TEMPORARY NURSING STAFFING SERVICES

To use this pricing page electronically enter the "rate per hour" in each cell as a dollar value and the spreadsheet should fill in the totals automatically. Should the spreadsheet not automatically calculate the totals or you complete this on paper you would need to multiply the estimated annual usage hours by the rate per hour to get the extended price. It is understood through the specifications that the overtime rate is 1.5 times the regular hourly rate for that classification. A 1.5 multiplier will be assigned to each vendor hourly rate by the evaluation committee to verify the Overtime rate bid is correct. Once lines 1 - 9 have their extended price add all the extended prices together to get the total for the bid.
