A request form to help facilitate the request can be found at: www.state.wv.us/admin/purchase/vrc/Venpref.pdf.

For any solicitations publicly advertised for bid, in accordance with West Virginia Code §5A-3-37 and W. Va. CSR § 148-22-9, any non-resident vendor certified as a small, women-owned, or minority-owned business under W. Va. CSR § 148-22-9 shall be provided the same preference made available to any resident vendor. Any non-resident small, women-owned, or minority- owned business must identify itself as such in writing, must submit that writing to the Purchasing Division with its bid, and must be properly certified under W. For notification purposes, bidders must provide the Purchasing Division with a valid email address in the bid response. Bidders may also monitor *wv*OASIS or the Purchasing Division's website to determine when a contract has been awarded.

22. **EXCEPTIONS AND CLARIFICATIONS:** The Solicitation contains the specifications that **shall** form the basis of a contractual agreement. **Vendor shall clearly mark any exceptions, clarifications, or other proposed modifications in its bid.** Exceptions to, clarifications of, or modifications of a requirement or term and condition of the Solicitation may result in bid disqualification.

A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.

b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

    1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars ($2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or

    2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars ($50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least $1 million, the Vendor must submit to the Agency a disclosure of interested parties prior to beginning work under this Contract. Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

Yes, a valid Certificate of Insurance fulfilling all RFQ coverage limits must be provided before the contract can be formally executed.

484. How does the State handle vendor price increases requested due to inflation or market changes?

Proposed rates remain firm for the contract term. Rate adjustments are considered only during formal renewal negotiations subject to Purchasing approval.

485. Are vendor proposals subject to public disclosure under West Virginia Freedom of Information Act (FOIA)?

Yes, once an award is made, all bid submissions become public records subject to FOIA rules, excluding trade secrets properly marked confidential.

486. How should vendors mark proprietary or trade secret information in their bid submission?

Trade secret information must be explicitly designated and isolated in accordance with West Virginia Purchasing Division confidentiality guidelines.

487. What criteria are used by the State to evaluate candidate resume submissions?

Resumes are evaluated against the mandatory education, experience, technical skills, and certification criteria defined for each specific position classification.

488. Can a candidate be rejected by the Agency without a technical interview?

Yes, if the submitted resume fails to meet the mandatory qualification criteria set forth in the RFQ specification, the Agency may reject the candidate.

498. How are contractor performance issues documented during an active task order?

Performance issues are formally documented by the Agency project manager and submitted to the Purchasing Division if corrective action fails.

499. What happens if the lowest responsible bidder withdraws their bid prior to contract award?

If the lowest bidder withdraws, the State may evaluate and award to the next lowest responsible and responsive bidder.

500. Where can vendors access the final addendum and official Q&A responses for CRFQ OOT27-006?

All official addenda, vendor Q&A releases, and procurement updates are published on the West Virginia Purchasing Division website and wvOASIS vendor portal.

501. May a bidder respond to selected categories only, or must all 13 pricing lines be completed to remain responsive?

Answer: *Vendors may respond to selected categories*

502. Does "overall total cost" in Section 5.1 mean the sum of all 13 lines, or will each category be evaluated separately?

Answer: *Section 5.1 specifies that the Contract shall be awarded to the Vendor that provides the Contract Items meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages (calculated using 2,080 estimated hours per line multiplied by the proposed hourly rate).*

503. Is there a limit on the number of vendors that may receive an award?

Answer: No, *Section 1 of the Specifications states that the West Virginia Purchasing Division is soliciting bids to establish multiple open-end contracts for technical staffing services.*

504. Will award pricing remain fixed during all three renewal years, or may renewal rates be adjusted?

Answer: *Per General Terms and Conditions Section 13 (Pricing), pricing set forth in the contract is firm for the life of the Contract, unless an express price adjustment provision is authorized in the Solicitation/Contract by the State.*

505. Sections 4.2.1 and 4.2.4 appear conflicting regarding timing. Section 4.2.1 indicates candidates are presented when a staffing need arises, while Section 4.2.4 states successful vendors must include resumes and qualification documentation "with their responses." Please confirm whether resumes and qualification matrices are required with the initial CRFQ bid or only when responding to a delivery order.

