3. GENERAL REQUIREMENTS:

3.1. Contract Items and Mandatory Requirements: Vendor shall provide Agency with the Contract Items listed below on an open-end and continuing basis. Contract Items must meet or exceed the mandatory requirements as shown below.

Note, the specifications of this RFQ and or any WVDOH Standards referenced in and/or attached to this RFQ may include references to specific recognized “industry standard” specifications which are issued by third parties, such as the American Society for Testing and Materials (ASTM) and the American Association of State and Highway Transportation Officials (AASHTO). Such specifications are protected by strict copyright restrictions and cannot be published as part of this RFQ. The ability to access such specifications shall be considered a mandatory requirement for participation in this RFQ process as a Vendor or as a supplier to the Vendor, as applicable.

3.1.1. U-channel Supports

3.1.1.1. The u-channel supports provided by the Vendor shall be supplied by a manufacturer listed on the Materials Division “U-channel Post” Approved Products List (APL) as of the RFQ advertising date. This APL may be found at the following address:

https://transportation.wv.gov/highways/mcst/Pages/APL_By_Number.aspx

3.1.1.2. The APL establishes a list of products that meet the acceptable level of quality and is not intended to reflect a preference or favor any particular brand or vendor. Any manufacturer whose product(s) meet the established level of quality may become an approved supplier and have their product(s) added to the APL in accordance with WVDOH approval procedures.

REQUEST FOR QUOTATION

Manufacturers may submit products for evaluation and APL consideration by following the procedures described in WVDOH Materials Procedure 106.00.02 Guidelines for Establishing Approved Lists of Materials Sources. MP 106.00.02 may be found at: https://transportation.wv.gov/highways/mcst/Pages/newproduct_evaluationprocedure.aspx

- 3.1.1.3.** The posts supplied are to be material that meets requirements of Section 657 of the Standard Specifications.

3.1.2. Breakaway Splice Devices

- 3.1.2.1.** The devices bid by the Vendor shall be a 2-bolt breakaway device provided by the post manufacturer, designed to create a crashworthy, breakaway post splice connection at ground level.
- 3.1.2.2.** The device bid shall be the device provided and recommended by the manufacturer of the supports bid by the Vendor.
- 3.1.2.3.** The device bid shall be accepted by the FHWA as evidenced by a FHWA NCHRP-350 eligibility letter.

3.2. Quality Control:

- 3.2.1.** Cross sectional shape and dimensions: U-channel posts shall be in conformance with the manufacturer's specified cross-sectional shape and dimensions.
- 3.2.2.** Bolt holes: Proper location, alignment, spacing, and clearance of bolt holes are critical for efficient field installation.
- 3.2.2.1.** The first hole on each end of the post shall be 1 inch or less from the end of the post. Exception to this will be allowed if the post flanges are coped on the end to facilitate easier driving, in which case the first hole shall be no further than 1 inch from the upper end of the coped section.
- 3.2.2.2.** Each hole shall be placed in line with the longitudinal centerline of the post web and in line with each other. Posts shall not have holes that are offset on one side of the post web, that "drift" laterally down the length of the post, or that are "zig-zagged" down the length of the post.

REQUEST FOR QUOTATION
Galvanized U-Channel Posts

3.2.2.3. Holes shall be 1 inch on center. Starting from the first hole on either end of the post, each hole shall be an even number of inches from the first hole (example, the second hole from the end shall be 1 inch from the first hole. The third hole from the end shall be 2 inches from the first hole, etc...).

3.2.2.4. The nominal hole diameter after galvanizing shall be 3/8 inch. The actual clearance inside of each hole shall be sufficient to allow a standard ASTM A449 or ASTM A307 5/16 inch bolt galvanized in accordance with ASTM F2329 to pass through without requiring force or reaming of the bolt hole. A minimal number of exceptions to this requirement per post may be allowed at the Agency's discretion.

3.2.3. Length: Post lengths shall be as specified with a tolerance of +/- one (1) inch.

3.2.4. Post Rejection and Reconciliation: The above quality control specifications are not intended to hold the manufacturer or Vendor to unreasonable or unachievable tolerances. Minor deviations which do not cause delays during normal field installation activities are acceptable. By bidding this Contract, the Vendor agrees that the final determination to reject any post supplied under this Contract shall be granted to the supervisor of the maintenance organization that the post is intended for use by.

The nature of the material supplied under this Contract is such that the Agency cannot be reasonably expected to completely inspect each of the individual posts and make a determination in regard to acceptance or rejection of individual posts immediately upon delivery.

With consideration given to the previous statements, the Vendor shall, by bidding this Contract, agree to a pre-determined mechanism for the return and replacement of posts determined by the Agency to be unacceptable. The general steps to this mechanism shall be as follows:

3.2.4.1. If a post is determined to be unacceptable as the material inventory is utilized, this post shall be separated from the maintenance organization's regular inventory. A log of rejected posts shall be kept by the maintenance organization supervisor. A separate log shall be kept for each size post (2 lb/ft, 3 lb/ft, and 4 lb/ft). For each line on the log, the log will document the quality control specification(s) that the rejection of the post(s) was based on (3.2.1, 3.2.2.1, 3.2.2.2, 3.2.2.3, 3.2.2.4, and/or 3.2.3), the post

REQUEST FOR QUOTATION

length, and the quantity of posts matching the length and rejection criteria listed on that line. The maintenance organization will not be required to track rejected posts by other means including, but not limited to, Lot Number or Release Number. Material returned per Section 3.2.4.3 below may include material from multiple Lot Numbers and/or Release Orders.

