Responses to Questions from Vendors

Question 1

Is this solicitation a rental, lease, or a direct purchase?

Answer 1

This contract is for the purchase of high-visibility uniforms.

Question 2

If rental, how many garments per employee?

Answer 2

Please see Answer 1 above.

Question 3

How many employees and uniforms per for the pilot program division?

Answer 3

There are approximately 325 employees in the initial district to pilot these uniforms. Estimated quantities were based on the pilot district.

WVDOH has approximately 2800 employees who wear WVDOH safety uniforms statewide.

Question 4

Is there a mandatory deadline for delivery of garments whether rental or purchase?

Answer 4

The awarded vendor is expected to coordinate with the district to outfit personnel for the pilot program. While we would prefer the vendor to host an in-person sizing event and size our personnel themselves, having uniforms with them available to try on – this is not a requirement of the contract. Vendors may handle sizing and provide guidance remotely.

Within 10 working days of the award of this contract the vendor will meet with the Agency to provide order forms and instructions to Uniform Coordinators on the ordering process and measuring procedures and sizing guidelines as well as the vendor's process for handling returns and exchanges.

The initial Agency Delivery Order (ADO) submitted to the vendor to place the start-up uniform order will allow specify the delivery start and end dates. Please see section 5.2 of the Contract

specifications for the ADO procedure. To accommodate the start-up needs we will specify a 45-end date on the ADO, for order completion. We will not extend that date without applying liquidated damages.

After the initial start-up has been addressed, additional ADOs shall be delivered for standard orders within 10 working days after orders are received, as per section 6.2 of the Contract Specifications.

Question 5

Are you requiring a vendor to be on site for fittings etc or could we handle remotely as long as we made the returns process easy etc

Answer 5

Please see Answer 4 above.

Question 6

What is the order flow like. Example will you bulk buy 3-4 times a year and bring product into your warehouse or are you expecting us to fulfill orders one a time for employees.

Answer 6

Orders are to be filled as they are received. Orders may be received at any time throughout the life of the contract and vendor cannot hold orders until a minimum quantity is met.

With that being said, the "flow" of orders would most likely involve a large order at the beginning of the contract, and large orders periodically as additional districts are outfitted throughout the life of the contract assuming the first District's pilot is successful. Smaller orders will likely be ongoing as we hire new employees who will need to be outfitted in safety uniforms.

The replacement schedule of garments will be determined at a later time, as we monitor the wear and tear of uniforms under the contract.

Question 7

On the pants are you asking the vendor to hem the pants.

Answer 7

Sizing guidance and order forms should include information regarding inseams. If the ordered inseam is not a standard size, it is expected that the vendor will have the pants hemmed prior to shipment.

3.3.2 Alterations: When providing uniform items for employees with odd numbered waist measurements or sizes, Vendor will supply the next highest even numbered size and be responsible for altering the uniform items to match the employees' size.

Standard alterations shall be made by the vendor at no additional charge to WVDOT, including all hemming to ensure appropriate inseam and sleeve lengths.

Question 8

I noticed it mentioned accepting orders via fax, phone, and email, with an online portal as an additional option... Our approach eliminates inefficiencies and potential errors from manual ordering, which is why—while we can certainly accommodate bulk purchases via email—we do not process individual orders via fax, phone, or email. Would you advise us to submit a proposal under these conditions? We believe our technology aligns closely with your program's goals and can deliver significant efficiency and transparency, but I'd like to confirm that our model would meet your expectations.

Answer 8

Our primary means of ordering is by ADO which must be communicated to the vendor in writing. Our preferred method of communicating orders is through email. We will not accept any restriction requiring orders to be placed in a vendor's ordering portal. Vendors unwilling to accept orders as stated in section 5.1 of the Contract Specifications for any size order should not bid on this contract.

5.1 Ordering: Vendor shall accept orders through regular mail, facsimile, email, or any other written forms of communication.

Question 9

Will WVDOT consider removing or at least negotiating Liquidated Damages

Answer 9

No. While it is very rare that WVDOT imposes liquidated damages, we still reserve that right to do so to protect our interests. Most WVDOT contracts have a liquidated damages rate of \$350 per day or more. This contract has already reduced that amount to \$50 per day.

Question 10

Will WVDOT accept a 90-day warranty?

Answer 10

No, WVDOT will require a 180-day warranty to ensure that only high-quality garments are supplied under this contract. Garments with fabric or seam failures, which have bust or have malfunctioning zippers, or peeling or raveling of the reflective tape - within 180 days of delivery must be replaced at the vendor's expense.

Question 11

Which district will winning vendor be providing uniforms?

Answer 11

This information will be disclosed to the awarded vendor upon award; however, this contract is not limited to only one district. Vendor should be prepared to deliver to any or all districts located anywhere within West Virginia.

Question 12

With alteration requirements and embellishment needs, the turnaround time may be longer than 10 business days, especially for items over 3XL and 46 W

Answer 12

Vendors are required to supply all sizes under this contract. It is recognized that some of the upper XL and tall sizes are non-standard and may require more than 10 days to fulfill. For the safety of our employees, regardless of their size, these orders will still need to be expedited, and the expense related to expediting those sizes should be considered by the vendor when calculating their bid prices.

If the vendor receives an order (ADO) which contains non-standard sizes that will require an extended delivery delay due to the customization needed, the vendor must respond to the ADO request in writing explaining the delivery date issue and proposing an alternative delivery date for those items only. This should be done up front, when the order is received, prior to acceptance of the order. This provides WVDOH with the opportunity to consider whether the delay is reasonable. If in agreement, WVDOH will modify the ADO to include the revised end date, which is the expected delivery by date, and will resubmit the ADO to the vendor for their acceptance. Please see section 6.1 for Acceptance expectations.

Question 13

Who wears the ANSI Class 3 vests? If same people wear ANSI Class 2 shirts, will WVDOH consider simply moving those people to ANSI Class 3 shirts?

Answer 13

The ANSI Class 3 Vests are a requirement of this contract, and we will not accept ANSI Class 3 shirts as a substitution.