Answer: *Candidate resumes and individual qualification documentation are not required with the initial CRFQ bid submission. Successful vendors will provide candidate resumes and qualification documentation when presenting candidates to the Agency upon receiving a specific delivery order/staffing request under the awarded contract (Sections 4.2.1 and 4.2.4).*

506. If resumes are required initially, how many candidates per category must be submitted?

Answer: *Resumes are not required with the initial CRFQ bid submission; awarded vendors will provide candidate documentation as individual staffing requests arise during the contract term.*

507. Are candidate substitutions permitted after award, and what approval process applies?

Answer: *Under Section 4.2.2 and 4.2.4, successful vendors must supply qualified staffing as requested by the Agency. Candidates presented for specific delivery orders must meet all requirements of the RFQ and pass Agency review prior to placement.*

508. Are remote or hybrid assignments permitted?

Answer: *Section 1 of the Specifications notes that while most requested services will likely be within the metro-Charleston, WV area, the end-user Agency may be located anywhere in West Virginia and may request services statewide during the life of the contract. Hybrid or remote work may be allowed and will be specified on individual delivery orders*

509. What proportion of assignments is expected to be onsite in Charleston versus elsewhere in West Virginia?

Answer: *Section 1 indicates that the majority of requested services are anticipated to be located in the metro-Charleston, WV area, but services may be requested statewide across West Virginia depending on Agency needs.*

510. Will the State provide computers, accounts, software, and remote-access tools, or must vendors supply these?

Answer: *Yes*

511. How will statewide travel be handled? Will the State reimburse travel expenses separately, or must all travel costs be fully burdened into the hourly rate as stated in Section 4.2.3?

Answer: *Per Section 4.2.3 of the Specifications, successful vendors must provide hourly rates that are inclusive of all costs. All travel expenses must be fully included in the vendor's proposed hourly rates.*

512. Are there any personnel residency requirements?

Answer: *The solicitation requires bidding vendors to have been in business for a minimum of 5 years (Section 3.1) and demonstrate relevant staffing history (Section 3.2). No specific candidate state residency restrictions are imposed, though resident vendor reciprocal preferences apply under Section 15A.*

513. What time-to-submit and time-to-fill service levels will apply?

Answer: *Section 4.2.2 specifies that successful vendors must provide staffing as requested by the Agency. Consistent failure to fulfill requests or unresponsiveness may be grounds for cancellation of the vendor's contract.*

514. Section 7.1 references a 180-working-day delivery clause. Please confirm if this applies to candidate placement or if it is inapplicable commodity boilerplate for this services contract.

Answer: *Section 7.1 outlines general delivery terms for Contract Items; however, technical staffing assignments under this open-end contract are fulfilled on an as-needed delivery order basis per Section 4.2.2.*

515. Which party bears background-check and fingerprinting costs?

Answer: *Per Section 40 of General Terms and Conditions and Section 4.2.3 of Specifications, the State reserves the right to require criminal background checks, and all vendor overhead costs must be incorporated into the proposed hourly rates.*

516. Sections 4.1.4.10 through 4.1.4.12 list requirements for a Bachelor's degree in Instructional Design and LMS experience. These appear under the Business Analyst heading but seem intended for the Learning Management System & elearning Development Specialist category. Please confirm this is a formatting error and that these requirements belong to Section 4.1.5.

Answer: *Requirements for a Bachelor's degree in Instructional Design and LMS experience (Sections 4.1.4.10 through 4.1.4.12) apply directly to the Learning Management System & eLearning Development Specialist classification detailed under Section 4.1.5.*

517. Sections 4.1.5.4 and 4.1.5.5 are identical. Please confirm if this is intentional or if one section should contain different requirements.

Answer: *Sections 4.1.5.4 and 4.1.5.5 both mandate a minimum of 5 years of demonstrated experience with LMS configuration, administration, ongoing system support, LMS architecture, course structures, user roles, permissions, and course management.*

518. Please provide incumbent contract information, historical usage by category, current hourly rates, and anticipated annual demand to assist with pricing accuracy.

Answer: *Quantities on the Pricing Page (2,080 hours per position classification) are approximations for evaluation purposes based on Agency estimates and do not represent guaranteed minimums or maximums (General Terms Section 5).*

519. Please confirm the controlling bid deadline is September 15, 2026, at 1:30 p.m. Eastern Time.

Answer: *Confirmed. Per the solicitation cover sheet and Instructions Section 7, the Bid Opening Date and Time is September 15, 2026, at 1:30 p.m. Eastern Time.*

520. Work location: For each of the 13 categories, is the position expected to be onsite in Charleston, remote, or hybrid? If it varies by category, please specify per line.

Answer: *As specified in Section 1 of Specifications, most requested staffing services will likely be in the metro-Charleston, WV area, but services may be requested statewide across all 13 position classifications.*

521. Rate structure: Should the Unit price entered per line item be a fully burdened hourly bill rate, or does WVOT want the employee pay rate and markup shown separately? Also, what information should be captured in the 'Delivery Days' field?

Answer: *Per Section 4.2.3, Vendors must provide a single fully burdened hourly rate per line item, inclusive of taxes, overhead, fringe, and travel expenses. The Delivery Days field should reflect fulfillment readiness upon order issuance.*

522. Evaluation method: Is award based solely on price per line item, or will scored criteria be added later? If price-based, is award made to the lowest bidder per line, or can multiple vendors be awarded per category?

Answer: *Contract award is based on the lowest overall total cost for Contract Items meeting mandatory specifications (Section 5.1). Multiple open-end contracts will be awarded to qualified bidders (Section 1).*

523. Respond to Criteria: shows 'Small Business' as the criteria - we are a certified Small Business in the Commonwealth of Virgina. May we claim SBE status in this section?

Answer: *Per Instructions Section 15A, reciprocal preference applies for resident vendors certified as small, women-owned, or minority-owned businesses under West Virginia Code § 5A-3-37 and W. Va. CSR § 148-22-9.*

524. Partial bidding: Is a vendor permitted to bid a subset of the 13 categories, or is full coverage across all lines required to be considered?

Answer: *Section 5.2 states that Vendors should complete the Pricing Page in full, as failure to complete the Pricing Page in its entirety may result in Vendor's bid being disqualified.*

525. Contract term: What is the initial term and are renewal options available? This isn't stated in the posted line items.

Answer: *Per General Terms Section 3, the Initial Contract Term is one (1) year from the effective date, with options for up to three (3) successive one-year renewal periods upon mutual written agreement.*

526. Terms and conditions: Since no separate terms and conditions document is attached to this solicitation, are the WV Purchasing Division's standard general terms and conditions incorporated by reference? If so, where can we find the applicable version?

Answer: *The full General Terms and Conditions and Instructions to Vendors are included directly within the CRFQ OOT27-006 solicitation document.*

527. Attachments: What should be included in the attachments upload (company qualifications, references, insurance certificates, resumes), and is there a required format or page limit?

Answer: *Vendors must submit documentation demonstrating a minimum of 5 years in business (Section 3.1), documentation of staffing at least 6 individuals in listed classifications past 5 years (Section 3.2), and a completed Addendum Acknowledgement Form (Instructions Section 8).*

528. Discounts and comments field: What is this field intended to capture, prompt payment discounts, volume discounts, or general notes on the bid?

Answer: *This field captures vendor notes or prompt payment discount terms; however, proposed unit prices must remain firm fully burdened hourly rates.*

529. Position Classifications / Pricing Page: Section 4.2.1 states that bidders must provide an hourly rate for each position for which they expect to submit qualified candidates. However, Section 5.2 states that failure to complete the Pricing Page in its entirety may result in disqualification. Please clarify whether a bidder may submit pricing only for the position classifications it intends to support, or whether bidders are required to provide an hourly rate for all thirteen (13) position classifications.

Answer: *Per Section 5.2, vendors are instructed to complete the Pricing Page in full, as failing to bid on all position classifications may result in bid disqualification.*

530. Contract Award Structure: Please clarify whether the State intends to make a single statewide contract award to one vendor or multiple awards to qualified vendors under this solicitation.

Answer: *Section 1 of Specifications explicitly states that the Purchasing Division is soliciting bids to establish multiple open-end contracts for technical staffing services.*

531. Section 3.2 - "First Five (5) Years" Requirement: Section 3.2 requires vendors to demonstrate their potential to provide staffing for at least six (6) individuals within the listed classifications "within the first five (5) years." Please clarify whether this refers

to: the vendor's first five years in business; any five-year period; the most recent five years; or another intended period.

Answer: *Section 3.2 specifies that vendors must provide documentation demonstrating they have provided staffing for at least six (6) individuals within the listed classifications within the past five (5) years.*

532. Section 3.2 - Acceptable Supporting Documentation: Please clarify what forms of documentation are acceptable to demonstrate that the bidder has provided individuals meeting the requirements of the specified classifications. For example, would client references, contracts/purchase orders, statements of work, candidate resumes, placement records, or other comparable documentation be acceptable?

Answer: *Section 3.2 requires documentation containing enough information to indicate the vendor provided an employee meeting the specific classification requirements, naming the entity and contact information.*

533. Section 3.1 - Acceptable Experience Documentation: Section 3.1 requires the vendor to provide documentation demonstrating a minimum of five (5) years in business providing similar information technology services. Please clarify what documentation the State considers acceptable for satisfying this requirement, such as contracts, purchase orders, client references, corporate records, or a corporate experience summary supported by relevant engagement information.

Answer: *Section 3.1 requires corporate documentation demonstrating a minimum of five (5) years in business providing similar information technology services prior to award.*

534. Work Location / Work Arrangement: Please clarify whether personnel provided under this contract will be required to work onsite at WVOT facilities, remotely, or under a hybrid arrangement. If onsite or hybrid work is anticipated, please identify the expected work location(s) and typical onsite requirements.

Answer: *Per Specifications Section 1, most requested services will likely be in the metro-Charleston, WV area, though services may be requested statewide by end-user state agencies.*

535. Pricing Evaluation / Estimated Hours: The Pricing Page identifies an estimated quantity of 2,080 hours for each position classification. Please confirm whether the lowest overall total cost evaluation will be calculated using 2,080 hours multiplied by the proposed hourly rate for each applicable classification.

Answer: *Confirmed. Per Section 5.1 and the Pricing Page, evaluation is based on the overall total cost calculated by multiplying 2,080 estimated hours per line item by the proposed hourly rate.*

536. Candidate Resumes at Bid Submission: Please confirm whether candidate resumes and individual candidate qualification documentation are not required with the initial bid submission and will instead be required from successful vendors when responding to staffing requests issued under the resulting contract.

Answer: *Confirmed. Candidate resumes and qualification documentation are not required with the initial bid submission and will only be required from awarded vendors when responding to specific delivery orders (Sections 4.2.1 and 4.2.4).*

537. In an effort, to provide the best response possible we want to know if State agency is willing to provide a two week extension either until Sept 30th?

Answer: *Bid Opening is September 18th. Vendors should monitor WVOASIS for the most recent schedule of events.*

RADISE understands that WVOT requires specialized personnel to supplement its internal workforce and support the development, maintenance, and enhancement of systems used by State agencies. These assignments span mainframe, client-server, cloud, and web application environments and may vary in duration, complexity, and location. Our staffing approach will address requirements in the Charleston metropolitan area and throughout West Virginia.

For each staffing request, RADISE will assess candidates against the applicable education, experience, and technical requirements in Section 4.1, together with the Agency's assignment-specific needs. Our process combines targeted recruiting, technical screening, verification of qualifications, reference checks, and onboarding coordination. Candidate documentation will demonstrate alignment with the proposed classification and will be provided in accordance with Section 4.2.

A designated account manager, supported by recruiting, technical, and administrative personnel, will coordinate candidate submissions, interviews, assignment readiness, performance monitoring, and issue resolution. Assigned personnel will also provide the professional mentorship, technical training, and structured shadowing opportunities required to support State analysts and the continued maintenance of the State's technology environment.

The accompanying pricing submission includes employment-related costs, insurance premiums, overhead, fringe benefits, and travel expenses as required by the solicitation. RADISE understands that the estimated hours are for evaluation purposes and do not guarantee contract utilization. Supporting documentation required under Sections 3.1 and 3.2 will be furnished before award.

RADISE has reviewed the solicitation and accepts its requirements, terms, and conditions. We appreciate your consideration and welcome the opportunity to support WVOT and its end-user agencies with qualified technical personnel, responsive account management, and dependable staffing services.

3.5 Qualification Verification and Candidate Documentation

When presenting candidates for Agency review, RADISE will provide current resumes, completed qualification documentation, and degree-verification materials in accordance with Section 4.2.4.

Qualification documentation will connect each applicable mandatory requirement to supporting candidate experience. It will identify relevant employers or clients, assignment dates, technologies used, and responsibilities performed, with references to supporting information in the candidate's resume.

RADISE will verify the experience duration for each requirement without double-counting overlapping periods. Where the solicitation expressly permits experience in place of a degree, the documentation will identify the qualifying experience supporting that substitution.

Employment history, education, and required credentials will be verified through appropriate processes. Reference checks will address relevant responsibilities, professional performance, and suitability for the assignment. Discrepancies or missing information will be resolved before a candidate is presented as meeting the mandatory requirements.

RADISE will coordinate onboarding following candidate selection and authorization of the assignment. Activities will include employment documentation, work-authorization verification, required screening, and communication of Agency policies and assignment responsibilities.

Background screening will be conducted in accordance with applicable requirements and the nature of the assignment. RADISE will coordinate with the Agency concerning access procedures, confidentiality obligations, required acknowledgements, and restrictions associated with sensitive systems or information.

Before deployment, the Account Manager will confirm reporting arrangements, work location, schedule, responsibilities, and administrative procedures. Assigned personnel will receive instructions on obtaining Agency direction, documenting work, and reporting issues affecting performance.

3.8 Performance Monitoring and Issue Resolution

RADISE will maintain communication with Agency representatives and assigned personnel throughout each engagement. Performance discussions will address work quality, timeliness, adherence to assignment requirements, professional conduct, and communication.

When an issue is identified, the Account Manager will document the concern, coordinate corrective action, and follow up with the Agency. Technical management will assist with technical performance concerns, while executive leadership will address matters requiring additional resources or management intervention.

Corrective actions will identify the concern, responsible party, required action, and follow-up arrangements. RADISE will track the issue through resolution and confirm whether the Agency's concerns have been addressed.

3.9 Retention and Continuity of Service

RADISE's retention approach begins with matching candidates to the assignment's technical requirements, work arrangements, and responsibilities. Clear communication before placement will establish expectations and support successful assignment completion.

During performance, RADISE will maintain contact with assigned personnel to identify concerns that could affect attendance, productivity, or continued availability. Account management will coordinate employee support and address issues affecting continuity.

If a replacement becomes necessary, RADISE will promptly notify the Agency, confirm replacement needs, and initiate sourcing. Replacement candidates will undergo the same qualification review and remain subject to Agency selection.

Where permitted and feasible, RADISE will coordinate a handover covering completed work, outstanding tasks, technical documentation, and operational considerations. Transition activities will follow the contract, delivery order, and Agency direction.

3.10 Knowledge Transfer and Technical Training

RADISE will incorporate knowledge transfer into assignment planning and performance discussions. Assigned personnel will coordinate with Agency representatives to identify the systems, procedures, and technical responsibilities for which State analysts require training or additional understanding.

- Demonstrations of troubleshooting and maintenance tasks.
- Documentation of recurring activities, system dependencies, and operational procedures.
- Structured shadowing during development, administration, and support work.

Training and documentation will follow Agency standards and information-security requirements. The Account Manager will discuss progress with Agency representatives and coordinate support needed to complete the agreed knowledge-transfer activities.

3.11 Contract Administration and Reporting

RADISE will maintain records supporting staffing coordination, assignment authorization, time reporting, performance monitoring, and invoicing. Time records will be reviewed for accuracy and processed using the Agency's approval procedures.

Invoices will reflect authorized services performed under the applicable delivery order and use the approved contract rates. Employment-related costs, overhead, fringe benefits, insurance, and travel will be included in the hourly rates as required by the solicitation.

RADISE will accept payment in accordance with the State's payment procedures and provide reports requested by the Agency or Purchasing Division. Section 4 — Quality Assurance, Compliance, and Contract Management

4.1 Quality Assurance Approach

RADISE will maintain quality controls throughout the staffing lifecycle, from receipt of an Agency staffing request through candidate selection, onboarding, assignment performance, and completion. Quality assurance activities will confirm that candidates are accurately represented, qualification documentation is complete, and staffing services are delivered in accordance with the solicitation, applicable delivery order, and Agency direction.

The Account Manager will coordinate quality assurance activities with recruiting personnel, technical reviewers, and management. Any issue affecting candidate qualification, assignment readiness, performance, or continuity will be documented and addressed promptly.

4.2 Candidate Qualification Controls

Before presenting a candidate, RADISE will review the candidate's qualifications against the applicable classification requirements in Section 4.1 of the solicitation. The review will confirm:

- Required education or permitted experience substitution.
- Required years of experience for each applicable technology or responsibility.
- Relevant duties and hands-on experience.
- Consistency between the resume and qualification documentation.
- Availability, work location, and assignment readiness.
- Completion of required verification and supporting documentation.

RADISE will not represent a candidate as meeting a mandatory requirement unless the qualification is supported by documented education, experience, or other required evidence.

4.3 Documentation and Records Management

RADISE will maintain organized records for staffing requests, candidate submissions, qualification reviews, verification materials, interview coordination, onboarding, assignment status, and performance-related communications.

Records will be maintained in accordance with RADISE procedures, applicable law, contract requirements, and Agency instructions. Information will be handled in a manner that protects confidentiality and limits access to authorized personnel.

Candidate and assignment records will be kept sufficiently complete to support Agency review, contract administration, reporting, and any required verification.

4.4 Compliance with Agency Requirements

RADISE and assigned personnel will comply with applicable WVOT and State policies, procedures, security requirements, access controls, confidentiality obligations, and work rules communicated by the Agency.

RADISE will coordinate required acknowledgements, screening, access documentation, and onboarding activities before personnel begin work when required by the Agency. Assigned personnel will work under Agency direction and will perform only authorized responsibilities.

The Account Manager will document material concerns, coordinate corrective action, and follow up with the Agency until the matter is resolved or further direction is received.

4.6 Issue Escalation and Corrective Action

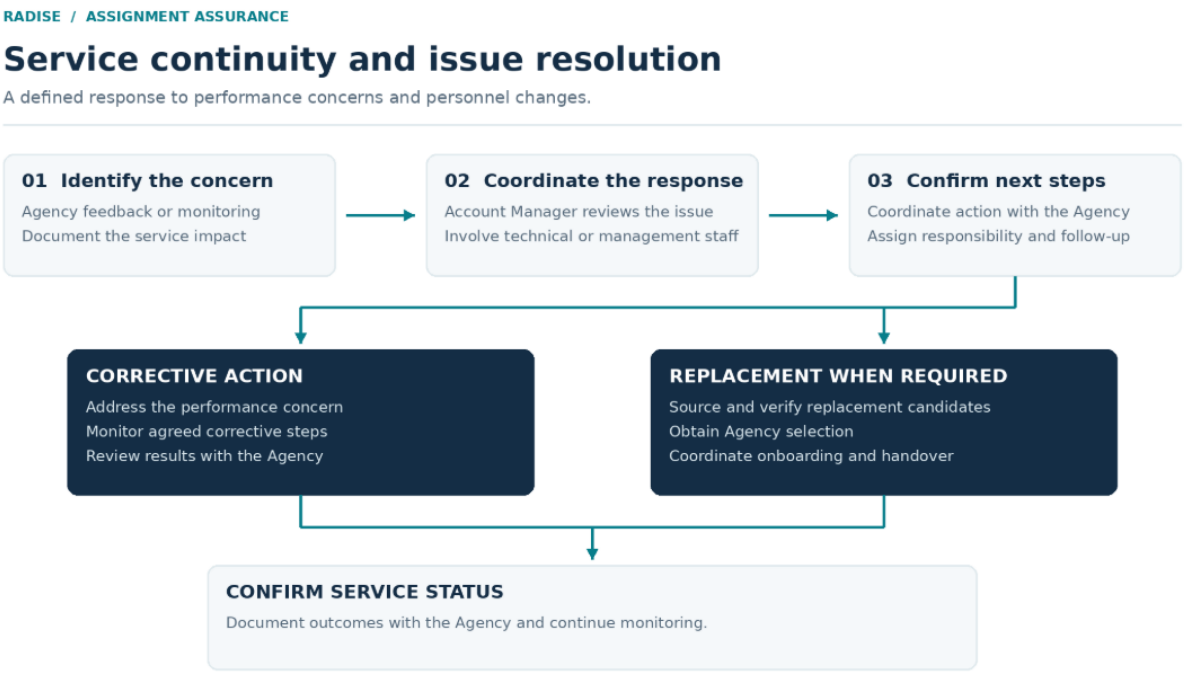

RADISE will use a structured escalation process for issues affecting service delivery.
The Account Manager will first review the issue with the assigned personnel and relevant recruiting or technical personnel. Where necessary, the matter will be escalated to RADISE management for additional support, corrective action, or resource coordination.
Corrective action will identify the issue, required response, responsible personnel, and follow-up action. RADISE will communicate with the Agency regarding the status of material issues and will maintain records of actions taken.

4.7 Continuity and Replacement Support

RADISE will support continuity of services by maintaining communication with assigned personnel, monitoring assignment risks, and addressing issues that may affect continued performance.
If replacement is required, RADISE will confirm the applicable classification and assignment requirements, identify qualified replacement candidates, complete the required qualification review, and present the candidates for Agency consideration. Replacement personnel will not be represented as qualified unless their education, experience, and technical capabilities meet the applicable mandatory requirements.

Proposed pricing reflects fully burdened hourly rates for all thirteen (13) staffing classifications identified in the solicitation.

RADISE has developed its pricing using a market-based methodology that reflects prevailing public-sector Information Technology staffing conditions, position-specific skill requirements, labor market availability, recruiting complexity, and the technical qualifications required to successfully support WVOT's operational and strategic initiatives. Pricing was established with consideration for the experience levels, certifications, technical expertise, and specialized capabilities required for each labor classification, including cloud engineering, cybersecurity, enterprise application support, database administration, business analysis, workforce enablement, and mainframe systems support.

Consistent with Section 4.2.3 of the solicitation, all proposed rates are fully burdened and include all direct and indirect costs associated with contract performance. These costs include employee compensation, fringe benefits, payroll obligations, recruiting and retention activities, workforce administration, insurance, program management, quality assurance, contract compliance, travel, overhead, and all other expenses required to provide qualified personnel throughout the contract period.

RADISE understands that hourly rates submitted under this solicitation must represent the total cost of providing services. Accordingly, no additional administrative fees, placement fees, recruiting fees, travel expenses, processing fees, management fees, overhead charges, or other supplemental costs will be billed to the State beyond the rates proposed in the Pricing Schedule.

RADISE further acknowledges that the quantities identified in the solicitation are provided solely for evaluation purposes and do not represent guaranteed minimum or maximum levels of effort. Billing will be based exclusively upon authorized services performed and accepted by the State under individual delivery orders or assignments. Proposed rates shall remain firm for the duration of any resulting contract and approved renewal periods unless otherwise authorized under the contract terms and conditions.

5.1 Pricing Schedule

RADISE's proposed pricing is designed to provide the State of West Virginia with access to highly qualified technical professionals while maintaining a competitive and fiscally responsible cost structure. The proposed rates support the acquisition of specialized expertise across all staffing classifications identified by WVOT and provide a scalable workforce solution capable of supporting both ongoing operational requirements and future technology modernization initiatives.