3.2.4.2. Rejected posts shall be separately stacked by size (wt / ft) and stored in a manner upon which they can be easily loaded and secured onto a flatbed delivery truck at a later date. When the inventory of rejected material has reached a reasonable level, the maintenance organization will contact the Vendor in order to notify the Vendor of the quantity (length) of material by size (2 lb/ft, 3 lb/ft, and 4 lb/ft) to be returned. The Agency maintenance organization supervisor shall determine when a reasonable level of material for return has been reached. No minimum quantity of material is established or agreed to as part of this Contract. The maintenance organization shall be entitled to a quantity of replacement material in each size equal to that being returned. The quantity of different length replacement posts in each size to be supplied in return for the rejected material shall be at the Agency's discretion. The maintenance organization will forward the supervisor's log of the rejected material to the Vendor upon request.

3.2.4.3. Material returns per the above specifications shall typically result in the filing of a Vendor Performance Form. Although this Contract provides for a mechanism to return unacceptable material, excessive occurrences of this nature may result in cancellation of the Contract per provisions provided elsewhere herein.

4. CONTRACT AWARD:

4.1. Contract Award: The Contract is intended to provide Agencies with a purchase price on all Contract Items. The Contract shall be awarded to the Vendor that provides the Contract Items meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages. The Vendor shall be required to provide a bid for all Items listed.

REQUEST FOR QUOTATION
Galvanized U-Channel Posts

- 4.2. Pricing Pages:** Vendor should complete the Pricing Pages by filling in all required information. Vendor should complete the Pricing Pages in their entirety as failure to do so may result in Vendor's bids being disqualified.

The Pricing Pages contain a list of the Contract Items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

Notwithstanding the foregoing, the Purchasing Division may correct errors at its discretion. Vendors should type or electronically enter the information into the Pricing Pages to prevent errors in the evaluation. The Pricing Pages were created as a Microsoft Excel document and Vendor can request an electronic copy for bid purposes by sending an email request to the following address: John.W.Estep@wv.gov

5. ORDERING AND PAYMENT:

- 5.1. Release Orders:** Vendor shall accept orders through wvOASIS, regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line.
- 5.2. Minimum Order Size:** The minimum order size for this Contract shall be 24,000 lbs. of sign supports. There shall be no minimum order size for breakaway splice devices. Breakaway splice devices may be ordered with or separate from u-channel supports.
- 5.3. Payment:** Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia.

6. DELIVERY AND RETURN:

- 6.1. Delivery Time:** The Vendor shall specify a maximum delivery time for orders where provided on Exhibit A. The maximum delivery time shall be in Working Days (Monday through Friday shall be considered Working Days) after receipt of order from the Agency. Vendor shall ship all orders within the time frame specified and shall not hold orders until a minimum delivery quantity is met.

REQUEST FOR QUOTATION
Galvanized U-Channel Posts

- 6.2. Delivery Locations:** Typically, delivery locations will be to, but shall not be limited to, the locations of the ten WVDOH District Headquarters. The cities in which the District Headquarters are located are Charleston, Huntington, Parkersburg, Clarksburg, Burlington, Moundsville, Weston, Elkins, Lewisburg, and Princeton.
- 6.3. Delivery Requirement:** All components shall be shipped adequately and securely. Any material delivered not meeting the above requirement shall be subject to being returned to the Vendor at the Vendor's expense. In this case, the vendor shall be responsible for the shipment of the materials returned to the purchasing organization, packaged as specified above. In addition, the provisions of 6.4 shall remain in effect. The order shall be considered "delivered in full" at the time of the delivery of the returned materials back to the purchasing organization.
- 6.4. Late Delivery:** The Agency placing the order under this Contract must be notified in writing at the Blanket Release Order "Invoice To" address if orders will be delayed beyond the time frame specified in 6.1 for any reason. Any such delay in delivery will be grounds for:
- (a) Cancellation of the delayed order, and/or
 - (b) Obtaining the items ordered from a third party, and/or
 - (c) Subjecting the Vendor to a daily (per Calendar Day) penalty at the purchasing organizations discretion for each Calendar Day beyond the time frame specified in the amount of \$40 until the order is received in full. This penalty shall be assessed by subtracting the penalty from the original total value of the Release Order. This penalty will be applied in cases where, in the purchasing organizations' s judgement, the reason for the delay is within control of the Vendor and/or is not sufficiently supported.
- Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division.
- 6.5. Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice.

REQUEST FOR QUOTATION
Galvanized U-Channel Posts

- 6.6. Return of Unacceptable Items:** If the Agency deems the Contract Items to be unacceptable, the Contract Items shall be returned to Vendor at Vendor's expense and with no restocking charge. Vendor shall either make arrangements for the return within five (5) days of being notified that items are unacceptable or permit the Agency to arrange for the return and reimburse Agency for delivery expenses. If the original packaging cannot be utilized for the return, Vendor will supply the Agency with appropriate return packaging upon request. All returns of unacceptable items shall be F.O.B. the Agency's location. The returned product shall either be replaced, or the Agency shall receive full credit or refund for the purchase price, at the Agency's discretion.
- 6.7. Return Due to Agency Error:** Items ordered in error by the Agency will be returned for credit within 30 days of receipt, F.O.B. Vendor's location. Vendor shall not charge a restocking fee if returned products are in a resalable condition. Items shall be deemed to be in a resalable condition if they are unused and in the original packaging. Any restocking fee for items not in a resalable condition shall be the lower of the Vendor's customary restocking fee or 5% of the total invoiced value of the returned items.

7. VENDOR DEFAULT:

- 7.1** The following shall be considered a vendor default under this Contract.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
 1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
 2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

43. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the Vendor must submit to the Agency a disclosure of interested parties prior to beginning work under this Contract. Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange.
