1. Could you please advise when job descriptions will be available for the 13 positions listed in CRFQ 0231 OOT2700000006?

Answer: Mandatory qualification specifications for all 13 position classifications are detailed in Section 4.1. Job descriptions will accompany delivery orders post award.

2. Beyond the Pricing Page (hourly rates for the 13 labor categories) and the standard CRFQ cover form, is a technical/capability response required as part of the bid - for example, a narrative describing relevant experience, staffing/recruitment approach, or sample resumes demonstrating the ability to meet the minimum qualifications for each labor category? Or is the award based solely on price among vendors meeting the stated minimum qualifications.

Answer: Contracts will be awarded to vendors that provides the contract Items meeting the required specifications for the lowest cost as shown on the Pricing Pages.

3. If a technical response is required, could you point us to the section of the solicitation documents that describes its required format and content?

Answer: Per Sections 5.1 and 5.2, award is based on lowest overall total cost on the Pricing Pages. No separate technical proposal format or narrative is requested.

4. What should the vendor's bid {response to the RFP} include in addition to the completed "Final_CRFQ_0231_ OOT2700000006_1_WV_CRFQ_FORM.PDF"?

Answer: Bidders must complete the Pricing Page in wvOASIS (or Exhibit A), and provide vendor qualification documentation satisfying Section 3.1

Answer: Per Specifications Section 1, most requested services will likely be within the metro-Charleston, WV area (WVOT at 1900 Kanawha Blvd E, Bldg 5 10th Floor, Charleston, WV 25305), but end-user Agencies may be located anywhere in West Virginia and may request services statewide. Answer: Section 7.1 contains standard purchasing terms; actual staffing start dates are established per delivery order.

501. May a bidder respond to selected categories only, or must all 13 pricing lines be completed to remain responsive?

Answer: *Vendors may respond to selected categories*

502. Does "overall total cost" in Section 5.1 mean the sum of all 13 lines, or will each category be evaluated separately?

Answer: *Section 5.1 specifies that the Contract shall be awarded to the Vendor that provides the Contract Items meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages (calculated using 2,080 estimated hours per line multiplied by the proposed hourly rate).*

503. Is there a limit on the number of vendors that may receive an award?

504. Will award pricing remain fixed during all three renewal years, or may renewal rates be adjusted?

Answer: *Per General Terms and Conditions Section 13 (Pricing), pricing set forth in the contract is firm for the life of the Contract, unless an express price adjustment provision is authorized in the Solicitation/Contract by the State.*

Section 4.2.1 indicates candidates are presented when a staffing need arises, while Section 4.2.4 states successful vendors must include resumes and qualification documentation "with their responses." Please confirm whether resumes and qualification matrices are required with the initial CRFQ bid or only when responding to a delivery order.

Answer: *Candidate resumes and individual qualification documentation are not required with the initial CRFQ bid submission. Successful vendors will provide candidate resumes and qualification documentation when presenting candidates to the Agency upon receiving a specific delivery order/staffing request under the awarded contract (Sections 4.2.1 and 4.2.4).*

506. If resumes are required initially, how many candidates per category must be submitted?

Answer: *Resumes are not required with the initial CRFQ bid submission; awarded vendors will provide candidate documentation as individual staffing requests arise during the contract term.*

Answer: Under Section 4.2.2 and 4.2.4, successful vendors must supply qualified staffing as requested by the Agency. Candidates presented for specific delivery orders must meet all requirements of the RFQ and pass Agency review prior to placement.

508. Are remote or hybrid assignments permitted?

Answer: Section 1 of the Specifications notes that while most requested services will likely be within the metro-Charleston, WV area, the end-user Agency may be located anywhere in West Virginia and may request services statewide during the life of the contract. Hybrid or remote work may be allowed and will be specified on individual delivery orders

509. What proportion of assignments is expected to be onsite in Charleston versus elsewhere in West Virginia?

Answer: Section 1 indicates that the majority of requested services are anticipated to be located in the metro-Charleston, WV area, but services may be requested statewide across West Virginia depending on Agency needs.

510. Will the State provide computers, accounts, software, and remote-access tools, or must vendors supply these?

Answer: Yes

511. How will statewide travel be handled? Will the State reimburse travel expenses separately, or must all travel costs be fully burdened into the hourly rate as stated in Section 4.2.3?

Answer: Per Section 4.2.3 of the Specifications, successful vendors must provide hourly rates that are inclusive of all costs. All travel expenses must be fully included in the vendor's proposed hourly rates.

512. Are there any personnel residency requirements?

Answer: The solicitation requires bidding vendors to have been in business for a minimum of 5 years (Section 3.1) and demonstrate relevant staffing history (Section 3.2). No specific candidate state residency restrictions are imposed, though resident vendor reciprocal preferences apply under Section 15A.

