

Project Lead- Data Migration and Support (NBS/WVEDSS)

Emergency Assistance may be utilized for a period of up to 120 hours for each category of service listed below, over a period of 10 calendar days. Emergency Assistance is only to be used in response to a government declared public health emergency to provide for rapid response to changing surveillance and reporting requirements to deal with the emergency. Leveraging Emergency Assistance will allow the State to immediately respond to the emergency while scoping and preparing one or more statements of work under the T&M Support procedures of the contract. If Emergency Assistance is requested the State and the Vendor will determine which service categories will be utilized. Once Service Categories are determined, Emergency Assistance must be priced at the daily rate for each service category to be utilized in the table below and will be billed at the Emergency Assistance daily rate (the sum of the Emergency Assistance Daily Rates agreed upon in the table). Invoice must include the description "Emergency Assistance, " the number of days of assistance provided (not to exceed 10) and the extended price (unit price X days). Emergency Assistance will be in effect for the shorter of 10 days, or the amount of time required to execute a deliver order for Time and Material Support, or until the Public Health Emergency is rescinded. Decisions to request and to terminate Emergency Assistance rest solely with the State of WV. Declaration of a Public Health Emergency by State or Federal Officials does not automatically trigger this provision nor does a declaration that the emergency has ended terminate them.

Section 3

Emergency Assistance

Onboarding Coordinator -- Electronic Case Reporting Electronic Case Reporting

Emergency Assistance may be utilized for a period of up to 120 hours for each category of service listed below, over a period of 10 calendar days. Emergency Assistance is only to be used in response to a government declared public health emergency to provide for rapid response to changing surveillance and reporting requirements to deal with the emergency. Leveraging Emergency Assistance will allow the State to immediately respond to the emergency while scoping and preparing one or more statements of work under the T&M Support procedures of the contract. If Emergency Assistance is requested the State and the Vendor will determine which service categories will be utilized. Once Service Categories are determined, Emergency Assistance must be priced at the daily rate for each service category to be utilized in the table below and will be billed at the Emergency Assistance daily rate (the sum of the Emergency Assistance Daily Rates agreed upon in the table). Invoice must include the description "Emergency Assistance, " the number of days of assistance provided (not to exceed 10) and the extended price (unit price X days). Emergency Assistance will be in effect for the shorter of 10 days, or the amount of time required to execute a deliver order for Time and Material Support, or until the Public Health Emergency is rescinded. Decisions to request and to terminate Emergency Assistance rest solely with the State of WV. Declaration of a Public Health Emergency by State or Federal Officials does not automatically trigger this provision nor does a declaration that the emergency has ended terminate them.

Subject: Quotation for Centralized Request for Quote (CRFQ) - CRFQ-0506-MIS2400000002-1

Dear Crystal,

We are pleased to submit our proposal in response to your Request for Quotation (RFQ) for data migration, cloud infrastructure maintenance, system, and network analysis services, as advertised by Information Technology, West Virginia. Our company, Techbeans, specializes in providing cutting-edge solutions in these areas and possesses a wealth of experience and expertise to meet the requirements outlined in the RFQ.

Techbeans has a proven track record of successfully executing projects like the ones outlined in your RFQ. Our team comprises seasoned professionals who are adept at leveraging the latest technologies and industry best practices to deliver exceptional results. We understand the critical nature of the services required by West Virginia Information Technology, and we are committed to delivering reliable, efficient, and cost-effective solutions tailored to meet your specific needs.

Our proposed services encompass the following key areas and more:

**Data Migration:** Our team possesses extensive experience in seamlessly migrating data across platforms and fro on premise to cloud such as AWS,Azure, GCP etc , ensuring data integrity, security, and minimal disruption to your operations.

**Cloud Infrastructure Maintenance:** We offer comprehensive cloud infrastructure maintenance services, including monitoring, optimization, security enhancements, and ongoing support to ensure the smooth operation of your cloud environment.

MIS2400000002-1

CRFQ-0506-

**System and Network Analysis:** Our experts will conduct thorough analysis and assessments of your systems and networks to identify vulnerabilities, optimize performance, and recommend strategies for enhancing reliability and scalability.

In addition to our technical capabilities, we prioritize transparency, communication, and collaboration throughout the project lifecycle. We are committed to fostering a partnership with WV Information Technology built on trust, professionalism, and mutual success.

Enclosed with this letter is our detailed proposal, which provides a comprehensive overview of our approach, methodology, timeline, pricing, and relevant qualifications. We are confident that our proposal aligns with your objectives and requirements and that Techbeans is the ideal partner to support your initiatives.

Thank you for considering Techbeans for this opportunity. We are eager to discuss our proposal further and address any questions or concerns you may have. Please do not hesitate to contact us at [sai.palanati@tecbeans.com](mailto:sai.palanati@tecbeans.com) to arrange a meeting or to clarify any details.

We appreciate the opportunity to be of service and look forward to the possibility of working together on this project.

Sincerely,

Sai Palanati
