RE: Expression of Interest – CEOI ADJ26-04 Professional Architectural & Engineering Services Airfield Resurfacing at Camp Dawson Training Center

To Whom It May Concern:

Alpha Associates, Incorporated is pleased to submit this Letter of Interest for providing comprehensive professional architectural and engineering design services for the **Airfield Resurfacing Project at Camp Dawson**, as requested under **CEOI ADJ26-04**. Our team brings extensive experience in airfield, pavement, and site civil engineering, as well as a proven history of delivering high-quality, cost-conscious design solutions for military, aviation, and state-funded infrastructure projects.

The project requires complete architectural and engineering design services for resurfacing approximately 850,000 square feet of existing airfield runway at Camp Dawson Training Center. The selected firm will develop construction-ready bid documents suitable for advertisement under West Virginia purchasing regulations. Key elements of the scope include:

- Comprehensive site evaluations, including mapping and confirmation of all existing utilities
- Full multidisciplinary design (civil, structural, electrical, geotechnical, and supporting architectural elements)
- Integration of cost-effective, energy-efficient, and low-maintenance design solutions
- Preparation of design submittals at 35%, 65%, 95%, and 100%, each accompanied by updated cost estimates
- Construction bidding support and administrative services throughout the procurement process
- Complete construction phase services

Our design team has successfully completed multiple projects comparable in scope and complexity, including runway resurfacing, military installation upgrades, and aviation-related civil design including:

- Runway 18/26 Rehabilitation, Morgantown Municipal Airport, Morgantown, WV
- Repairs to Taxiway A North, Morgantown Municipal Airport, Morgantown, WV
- Construction of New Taxiway A South, Morgantown Municipal Airport, Morgantown, WV
- Rehabilitation of Main Ramp at Morgantown Municipal Airport
- Signage and Lighting Update for Morgantown Municipal Airport, Morgantown, WV

- Ramp Pavement Rehabilitation and Deicing for Morgantown Municipal Airport, Morgantown, WV

In addition to our airport experience, Alpha also has experience at Camp Dawson with numerous types of projects including asphalt and concrete paving of roadways around the complex as well as numerous other projects including utility extensions and building construction.

Throughout our 56+ years, Alpha has provided engineering/architectural services throughout the State of West Virginia from our two locations in Morgantown and Martinsburg, WV. Our airport experience includes numerous projects for the Morgantown Municipal Airport including renovation of the terminal as well as the Runway Safety Area. We have provided numerous parking and roadway relocation projects for a variety of clients from Mon General Hospital to West Virginia University. We have the experience to not only successfully complete your projects, but more importantly, we will guide your projects through the preliminary engineering and funding process to ensure the projects are presented in the best light for funding. Throughout these projects, we will ensure the most cost-effective design is completed and the necessary approvals are obtained promptly.

Alpha Associates, Incorporated, is excited for the opportunity to work with the West Virginia Military Authority / West Virginia Adjutant General's Office and the Camp Dawson Airfield on this Resurfacing project. We appreciate your time and consideration for these upgrades, and we look forward to strengthening our relationship. Our dedicated team of professionals will make YOUR PROJECTS OUR PRIORITY. If you would like to further discuss these upcoming projects, please contact me at (304) 296-8216 ext. 102.

Sincerely,

Alpha Associates, Incorporated

About Alpha Associates, Inc.

Alpha's clients are served by a local, unique combination of professionals who provide top-notch **architectural design, civil engineering and structural engineering**. The Alpha design experience begins with the design staff listening, interpreting, reviewing and designing what you, the client, wants. The conclusion of the design process is not the end of Alpha's involvement in your project. Alpha's staff will stay involved until your project is constructed.

Throughout Alpha's decades of practice, our architects and engineers work closely, making history every day. With support from the Alpha Team, one can truly create a sense of place and a proper environment for the built atmosphere.

Webster’s dictionary defines Alpha as “the first, the beginning”. In the case of Alpha, the beginning was 1969 and the location was Morgantown, West Virginia. Since 1969, Alpha has earned a reputation for producing exceptional architectural and engineering designs for high profile organizations. By 1995, Alpha’s client base had grown, demanding the need for a second location. The Eastern Panhandle of West Virginia was selected, and the planning began.

The Eastern Regional Office is located in Historic Downtown Martinsburg and is conveniently located to serve clients in West Virginia, Maryland, Virginia and Pennsylvania. We continue to raise the bar with a design studio of cross-disciplined professionals that embrace technology and innovation while treating you, the client, with respect and dignity.

As you travel through the region, you will find Alpha’s influence on the built environment, especially in West Virginia. Alpha’s local project success reflects an architectural studio which encourages creativity and flexibility. Continuing the focus of success, Alpha’s architectural and engineering teams are experts with the planning of solutions for complex issues even before facing them head-on. Alpha’s team consists of industry leaders, consistently being called upon for advice and guidance for the future. Alpha Associates, Inc. will surpass all expectations while maximizing the client’s, your, vision.

With our client-first mission, we design spaces for now and the future.

Statement of Qualifications

Alpha Associates, Incorporated is a local, West Virginia based Architectural/Engineering design firm that provides services in the areas of **architectural design, interior design, construction administration, civil engineering, structural engineering, landscape design, project management and surveying**. Our clients benefit from our unique combination of extensive design and construction experience, advanced technological tools, dedicated principals and highly skilled staff members. Alpha's work is diverse and includes clients in commercial, educational, and government facilities, developers and private organizations.

Since 1969, Alpha's team provided architectural/engineering design services throughout the State and surrounding areas. For over 56+ years, we have worked with numerous local, state, and federal government entities on multiple projects of varying sizes and types. No project is too big or too small for us. Our team of licensed architects and engineers have recent, relevant experience with land assessment, civil/site planning, schematic and design layout, document preparation, and construction/bid administration to complete projects seamlessly.

Alpha's philosophy has always been to provide exemplary services for fair fees. We have always believed that the best way to succeed as a business is to go above and beyond the basic requirements of our contracts and take every step necessary to successfully complete and surpass a given project. We act in the client's best interest.

Everyone at Alpha, no matter the given role, all work towards the same goal of achieving success for not the project but the client too. Our principals are involved with all projects from the earliest stages through to the final completion and even beyond. They will consistently update you on your projects by using effective communication tools to manage the projects and all involved parties.

Our skilled staff of architects, engineers, surveyors and administrative personnel at Alpha are professionals dedicated to providing superior services to the State of West Virginia and surrounding areas. While our staff is large enough to handle any size project, our firm is also capable of being small enough to give each and every one of our projects the individual attention to details it deserves. Alpha's local and unique approach to projects ensures success for all our clientele.

LEED/Sustainability

As the intellectual landscape of the new century becomes more and more environmentally conscious, there is increasing demand to see this attitude reflected in the “built environment” with which we surround ourselves. The measure of a project’s success is increasingly dependent on its environmental, as well as economic and social innovation. A truly holistic approach to sustainable design must recognize the impacts of every design choice on natural and cultural resources. Aside from being attractive and enjoyable for humans, sustainable projects promote biological diversity, contribute to the quality of the air and water and reduce the impacts of construction and human use to help preserve the planet for future generations.

Alpha Associates, Incorporated understands the importance of sustaining the environment for future generations. Alpha works closely with the client to determine the level of environmental impact that the project will have. For example, Alpha works very hard to preserve and reuse equipment and building materials where necessary. Projects that have been designed include reuse of elements from stained glass windows to commercial cafeteria equipment.

Our Design Team will make sure your facility is designed with cost effective, energy conserving features. Where appropriate, we provide the ability to obtain any level of LEED Certification that you may desire, or we can simply utilize the principals of sustainable design to benefit your project.

The firm currently has three professional staff members who are LEED Accredited Professionals. We have two projects that are LEED registered; The FBOP Hazelton Facility and the new State Office Building in Clarksburg, WV.