513. What time-to-submit and time-to-fill service levels will apply?

Answer: Section 4.2.2 specifies that successful vendors must provide staffing as requested by the Agency. Consistent failure to fulfill requests or unresponsiveness may be grounds for cancellation of the vendor's contract.

514. Section 7.1 references a 180-working-day delivery clause. Please confirm if this applies to candidate placement or if it is inapplicable commodity boilerplate for this services contract.

Answer: Section 7.1 outlines general delivery terms for Contract Items; however, technical staffing assignments under this open-end contract are fulfilled on an as-needed delivery order basis per Section 4.2.2.

515. Which party bears background-check and fingerprinting costs?

Answer: Per Section 40 of General Terms and Conditions and Section 4.2.3 of Specifications, the State reserves the right to require criminal background checks, and all vendor overhead costs must be incorporated into the proposed hourly rates.

516. Sections 4.1.4.10 through 4.1.4.12 list requirements for a Bachelor's degree in Instructional Design and LMS experience. These appear under the Business Analyst heading but seem intended for the Learning Management System & elearning Development Specialist category. Please confirm this is a formatting error and that these requirements belong to Section 4.1.5.

Answer: Requirements for a Bachelor's degree in Instructional Design and LMS experience (Sections 4.1.4.10 through 4.1.4.12) apply directly to the Learning Management System & eLearning Development Specialist classification detailed under Section 4.1.5.

517. Sections 4.1.5.4 and 4.1.5.5 are identical. Please confirm if this is intentional or if one section should contain different requirements.

Answer: Sections 4.1.5.4 and 4.1.5.5 both mandate a minimum of 5 years of demonstrated experience with LMS configuration, administration, ongoing system support, LMS architecture, course structures, user roles, permissions, and course management.

518. Please provide incumbent contract information, historical usage by category, current hourly rates, and anticipated annual demand to assist with pricing accuracy.

Answer: Quantities on the Pricing Page (2,080 hours per position classification) are approximations for evaluation purposes based on Agency estimates and do not represent guaranteed minimums or maximums (General Terms Section 5).

519. Please confirm the controlling bid deadline is September 15, 2026, at 1:30 p.m. Eastern Time.

Answer: Confirmed. Per the solicitation cover sheet and Instructions Section 7, the Bid Opening Date and Time is September 15, 2026, at 1:30 p.m. Eastern Time.

520. Work location: For each of the 13 categories, is the position expected to be onsite in Charleston, remote, or hybrid? If it varies by category, please specify per line.

Answer: As specified in Section 1 of Specifications, most requested staffing services will likely be in the metro-Charleston, WV area, but services may be requested statewide across all 13 position classifications.

521. Rate structure: Should the Unit price entered per line item be a fully burdened hourly bill rate, or does WVOT want the employee pay rate and markup shown separately? Also, what information should be captured in the 'Delivery Days' field?

Answer: Per Section 4.2.3, Vendors must provide a single fully burdened hourly rate per line item, inclusive of taxes, overhead, fringe, and travel expenses. The Delivery Days field should reflect fulfillment readiness upon order issuance.

522. Evaluation method: Is award based solely on price per line item, or will scored criteria be added later? If price-based, is award made to the lowest bidder per line, or can multiple vendors be awarded per category?

Answer: Contract award is based on the lowest overall total cost for Contract Items meeting mandatory specifications (Section 5.1). Multiple open-end contracts will be awarded to qualified bidders (Section 1).

523. Respond to Criteria: shows 'Small Business' as the criteria - we are a certified Small Business in the Commonwealth of Virginia. May we claim SBE status in this section?

Answer: Per Instructions Section 15A, reciprocal preference applies for resident vendors certified as small, women-owned, or minority-owned businesses under West Virginia Code § 5A-3-37 and W. Va. CSR § 148-22-9.

524. Partial bidding: Is a vendor permitted to bid a subset of the 13 categories, or is full coverage across all lines required to be considered?

Answer: Section 5.2 states that Vendors should complete the Pricing Page in full, as failure to complete the Pricing Page in its entirety may result in Vendor's bid being disqualified.

525. Contract term: What is the initial term and are renewal options available? This isn't stated in the posted line items.

Answer: Per General Terms Section 3, the Initial Contract Term is one (1) year from the effective date, with options for up to three (3) successive one-year renewal periods upon mutual written agreement.

526. Terms and conditions: Since no separate terms and conditions document is attached to this solicitation, are the WV Purchasing Division's standard general terms and conditions incorporated by reference? If so, where can we find the applicable version?

Answer: The full General Terms and Conditions and Instructions to Vendors are included directly within the CRFQ OOT27-006 solicitation document.

527. Attachments: What should be included in the attachments upload (company qualifications, references, insurance certificates, resumes), and is there a required format or page limit?

Answer: Vendors must submit documentation demonstrating a minimum of 5 years in business (Section 3.1), documentation of staffing at least 6 individuals in listed classifications past 5 years (Section 3.2), and a completed Addendum Acknowledgement Form (Instructions Section 8).

528. Discounts and comments field: What is this field intended to capture, prompt payment discounts, volume discounts, or general notes on the bid?

Answer: This field captures vendor notes or prompt payment discount terms; however, proposed unit prices must remain firm fully burdened hourly rates.

529. Position Classifications / Pricing Page: Section 4.2.1 states that bidders must provide an hourly rate for each position for which they expect to submit qualified candidates. However, Section 5.2 states that failure to complete the Pricing Page in its entirety may result in disqualification. Please clarify whether a bidder may submit pricing only for the position classifications it intends to support, or whether bidders are required to provide an hourly rate for all thirteen (13) position classifications.

Answer: Per Section 5.2, vendors are instructed to complete the Pricing Page in full, as failing to bid on all position classifications may result in bid disqualification.

530. Contract Award Structure: Please clarify whether the State intends to make a single statewide contract award to one vendor or multiple awards to qualified vendors under this solicitation.

Answer: Section 1 of Specifications explicitly states that the Purchasing Division is soliciting bids to establish multiple open-end contracts for technical staffing services.

531. Section 3.2 - "First Five (5) Years" Requirement: Section 3.2 requires vendors to demonstrate their potential to provide staffing for at least six (6) individuals within the listed classifications "within the first five (5) years." Please clarify whether this refers

to: the vendor's first five years in business; any five-year period; the most recent five years; or another intended period.

Answer: Section 3.2 specifies that vendors must provide documentation demonstrating they have provided staffing for at least six (6) individuals within the listed classifications within the past five (5) years.

532. Section 3.2 - Acceptable Supporting Documentation: Please clarify what forms of documentation are acceptable to demonstrate that the bidder has provided individuals meeting the requirements of the specified classifications. For example, would client references, contracts/purchase orders, statements of work, candidate resumes, placement records, or other comparable documentation be acceptable?

Answer: Section 3.2 requires documentation containing enough information to indicate the vendor provided an employee meeting the specific classification requirements, naming the entity and contact information.

533. Section 3.1 - Acceptable Experience Documentation: Section 3.1 requires the vendor to provide documentation demonstrating a minimum of five (5) years in business providing similar information technology services. Please clarify what documentation the State considers acceptable for satisfying this requirement, such as contracts, purchase orders, client references, corporate records, or a corporate experience summary supported by relevant engagement information.

Answer: Section 3.1 requires corporate documentation demonstrating a minimum of five (5) years in business providing similar information technology services prior to award.

534. Work Location / Work Arrangement: Please clarify whether personnel provided under this contract will be required to work onsite at WVOT facilities, remotely, or under a hybrid arrangement. If onsite or hybrid work is anticipated, please identify the expected work location(s) and typical onsite requirements.

Answer: Per Specifications Section 1, most requested services will likely be in the metro-Charleston, WV area, though services may be requested statewide by end-user state agencies.

535. Pricing Evaluation / Estimated Hours: The Pricing Page identifies an estimated quantity of 2,080 hours for each position classification. Please confirm whether the lowest overall total cost evaluation will be calculated using 2,080 hours multiplied by the proposed hourly rate for each applicable classification.

Answer: Confirmed. Per Section 5.1 and the Pricing Page, evaluation is based on the overall total cost calculated by multiplying 2,080 estimated hours per line item by the proposed hourly rate.

536. Candidate Resumes at Bid Submission: Please confirm whether candidate resumes and individual candidate qualification documentation are not required with the initial bid submission and will instead be required from successful vendors when responding to staffing requests issued under the resulting contract.

Answer: Confirmed. Candidate resumes and qualification documentation are not required with the initial bid submission and will only be required from awarded vendors when responding to specific delivery orders (Sections 4.2.1 and 4.2.4).

537. In an effort, to provide the best response possible we want to know if State agency is willing to provide a two week extension either until Sept 30th?

Answer: Bid Opening is September 18th. Vendors should monitor WVOASIS for the most recent schedule of events.

1.4 Recruiting Infrastructure:

US Tech maintains a structured recruiting infrastructure specifically designed to build and sustain **deep pools of qualified candidates rather than relying solely on sourcing candidates after a requisition is received**. This infrastructure is supported by specialized **recruiters and support professionals, organic candidate-attraction channels, and a contingent labor talent database**. The table below represents US Tech's Recruiting Infrastructure at a glance.

