Commodity Line Comments: The Snyder Tanks have exceptions to the spec. I've attached our alternative (ACE tanks) which range a little bit in size, but pose no exceptions to your specifications.

The snyder tank exceptions include: PVC Bulkheads.

Also, they'd want to do a sidewall drain fitting for the getting the innermost liquid out. We would prefer to use a drop pipe with a check valve which is what I spec'd on the option. That way you are getting the most protection out of your double wall tank.

Also, we have these tanks (ace) in stock and can deliver in probably 2-3 weeks.
