Mr. Larry D. McDonnell
State of West Virginia
Department of Administration
Purchasing Division

Charleston, WV 25305

Dear Larry,

Since our founding in 2018, Purplegator has been a trusted provider of professional video production services for clients ranging from private businesses to government agencies. Our video production capabilities include creative concept development, filming, editing, animation, and distribution across both digital and traditional media platforms.

Although Purplegator is headquartered in Pennsylvania, we maintain strong professional and personal ties to West Virginia. Our President and CEO, Bob Bentz, is a proud graduate of both West Virginia University and Marshall University and currently serves as an adjunct professor at WVU, where he teaches graduate-level coursework in mobile marketing.

Purplegator is no stranger to West Virginia's economic and cultural landscape. We currently serve as the marketing agency for Charleston-based Faster West Virginia and Advantage Valley, both of which support economic development in the Charleston-Huntington corridor. Additionally, we provide marketing services to numerous businesses throughout northern West Virginia, including the WVU Alumni Association.

We believe that our regional expertise, professional experience, and deep personal commitment to West Virginia uniquely position us to help the West Virginia Conservation Agency tell its story through compelling and high-quality video content.

We welcome the opportunity to bring your conservation mission to life through impactful visual storytelling.

We look forward to the establishment of a mutually beneficial relationship.

Sincerely,

Bob

About Purplegator

Purplegator is a marketing agency headquartered in suburban Philadelphia that provides comprehensive and integrated promotional solutions for a large variety of clients in a number of diverse industries.

Purplegator is a spin-off from Advanced Telecom Services (ATS), established in 1989, with international offices in Philadelphia, Toronto, London, Taipei, and Prague. ATS began as a start-up, with no outside financing, and grew to \$62.2 million in annual revenue. Purplegator has enjoyed tremendous success since the end of the pandemic. In 2022, it was named the 64th fastest growing company in the Northeast by Inc. magazine. In 2023, Purplegator was named to the Inc. 5000 as the 1,496th fastest growing private company in the United States. Moreover, it was honored to be named the 11th fastest growing company in the Philadelphia metropolitan area by Philly 100. Most recently, Purplegator was named the 123rd fastest growing company in The Americas by Financial Times.

Purplegator is a subchapter S Corporation. We have 23 employees with specialists in nearly all disciplines of mobile, digital, and traditional advertising, marketing and communications. We are small enough to be nimble, yet large enough to have specialists in every marketing strategy that best suits your needs. People often ask us why they should hire an agency when they could simply hire an in-house marketing person to do the job. While you could hire an outstanding marketing generalist, that person would never be able to obtain the expertise that our staff does when they are working 40+ hours per week on pay per click advertising, SEO, or web design.

"Working with Purplegator has been such an enjoyable experience. Video Production

At Purplegator, we understand that professional video content is one of the most powerful ways to tell your brand's story, engage your audience, and drive results. Our experienced video production team specializes in creating high-quality, compelling videos that align with your brand's vision and help you reach your goals.

Project Scope and Approach

Our video production process is designed to bring your story to life from concept to completion. We follow a structured yet flexible approach, ensuring the final product resonates with your audience and achieves maximum impact. Here's an overview of our production process:

- 1. Discovery & Concept Development**

We start by working closely with your team to understand your objectives, brand voice, and target audience. Based on this discovery phase, we'll create a concept and script tailored to your message, ensuring it aligns with your overall marketing strategy.

- 2. Pre-Production Planning**

In the pre-production phase, we plan every detail to ensure a smooth production process. This includes storyboarding, location scouting, casting (if necessary), and determining all logistical requirements. We handle all these details, ensuring nothing is overlooked. This includes one person being on location to view the location and take pictures prior to the video production day.

- 3. High-Quality Production**

On the day of the shoot, our team arrives prepared with state-of-the-art equipment, including professional cameras, lighting, and sound equipment. Our experienced crew, which includes a videographer, and a grip or producer, will work efficiently, capturing dynamic, high-quality B-roll footage and interviews that tell your story effectively. We focus on creating visually captivating shots and seamlessly delivering your message.

- 4. Post-Production Editing**

During post-production, our expert editors will transform raw footage into a polished final product. We carefully edit to achieve the best pacing and flow, incorporate music and sound effects, and enhance visuals to ensure the video is both engaging and visually impressive. This phase includes color correction, motion graphics, and any necessary voice-over work.

- 5. Review & Revisions**

We collaborate closely with your team to incorporate feedback and make up to three revisions to the videos. Our goal is to ensure that every detail meets your standards and that the final video exceeds expectations.

- 6. Delivery & Distribution Support**

Once completed, we deliver the final video in formats optimized for various platforms—social media, websites, presentations, or advertising channels. We also provide guidance on best practices for video distribution to maximize reach and engagement.

Video is sight, sound, motion and emotion and **needs** to be part of any online marketing strategy today.
