ALIREZA DABIRI

MAINFRAME APPLICATION PROGRAMMER TECHNICAL STAFFING SERVICES

PROFESSIONAL SUMMARY

- Over 25 years of experience in IBM mainframe programming using COBOL, CICS, DB2, JCL, and VSAM
- Strong background in DMV systems, including major work with North Carolina DOT/DMV and SADLS
- Hands-on experience with ETL processes and data integration using mainframe tools
- Worked extensively in healthcare and banking domains with clients like Aetna/CVS Health and Bank of America
- Provided mainframe support to multiple West Virginia state departments across various sectors
- Experienced in compliance-driven system modernization and legislative updates
- Integrated mainframe systems with web applications using IBM MQ and web services
- Led legacy system migrations from MS-BASIC/Access to Microfocus COBOL/CICS/DBX
- Supported FBI Fingerprint Center in maintaining national fingerprint minutiae systems
- Skilled in debugging, performance optimization, and maintaining mission-critical batch and online applications

TECHNICAL SKILLS

Hardware	IBM Mainframe
Languages	COBOL, PL/I, PL/AS, JCL, SQL, PL-SQL, BASIC, ASSEMBLER
Databases	DB2, IMS/DB, IDMS, SAS, VSAM, ORACLE
Online	CICS, IMS/DC
Operating Systems	OS/VS, MVS, MVS/ESA, MVS/XA, Z/OS
Industries	Government, Order Processing, Property Valuation, Transportation, DMV Systems, Inventory Control, Point of Sales, Manufacturing, Customer Service, Medicare/Medicaid (MMIS), ETL,

PROFESSIONAL EXPERIENCE

Infosys Global, Limited – Richardson, TX
Mainframe Programmer

Jul 2022 – Jan 2025

Aetna/CVS Health

- Worked on Operational Reporting System (ORS) on modification, design, and coding of various programs for health insurance reporting systems for users and providers using COBOL, CICS, DB2, TSO/ISPF, JCL, VSAM, IBM utilities, Endeavor, Agile methodology CA7 tools.
- Developed and maintained operational reporting systems for healthcare and banking clients using COBOL, CICS, DB2, VSAM, JCL, and IBM utilities on IBM Z/OS.
- Handled ETL processes involving mainframe DB2 databases, leveraging batch JCL and COBOL programs for data transformation and third-party integration.

Bank of America

- Worked on a 13-month project in Customer Notification Engine (CNE) using COBOL, CICS, DB2, TSO/ISPF, JCL, VSAM, IBM utilities, Endeavor, Agile methodology CA7 tools.
- Work involved ETL (Extract Transform Load) to extract/unload data from DB2 tables, select certain field/columns into flat files, add relevant information to records and send to third party vendor(s) to send to customers' smart phones/emails.

NR Consulting Service - Raleigh, NC Senior Mainframe Consultant

Oct 2021 – Jul 2022

- Worked at North Carolina Department of Transportation/DMV in maintaining SADLS (State Automated Driver's License System) in streamlining/enhancement to web-CICS-web message queueing (MQ) for driver's license applications.
- Writing/modifying programs using COBOL, CICS, DB2, TSO/ISPF, JCL, VSAM, ENDEVOR for Department of Motor Vehicles.
- Maintained and enhanced DMV mainframe systems including the State Automated Driver's License System (SADLS) using COBOL, CICS, DB2, and JCL in a high-volume, regulated environment.
- Designed and implemented message queue (MQ) solutions to integrate web-based front ends with legacy CICS back-end services.
- Work involved modifying/creating programs to conform to newly enacted laws/regulations, sending customers emails, notification of driving license status and other related Department of Motor Vehicle information.

Freelance system development

Nov 2018 – Aug 2021

- Converted a point-of-sales/inventory control system from MS-BASIC/MS-DB into Microfocus COBOL/CICS/DBX.
- Work involved converting an inventory control and point of sales system from Microsoft Basic and Access database to Micro-focus COBOL CICS and DBX (clone of DB2).

WV State Government, Charleston, WV Mainframe Programmer/Analyst IV.

Feb 2001 – Nov 2018

- Work involved projects in several state government agencies including the Department of Military Affairs and Public Safety, Department of Health, Department of Tax and Revenue, Department of Education, Department of Highways.
- Supported multiple West Virginia state agencies by developing and maintaining mainframe systems using COBOL, CICS, DB2, and JCL in IBM mainframe environments.
- Utilized IBM tools and TSO/ISPF utilities for system debugging, file manipulation, and performance optimization.
- Developed and modified complex batch processes for data validation, reporting, and integration with third-party government systems.
- Worked on maintaining existing programs and writing new ones.

FBI Fingerprint Center - Clarksburg, WV
Senior Technical Consultant.

Sep 2000 – Feb 2001

- Worked at FBI Fingerprint Center in developing/modifying programs using COBOL, CICS, DB2, JCL, TSO/ISPF to maintain fingerprint minutiae available for law enforcement agencies throughout U.S.
- Provided fingerprint information in the form of minutiae to law enforcement agencies.

