STATEMENT OF WORK

This Statement Of Work (SOW) serialized as Statement of Work #: **002** and dated 11/25/2024 by
and between Krasan Consulting Services LLC., (henceforth referred to as "Prime Contractor" or as "Krasan"),
and SAVVY Technology Solutions, LLC (henceforth referred to as
"Subcontractor") is made pursuant to the terms the parties have agreed to in the mutually executed
Subcontractor Services Agreement, including any amendments that may be attached, dated 03/13/2024.

1. Contingencies and Prerequisites.

- 1.1. This statement of work shall not be effective until the following contingencies or prerequisites have been met and communicated as resolved between the Prime Contractor and the Subcontractor in reciprocally acknowledged electronic mail communication.
 - 1.1.1. Prime contractor must receive a duly executed and valid statement of work or work order issued and subject to the terms defined in the prime contract.
 - 1.1.2. Prime contractor must receive a duly executed purchase order issued subject to the terms defined in the prime contract.

2. Scope of Work and Services.

- 2.1. Subcontractors shall provide one or more technical consulting resources as an independent subcontractor, and as described below, to the Prime Contractor to support the Prime Contractor or the Prime Contractor's Customer.

2.2. Opportunity Information:

End Client Name	Department or Project	Position Role/Title
State of Illinois-DCFS	Product Management Transformation	Junior Platform Developer

2.3. Position Requirements:

Job Title:	Junior Platform Developer
Work Location:	Hybrid
Duration:	4000 Hrs
FT/PT	Full-Time

Summary:	We are seeking a Junior Platform Developer – Microsoft Dynamics 365 to join our team as part of the Product Management Transformation project. This project aims to enhance the way our DoIT@DCFS team delivers technical support,
-----------------	--

	services, and capabilities to customers. As a Junior Platform Developer, you will assist in the development, customization, and maintenance of solutions on the Microsoft Dynamics 365 platform. You will contribute to ensuring that the platform meets business needs while delivering high-quality performance. In this role, you will work closely with senior developers and architects, learning and developing custom workflows, plugins, and integrations for Dynamics 365. This is a great opportunity for an individual seeking to develop their technical skills and gain experience in enterprise-level software development.
Responsibilities:	• Assist in the development and customization of Microsoft Dynamics 365 solutions (CRM, ERP), including building custom workflows, plugins, and form customizations. • Collaborate with senior developers and business analysts to gather requirements and translate them into functional technical solutions. • Write clean, efficient code following industry best practices for performance, scalability, and security. • Participate in integrating Microsoft Dynamics 365 with third-party systems using APIs and connectors, ensuring smooth data flow and system functionality. • Support troubleshooting and debugging activities to resolve issues within the Dynamics 365 platform. • Contribute to the documentation of system configurations, user guides, and technical specifications. • Utilize tools like Azure DevOps for task tracking, version control, and code deployment processes. • Participate in code reviews and receive mentorship from senior developers to refine your coding and development skills.
Requirements:	• 3 years of experience or internships working on Microsoft Dynamics 365, with exposure to CRM or ERP development. • Basic knowledge of C#, .NET, JavaScript, and experience with the Microsoft Power Platform (PowerApps, Power Automate). • Familiarity with integrating systems using APIs or other connectors. • Understanding of basic software development lifecycle processes, including troubleshooting, debugging, and optimizing code performance. • Knowledge of development tools such as Visual Studio and version control platforms like Git or Azure DevOps. • Strong communication skills and ability to work collaboratively in a team environment. • Willingness to learn and develop technical skills in cloud-based platforms like Microsoft Azure.

2.4. Subcontractor Assigned Resource Information:

2.4.1. Subcontractor assigns the following named resource(s) to this engagement and confirms that the resource meets all the requirements to perform their duties and has the requisite knowledge and experience required as defined within this Statement of Work and per the

111 W. Jackson
Suite 1700
Chicago, IL 60604
contracts@krasanconsulting.com

terms of the jointly executed Subcontractor Services Agreement between the parties.

Full Legal Name	Nick Name (AKA)	Phone	Email
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]

2.5. **Fees:**

- 2.5.1. Krasan Consulting Services agrees to pay the Subcontractor an all-inclusive rate of **\$63** per hour for work performed under the terms of this Statement of Work, which is accepted by the Prime Contractor's Customer.
- 2.5.2. The anticipated duration of this engagement is one year. It is anticipated to start within two weeks' notice of November 12, 2024, and end on or near November 12, 2026.
- 2.5.3. The subcontractor shall not authorize work exceeding 40 hours in any week unless prior written approval is obtained from the Prime Contractor.
- 2.5.4. Subcontractor shall not authorize travel or reimbursable expenses, in any amount, without prior written approval.

2.6. **Compensation and Payment:**

- 2.6.1. Prime Contractor will pay Subcontractor an hourly fee for services rendered in performing the tasks described in this SOW.
- 2.6.2. Subcontractor's Consultants shall not work overtime, weekends, or State holidays without prior written approval from the Prime Contractor. Approved overtime (more than eight (8) hours per day or forty (40) hours per week) shall be billed at the straight hourly rate in effect under the Contract.
- 2.6.3. Consultant must submit a copy of the approved timesheet to Prime Contractor and Subcontractor on a weekly basis, no later than Monday of the following week. The subcontractor will reconcile approved timesheets and invoices only on approved hours. The subcontractor shall submit approved invoices to the Prime Contractor within three (3) business days following the end of the previous month.
- 2.6.4. Payments will be made by the Prime Contractor to the Subcontractor within 10 workdays of receipt of payment from Customer.

Subject: CRFQ-0231-OOT2700000006 – Temporary Technical Staffing Services

Dear Mr. Welch,

SAVVY Technology Solutions, LLC (SAVVY) is pleased to submit our response to the West Virginia Office of Technology for CRFQ-0231-OOT2700000006 – Temporary Technical Staffing Services.

SAVVY is an experienced technology and professional staffing firm with a strong record of supporting public-sector organizations with qualified information technology professionals. Our experience includes staffing and consulting support across business analysis, application development, database administration, cloud technologies, infrastructure, cybersecurity, enterprise systems, and related technical disciplines.

SAVVY is prepared to support the West Virginia Office of Technology across the labor classifications identified in this solicitation and to respond efficiently as staffing needs arise throughout the term of the contract.

We appreciate the opportunity to submit our qualifications and pricing for consideration and look forward to the opportunity to support the State of West Virginia.

Thanks,

Suba Elangovan

CEO

2 Executive Summary

SAVVY Technology Solutions, LLC (SAVVY) is pleased to submit its response to the State of West Virginia for CRFQ-0231-00T2700000006– Temporary Technical Staffing Services. SAVVY brings extensive experience providing information technology staffing and consulting services to public-sector organizations, with established capabilities in recruiting, evaluating, deploying, and managing qualified technology professionals across a broad range of technical disciplines.

SAVVY has supported complex state government technology environments and initiatives involving application development and support, business and systems analysis, database administration, cloud technologies, cybersecurity, infrastructure, enterprise applications, modernization, and project delivery. Our public-sector experience includes engagements supporting the Illinois Tollway, Illinois Department of Transportation, Illinois Department of Innovation & Technology, and other state and local government organizations.

SAVVY utilizes a structured recruiting and candidate qualification process designed to quickly identify professionals whose knowledge, skills, experience, and qualifications align with each specific staffing request. Candidates are evaluated through recruiter screening, technical and functional assessment, experience validation, and applicable background and onboarding processes before submission. Our established recruiting network and candidate pipeline enable SAVVY to respond efficiently to both planned and time-sensitive staffing needs.

For the West Virginia Office of Technology, SAVVY is prepared to provide qualified resources across the technical classifications identified in the solicitation while maintaining a strong focus on candidate quality, responsiveness, continuity of service, competitive pricing, and contract compliance. Our combination of government staffing experience, technology expertise, responsive account management, and scalable recruiting capabilities positions SAVVY to provide dependable temporary technical staffing support throughout the term of the contract.

SAVVY appreciates the opportunity to support the West Virginia Office of Technology and looks forward to establishing a responsive and reliable partnership that provides the State with qualified technology professionals as needs arise.

3 Company Qualifications

SAVVY Technology Solutions, LLC (SAVVY) is an experienced technology and professional staffing firm providing information technology staffing, consulting, and workforce solutions to public- and private-sector organizations.

SAVVY has been in business since February 2009, bringing more than 17 years of experience in recruiting, evaluating, placing, and managing qualified IT professionals across a broad range of technical and functional disciplines. Our experience includes supporting complex technology environments with resources in application development, business analysis, database administration, cloud technologies, infrastructure, cybersecurity, enterprise systems, and related IT functions.

SAVVY has substantial experience supporting government agencies and large-scale public-sector technology initiatives. Representative engagements include:

- Illinois Tollway technology programs and initiatives
- Illinois Department of Transportation technology projects
- Illinois Department of Innovation & Technology initiatives
- Illinois Department of Children and Family Services technology modernization
- Other state and local government technology and professional services engagements

SAVVY maintains established recruiting, candidate screening, technical evaluation, onboarding, background screening, and workforce management processes designed to identify and deploy qualified professionals who meet client-specific technical, functional, and experience requirements.

Through this combination of long-standing industry experience, public-sector expertise, disciplined recruiting practices, and responsive workforce management, SAVVY is well positioned to support the West Virginia Office of Technology's temporary technical staffing needs.

4 Relevant Staffing Experience

SAVVY has staffed more than the minimum six individuals required under the solicitation within the applicable five-year period. Representative placements relevant to the classifications identified in this CRFQ are summarized below.

#	Client / Engagement	Position or Comparable Classification	Period of Performance
1	Krasan Consulting Services (Prime) Illinois Department of Children and Family Services (client). Krasan Phone: 630-300-3530	Three Business Analysts and Two Platform Developers (CRM Application Analyst) for Product Management Transformation project	11/18/2024 – 11/18/2026
2	Illinois Department of Human Services DHS Phone: 1-800-843-6154	Two Senior Developers (Senior Web Application Analyst)	4/1/2020 - 6/30/2024

Additional staffing records and supporting documentation can be provided upon request.

5 Recruiting and Candidate Qualification Process

SAVVY utilizes a structured recruiting and qualification process to identify personnel who satisfy each client's technical and professional requirements.

For each staffing request, SAVVY:

- Reviews the required knowledge, skills, experience, education, certifications, and other position-specific qualifications.
- Identifies candidates through SAVVY's existing professional network, recruiting resources, candidate pipeline, and targeted sourcing.
- Conducts recruiter and technical/functional screening to validate relevant experience and capabilities.
- Reviews candidate experience against the specific labor classification and client requirements.
- Verifies employment and qualification information as appropriate.
- Coordinates required background screening and onboarding activities.
- Provides ongoing account management and workforce support throughout the engagement.

This process enables SAVVY to respond efficiently to staffing requests while maintaining candidate quality and alignment with client requirements.

6 Experience Supporting Government Technology Environments

SAVVY understands the requirements associated with providing technology personnel within government environments, including compliance, security, documentation, coordination with multiple stakeholders, and continuity of service.

SAVVY personnel have supported technology initiatives involving areas such as:

- Enterprise application and systems support
- Business and systems analysis
- Database and data management
- Cloud and infrastructure services
- Application modernization
- Cybersecurity and vulnerability-related initiatives
- Enterprise resource planning and systems integration
- Technology project and program support

This experience provides SAVVY with the operational foundation necessary to support the West Virginia Office of Technology's temporary technical staffing requirements.

7 Certification

SAVVY Technology Solutions, LLC certifies that the information provided in this qualification statement is accurate and that SAVVY meets the applicable vendor experience requirements identified in CRFQ-0231-OOT2700000006.
