3. QUALIFICATIONS

Vendor, or Vendor's staff if requirements are inherently limited to individuals rather than corporate entities, shall have the following minimum qualifications:

InfoDyne Solutions LLC submits this Section 3 response as a focused demonstration of qualification, experience, and technical staffing capacity. Rather than treating qualification as a list of corporate facts, InfoDyne has organized the response around the evidence most relevant to the State's requirement: longevity in the IT staffing business, experience in public and private environments, demonstrated delivery performance, and client references capable of verification.

The firm's experience spans state and local government, public education, financial services, healthcare, insurance, retail, technology services, and enterprise consulting. Across these environments, InfoDyne's delivery model combines targeted recruiting, structured screening, compliance-ready onboarding, direct account management, and ongoing assignment support. This combination is what allows the firm to move from a defined classification to an assignment-ready candidate without sacrificing the documentation and verification a public agency requires.

3.1 Vendors shall be in business a minimum of five (5) years, providing similar information technology services. Vendors must provide documentation to indicate that their company meets this requirement prior to award; however, bidders may include this documentation with their bid

Five Years in Business Providing Similar Information Technology Services

Vendors shall be in business a minimum of five (5) years, providing similar information technology services. Vendors must provide documentation to indicate that their company meets this requirement prior to award; however, bidders may include this documentation with their bid.

InfoDyne Solutions LLC was incorporated in North Carolina on April 1, 2016 and has operated continuously since that date. The company was established around technology workforce delivery, and temporary and contract IT staffing remains a core business capability.

Over its operating history, InfoDyne has supported organizations that require qualified professionals to enter structured operating environments, understand defined technical requirements, complete required screening and onboarding, and contribute without disrupting ongoing operations. Experience across application development, systems administration and support, network engineering, software development, application support, cybersecurity, business systems analysis, database administration, data analysis, and project management.

2016 INCORPORATED	9+ YEARS	IT CORE SERVICE	PUBLIC + PRIVATE CLIENT ENVIRONMENTS
-----------------------------	--------------------	---------------------------	--

This operating history is directly responsive to Section 3.1: InfoDyne exceeds the five-year minimum and has spent that period delivering services substantially similar to the temporary technical staffing services contemplated by this solicitation.

Corporate Snapshot

Item	Detail
Legal Name	InfoDyne Solutions LLC
Entity Type	North Carolina LLC, taxed as an S-Corporation
Date Incorporated	April 1, 2016
Years in Continuous Operation	9+ years, incorporated to present
Core Service Line	Temporary and contract IT staffing (single-focus business)
Certifications	Women's Business Enterprise (WBENC); Minority Business Enterprise (NMSDC, CA07138)
Principal Address	105-F Waxhaw Professional Park Dr, Suite 100, Waxhaw, NC 28173

3.1.1 Public-Sector Experience

InfoDyne's public-sector experience is particularly relevant because government staffing requires more than access to candidates. It requires disciplined handling of requirements, documentation, background and onboarding requirements, communication, and assignment continuity.

The firm's documented public-sector portfolio includes the Florida Department of Management Services, South Dakota Department of Social Services, Dallas Independent School District, Gwinnett County Public Schools, West Virginia Division of Highways, Greenville County School District, State of Rhode Island, State of North Carolina / DIT, and the City of Eugene, Oregon.

These engagements represent different procurement environments and different staffing needs. Together, they reflect experience operating with state agencies, local government,

and public education organizations while supplying temporary, professional, and technical personnel.

Agency / Client	Sector / Location	Service Provided
Florida Department of Management Services (DMS)	State Government, FL	Information Technology Staff Augmentation Services
South Dakota Department of Social Services (DSS)	State Government, SD	Temporary Professional Staff Services 2026
Dallas Independent School District	K-12 Education, TX	Temporary Employment Services
Gwinnett County Public Schools	K-12 Education, GA	On-Demand IT Professional Services
West Virginia Division of Highways	State Government, WV	IT Temporary Staffing Services
Greenville County School District	K-12 Education, SC	Temporary IT Professional Services
State of Rhode Island	State Government, RI	Executive Recruitment Firm Services
State of North Carolina, DIT	State Government, NC	IT Staffing and Technology Services
City of Eugene, Oregon	Municipal Government, OR	IT Staff Augmentation

3.1.2 Private-Sector & Regulated-Industry Experience

InfoDyne's private-sector experience strengthens its qualification because many enterprise technology environments impose governance, security, confidentiality, service-level, and performance expectations comparable to those found in government.