Continuity Solutions, Inc. - Powell, OH
Senior Mainframe Consultant

Aug1990 – Sep 2000

- Work involved projects in several companies including IBM in Lexington, KY, Cincinnati Bell Information Systems in Cincinnati, OH, US Shoe Corp. in Cincinnati, OH, Ohio Department of Health and Limited, Inc. as follows:

Limited, Inc. - Columbus, Ohio -

Oct 1999 – Sep 2000

- Worked on retail system for clothing and store inventory using COBOL, CICS, DB2, VSAM, IMS-DB/DC, IDMS, JCL, EDI, TSO/ISPF. Work involved programming inventory control at corporate, import volumes, store inventory volumes, process control and other related retail systems.

Ohio Department of Health -

Jul 1996 – Sep 1999

- Worked on Medicare/Medicaid MMIS (Medicare/Medicaid Information System) in developing/modifying programs to comply with federal/state regulation changes using COBOL, CICS, DB2, VSAM, IMS-DB/DC, JCL, TSO/ISPF.

US Shoe Corporation -

Jun 1995 – Jun 1996

- US Shoe Corporation has recently acquired a new company, Marx & Newman. The project was to convert/adapt Marx & Newman's existing system to US Shoe's inventory control system using COBOL, CICS, DB2, VSAM, JCL, TSO/ISPF

Cincinnati Bell Information Systems

May 1993 – May 1995

- Worked on cell phone billing system in developing/modifying programs using COBOL, CICS, DB2, IMS-DB/DC, JCL, TSO/ISPF.

IBM Lexington, KY -

Aug 1990 – May 1993

- Worked in developing CICS programs to use AT&T's Ident-A-Call feature to display a customer's inventory and services for customer service representative to identify the customer and its inventory of hardware and services and dispatching a field technician via radio telecommunication to customer site, using PL/AS (Programming Language for Advanced Systems), COBOL, CICS, DB2, JCL, VM, TSO/ISPF.

EDUCATION

- B.S. Computer Science and Data Processing, West Virginia University Institute of Technology, Montgomery, WV
- B.S. Business Management, West Virginia University Institute of Technology, Montgomery, WV

VIJAY RAO TILLERI

MAINFRAME APPLICATION PROGRAMMER TECHNICAL STAFFING SERVICES

PROFESSIONAL SUMMARY

- 19+ years of hands-on experience in IBM Mainframe technologies with deep technical expertise in COBOL, JCL, DB2, VSAM, CICS, CSP, and Easytrieve across highly regulated domains like government, transportation, insurance, financial services, and unemployment systems.
- Proven track record in both development and maintenance of enterprise-level batch and online applications, supporting mission-critical systems under tight deadlines and compliance-driven environments.
- Expert in JCL and batch job management, including the design, automation, and troubleshooting of complex job flows (daily/monthly/yearly cycles) with strong experience using CA-7, ESP Master, and associated scheduling tools.
- Strong understanding of mainframe database management, including performance tuning, schema updates, and utilities like BMC, RCUPDAE, SPUFI, and QMF, ensuring high reliability and data integrity.
- Demonstrated leadership as Technical Lead on multiple large-scale modernization and legacy support projects, with team sizes ranging from 5 to 15 members.
- Extensive experience working with Maryland state agencies like MDOT and DLLR, including systems such as RSTARS, ADPICS, and MABS, ensuring compliance with AICPA, GFOA, and state/federal regulations.
- Led the development and support of systems for Unemployment Insurance Benefits, Financial Accounting, Purchasing, Licensing, and Import Billing, including UI eligibility determination, employer chargebacks, and commercial invoice generation.
- Adept at working with CICS Web Services, SOAP/XML integrations, and interfacing with distributed systems (.NET), making his skills transferable to AAMVA interfaces (CDLIS, PDPS, S2S) and other real-time integration architectures.
- Experience in mainframe modernization initiatives, including reverse engineering, data migration, refactoring legacy code, and transitioning systems to align with current technological and regulatory standards.
- Strong documentation, analysis, and stakeholder communication skills, regularly preparing technical design documents, test plans, and impact assessments while coordinating closely with business and QA teams.
- Tools and platforms expertise includes XPEDITOR, ENDEVOR, CHANGEMAN, INTERTEST, FILE-AID, NDM, LETSMOVE, and more.
- Known for consistent delivery, production support ownership, and leading cross-functional teams through the entire SDLC – from requirements gathering to deployment and post-implementation support.

TECHNICAL SKILLS

Operating System	MVS, MS-DOS, UNIX, WINXP, VISTA
Languages	COBOL, CSP, JCL, XML, C, C++, JAVA, .NET

OLTP	CICS
GUI	MQSERIES, VB 6.0
Database	SQL, MYSQL, SQLSERVER, DB2, IDMS, IMS, VSAM, ORACLE
Tools	XPEDITOR, ENDEVOR, CHANGEMAN, BMC, INTERTEST, ETL, FILE AID, SPUFI, EASYTRIEVE, JSON, CA-7, QMF, RCUPDAE, SAVERS, ESPMASTER, NDM, LETSMOVE
Mainframe Related	Vision Plus