SECTION B

**TECHNICAL
EXPERTISE**

Alpha's Scheduling Expertise

Project Track Record

Alpha Associates, Incorporated has an excellent track record of producing projects on time and within the Owner's budget. Many A/E firms can claim the same successes; however, the determining factor is the tools a firm utilizes to achieve the budgets, in regards to funds at that time. Alpha utilizes a number of both traditional & modern tools to exceed our client's expectations

A project schedule is a dynamic, ever-changing entity. Your project schedule depends on many factors including:

- Preferred construction method
- Changes to project scope
- Unique construction elements

Successful Project Management/Schedule

Successful project management depends on consensus regarding work efforts, milestones and goals. Our team has found the development of detailed work plans, which delineate tasks and deliverables for each project phase, in consort with the client and full project team, is the most effective approach with establishing expectations of efforts required by the respective disciplines. In addition to guiding the efforts of the design team, the work plan sets forth specific time frames and decision points for the Owner and user reviews, comments and/or approvals.

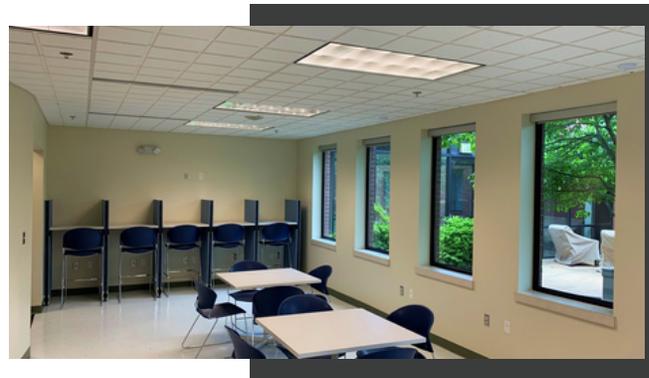

Developing an overall project schedule is a critical task that must take account of many factors: building type, owner's desired occupancy, scope of work & level of documentation, whether contract(s) is bid or negotiable, available fee, and experiences on similar projects. Once the design process begins, a comprehensive, realistic project schedule can be developed and communicated to all involved.

In a world where "time is money", the schedule of a project is as important as controlling the cost. Alpha works diligently to control the budget of a project and avoid the "scope creep" which can occur.

Alpha's Unique In-House Features

Alpha's in-house cost estimators combined with our excellent relationships with contractors throughout the State provides the client with the most accurate estimates early in the design process. The Alpha estimators begin at the schematic design phase of the project and develop a line-item estimate of probable construction costs which can be carried through each of the project phases. At each phase, the estimate is updated to include a more detailed evaluation for enhanced accuracy. When updating estimates, specific increases or decreases can be identified allowing the owner to make informed decisions on important budget issues for the project.

Many projects use alternatives to control the budget through obtaining actual contractor pricing during the bid process. This allows flexibility in the owner's determining costs of portions for the project which may be optional and/or critical for budget control.

Capacity & Software

Our Capabilities

Alpha Associates, Incorporated is prepared to commit staff and resources to your project. Alpha has the qualified and experienced personnel, administrative support, along with the production equipment and resources, to ensure the successful completion of this project. We are confident in our ability to provide you with a committed and dependable design team. Our multidisciplinary design team is prepared to meet and exceed the expectations for your project by committing any resources necessary to meet the project schedule.

Using the Latest Software

The project team incorporates the latest computer and software capabilities required to complete the working drawings and specifications of this project. Our cost accounting system is top-of-the-line, and we have the ability to differentiate feeds according to task. We have secure e-mail and internet capability to allow efficient transfer of information between Alpha and the client. We currently have the latest editions of the following software:

- Autodesk Suite
 - AutoCAD
 - Revit
 - Civil 3D
- Bentley Open Bridge Modeler & Designer
- Enercalc
- TopCON GR5 GPS System
- TopCON Total Station with Reflector-less Capabilities
- Carlson Surveyor & DataCollector
- RISA 3D
- RISA Foundation
- MathCAD Prime
- DJI Phantom 4 RTK Drone
- Office 365
- Twinmotion
- Adobe Photoshop

Funding Experience

Throughout our 56 years of business, Alpha Associates, Incorporated has worked with multiple funding agencies on projects, including State and Federal dollars. Our funding experiences includes:

- State and Federal ARRA Funds
- West Virginia Infrastructure Loan Program
- HUD Grants and Loans
- West Virginia Economic Development Grants and Loans
- Transportation Enhancement Grants
- West Virginia State Historic Preservation Office Funds
- Small Cities Block Grants
- Tax Increment Financing
- BIG Grant (Boating Infrastructure Grant)

- USDA Rural Development/Rural Utility Service - Grants and Loans
- ARC
- School Building Authority of West Virginia
- WV DEP Revolving Loan Fund
- WV Bureau of Health Clean Water Loan Fund
- Private Bond Sales

The Board of Architects

of West Virginia.

No. 2693

This Certifies that Rebecca Jean Key of Baltimore
in the State of Maryland, having successfully passed an examination
before the Board of Architects of the State of West Virginia, and being
otherwise qualified, is hereby authorized to practice Architecture in all its
branches in the State of West Virginia.

Witness the signatures of the President and Secretary of the Board of
Architects of West Virginia, and the seal of said Board, this 26th
day of September 1994

Will E. Johnson President.
E. Faith Dean Secretary.

Matthew Echard, PE

PRINCIPAL & STRUCTURAL ENGINEER

SUMMARY

Mr. Echard joined Alpha Associates, Inc. in early 2016 with a strong belief that his clients deserve intelligent, performance-based and value-oriented solutions. Drawing on experience working across the United States, Europe, and the Mid-West, Mr. Echard returned to West Virginia to provide world-class service in a historically unreserved region while making positive contributions to his home state. Mr. Echard places a large value on collaborative work process, believing that a building's form and function are derived from many contexts. Mr. Echard's office is located in the corporate office in Morgantown, WV.

**PROJECT
EXPERIENCE**

Hanger Experience

Relevant Past Projects

Alpha Associates, Incorporated has been providing engineering services including but not limited to structural assessments, civil/site work, building evaluations in accordance with the NFPA 101 Life Safety Code and the NFPA 409 Fire Safety Standard for Aircraft Hangars, and provide recommendations for upgrades/improvements needed to create a safe environment for personnel.

- Morgantown Municipal Airport – Hart Field T-Hangar Renovations & Alterations
- WVU Health Sciences Center – Glenmark Aircraft Hangar
- Morgantown Municipal Airport - Hart Field WVU Hangar Access Road
- Morgantown Municipal Airport - Hart Field WVU Hangar Paving
- Chemtura Supersack Hangar

- Wilson Works Engineering – Airport Hangar Stakeout
- Martinsburg Hangar Structural Roof Capacity
- WV Air National Guard – 167th Airlift Wing Base, Hangar Door Evaluation (2017)
- Wilson Works Engineering – Resolute Scaffolding Pick Hangar
- WV Air National Guard – 167th Airlift Wing Base, Hangar Door(s) Evaluation (2019)

Airport Experience

Morgantown Municipal Airport

Runway Safety Area

Alpha Associates, Inc. did the original feasibility study for the Safety Area. There were several options for runway safety enhancements for Hart Field. Alpha has completed the design for Phase 1 and Phase 2 and is in the process of designing Phase 3. Some of the scope of the design phase of the project consists of: The design of an 1100' x 500' embankment consisting of approximately 3,000,000 cubic yards of material. The design shall be in accordance with pertinent FAA Advisory Circulars. The acquisition of all necessary permits including stormwater, NPDES, West Virginia Water Quality State 401 Certification and the U.S. Army Corp of Engineers 404 permit.

Taxiway Extension

This project incorporated a unique solution to taxiway extension project. During the design phase, it was discovered that undocumented landfill material was used previously in this location, a portion of which was removed and disposed of in a certified landfill. The remaining material was bridged with geotextile and engineered backfill. The length of the asphalt taxiway is 2057 feet (626.97 m) with a typical width of 75 ft (22.86 m) and a width of 150 ft (45.72 m) at the holding bay near the connection to runway 36. The project also contains new signage and drainage.