Infrastructure Component	US Tech Capability	Benefit to the WVOT
Recruiting resources	950+ recruiters and support professionals	Dedicated recruiting capacity to continuously develop candidate pools
Candidate database	15M+ active and passive candidates	Large existing population from which qualified candidates can be identified
Attraction network	300+ organic attraction channels	Multiple avenues for replenishing candidate pipelines

Candidate history	Previously placed/high-performing candidate pools	Provides access to established candidate relationships
Pipeline management	AI-enabled ATS	Maintains searchable, trackable candidate information
Availability management	Proactive candidate contact	Keeps candidate pools current and actionable

1.4.1 Technology and Infrastructure:

US Tech's technology environment is designed to function as the **operational backbone of temporary staffing delivery**, connecting requisition intake, candidate identification, qualification, submission, onboarding, assignment administration, timekeeping, payroll, invoicing, and reporting. For the WVOT, this is particularly important because temporary staffing requirements can be decentralized, may span multiple classifications, and can change based on the WVOT's operational needs. US Tech's technology enables the account team to maintain a **single view of staffing activity while allowing each requisition to be managed according to its specific requirements**.

- **Integrated Requisition-to-Assignment Workflow:** US Tech's **JobDiva (ATS)** serves as the central recruiting and requisition-management platform. JobDiva supports **requisition intake, resume parsing, candidate sourcing, screening workflows, interview coordination, candidate submission, status tracking, and requisition closure**. Candidate activity can be tracked through key stages including sourced, screened, submitted, interview, offer, and onboarding, with an associated audit trail of candidate activity and documentation.
- **AI-Enabled Sourcing with Human Validation:** US Tech augments recruiter expertise with AI-enabled sourcing and talent-matching capabilities. Its technology ecosystem includes **MyGenie** for candidate engagement and recruiter workflow support, **HireHQ** for direct sourcing and proactive pipeline generation, and **SeeBeyond** for recruiting and workforce analytics. These tools are used to increase sourcing reach, improve candidate identification, and provide recruiting teams with additional information for workforce planning and decision-making.
- **Role-Based Talent Matching and Candidate Readiness:** US Tech maintains a large candidate ecosystem that can be searched using **skills, experience, prior placement history, and availability**. Its proprietary candidate database is integrated with JobDiva and supports keyword search, skill-based filtering, experience matching, and review of historical candidate information. AI-enabled matching further analyzes candidate qualifications against position requirements to help recruiters prioritize appropriate candidates.
- **Structured Skills Validation:** Technology also supports candidate validation for positions where additional skills assessment is appropriate. US Tech uses platforms such as **HackerRank, Codility, glider.ai, DevSkiller,**

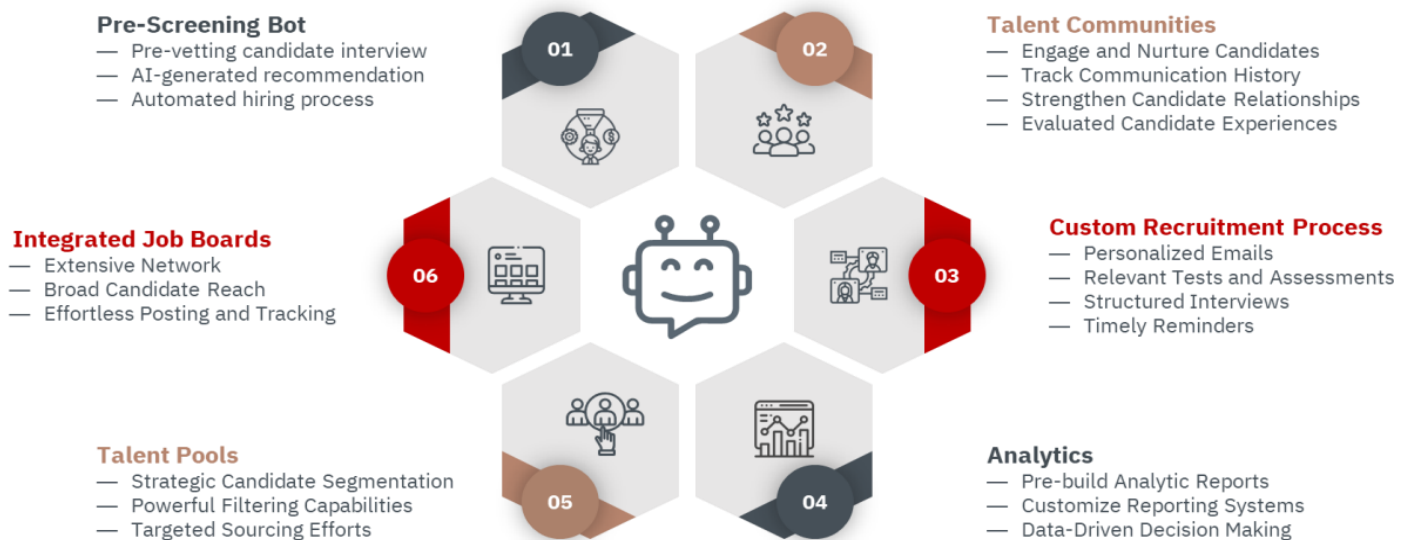

and **Interview Mocha** for technical, aptitude, behavioral, and role-specific assessments. Assessment results can be documented as part of the candidate evaluation and submission process.

