ATTACHMENT A

CRFQ DEP26*36
Potential Hibernacula Surveys Southern
Addendum #1

Q.1. Will acoustic surveys take the place of harp trapping (4.1.1.4), if requested? If so, will the consultant need to analyze the calls and provide results?

A.1. Any acoustic surveys requested by WVDEP AML would not replace any harp trapping to be completed. It would be in addition to the harp trapping, or if feasible for the vendor, at a site not associated with the harp trap surveys. The vendor would need to analyze the calls and provide results if acoustic surveys are requested.

Q.2. Can you give any additional details regarding potential hibernacula survey locations?

A.2. We do not have any specific information regarding the exact locations of projects at this time due to the fact that this contract will be open-ended and used on an as needed basis. We are currently in the process of evaluating our upcoming projects and completing Phase I assessments and speaking with landowners. We currently have projects throughout the southern coalfields.
