Technostaff LLC, doing business as HonorVet Technologies, is pleased to submit our proposal in response to Solicitation CRFQ DMV2600000001 for Mainframe Application Programmer Analysts to support the West Virginia Division of Motor Vehicles.

HonorVet Technologies brings decades of expertise in mainframe programming and application support. Our proposed candidates exceed the mandatory qualifications outlined in the RFQ, with proven experience in COBOL, CICS, JCL, and DB2 within regulated government environments. In addition, our consultants have experience with CA tools (RC/Update, PRF), DMV-related mainframe systems, and compliance with federal and state CDL requirements, including AAMVA systems such as CDLIS and PDPS.

We confirm that our proposed resources are legally authorized to work in the United States and are available to work onsite at DMV Headquarters in Charleston, WV. We further acknowledge our commitment to conducting all required background checks at our cost and to providing all-inclusive hourly and overtime rates as required in Exhibit A.

HonorVet Technologies is dedicated to delivering reliable, responsive, and compliant mainframe support for the WV DMV. We look forward to the opportunity to provide highly skilled professionals who will contribute to the successful operation, enhancement, and modernization of the DMV Drivers' License System. If you have any questions or require further information, please do not hesitate to reach out to us via the contact information below:
