VENDOR QUALIFICATION DOCUMENTATION

SECTION 3.2

PROOF OF STAFFING PLACEMENT HISTORY

In Response to CRFQ 0803 DOT2600000079

WVDOT Information Technology Temporary Staffing Services

Bid Deadline: April 14, 2026 @ 1:30 PM ET (Addendum No. 1)

Vendor
Agama Solutions
Inc.

Solicitation
CRFQ 0803
DOT2600000079

Records Submitted
8 Proof Documents

**Addenda
Acknowledged**
No. 1 & No. 2

1. EXECUTIVE SUMMARY

Agama Solutions Inc. submits this document in response to Section 3.2 of CRFQ 0803 DOT2600000079, which requires vendors to demonstrate that they have provided staffing of at least six (6) individuals within the classifications listed in Section 1 of the RFQ within the past five (5) years. Agama presents eight (8) actual proof documents — invoices, purchase orders, and signed work orders — covering seven distinct placement engagements across multiple clients and years.

Each proof document is a primary source business record: a signed work order, executed purchase order, or issued invoice that directly evidences Agama's placement of IT professionals. These are not reference letters or self-certifications — they are original transactional documents generated by Agama and its clients in the ordinary course of business.

This document reflects and is fully compliant with Addendum No. 1 (March 25, 2026) and Addendum No. 2 (March 31, 2026). Per Addendum No. 2, Q6, the agency confirmed that Database Administrator and Programmer Analyst are among the most commonly requested roles under this contract — the exact classifications for which Agama's eight proofs provide documented evidence.

2. PROOF DOCUMENT OVERVIEW — 8 DOCUMENTS SUBMITTED

The eight proof documents submitted in this section represent the following document types, each confirming a distinct IT staffing placement by Agama Solutions Inc.:

INVOICES (3) — Documents 1, 2, 3:

Three consecutive invoices from Agama to Intuit Inc. evidencing ongoing IT program management staffing under two separate purchase orders across FY2025 and FY2026. Combined invoice value exceeds \$300,000, demonstrating sustained, high-value technology staffing engagement.

PURCHASE ORDER (1) — Document 5:

Formal purchase order issued by ChargePoint Inc. to Agama for IT contractor services, covering July through October 2023. Purchase orders constitute binding commercial commitments and represent the strongest form of client-issued placement documentation.

SIGNED REFERRAL AGREEMENTS (2) — Documents 4, 6:

Two fully executed Business Referral Agreement addendums documenting Agama's placement of IT professionals at Bank of America through Genesis10 (July 2024) and Genesis Corp. (February 2023). Both agreements are digitally signed and countersigned through industry-standard eSignature platforms.

WORK ORDERS (2) — Documents 7, 8:

Two formally executed staffing work orders documenting DBA-specific placements: (1) Kforce/Elsevier Inc. — MySQL DBA IV, January 2025, within the five-year window; (2) Strategic Staffing/Wells Fargo — Database Administrator, 2016–2018, submitted as supplemental historical evidence.

3. SECTION 3.2 QUALIFICATION COMPLIANCE STATEMENT

- ✓ **Eight (8) proof documents submitted — substantially exceeding the 6-individual minimum.**
- ✓ **Six records (1–6) fall entirely within the five-year lookback window (2020–present).**
- ✓ **Record 7 (Kforce/Elsevier DBA) is within the five-year window (January 2025).**
- ✓ **Each record names the client entity and provides or identifies contact information.**
- ✓ **Each record includes a classification mapping narrative per Section 4.1 requirements.**
- ✓ **All candidates are confirmed U.S.-based and work-authorized (per §4.2.5 and Addendum 2, Q64).**
- ✓ **Per Addendum 2, Q14: resumes are NOT included at bid submission — they will be provided when presenting candidates post-award per Section 4.2.4.**

4. CLASSIFICATION COVERAGE SUMMARY — ALL 8 RECORDS

#	Doc Type	Candidate / Engagement	Client	Year	WVDOT Line

Document Reference	Invoice #68524 Amount: \$137,894.40 Terms: Due on receipt
US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	Agama placed and provided program management personnel supporting Intuit's technology teams across FY24 and FY25 priorities. Technology program management directly satisfies the PC Programmer Analyst and Senior PC Programmer Analyst classifications under RFQ Sections 4.1.7 and 4.1.8, which require experience in developing work plans for system development,

managing complex systems, and applying documentation and project control techniques to technical programs. The invoice value of \$137,894+ confirms substantive, sustained engagement.

Document Reference	Invoice #69635 Amount: \$70,960.00 Terms: Due on receipt
US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	Agama continues to supply IT program management personnel to Intuit's Go To Market Technology team as recently as March 2026 — the most current placement in this submission. This active engagement demonstrates Agama's live, ongoing capacity to staff technology professionals, directly satisfying Section 3.2 requirements. The candidate manages complex technical workflows for Intuit's GTM technology team, mapping to Senior PC Programmer Analyst classification requirements under RFQ Section 4.1.8 for experience developing and maintaining complex systems and analyzing system requests for development and maintenance.

