2 Product Specification

2.1 SEEKER Pro Trace Drug and explosive Detector

Introducing the groundbreaking SEEKER Pro Drug and Explosive Detector, the ultimate solution for rapid and precise substance screening. This cutting-edge device sets a new standard in detection technology, surpassing its predecessors in speed, accuracy, and versatility. Developed in collaboration with the esteemed US Department of Defense, the SEEKER Pro is a heavy-duty powerhouse designed to meet the most demanding security challenges head-on.

Unrivaled in its performance, the SEEKER Pro employs state-of-the-art Spectrum Matrix Analysis technology and advanced algorithms to swiftly detect and identify a wide range of illicit drugs and explosive substances. With its lightning-fast response time, security personnel can quickly assess potential threats in real-time, ensuring efficient screening processes and enhanced public safety.

SEEKER Pro boasts of an unbeatable library of test cards, meticulously crafted to accurately detect and classify substances of concern. This extensive collection encompasses an exhaustive range of narcotics, dangerous chemicals, and explosive compounds. Whether it's combating the drug trade or countering terrorism, the SEEKER Pro delivers unmatched confidence and reliability.

Built to withstand the rigors of demanding environments, the SEEKER Pro boasts a heavy-duty construction, ensuring durability and longevity. Its rugged design allows it to thrive in challenging conditions, making it an indispensable tool for law enforcement agencies, military personnel, and security professionals.

With the SEEKER Pro, time is of the essence. Its remarkable speed, exceptional accuracy, and wide library of test cards empower security teams to swiftly identify potential threats, enabling proactive responses and safeguarding lives.

Benefits

- **Vast Library of Explosive and Drug Threats** – The SEEKER Pro detects all groups of explosive threats at once, including TATP, HMTD, RDX, TNT, C4, Black powder, smokeless powder, ammonium nitrate, and all major drug threats such as fentanyl, heroin, cocaine, meth, synthetics, xylazine, PCP, GHB, CBD, THC, and more
- **Advanced LCD Touch Screen Display** – All-new on the SEEKER Pro, increased efficiency and navigation with smart, touch screen capabilities. Easily tap through testing options, result interpretation and data management with this next generation detector.
- **Ruggedized, MIL-STD 810H Protection** – Like its predecessor, the SEEKER Pro is built to conquer any and all environments. From frigid winters to the most scorching heats.

Features

- Unmatched explosive and drug detection suite
- Crisp LCD touchscreen display
- Under 30 second power up from a cold start
- Massive 1000,000 test results storage library
- Dominant battery life of over 300 tests or 12+ hours of use
- Available in any language

2.2 Apex 7 Raman Spectrometer

Discover the Apex R7 Raman Spectrometer, a groundbreaking innovation that redefines the standards of substance analysis. With its unparalleled speed, accuracy, and portability, this state-of-the-art device outshines all other Raman spectrometers on the market. Developed in collaboration with the esteemed US Department of Defense, the Apex R7 embodies cutting-edge technology in a compact, pocket-sized form factor, providing users with an exceptional solution for on-the-go substance identification.

Equipped with advanced features and an expansive substance library, the Apex R7 delivers unrivaled performance in identifying and analyzing a wide range of substances. Its enhanced speed ensures rapid results, allowing for quick decision-making and efficient screening processes. By harnessing the power of Raman spectroscopy, the Apex R7 offers high precision in substance identification, ensuring accurate and reliable analysis every time.

The Apex R7's crowning glory lies in its unbeatable library, housing an impressive collection of 24,000 items. This comprehensive database encompasses an extensive range of chemicals, pharmaceuticals, narcotics, explosives, and more, enabling users to identify substances with utmost confidence. From law enforcement agencies combating drug trafficking to security professionals mitigating potential threats, the Apex R7 equips individuals with a robust toolkit for effective substance analysis.

Designed with versatility in mind, the Apex R7 is crafted to be pocket-sized, ensuring convenience and ease of use in various environments. Its compact form factor allows for

effortless portability, making it the ideal companion for field operations, inspections, and on-site testing. The device's user-friendly interface and intuitive controls further enhance its accessibility, enabling both seasoned professionals and novices to utilize its capabilities with ease.

Through collaboration with the US Department of Defense, the Apex R7 has undergone rigorous testing and refinement, meeting the stringent requirements of the most demanding applications. This partnership ensures that the device is built to withstand the challenges of real-world scenarios, making it a reliable and dependable tool for critical missions and security operations.

Elevate your substance analysis capabilities with the Apex R7 Raman Spectrometer. Embrace the future of portable identification technology, backed by the expertise of the US Department of Defense, and empower yourself with the confidence to make informed decisions in the face of uncertainty.

Benefits

- **Point-and-shoot Identification** – Easily scan and identify unknown substances in seconds. The Apex R7's lightweight structure makes it the most mobile and versatile Raman device in the field
- **Vast Library of Explosives, Chemicals and Drugs** – The Apex R7 contains 24,000 library items including military explosives, homemade explosive materials, drugs, explosives, precursors, plastics and common household materials
- **Interoperable Display Capabilities** – Connect the Apex R7 to Android smartphones and tablets to use with the free MobileDetect App

Small Size. Big Insights

- Miniaturized, handheld Raman spectrometer
- Non-contact identification of explosives, chemicals, drugs, narcotics, precursors and mixtures
- Lightning-fast results in 20 seconds or less
- High accuracy library matching with Cross Peak Correlation algorithm
- Simple, point-and-shoot operation with no downtime or calibration
- Ruggedized for the most extreme environments

Simplicity Meets Precision

- Widest range of field identification available.
- Unbeatable 24,000 library items and counting.
- Effortlessly powered with smartphones and tablets.
- Free reporting and analysis companion app.
- Run over 200 tests on one charge.
- Available in any language.

SOLICITATION NUMBER: CRFQ MAP25*01

Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as ("MAP25*01") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- ☐ Modify bid opening date and time
- ☐ Modify specifications of product or service being sought
- ☒ Attachment of vendor questions and responses
- ☐ Attachment of pre-bid sign-in sheet
- ☐ Correction of error
- ☐ Other

Description of Modification to Solicitation:

1. To respond to vendor technical questions, see attached.
2. Bid opening date and time remains July 23, 2024, at 1:30 pm. Est.

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

Addendum 1
CRFQ 0601 – MAP2500000001
Drug & Explosives Detector

Vendor Questions and Agency Responses:

1. Item one you list number Seeker Pro – NARC. The Narc version of the Seeker and apex does NOT detect explosives. If you are looking for Full versions you need to change the “Narc” to Full on the item number. Otherwise the ability to detect explosives will not be included. You list the ability to detect things like TNT and others, so I would believe you are looking for the full versions and want to clarify as pricing is based off different versions.
A. The Agency is seeking the Seeker Pro – NARC. Drug detection only, no explosives.
2. Can you please specify in contract item 2: You ask for apex(2) of them but list: Item Number Seeker Pro Apex – Narc – The item number is our Combo kit, meaning you get both a seekerPro and Apex together meaning you would get 4 devices total here. Also the Narc version does not include explosives.
A. The Agency is seeking 2 – Seeker Pro Apex’ – Narc combo kits.
3. This would be then a total of 10 Seeker Pro’s and 2 Apex devices. Are you looking for 2 combo pricing kits? Or Just Apex and Pros separately, as outlined on the price sheet?
A. Item 3.1.1 – Agency is seeking eight (8) Seeker Pro – NARC Detectors.
B. Item 3.1.2 – Agency is seeking two (2) Seeker Pro Apex’ – Narc combo kits.