Runway 18/26 Rehabilitation

Alpha Associates, Inc. and the Morgantown Municipal Airport have a long-standing relationship. Recent projects include the Rehabilitation of Runway 18/36 completed in late 2000. This project consisted of milling the entire runway surface (5200 ft), repair of approximately three miles of pavement cracks, overlaying the surface with asphalt and painting of pavement markings.

Signage & Lighting

The Morgantown Municipal Airport was tasked to update their taxiway and runway signage and pavement markings to revised standards. Alpha Associates, Inc. provided design services for the replacement of all lighted edge signs and runway identifiers with new frangible units. This provided for replacement of fading surface panels as well as any aging electrical connections to the regulators. Additionally, updated markings included provisions within FAA Advisory Circular AC150/5340 "Standards for Airport Markings" for inclusion of surface painted location signs.

Airport Experience

Morgantown Municipal Airport

Perimeter Fence Project

Alpha Associates, Incorporated provided surveying and consulting services for this project at the Morgantown Municipal Airport. This project was an 8-foot-high fence around the perimeter of the Airport property with all necessary access gates.

Ramp Pavement Rehabilitation and Deicing Containment Facility

Alpha Associates, Inc. recent projects for the Morgantown Municipal Airport include the Ramp Pavement Rehabilitation and Deicing Containment Facility in late 2005. Alpha provided concept drawings, design drawings, specifications, construction administration, project inspections and bidding documents.

Air Rescue and Fire Fighting Building

Alpha Associates, Incorporated completed the design of the latest building at the Morgantown Municipal Airport. The building serves as an Air Rescue and Fire Fighting Building that houses two fire trucks and equipment with additional space for offices and a training center.

Maintenance Building

Alpha Associates, Incorporated designed and provided construction administration for the Hart Field Maintenance Building. The building provides garage and storage for the airport's snow-blowing and lawn-cutting machines. This project features six high-bay areas with one maintenance/repair pit.

Procurement Services

As part of Alpha's Open End Term Contract with the Morgantown Municipal Airport, we have provided procurement services for a wide variety of equipment. Including: High tech radio system, Air Rescue and Fire Fighting Vehicle, Snow Removal Equipment, Video Surveillance System, Keygate Security System, All Terrain Vehicle, Service Trucks, and FOD Removal Equipment. Alpha's engineers researched the equipment options, prepared the specifications, managed the bidding process and assisted the Airport with the awarding of contracts.

Airport Experience

Morgantown Municipal Airport

Terminal Addition and Renovation

Alpha's staff provided programming, space planning, interior design and full-time construction administration services for a 10,000 square foot addition to the existing terminal originally constructed in 1993. Also included in this project was the design of a new terminal entrance and elevator tower.

Restaurant Renovations/Terminal Improvements

Alpha designed the renovation and expansion of the airport restaurant along with improvements to the circulation from the North terminal to the South Terminal. The toilet rooms in the South terminal were completely renovated with new fixtures, new interior walls, new ceramic tile, and casework. The North terminal passenger departure and passenger waiting areas have new interior partitions, new finishes and new furniture.

Parking Lot Redesign and Expansion

Alpha provided design services for the parking lot at the Morgantown Municipal Airport. This project provided for 246 vehicles. Alpha's staff provided engineering design specifications, bidding and construction documents and construction administration services.

Agent Services

Alpha Associates, Incorporated assisted the Morgantown Municipal Airport during the development of the Facilities Master Plan update. Alpha's role during this process included assisting the client with administrative duties, information gathering and distribution and overall project management. Alpha also provided assistance in updating the MGW Airport Certification Manual (ACM) utilized by the airport staff and emergency response members.

Morgantown Airport Access Road

Alpha provided design services that included traffic impact analysis, coordination with DOH, actual access road design, design of all turning lanes, pavement markings, signage, permitting, coordination with utility companies, preparation of right of way documents, and all other details pertinent to the completion of the project.

MORGANTOWN MUNICIPAL AIRPORT ACCESS ROAD

Morgantown, WV

Alpha Associates, Incorporated recently completed the design of a new access road for the Morgantown Municipal Airport. The access road runs from County Route 857 near the Glenmark Center intersection to the East side of the Morgantown Municipal Airport.

The road will service a new US Army Reserve Center and a new airport business park. Design services provided by Alpha included:

- Traffic Impact Analysis
- Coordination with the Division of Highways
- Road and all turning lanes design
- Pavement markings
- Signage
- Permitting
- Coordination with utility companies
- Preparation of Right-of-Way documents
- Other minor details pertinent to the completion of the access road

CAMP DAWSON PAVING

Kingwood, WV

Alpha Associates provided surveying, civil engineering and construction administration services for Camp Dawson and the West Virginia Army National Guard in Kingwood, WV.

The MCA Road, almost 3000 ft. long, was gravel and heavily traveled by large vehicles and equipment. Maintenance had become overwhelming for the National Guard. To solve the problem, Alpha provided a unique pavement design, providing a combination of rigid concrete pavement in areas of increased equipment maneuvering and a heavy-duty asphalt section for the straight sections of the roadway. The solution should provide the National Guard with years of trouble-free service.

The second road in the project was the ASP Road, a very steep, gravel road that accessed the ammunition bunker. Due to slope and gravel surface, access was often a problem. To accommodate, Alpha designed a specific asphalt paving section which allows forklifts, trucks, and loading equipment to travel with ease.

Both roads also included storm water and storm drainage design. Providing storm water control and runoff management is critical to the long-term success of any road or paving project.

Re: St Thomas Episcopal Church Expansion Project in Morgantown

Reference Letter for Alpha Associates, Inc

To Whom it May Concern:

I am writing on behalf of the Diocese of Wheeling-Charleston regarding a request for a reference for the work performed by Alpha Associates for us throughout the State. I have been in construction for 40 years now as an Owner's representative and a General Contractor and have worked on multiple projects with Alpha. Alpha has always met our design expectations and handled themselves in a professional manner from the programmatic stage through the final inspection and occupancy/use of our facilities. They have successfully performed various architectural, structural and sitework designs for us in Fairmont, Morgantown, and Martinsburg. Our projects have consisted of major additions, modular buildings, parking lots, and stormwater management and development. They are very responsive on submittal reviews, answering requests for information, and working through all aspects of the construction administration aspects of the work.

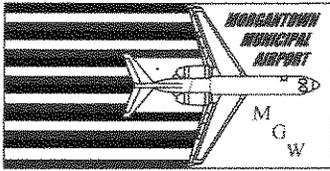

If you need anything further or have any questions, please do not hesitate to reach out to us at your convenience.

Sincerely,

John L. Reardon-jreardon@dwc.org

MEMORANDUM FOR ALPHA Associates, Inc, ATTN: Mr. Richard Colebank,
President/CEO, 209 Prairie Avenue, Morgantown, WV 26505

SUBJECT: Memorandum of Appreciation and Recommendation

On behalf of the management and staff of the Morgantown Municipal Airport (MGW), we wish to extend our sincere appreciation to your company for the absolute professionalism that your employees have demonstrated during the many years that you and your associates have served as MGW's contracted Architecture and Engineering (A&E) firm. Every aspect and detail of your planning, coordination, and completed projects have been exceptional and outstanding in every regard. The efforts of your airport designated staff, in tandem with their respective individual expertise, are considered to have been of the highest specialized caliber available within the civilian engineering and consultant community.

I want to specifically thank Mr. Brad Casdorff and Mr. Jeff Barr for their committed reliability, availability, and dedicated initiative in keeping the airport management and staff informed and updated in regard to project status and plans. Additionally, we'd like to personally thank Ms. Bobbie Hawkins for her noteworthy ability to maintain a very effective line of communication between the airport and your staff. These individuals, as well as yourself, are truly the rare type of professionals who not only have the propensity to do a job, but most importantly "do it well!"

Accordingly, we wish to thank you for a "job well done" and look forward to working with you in the future. With best regards, we sincerely hope that this letter can serve as a recommendation to your future clients and we are certainly willing to advocate your engineering excellence and the outstanding service that you have provided to MGW.

Sincerely,

ROBERT E HAMMEL
Director, MGW