The firm's documented clientele includes organizations across financial services, healthcare, insurance, retail, technology services, and enterprise consulting.

Client	Industry	Service Provided
Wells Fargo	Financial Services	Application development, data analytics, and infrastructure staffing

TD Bank	Financial Services	Business, technology, and administrative staffing in regulated environments
State Farm	Insurance	Professional and compliance-sensitive IT staffing
CVS Health	Healthcare	Technical, operational, and professional staffing
Cigna	Healthcare & Insurance	Systems, administrative, and professional IT staffing
Belk	Retail	High-volume IT staffing, including 70+ placements over 10 months
Advantage Solutions	Consumer & Retail Services	Administrative and professional staffing
NTT DATA	Technology Services	Application, systems, and project staffing
Datamatics Business Solutions	Technology & Data Services	Specialized technical and data staffing, including 50+ placements over eight months
Kavi Global	Enterprise Consulting	IT staffing and program support
Synechron	Financial Technology	Application development and enterprise systems staffing

This breadth is important to WVOT because the requested classifications span applications, databases, business analysis, cloud architecture and security, infrastructure, networks, systems management, and specialized technology functions. InfoDyne's client history confirms that its recruiting and delivery organization has operated across similarly varied technical disciplines.

3.1.3 Technical Staffing Capability

InfoDyne's technical staffing capability is built around matching the actual work to the candidate, rather than simply matching a job title.

The firm's documented technical role coverage includes:

- Application & Web: Software Developers, Web Developers, Application Support Analysts, Application Engineers, Programmer Analysts.
- Systems & Infrastructure: Systems Administrators, Systems Engineers, Infrastructure Support, Network Engineers, and related platform resources.

- Data & Database: Database Administrators, Database Architects, Data Analysts, Reporting Specialists, and Data Support resources.
- Cybersecurity: Cybersecurity Analysts and related security-focused technical roles.
- Business & Project: Business Analysts, IT Project Managers, Program Coordinators, Business Systems Analysts, and Operations Support.
- Cloud & Enterprise Technology: Cloud/platform-oriented resources, enterprise systems support, and modern infrastructure technology roles.

For WVOT, this capability profile provides a relevant foundation for the classifications listed in Section 1, including web applications, CRM applications, SQL Server database administration, business analysis, learning/eLearning, cloud financial operations, cloud architecture, cloud security, cloud platform/network/systems engineering, CCOE implementation, and mainframe systems programming.

Capability Area	Representative Roles	Relevant WVOT Classifications
Application & Web	Software Developers, Web Developers, Application Support Analysts, Programmer Analysts	Web Applications, CRM Applications
Data & Database	Database Administrators, Database Architects, Data Analysts, Reporting Specialists	SQL Server Database Administration
Business & Project	Business Analysts, IT Project Managers, Program Coordinators, Business Systems Analysts	Business Analysis, Learning / eLearning Systems
Cloud & Enterprise Technology	Cloud/platform-oriented resources, enterprise systems support	Cloud Financial Operations, Cloud Architecture, Cloud Security, Cloud Platform/Network/Systems Engineering, CCOE Implementation
Systems & Infrastructure	Systems Administrators, Systems Engineers, Infrastructure Support, Network Engineers	Mainframe Systems Programming, Network and Systems Engineering
Cybersecurity	Cybersecurity Analysts and related security-focused technical roles	Cloud Security, Enterprise Security Support

3.2 Vendors shall be able to demonstrate their potential to provide these services by providing documentation to indicate they have provided staffing of at least six (6) individuals within the listed classifications within the past five (5) years: documentation should include enough information to indicate that the Vendor provided an employee meeting the requirements of a specifically named classification from Section 1, above: the documentation should name the entity to whom the individual was supplied and provide contact information for that entity. Vendors must provide documentation to indicate that their company meets this requirement prior to award: however, bidder may include this documentation with their bid.

3.2.1 Reference Evidence

InfoDyne's established references provide named client organizations and contact information for verification. The reference set is intentionally complementary: Belk reflects high-volume staffing capacity, Kavi Global reflects data, program, and systems/application support, and Synechron reflects enterprise application and systems staffing.

REFERENCE 1 — BELK, INC.	
Company Name	Belk, Inc.
Type of Business	Retail / Enterprise Operations
Engagement Length	10+ months; extended, ongoing relationship
Assigned Personnel	Joshua Jeremiah, Account Manager, supported by a dedicated recruiting team
Street Address	2801 W Tyvola Rd
City / State / ZIP	Charlotte, NC 28217
Reference Contact	Craig Sorensen
Contact Phone	704-426-8195
Contact Email	craig_sorensen@belk.com
Services Provided	High-volume IT staff augmentation across systems support, application support, data/reporting, and project coordination roles

Relevance to WVOT: Belk demonstrates InfoDyne's ability to manage high-volume technical staffing requirements while maintaining responsiveness, structured screening, and assignment continuity. The engagement included systems, applications, data/reporting, and project-support functions relevant to WVOT's temporary technical staffing requirements.

REFERENCE 2 — KAVI GLOBAL	
Company Name	Kavi Global
Type of Business	Enterprise Consulting / Data & Analytics
Engagement Length	Ongoing
Assigned Personnel	Joshua Jeremiah, Account Manager, supported by a dedicated recruiting team
Street Address	1250 S. Grove Ave., Suite 300
City / State / ZIP	Barrington, IL 60010
Reference Contact	Vimal Raj
Contact Phone	224-250-3654
Contact Email	Vimal@kaviglobal.com
Services Provided	IT staffing and program support, including Data Analysts, Program Coordinators, and Systems/Application Support Specialists

Relevance to WVOT: Kavi Global demonstrates InfoDyne's ability to coordinate concurrent requirements across technical and program-support functions, align candidates to defined skill requirements, and maintain delivery timelines through dedicated recruiting resources and proactive client communication.

Reference 3 — Synechron, Inc.	
Company Name	Synechron, Inc.
Type of Business	Financial Technology / IT Consulting
Engagement Length	Ongoing

Assigned Personnel	Joshua Jeremiah, Account Manager, supported by a dedicated recruiting team
Street Address	11 Times Square, Suite 3301
City / State / ZIP	New York, NY 10036
Reference Contact	Amit Keshari
Contact Phone	980-319-5868
Contact Email	Amit.Keshari@synechron.com
Services Provided	Application development and enterprise systems staffing / technical resource augmentation

Relevance to WVOT: Synechron demonstrates InfoDyne's experience supporting specialized enterprise technology requirements where precise technical skill matching is essential. The engagement involved application development, systems engineering, and financial technology service delivery, providing relevant evidence of InfoDyne's technical screening and resource-augmentation capabilities.

Supporting Documentation: The references above demonstrate InfoDyne Solutions LLC's relevant technical staffing and IT staff augmentation experience. Supporting documentation, including contracts, purchase orders, placement records, resumes, and other relevant evidence, can be provided upon request or as required by the solicitation.

ADDENDUM ACKNOWLEDGEMENT FORM
SOLICITATION NO.: CRFQ OOT27*006

Instructions: Please acknowledge receipt of all addenda issued with this solicitation by completing this addendum acknowledgment form. Check the box next to each addendum received and sign below. Failure to acknowledge addenda may result in bid disqualification.

Acknowledgment: I hereby acknowledge receipt of the following addenda and have made the necessary revisions to my proposal, plans and/or specification, etc.

Addendum Numbers Received:
