By submitting a bid, or entering into a contract with the State, Vendor is affirming that (1) for construction contracts, the Vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, neither the Vendor nor any related party owe a debt as defined above, and neither the Vendor nor any related party are in employer default as defined in the statute cited above unless the debt or employer default is permitted under the statute.

38. CONFLICT OF INTEREST: Vendor, its officers or members or employees, shall not presently have or acquire an interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

39. REPORTS: Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

☒ Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.

☐ Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.division@wv.gov.

40. BACKGROUND CHECK: In accordance with W. Va. Code § 15-2D-3, the State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check. Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
 1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
 2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

43. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the Vendor must submit to the Agency a disclosure of interested parties prior to beginning work under this Contract. Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

44. PROHIBITION AGAINST USED OR REFURBISHED: Unless expressly permitted in the solicitation published by the State, Vendor must provide new, unused commodities, and is prohibited from supplying used or refurbished commodities, in fulfilling its responsibilities under this Contract.

45. VOID CONTRACT CLAUSES: This Contract is subject to the provisions of West Virginia Code § 5A-3-62, which automatically voids certain contract clauses that violate State law.

46. ISRAEL BOYCOTT: Bidder understands and agrees that, pursuant to W. Va. Code § 5A-3-63, it is prohibited from engaging in a boycott of Israel during the term of this contract.

RE: Scheduled/Unscheduled and/or Emerg Repairs on Helicopters AVN2500000001

Summit Helicopters, Inc. would like to take the time to thank you for allowing us the opportunity to provide pricing for the support of West Virginia's current fleet of Bell Helicopters. Summit has a long history of supporting Bell airframes as both an operator and maintainer, which affords us the ability to better understand the State's needs and requirements and ultimately provide the best support possible. Also, the experience gained over the last four years supporting West Virginia on the previous contract affords Summit the ability to better predict the needs of the State's Aviation Unit and ultimately provide improved aircraft availability. Additionally, the close proximity of Summit Helicopters' location in Salem, VA, which is less than 100 nm's from Charleston, allows us to provide the quickest support of any other approved Bell facility in the area.

Summit Helicopters has been in business since 1980 and was named an FAA Repair Station and Bell Customer Service Facility in 1985. Over the last 40 years Summit has had the opportunity to support many large state and local government aircraft operators throughout the United States to include the New York State Police, City of New York Police Department, Nassau County PD, Fairfax County PD, Virginia State Police, City of Virginia Beach & Metro Nashville Police Department, as well as the State of West Virginia's Helicopter Fleet. Summit is comprised of a team of 70 employees dedicated to supporting our customers worldwide. We currently have a staff of 16 A&P Mechanics with an average of over 16 years of experience maintaining Bell aircraft ranging from the 206, 505, 407, 429, 412, OH-58, UH-1H & Huey II. We also employ a team of avionics technicians to support the modern-day requirements of our police customers. The roster of A&P mechanics, Inspectors and Avionics Technicians has been provided below for your review.

Summit Helicopters provides additional support options for our customers that are not standard in the industry and have not been requested in the bid package. First off, Summit designed, built, owns and operates a custom trailer for the transport of aircraft that are unable to be flown due to maintenance issues or other grounding items. Our team has successfully performed over 15 aircraft recovery/transport missions using Summit's custom trailer equipment which saves our customers time, undue expense and headaches. Another option Summit provides for improved customer aircraft availability is fixed wing support via the airplanes owned and operated by Summit Helicopters. Summit's King Air 200 and Cessna 182 allow quick transport of personnel and parts when time is of the essence, which allows the customer to get back in the air as soon as possible. These additional support options have been and will continue to be made available to the State of West Virginia as part of Summit Helicopters total support package.

Summit operates a full-service component repair and overhaul facility approved by both the FAA and Bell. We perform in house maintenance and overhaul on all rotating components found on the Bell 206 and 407 series aircraft to include but not limited to transmissions, rotor heads and tail rotor gearboxes. Any items that we do not have the capability to repair in house will be sent out to approved vendors that have passed our quality checklist. Additionally, prior to sending items to any outside vendor we will get the State's approval on the company that will be used. A list of proposed outside vendors has been provided below for your evaluation, however, this list is not exhaustive nor definitive and will be amended at the State's request.