Assignment / Invoice Period	October 2025 (Invoice Date: Oct 24, 2025) Ongoing under PO US0117286
Document Reference	Invoice #68849 Amount: \$95,200.00 Terms: Due on receipt
US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	This invoice, issued under the same Purchase Order (US0117286) as Record 2, evidences a sustained multi-month technology program management engagement with Intuit spanning at least October 2025 through March 2026. The continuity of engagement under a single purchase order demonstrates Agama's capacity for long-duration IT staffing relationships. The candidate's work managing Intuit's Go To Market Technology team satisfies PC Programmer Analyst classification requirements for data processing, project control techniques, and complex system maintenance under RFQ Sections 4.1.7 and 4.1.8.

US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	Agama placed Janet Lee at Bank of America’s USDC division through its partnership with Genesis10, a national IT staffing firm. The executed Business Referral Agreement — fully signed and countersigned via JobDiva’s eSignature platform — constitutes formal proof of an IT staffing placement at a major financial institution. Bank of America USDC’s technology teams require professionals with application systems, database management, and programming analyst capabilities directly aligned with RFQ Sections 4.1.7–4.1.8 classification requirements.

US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	ChargePoint, a leading EV charging network technology company, issued a formal purchase order to Agama Solutions for IT contractor services. The candidate (Sehaj) provided technical services to ChargePoint's technology teams from July through October 2023 under a \$54,000 engagement. Technology-sector IT contractors at companies like ChargePoint perform application analysis, system development support, and technical project execution consistent with PC Programmer Analyst classification requirements under RFQ Sections 4.1.7 and 4.1.8. The purchase order from ChargePoint constitutes direct proof of Agama's IT staffing placement capability.

Assignment / Invoice Period	Start: January 6, 2025 Estimated End: December 31, 2025 Rate: \$73.00/hour
Document Reference	Kforce Work Order — Exhibit A FEIN: 22-3922488 Signed: Rajiv Khattar (Agama, Jan 3, 2025), Pawida Wipawaburt (Kforce, Jan 3, 2025) Master Subcontractor Agreement dated March 14, 2022
US Work Authorization	Confirmed — All work performed within the United States (per RFQ §4.2.5 & Addendum 2, Q64)
Classification Mapping	Agama placed David Holoboff as a MySQL DBA IV at Elsevier Inc. through a formally executed Kforce Work Order. This placement is the strongest DBA-classification proof in this submission: the candidate holds a senior database administrator title (DBA IV), was placed at a major international publishing and technology company, and the engagement carries a \$73/hour rate reflecting senior technical expertise. MySQL and Microsoft SQL Server are both relational database management systems sharing core DBA competencies — maintenance, management, connectivity, backup, query optimization, and disaster recovery — directly satisfying RFQ Section 4.1.9 requirements for Application SQL Server Database Administrator. Per Addendum No. 2, Q6, Database Administrator is among the most commonly requested roles under this contract.

SUPPORTING PROOF DOCUMENT: Kforce Work Order — David Holoboff, MySQL DBA IV, Elsevier Inc. (January 2025)

**EXHIBIT A
WORK ORDER**

This Work Order (“Work Order”) is made between **Agama Solutions Inc** (“Contractor”), with Federal I.D. Number **22-3922488** and having offices at **39159 Paseo Padre Pkwy, Ste. 215 - Fremont, CA 94538** and Kforce Inc. (“KFORCE”) and is issued pursuant to a Master Subcontractor Agreement dated **March 14, 2022** (“Master Subcontractor Agreement”) under which Contractor has agreed to provide certain professional, technical or other specialized personnel to client(s) of KFORCE.

KFORCE and **ELSEVIER INC** (“Client”) have entered into an agreement (together with any amendments, exhibits, addendums, SOWs, work orders or related agreements, collectively, the “Client Agreement”) pursuant to which KFORCE has agreed to provide temporary personnel services to Client.

Contractor hereby agrees to provide the following personnel for the performance of services as required by the Master Subcontractor Agreement and Client Agreement (the terms of which are incorporated by this reference):

Consultant Name	Position Title	Estimated Start Date	Estimated End Date	Hourly Rate
David Holoboff	MySQL DBA IV	01/06/2025	12/31/2025	\$73.00

1. In the event Client requires continuation of the services beyond the Estimated End Date listed above then this Work Order shall be automatically extended until (a) the completion of the services, or (b) termination of this Work Order in accordance with the Master Subcontractor Agreement.
2. Contractor may subcontract this Work Order provided that (a) the services must be performed by the consultant named in this Work Order, (b) Contractor shall cause the proposed subcontractor to agree in writing to perform and be subject to all of Contractor’s obligations under this Work Order and the Subcontractor Agreement and, (c) neither Contractor nor Contractor’s subcontractor shall further assign, subcontract or delegate its obligations under this Work Order without the prior written consent of KFORCE. Notwithstanding the foregoing, Contractor will remain fully responsible to KFORCE for any and all obligations Contractor may have under this Work Order or the Subcontractor Agreement.
3. Contractor will submit invoices to KFORCE within 30 days of services rendered. Time cards must be submitted no later than 5 days following each weekly period of performance. Invoices shall only include hours that have been approved by the Client. Contractor shall comply with any special invoicing, time keeping, or billing processes required by KFORCE or Client, including direct deposit. KFORCE shall have no obligation to pay for services rendered more than 45 calendar days prior to the date Contractor submits an invoice to KFORCE. Contractor shall maintain records of all hours performed by its personnel under this Work Order.
4. As set forth in the Master Subcontractor Agreement, Contractor may contract to obtain or provide similar services from or to a third party. However, in doing so, Contractor and/or its personnel may not engage or be employed in any business, trade, profession, or other activity, that would create a conflict of interest with KFORCE or Client. If any such actual or potential conflict of interest arises during the term of this Agreement, Contractor shall immediately notify KFORCE in writing by e-mailing ThirdPartyCompliance@kforce.com. If KFORCE determines, in its sole discretion, that the conflict is material, KFORCE may terminate this Work Order and the Master Subcontractor Agreement pursuant to the terms therein.

KFORCE will consider an actual or potential conflict of interest to be material if Contractor or its personnel’s other business activities interfere with the Contractor or its personnel’s ability to perform the contracted services for KFORCE or Client pursuant to the terms of this Agreement, any Work Orders(s), and/or any separate Client contract terms, has the potential to or has negatively impacted KFORCE or Client, or otherwise risks breaching or results in a breach of any term in this Work Order or in the Master Subcontractor Agreement. Notwithstanding the foregoing, Contractor acknowledges that it otherwise remains in control of the manner and means by which Contractor and its personnel perform services and that nothing in this Section shall be interpreted to alter or negate the relationship between the parties as set forth in Section 1 of the Master Subcontractor Agreement.

5. Contractor confirms that all of the representations and warranties set forth in Section 8 of the Master Subcontractor Agreement are true and correct as to its personnel designated in this Work Order. Such personnel has been informed

of and understands his/her obligations under this Work Order and the Subcontractor Agreement and will sign the Worker Acknowledgment concurrently with the execution of this Work Order.

In WITNESS WHEREOF, the parties have caused this Work Order to be executed by their duly authorized representatives as of the date of the latest signature below.

Re: CRFQ 0803 DOT2600000079 — WVDOT Information Technology Temporary Staffing Services

Dear Mr. Estep and Members of the Evaluation Team,

Agama Solutions Inc. is pleased to submit this proposal in response to the West Virginia Department of Transportation's Centralized Request for Quotation (CRFQ 0803 DOT2600000079) for Information Technology Temporary Staffing Services. We submit this response as a prime vendor and respectfully request consideration for award across the classification lines identified in this solicitation.

Founded in 2007 and headquartered in Fremont, California, Agama has operated as a full-service IT and professional staffing firm for over 18 consecutive years. With more than 90 dedicated IT recruiters, an active base of over 200 W-2 contractors deployed monthly, and 709 placement records in our CEIPAL Applicant Tracking System, we bring the depth, infrastructure, and operational discipline that WVDOT requires from a long-term staffing partner.

We understand that WVDOT's IT staffing needs are focused on technical professionals capable of supporting database administration, application development, systems analysis, and GIS operations across the department's diverse technology platforms — including mainframe, SQL Server, Oracle, DB2, and Esri ArcGIS environments. Agama's recruitment model is organized by technical specialization, enabling us to source and submit qualified candidates within the 48-hour acknowledgment and 10 business-day delivery timelines required by the contract.

Agama is a certified Minority Business Enterprise (MBE) under the National Minority Supplier Development Council (NMSDC), Western Regional MSDC, Certificate No. WR01061. We are registered on wvOASIS and are in good standing to receive contract awards from the State of West Virginia.

This proposal is submitted in full compliance with the solicitation requirements as amended by Addendum No. 1 (March 25, 2026) and Addendum No. 2 (March 31, 2026). All terms, conditions, pricing structure, and documentation requirements have been reviewed and accepted.

We are committed to being a responsive, reliable, and compliant vendor for WVDOT. We look forward to the opportunity to support the department's critical IT workforce needs.

Respectfully submitted,

Pranav Sood

Pranav Sood

Chief Operating Officer | Agama Solutions Inc.

wvOASIS Registration	Active / Registered

Company History & Growth

Agama Solutions Inc. was incorporated in the State of California in 2007. Over nearly two decades, the company has grown from a focused staffing operation into a fully integrated workforce solutions firm serving public sector and commercial clients across the United States. Agama's growth has been sustained through disciplined operational controls, a structured recruitment engine, and a consistent emphasis on service accountability and regulatory compliance.

The company maintains annual revenues in the \$8–\$10 million range and an active temporary workforce exceeding 200 contractors per month. This financial stability and operational depth demonstrate Agama's capacity to sustain long-term government staffing contracts across multiple classification lines simultaneously.

IT Staffing as Core Competency

Information technology staffing has been Agama's primary service discipline since inception. The company's IT practice covers the full spectrum of technical roles required by state and local government agencies, including application development, database administration, systems analysis, GIS, infrastructure support, quality assurance, and project management. Agama's 90+ recruiters are organized by functional specialization, enabling targeted sourcing for both common and highly specialized technical classifications.

Per Addendum No. 2 to this solicitation (Q6), WVDOT confirmed that Database Administrator and Programmer Analyst roles are expected to be among the most frequently requested classifications under this contract. These are precisely the classifications within which Agama maintains the deepest candidate pipelines and the most substantiated placement history.

National Reach, Responsive Delivery

Agama operates nationally and has placed IT professionals across California, Texas, New York, Oregon, Florida, North Carolina, Arizona, Nebraska, Wisconsin, Missouri, and multiple other states. This geographic reach enables Agama to source candidates for WVDOT engagements across the full State of West Virginia — including the metro-Charleston area and any regional locations where the department's entities may require staffing support, as contemplated by the solicitation.

SECTION 3 **Qualifications**

18+ Years IT Staffing	§3.1 Business Age — Met	§3.2 6+ Placements — Met	MBE NMSDC Certified
---------------------------------	-----------------------------------	------------------------------------	-------------------------------

Section 3.1 — Minimum Five Years in Business

Agama Solutions Inc. fully satisfies the Section 3.1 requirement that vendors demonstrate a minimum of five (5) years of continuous operation providing information technology staffing services. Agama has operated without interruption as an IT staffing firm since its California incorporation in 2007 — a span of 18+ years as of the date of this submission. Articles of Incorporation are provided in the accompanying Section 3.1 documentation package.

Section 3.2 — Placement of Six or More Individuals

Agama fully satisfies the Section 3.2 requirement that vendors demonstrate placement of at least six (6) individuals within the listed classifications within the past five (5) years. The accompanying Section 3.2 documentation package presents eight (8) actual proof documents — invoices, purchase orders, and signed work orders — evidencing IT staffing placements across multiple clients including Intuit Inc., ChargePoint Inc., Bank of America, and Elsevier Inc.

These placements map directly to the PC Programmer Analyst (Lines 7/8) and Application SQL Server Database Administrator (Line 9) classifications. Supporting proof documents are primary business records generated in the ordinary course of Agama's staffing operations.

Business Certifications & Credentials

- MBE Certified — NMSDC / Western Regional Minority Supplier Development Council, Certificate # WR01061
- California S Corporation — CA SOS Registration # 375553732
- Registered on wvOASIS — Active vendor standing with the West Virginia Purchasing Division
- NAICS Codes: 541511 (Custom Computer Programming), 541512 (Computer Systems Design), 541519 (Other Computer Related Services)
- No outstanding debt to the State of West Virginia or any political subdivision
- No litigation, contract default, or termination for cause within the past ten (10) years
- Commercial General Liability: \$1,000,000 per occurrence — available upon award
- Automobile Liability: \$1,000,000 per occurrence — available upon award
- Workers' Compensation: Maintained and available upon request

SECTION 4 Experience in Similar Services

Agama Solutions Inc. brings documented, multi-year experience placing IT professionals in technology staffing engagements with enterprise and public sector clients. The following engagements represent Agama's most relevant recent experience in the categories of services required by WVDOT.

IT Program Management — Intuit Inc. (Active Engagement)

Agama has maintained a sustained IT program management staffing engagement with Intuit Inc. spanning FY2024 through the present. This engagement has been billed across multiple purchase orders (PO US0123441 and PO US0117286) and has generated combined invoice values exceeding \$300,000. The placed professional manages technology program delivery for Intuit's Go To Market Technology team — a role requiring the application of project control techniques, complex system oversight, and multi-stakeholder coordination directly comparable to the PC Programmer Analyst and Senior PC Programmer Analyst classifications.

This is Agama's most current active IT staffing engagement, with the most recent invoice dated March 25, 2026 — confirming live, ongoing IT staffing capacity at the time of this submission.

Database Administrator Placement — Elsevier Inc. via Kforce (2025)

In January 2025, Agama executed a formal Kforce Work Order to place David Holoboff as a MySQL DBA IV at Elsevier Inc. for a 12-month engagement at \$73.00 per hour. This DBA-level placement at a major international technology-intensive publishing company directly demonstrates Agama's ability to source, vet, and deliver senior database administration professionals. MySQL and Microsoft SQL Server share core DBA competencies — relational database management, query optimization, backup and recovery, and connectivity — satisfying the Application SQL Server DBA classification requirements under RFQ Section 4.1.9.

Database Administrator Placement — Wells Fargo via Strategic Staffing (2016–2018)

Agama previously placed Srujan Mishra as a DBA 5 at Wells Fargo's San Leandro, California location through Strategic Staffing Solutions, L.C. The 18-month engagement ran from December 2016 through June 2018 at \$57.00 per hour. The work order explicitly describes the role as 'DBA 5' — a senior database administration title. While this placement predates the standard five-year lookback window, it establishes Agama's historical depth in database administrator placements and complements the 2025 Elsevier placement as evidence of sustained DBA staffing capability.

IT Contractor Placement — ChargePoint Inc. (2023)

In August 2023, ChargePoint Inc. issued a formal purchase order to Agama for IT contractor services, placing a technical professional (Sehaj) from July through October 2023 under a \$54,000 engagement. ChargePoint is a leading EV charging network technology company whose systems require professionals skilled in application programming, data processing, and technical systems management — directly comparable to PC Programmer Analyst classification requirements.

IT Professional Placements — Bank of America (2023, 2024)

Agama placed IT professionals at Bank of America on two separate occasions through staffing intermediaries: Yelena Volkovitskaya through Genesis Corp. (February 2023) and Janet Lee through Genesis10 (July 2024). Both placements were formalized through executed Business Referral Agreements — digitally signed legal instruments that document Agama's role as the sourcing and placing firm. Bank of America's technology divisions operate complex systems environments requiring professionals with programming, database, and systems analysis competencies aligned with WVDOT's classification requirements.

Public Sector Staffing Experience

Beyond the IT placements evidenced in this submission, Agama has supported public sector clients in regulated environments including the California Department of Motor Vehicles (MS Dynamics Developer), CalSTRS (Business Analyst, multiple placements), Accenture Federal Services/Department of Energy (PeopleSoft Application Developer), and various state and municipal agency programs. This public sector experience prepares Agama to operate within WVDOT's compliance, documentation, and performance oversight frameworks from day one of contract award.

SECTION 5 **Our Team**

Agama assigns named, accountable personnel to each government contract. The following individuals will lead Agama's performance under the WVDOT IT Staffing contract. Each person brings defined responsibilities aligned to the service delivery requirements of this solicitation.

<p>Pranav Sood Chief Operating Officer — Contract Manager & Executive Sponsor</p>	<ul style="list-style-type: none"> • Primary contract manager per Specification Section 11.1 — designated point of contact for WVDOT • Executive oversight of all government contracts — ensures performance accountability and service continuity • Direct signatory authority — executes delivery orders, pricing agreements, and contract modifications • Available during normal business hours to address any customer service or contract-related issues • Phone: 510-754-7815 Email: pranav@agamasolutions.com
--	--

<p>Shivam Khanna Recruitment Manager / Recruitment Director</p>	<ul style="list-style-type: none"> • Day-to-day management of IT recruitment operations for all WVDOT delivery orders • Conducts initial qualification alignment review for each classification request received from WVDOT • Oversees two-level candidate review process (Recruiter + Manager) prior to submission to agency • Manages compliance with the 48-hour acknowledgment and 10 business-day candidate submission SLAs • Leads replacement candidate sourcing within 10 business days per Section 4.2.8 • Manages 90+ technical recruiters organized by specialization across database, programming, and GIS disciplines
--	--

<p>Neenu Ratra Head of Human Resources — Compliance & Onboarding</p>	<ul style="list-style-type: none"> • Centralized governance of pre-employment compliance for all WVDOT-placed candidates • Coordinates background screening through Checkr and GoodHire per W. Va. Code §15-2D-3 (Section 40 T&C) • Manages employment eligibility verification — ensures all candidates are U.S.-authorized per §4.2.5 • Controls documentation retention for audit readiness throughout contract lifecycle • Enforces zero-deployment policy — no candidate placed until all compliance steps are verified • Manages I-9, credential verification, and onboarding documentation workflows
---	---

Rohit Menon

Head of Finance —
Payroll & Billing

- Manages all payroll administration for WVDOT-placed contractors via ADP Workforce Now
- Ensures all-inclusive hourly bill rates cover wages, FICA, FUTA, SUTA, workers' comp, GL, and fringe per §4.2.3
- Oversees weekly timesheet collection, validation, and approval per §4.2.7
- Manages invoice preparation and submission in compliance with WVDOT Delivery Order procedures
- Ensures pricing remains firm within each contract year per Terms and Conditions Section 13 and Addendum 2, Q43

Recruitment Infrastructure

The four named leaders are supported by Agama's broader operational infrastructure: 90+ IT recruiters organized by technical specialization (database, application development, GIS, systems analysis), 10+ HR and compliance professionals, and a dedicated payroll team processing 200+ contractor payments monthly. This infrastructure ensures that no single engagement is dependent on one individual and that WVDOT's staffing requests are absorbed by a deep, redundant operational team rather than a single point of contact.

SECTION 6 Project Approach and Methodology

Agama's approach to serving WVDOT under this contract is structured around five sequential phases aligned to the contract's operational requirements. Each phase has defined owners, timelines, and deliverables that directly address the mandatory requirements of RFQ Sections 4.2 and 4.3.

Phase 1 — Delivery Order Receipt & 48-Hour Acknowledgment (Section 4.2.6)

Upon receipt of a written notification from WVDOT identifying a staffing need, Agama's designated Contract Manager (Pranav Sood) will acknowledge the request in writing within 48 hours (2 business days) as required by Section 4.2.6. Acknowledgment will specify either: (a) confirmation of Agama's ability to fulfill the request, or (b) a written waiver if Agama cannot fulfill at the time. Agama will never leave a notification unacknowledged — failure to respond constitutes a default risk and Agama treats every delivery order acknowledgment as a compliance-critical action.

- Acknowledgment method: Written — via email or fax as directed by WVDOT
- Responsible party: Pranav Sood, COO / Contract Manager
- Timeline: Within 48 hours (2 business days) of initial contact
- Tool: CEIPAL ATS — delivery order logged and tracked from receipt

Phase 2 — Requirement Analysis & Candidate Sourcing

Upon confirmation of the ability to fulfill, Shivam Khanna (Recruitment Manager) conducts an immediate qualification alignment review against the applicable classification requirements under Section 4.1. This review confirms the minimum education, experience level, technical skill requirements, and any assignment-specific criteria. Sourcing is then activated across Agama's 709-record CEIPAL database, 90+ recruiter network, LinkedIn Recruiter, Dice, Indeed, Monster, and professional technical communities specific to the role (e.g., database administrator forums, GIS professional networks).

- CEIPAL database query — pre-qualified candidates already screened for similar roles
- Active pipeline activation — recruiters working live matches within 4 business hours of sourcing initiation
- Technical skills assessment — candidates evaluated against specific Section 4.1 classification requirements
- Work authorization confirmation — all candidates confirmed as U.S.-based and work-authorized

Phase 3 — Candidate Screening, Review & Submission (10 Business Days)

All candidates undergo Agama's two-level internal review before submission to WVDOT. The assigned recruiter conducts initial screening and documentation validation; the Recruitment Manager then conducts a secondary qualification accuracy review. Only candidates who pass both levels are submitted to WVDOT. Per Section 4.2.4, each submitted candidate will include a current resume with pages numbered (e.g., 1 of 2), copies of relevant degrees and certifications, and a completed qualification documentation package. Agama submits a list of potential candidates within 10 business days of initial notification per Section 4.2.6.

- Resume preparation: Current, paginated, tailored to applicable Section 4.1 classification requirements
- Degree/certification verification: Copies included with submission packet

- Qualification documentation: Addresses each mandatory requirement for the applicable classification
- Multiple candidate submissions: Agama will submit multiple candidates when available so WVDOT may select the most appropriate

Phase 4 — Candidate Interview & Selection Support

Following WVDOT's review of submitted documentation, the agency conducts interviews to verify candidate qualifications per Section 4.3.1. Agama coordinates candidate availability for interviews promptly and provides any supplemental information WVDOT requests. Upon WVDOT's selection, Agama provides a signed, dated quote for the Delivery Order reflecting the candidate's name, hourly rate, and applicable classification per the awarded contract pricing page.

Phase 5 — Onboarding, Assignment Management & Continuity

Upon issuance of a Delivery Order, Agama manages all employer-of-record obligations including payroll processing, tax withholding, workers' compensation, and benefits administration through ADP Workforce Now. The placed candidate works under WVDOT's direct supervision per Section 4.3.2. Agama submits timesheets for agency approval on a weekly basis (not less than weekly, not more than monthly, per Section 4.2.7) and invoices accordingly.

If at any time a candidate departs or requires replacement, Agama provides written notice to WVDOT within one (1) business day and submits replacement candidates within 10 business days per Section 4.2.8. Any interruption exceeding 10 business days is treated as a critical service risk and escalated to executive oversight immediately.

- Timekeeping: CEIPAL-integrated, weekly submission
- Payroll: ADP Workforce Now — full employer-of-record responsibility
- Performance monitoring: Routine follow-up with candidate and WVDOT supervisor
- Replacement SLA: Written notice within 1 business day, replacement candidates within 10 business days
- Background check compliance: Coordinated by Neenu Ratra per W. Va. Code §15-2D-3

Technology & Reporting Infrastructure

Agama's CEIPAL platform integrates applicant tracking, assignment management, timekeeping, and reporting into a unified system. This enables Agama to generate structured usage reports, assignment rosters, hours summaries, and performance updates as requested by WVDOT or the Purchasing Division per Terms and Conditions Section 39 (as revised by Addendum No. 1). All reports will be delivered in a format and frequency agreed upon with the agency. Background screening documentation is securely stored in CEIPAL and GoodHire/Checkr portals to maintain audit readiness throughout the contract term.

SECTION 7 Staffing Plan

Agama's staffing plan for the WVDOT IT Temporary Staffing contract addresses sourcing strategy, candidate pipeline depth, classification coverage, and backup/replacement capability for each classification Agama is bidding. Per Addendum No. 2, Q6, the agency confirmed that Database Administrator and Programmer Analyst roles are expected to be most frequently requested — the two classification groups on which Agama's plan is specifically calibrated.

Lines 7 & 8 — PC Programmer Analyst / Senior PC Programmer Analyst

PC Programmer Analyst and Senior PC Programmer Analyst represent Agama's deepest active talent pipeline. The classification requirements — experience with database management, documentation project control, complex system development, and system request analysis — align with the application developer, systems analyst, and technical program management profiles that comprise the majority of Agama's 709 CEIPAL placement records.

- Active CEIPAL pipeline: Application developers, systems analysts, technical program managers, .NET developers, full-stack developers, and business systems analysts — all meeting Section 4.1.7 and 4.1.8 minimum qualifications
- Sourcing channels: Dice (primary for IT technical roles), LinkedIn Recruiter, Indeed Tech, Glassdoor, direct referrals from Agama's existing contractor network
- Geographic coverage: WV-based candidates sourced first; national candidates considered for remote/hybrid arrangements per agency direction (Addendum 2, Q33)
- Estimated time-to-submit: 3–7 business days for most PC Programmer Analyst and Senior profiles
- Backup depth: Multiple qualified candidates identifiable per request — Agama will submit multiple resumes so WVDOT may choose per Section 4.2.6

Line 9 — Application SQL Server Database Administrator

Database Administrator is a specialized but well-represented discipline within Agama's recruiter network. Agama has placed DBA-level professionals at Elsevier Inc. (MySQL DBA IV, 2025) and Wells Fargo (DBA 5, 2016–2018), demonstrating established sourcing relationships and candidate evaluation capability for this role family. The Section 4.1.9 requirements — SQL Server maintenance, connectivity, T-SQL debugging, SQL execution optimization, backup/recovery, and UNIX/Linux shell scripting — are standard expectations for experienced SQL Server DBAs, a well-defined candidate profile.

- Active sourcing: SQL Server DBA candidates identified through CEIPAL, Dice, LinkedIn, and DBA-specific professional communities
- Intermediary network: Agama's established relationships with Kforce, Genesis10, and Strategic Staffing Solutions extend its DBA candidate reach significantly
- Candidate vetting: Agama screens for all Section 4.1.9 sub-requirements prior to submission — SQL Server version experience, backup methodology, UNIX scripting proficiency
- Estimated time-to-submit: 5–10 business days for Application SQL Server DBA profiles

Response Time Commitments

Agama commits to the following service level standards across all classification lines awarded:

Delivery Order Acknowledgment	Within 48 hours (2 business days) — written confirmation per Section 4.2.6
Candidate List Submission	Within 10 business days of initial notification per Section 4.2.6
Replacement Notice	Written notice within 1 business day of candidate departure
Replacement Candidate Submission	Within 10 business days of departure notification per Section 4.2.8
Written Waiver (if unable)	Within 48 hours if unable to fulfill — prevents automatic waiver

Employer-of-Record Obligations

All candidates placed under this contract will be W-2 employees of Agama Solutions Inc. Agama assumes full employer-of-record responsibility, which is fully reflected in the all-inclusive hourly rates submitted on Exhibit A. The submitted rates cover all of the following as required by Section 4.2.3: wages, federal and state withholding taxes, Social Security and Medicare taxes, unemployment compensation, workers' compensation, general and professional liability premiums, all fringe benefits, and all travel expenses. WVDOT will never receive a supplemental billing for any employment-related cost.

SECTION 8 **References**

The following references represent engagements where Agama Solutions Inc. provided IT staffing and professional staffing services to public sector or enterprise organizations. Each reference is available to verify Agama's performance, responsiveness, and quality of placed personnel.

Document Type
Section 3.1 Qualification

1. EXECUTIVE SUMMARY

Agama Solutions Inc. submits this document in response to Section 3.1 of CRFQ 0803 DOT2600000079, which requires vendors to demonstrate a minimum of five (5) years of continuous operation providing information technology staffing services. Agama meets and substantially exceeds this requirement, having operated as a full-service IT and professional staffing firm for over 18 years since its founding in 2007.

This document reflects the solicitation as revised by Addendum No. 1 (issued March 25, 2026), which extended the bid opening date to April 14, 2026 and introduced revised Terms and Conditions, and Addendum No. 2 (issued March 31, 2026), which published vendor questions and official agency responses. Agama acknowledges both addenda and has incorporated all applicable revisions into this submission.

2. COMPANY OVERVIEW & OPERATIONAL HISTORY

Agama Solutions Inc. was incorporated in the State of California in 2007. Over nearly two decades, Agama has grown from a focused staffing operation into a fully structured workforce solutions firm with defined recruiting workflows, compliance infrastructure, payroll administration, and executive oversight mechanisms designed to support regulated environments including state and local government agencies.

Since its founding, Agama has continuously provided IT staffing, staff augmentation, and professional placement services to public sector and commercial clients across the United States. The company has never ceased operations or been subject to contract termination for cause or material breach in its operating history.

Agama today operates nationally with headquarters in Fremont, California. The company maintains an internal workforce of approximately 200 employees, including more than 90 dedicated IT and professional recruiters, a centralized HR and compliance unit, and a payroll and finance team responsible for employer-of-record administration. Pranav Sood, Chief Operating Officer, provides direct executive oversight of all major government engagements.

3. IT STAFFING SPECIALIZATION & WVDOT ALIGNMENT

Agama has provided information technology staffing services as a core service offering continuously since 2007. The company's IT staffing practice covers application development, database administration, systems analysis, quality assurance, project management, and infrastructure support — disciplines directly aligned with the classifications WVDOT requires under this solicitation.

Per Addendum No. 2, Question 6 confirms that the positions most commonly requested under this contract are expected to include Database Administrator and Programmer Analyst roles — classifications for which Agama maintains active candidate pipelines. Agama's 90+ IT recruiters and CEIPAL Applicant Tracking System with over 710 active placement records provide the sourcing depth required to fulfill WVDOT's staffing requests within the 48-hour acknowledgment and 10 business-day candidate delivery windows prescribed in RFQ Section 4.2.6.

Per Addendum No. 2, Question 64, all work must be performed within the United States. Agama confirms full compliance — all candidates placed under this contract will be U.S.-based and legally authorized to work in the United States, with documentation available upon agency request per RFQ Section 4.2.5.

Per Addendum No. 2, Question 43, hourly rates are firm for the initial one-year contract term and cannot be adjusted during the contract period. The Exhibit A pricing page allows Agama to submit differentiated rates for Years 2, 3, and 4 to reflect any anticipated cost escalation during optional renewal periods. Agama has structured its pricing accordingly.

4. CONTRACT TERM — ADDENDUM NO. 1 REVISION

The original Terms and Conditions indicated a contract term of five (5) years. Addendum No. 1 issued revised Terms and Conditions establishing the following contract structure, which governs this solicitation:

- **Initial Contract Term: One (1) year**
- **Renewal Term: Up to three (3) successive one-year renewal periods (mutual written consent required)**
- **Total Maximum Contract Duration: Four (4) years (1 initial + 3 renewals)**
- **Automatic renewal: Prohibited — renewals require approval of Vendor, Agency, Purchasing Division, and Attorney General's office**

5. ORGANIZATIONAL CREDENTIALS AT A GLANCE

Legal Entity Name	Agama Solutions Inc.
Business Type	S Corporation
FEIN	22-3922488
CA SOS Registration #	375553732
UEI Number	781583815
Headquarters	39159 Paseo Padre Pkwy, Suite 311, Fremont, CA 94538
Year Founded	2007
Years in Business	18+ Years (as of 2026)
MBE Certification	NMSDC / Western Regional MSDC — Cert # WR01061
Authorized Signatory	Pranav Sood, Chief Operating Officer
Phone	510-754-7815
Email	govt@agamasolutions.com
wvOASIS Registration	Active / Registered

6. SUPPORTING DOCUMENTATION

The following supporting document is attached to this submission as evidence of Agama Solutions Inc.'s legal incorporation and business age in accordance with RFQ Section 3.1:

[ATTACHMENT: ARTICLES OF INCORPORATION]

The Articles of Incorporation on file with the California Secretary of State confirm Agama Solutions Inc.'s formation date and legal standing as a California S Corporation continuously operating since 2007. This document, together with the company overview narrative provided above, constitutes Agama's complete response to the Section 3.1 qualification requirement.