- **Electronic Onboarding and Compliance Documentation:** Once a candidate is selected, US Tech's electronic onboarding infrastructure supports the transition from **candidate approval to assignment readiness**. The environment supports digital offer documentation, secure document collection, I-9/E-Verify processing, background-screening coordination, drug-testing administration, policy acknowledgements, payroll setup, and assignment-specific credential tracking.
- **Timekeeping, Assignment Administration, and Invoicing:** Downstream workforce administration is supported through **CONREP**, US Tech's proprietary workforce-management and electronic timekeeping platform. CONREP enables temporary employees and client supervisors to enter, review, and approve timesheets remotely and provides centralized, auditable timekeeping. The platform also supports assignment tracking, electronic invoicing, expense management, compliance documentation, and workforce reporting.
- **Reporting and Management Visibility:** US Tech's technology provides reporting visibility across the staffing lifecycle. JobDiva reporting capabilities and internal dashboards can provide information on **candidate status, submission volumes, time-to-fill, recruiting activity, and workforce trends**, while reporting outputs can be aligned to client-defined formats and processes.

For the WVOT , US Tech will use this infrastructure to support WVOT's need for **reports, data outputs, service performance results, and documentation**.

1.4.2 Technology Driven Delivery Model:

US Tech uses technology-enabled recruitment tools to support candidate sourcing, resume review, and engagement throughout the staffing process. Its proprietary recruitment platform includes **My Genie, an AI chatbot, and candidate engagement capabilities** that help streamline recruiter communications and organize candidate information for review.

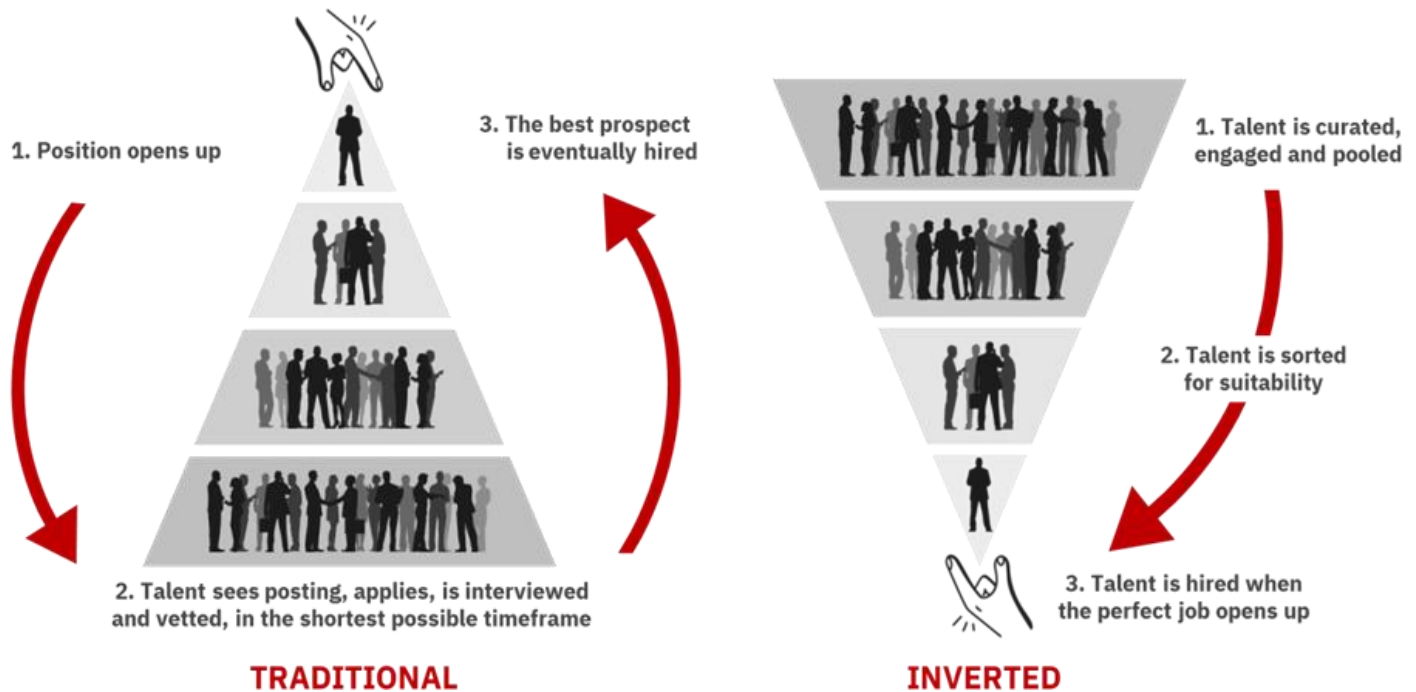

US Tech supplements these tools with a multi-channel sourcing strategy that includes its **candidate database, referrals, professional networks, job boards, social media, and other talent outreach channels**. Recruiters review candidate qualifications against the position requirements and may use structured interviews and role-appropriate technical assessments to support qualification. AI-supported outputs serve as decision-support tools, candidate evaluation, and selection remain subject to human review. This approach is intended to help US Tech identify relevant technical talent while maintaining recruiter accountability and a candidate-focused process.

1.4.3 AI Powered Recruitment:

US Tech's recruitment leverages artificial intelligence (AI) to optimize and streamline the hiring process, significantly enhancing the efficiency and effectiveness of talent acquisition. US Tech's AI-driven approach improves key areas such as the **quality of hires, speed-to-market, cost transparency, and candidate engagement**. Our AI algorithms enable precise candidate sourcing and ranking by scanning large talent pools and matching them to specific job requirements, reducing the time-to-fill from month to days. This automated system pre-vets candidates, compares rate expectations, and provides recommendations, ensuring the right candidate is selected at a fair price. By following the rigorous due diligence process, we aim to attract, select, and hire exceptional talent that can contribute to growth, innovation, and success. Our commitment to maintaining a high standard in talent acquisition reflects our dedication to providing top-tier services to our clients and building a talented and motivated workforce.

1.4.4 Sourcing Candidate:

Our recruitment process is fortified by an extensive array of resources and networks, allowing us to leverage over **300+ organic attraction channels** for sourcing. We have a very robust sourcing process with **950+ global recruiters and support staff** with multi-channel recruiting mediums. Our recruiting methods include our AI-based sourcing, proprietary **database of 15 million-plus active and passive Labor talent**, web-based recruitment portal, VIP candidate pool (previously placed, high-quality talent), referrals (including a referral bonus program), Diverse community outreach, job fairs, educational institutions, government agencies/programs, social media, job boards, and traditional advertising.

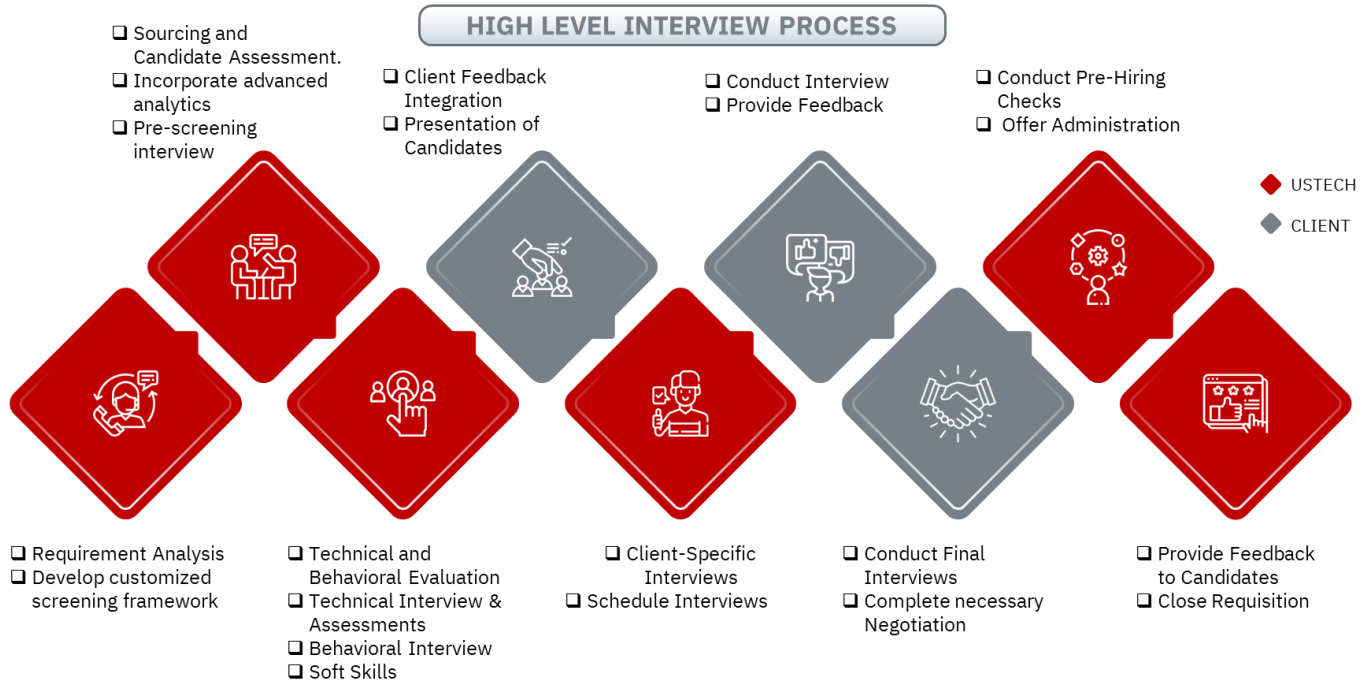

At US Tech, we prioritize a proactive talent acquisition approach through our **inverted sourcing pyramid model**. Instead of relying on passive candidates responding to job postings, we actively seek out and engage top talent, creating a curated pool of highly qualified professionals.

1.4.5 Screening Process:

Our screening and evaluation process is rigorous, designed to identify not just the technical qualifications but also the cultural and organizational fit of each candidate. We conduct multi-phase evaluations, including structured interviews, situational judgment tests, and technical assessments through platforms like **HackerRank, Codility, and glider.ai**, for

technical roles, along with behavioral interviews for soft skills evaluation. These assessments help verify a candidate's abilities, cultural fit, and predict future performance.

1.4.6 SLA-Driven Performance Metrics:

US Tech's goal is to continuously measure our performance against key **Service Level Agreements (SLAs)** and ensure that we are meeting or exceeding the WVOT expectations. We understand that a successful relationship with our clients is built on a mutual understanding and a consultative approach. This is especially true for our relationship with our previous clients.

The table below outlines our typical SLAs that we follow with our customers:

SLA Category	SLA Title & Explanation	SLA Minimum Acceptable Score	Frequency of Calculation

1.4.7 Performance Review:

Once US Tech places candidates with the WVOT, we can engage our dedicated account management team in performance review activities to ensure that the contract is functioning smoothly. It can encompass tasks such as **performance monitoring, conflict resolution, feedback collection for improvement, performance improvement, contract renewal or termination management, continuous communication, relationship management, transition management, and support**. This comprehensive approach aims to ensure a seamless and successful working relationship with the WVOT while maintaining contract performance.

Category	Explanation
Performance Evaluation	US Tech has implemented a structured process for assessing the performance of its employees. US Tech maintains ongoing communication with our account manager to gather updates on employee performance throughout and after their assignments. Periodically, we can provide WVOT with a Customer Satisfaction Score Report, which outlines our employees' performance and solicit feedback through their signature.
Performance Improvement Plan (PIP)	If US Tech believes the candidate can improve their performance, a Performance Improvement Plan (PIP) may be developed. The PIP outlines specific actions, goals, and timelines for the candidates to meet to address the performance issues.
Monitoring and Follow-Up	US Tech closely monitors the candidate's performance during the PIP period. Regular check-ins with the WVOT and candidates may occur to track progress and address any ongoing concerns.
Resolution or Termination	If the candidate successfully addresses the performance issues and meets the agreed-upon goals, the issue is considered resolved. However, if the candidate fails to improve despite the PIP or if WVOT is still unsatisfied, US Tech then terminates the candidate's assignment and finds a replacement without any additional charge.

Day-to-day management of the staff will be the responsibility of **our Account Manager, staff members, and the appropriate WVOT assigned personnel(s)**. US Tech will provide a dedicated Account Manager for the WVOT's Temporary Technical Staffing Services. Our Account Manager will be coordinating with the respective organizational

chain of command for **performance evaluations, performance issues and recognition, promotions, and disciplinary actions**. This process will include tracking staff performance and quality control standards. Notifications and resolutions of job performance problems will be made by our Account Manager and the appropriate WVOT assigned personnel(s).

US Tech's Account Manager keeps regular interaction with the whole team and based upon **team meetings, and weekly reports, collects details on the working of the team, their performance, any shortcomings noticed, any improvements expected, etc.** Based upon this information, the Account Manager takes appropriate action like discussing in-person with the employee on his/her performance, arranging training for them if required, providing a mentor to sharpen his/her skills, or finding a replacement for the non-performing employee. Additionally, our Account Manager takes regular feedback from the assigned supervisor about the performance of our staff. Such feedback mechanism plays an important role in assessing the candidate's performance.

1.4.8 Estimated Timeline to Fill Positions:

The below estimated timeline demonstrates US Tech's structured, efficient process to meet the WVOT's expectations from requisition to onboarding, typically completed within **15–21 business days** depending on role complexity and clearance requirements if any.

1.5 Dedicated Account Management:

US Tech will provide **WVOT** with a dedicated account management and service delivery structure designed to support the program via responsive day-to-day support for hiring managers across **WVOT**. Our account management model emphasizes operational accountability, clear communication, proactive issue resolution, workforce visibility, and continuous service improvement.

1.5.1 Organizational Structure:

US Tech's **organizational structure** is built on a **hierarchical** service model that integrates centralized governance, dedicated account management, and scalable delivery teams to ensure successful execution of the work. At the core is a **hub-and-spoke structure**, where the Account Manager serves as the **Single Point of Contact (SPOC)** with **WVOT**, ensuring streamlined communication, clear accountability, and consistent service delivery. Internally, we use **direct and indirect communication pathways** to ensure effective collaboration. This structure enables US Tech to efficiently align resources, manage staffing demands, and maintain control over all project-related activities.

At the highest level, the **Executive Governance Layer** provides strategic direction. It is led by the **President/CEO** and the **Executive Sponsor**. While they oversee the broader project, the Executive Sponsor serves as a critical link to the project operations, providing a direct **Escalation Path** to the Account Manager when high-level intervention is required. The **Account Management Layer** serves as the central engine of the project. The Account manager acts as the **SPOC** for the client. The **Delivery Manager** reports directly to the Account Manager and manages the daily activities of the specialized recruitment teams. 1.6 Governance:

Our governance structure operates across **three integrated management levels (i.e., Executive, Program, & Operational Delivery)**, providing strategic oversight, day-to-day program management, and recruitment execution.

This multi-tier governance model ensures that strategic objectives remain aligned with operational activities while enabling timely decision-making, rapid issue resolution, and continuous collaboration between US Tech and the WVOT.

1. Executive Oversight:

Executive governance will be led by US Tech's **Executive Sponsor**. The Executive Sponsor provides strategic leadership, executive oversight, and organizational accountability throughout the contract term. Responsibilities include reviewing overall program performance, evaluating service-level achievement, allocating organizational resources, resolving executive-level issues, supporting continuous improvement initiatives, and ensuring that service delivery remains aligned with the WVOT's evolving workforce objectives.

The Executive Sponsor will participate in **QBRs** with WVOT leadership to evaluate overall contract performance, review strategic workforce trends, discuss business priorities, assess continuous improvement initiatives, and identify opportunities to further enhance program effectiveness.

2. Operational Program Management:

The dedicated **Account Manager** will serve as the WVOT's primary point of contact and will be responsible for the day-to-day management of the temporary staffing services program. Acting as the single point of coordination between the WVOT, US Tech's recruiting organization, and assigned personnel, the Account Manager will oversee recruiting operations, workforce administration, contractor performance, reporting, issue resolution, compliance activities, and overall service delivery.

The Account Manager will maintain continuous communication with WVOT stakeholders, proactively monitor program performance, coordinate recruiting priorities, and ensure staffing activities remain aligned with established service expectations. This proactive management approach enables potential issues to be identified and resolved before they affect staffing operations, candidate quality, or workforce continuity.

3. Service Delivery Management:

Supporting the Account Manager is a dedicated Delivery Manager, Lead Recruiter, and specialized recruiting organization responsible for executing all recruiting and staffing activities. Working collaboratively with hiring managers and internal delivery teams, the Delivery Manager oversees candidate sourcing, qualification, submissions, onboarding coordination, replacement activities, and recruiting performance to ensure timely delivery of qualified professionals across all WVOT required sourcing regions.

This integrated delivery structure enables US Tech to rapidly respond to changing staffing priorities while maintaining consistent recruiting quality, standardized qualification processes, and operational accountability.

1.6.1 Reporting Framework:

US Tech recognizes that timely, accurate reporting is essential for effective contract oversight and informed decision-making. Consistent with the Scope of Service, we will provide structured operational reporting that delivers meaningful insight into recruiting activities, workforce performance, and overall program health.

For clients similar in size and profile to the WVOT, US Tech often delivers the following reports to various managers, directors, and program stakeholders:

- **Weekly activity reports** that show requisition activity, such as new requisitions, current open requisitions, number of submittals, number of files, contract terminations, etc.
- **Monthly spending and activity reports** show total spend, total requisitions opened and filled, total headcount, headcount by location, spend by location, tenure, etc.
- **Quarterly spend and activity reports** (typically with the US Tech Quarterly Business Review) show overall program activity metrics and spend. These include new, open, and filled requisitions, headcount and spend by supplier, location, and labor category, as well as tenure and diversity spend by category. US Tech will collaborate with WVOT to define the desired reporting requirements.

1.6.2 Escalation Management:

Issues are resolved at the lowest appropriate level whenever possible and escalated only when their complexity, business impact, persistence, or required authority warrants additional management involvement. This provides WVOT with clear ownership, rapid resolution, and executive visibility when needed.

- **Level 1 Service - Delivery Manager:** Routine recruiting issues, candidate sourcing challenges, submission timelines, interview coordination, candidate qualification, and day-to-day requisition issues.
- **Level 2 Program Management - Account Manager:** Recurring delivery issues, SLA/performance concerns, candidate quality issues, onboarding delays, attendance or workforce concerns, resource replacement, and issues requiring cross-functional coordination.
- **Level 3 Executive - Executive Sponsor:** Significant or unresolved performance issues, material service disruptions, strategic concerns, repeated SLA issues, major escalations, and matters requiring executive-level decisions or WVOT stakeholder engagement.

2 RELEVANT STAFFING CLASSIFICATIONS:

US Tech's placement history demonstrates experience supporting organizations across a range of technical and IT staffing requirements. To provide WVOT with a clear view of this experience, the following tables organize relevant placements by recency: placements completed during **the last five years and placements from the preceding five-year period**. Together, these records provide visibility into US Tech's recent staffing activity and broader placement experience across technical roles that align with, or are adjacent to, the classifications identified in the solicitation.