PROFESSIONAL EXPERIENCE

Project Name: Import Billing United Parcel Service

Feb 2024 – Present

- Analyze root causes for batch job failures, take appropriate corrective steps to resolve issues in a timely fashion
- Actively participate in peer reviews
- Independently research problems and provide solutions
- Create or update documentation as needed
- Making changes to JCL/PROCS and creating new JCL based on requirement
- Making changes to existing COBOL/DB2/CICS/VSAM programs, coding new programs based on requirement.
- Preparing test cases, developing test strategies and test plans using domain knowledge
- Evaluate impacts of database schema changes on existing software components

System Of Accounting Record (SOAR) Nextgen

May 2022 – Dec 2023

- Worked with business partners to define requirements and solutions
- Document functions and changes to new or modified programs
- Coordinate with other team members to reach project milestones and deadlines
- Produce and analyze data extracts from the system
- Debug and troubleshoot production issues, providing timely resolution and root cause analysis
- Making changes to existing COBOL/DB2/CICS/VSAM programs, coding new programs based on requirement.
- Preparing test cases, developing test strategies and test plans using domain knowledge
- Provide ongoing maintenance of the system and lead development and maintenance projects
- Performed detail analysis for maintenance and enhancement projects, both batch and online.

Maryland Automated Benefit Systems (MABS) Maryland Department of Labor and licensing (DLLR), USA

April 2012 – April 2022

- Captured business requirements by conducting meetings with business users and translated them into functional specifications.

- Analyzed and modified existing COBOL/CICS/DB2/VSAM programs; coded new programs for both batch and online processing.
- Conducted, documented, and presented impact analysis for proposed system changes.
- Analyzed, designed, and created new JCLs and PROCs for daily, monthly, and yearly reporting purposes.
- Participated in on-call support to resolve production issues, including off-hours (night and weekend) support as needed.
- Prepared test data and supported test activities, including creation of test plans and test cases, enhancement testing, and result tracking.
- Led development and maintenance projects from initiation through completion.
- Directed projects through all life cycle phases, defining project scope, milestones, requirements, and deliverables.
- Created comprehensive software design documents to guide development and ensure alignment with business requirements.
- Assisted with production implementations and performed validation activities to ensure successful deployment.
- Provided support in legacy modernization efforts, including system analysis, reverse engineering, data extraction and transfer, validation, and testing.

Financial Management Information System
Maryland Department of Transportation (MDOT), USA

June 2006 – Feb 2012

- Modified existing batch and online programs; created new programs and reports as needed.
- Updated CICS Web Services (SOAP and REST) for both inbound and outbound applications, which interfaced with the Maximo application through .NET.
- Participated in on-call support to resolve production issues, including off-hours (night and weekend) support.
- Prepared test cases and developed test strategies and test plans using domain knowledge.
- Conducted unit testing to validate individual program components.
- Reviewed and assisted with technical design and programming specifications.
- Performed systems integration testing to ensure seamless data and process flow across modules.
- Delivered system support services, addressing user issues and ensuring application stability.
- Assisted in production implementations and validated successful deployments.

Global Whirl Technology (GWT)
HOUSEHOLD HSBC., USA

Dec 2004 – Feb 2006

- Based on the Client requirements creation of Technical Specs, Test scripts, Coding and testing.
- Involved in core enhancements.
- Subsystems Worked: CMS

Credit Decision Management System (Vision Plus)-Foreign Address Parsing
HOUSEHOLD HSBC., USA

Nov 2003 – Nov 2004

- Involved in enhancing the Credit decision Management system (CDM)

- Involved in coding, testing and peer reviews.
- Requirement Analysis
- Version Control Management

**New States Functional Changes Project
21st Century Insurance Company-USA**

Jan 2003 – Nov 2003

- Analyzed requirements to understand business needs and technical feasibility.
- Coded application components based on specifications and design documents.
- Participated in on-call support to resolve production issues as needed.
- Prepared test cases and developed test strategies and test plans using domain knowledge.
- Conducted unit testing to verify functionality of individual modules.
- Reviewed and assisted with technical design and programming specifications.
- Performed systems integration testing to validate end-to-end workflows.
- Delivered system support services to ensure application performance and stability.

SOLICITATION NUMBER: CRFQ DMV2500000004

Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as CRFQ DMV2500000004 ("Solicitation") to reflect the change(s) identified and described below.

Applicable Addendum Category:

- ☐ Modify bid opening date and time
- ☐ Modify specifications of product or service being sought
- ☒ Attachment of vendor questions and responses
- ☐ Attachment of pre-bid sign-in sheet
- ☐ Correction of error
- ☐ Other

Additional Documentation:

Vendor Question and Response

Bid Opening remains 05/01/2025 at 1:30pm

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ADDENDUM ACKNOWLEDGEMENT FORM
SOLICITATION NO.: CRFQ DMV2500000004

Instructions: Please acknowledge receipt of all addenda issued with this solicitation by completing this addendum acknowledgment form. Check the box next to each addendum received and sign below. Failure to acknowledge addenda may result in bid disqualification.

Acknowledgment: I hereby acknowledge receipt of the following addenda and have made the necessary revisions to my proposal, plans and/or specification, etc.

Addendum Numbers Received:
