Charleston WV 25305

Reference: Technical Proposal to the State of West Virginia Purchasing Division's Request for Quote titled 'Temporary Technical Staffing Services' (CRFQ-0231-OOT2700000006).

Dear Mr. Welch,

InfiCareTech is pleased to respond to the State of West Virginia Purchasing Division's (from now on referred to as 'State') Request for Quote (CRFQ) CRFQ-0231-OOT2700000006, titled 'Temporary Technical Staffing Services.' Through the CRFQ, the State requests proposals from qualified and experienced IT vendors to provide temporary IT staffing services across several significant initiatives on an as-needed basis.

Brief Narrative:

InfiCareTech (www.InfiCareTech.com) was founded in 2001 and is headquartered in the Washington, DC, metro region. It has a proven track record of connecting our clients with high-quality temporary and full-time professionals across the United States. Our experience spans working with small businesses, Fortune 500 companies, numerous government agencies, including cities and counties, non-profits, and educational systems. At InfiCareTech, we stand out from other staffing firms in the following ways:

1. A proprietary database of over two million professionals is constantly expanding and is routinely maintained for accuracy.
2. Unparalleled response time—We aim to submit highly qualified initial candidates within 2 – 4 hours of receiving the open position(s).
3. Minimizing ghosting and no-shows—Since the pandemic, the market has become more challenging in terms of candidate reliability. We have implemented strict measures to reduce these occurrences, including training recruiters to recognize nonverbal cues (such as job history and responsiveness) and conducting a secondary supervisory review of all candidates before submission.
4. With over 25 years of experience, we provide competitive rates and simplify processes, making us a one-stop shop from initial candidate outreach to onboarding and placement.

Our experience and efforts have earned us ISO 9001:2015 certification and a Silver Medal from EcoVadis for our Corporate and Social Responsibility (CSR) practices. We have consistently been certified as a Great Place to Work and a Best Workplace, which has helped us attract top talent for our clients. InfiCareTech is a GSA Schedule 70 Contract holder, a National Minority Supplier (as approved by the NMSDC), and a Minority Business Enterprise (MBE).

InficareTech's IT Expertise & Government Domain Contract Vehicles:

We have been providing successful end-to-end temporary, contractual, and direct hire IT staffing support services on various technical skills to our public sector clients under various functional areas as listed below:

<i>IT Program & Project Management</i>	<i>Software Applications Design, Development & Maintenance</i>
<i>Business and Quality Assurance Analysis</i>	<i>Database Administration</i>
<i>IT Infrastructure Services</i>	<i>Network & Server Operations</i>
<i>Cyber Security</i>	<i>Cloud Computing</i>
<i>Enterprise Resource Planning (ERP) Services</i>	<i>Enterprise Architecture (EA)</i>
<i>Telecommunications Support Services</i>	<i>Helpdesk/ Technical Support</i>
<i>Geographic Information System (GIS)</i>	<i>Data Science and Analytics</i>

Below are the various Government Agency 'Temporary Staffing' Contract Vehicles primed by us.

Government Agency	Contract Vehicle
<i>Administrative Office of the Courts, MD</i>	<i>Staff Augmentation & Professional Consulting Services</i>
<i>Allegheny County, PA</i>	<i>Staff Augmentation Services for Information Technology, Data Management, and Data Analysis</i>
<i>Calbright College, CA</i>	<i>Temporary Technology Staffing Services</i>
<i>Central Ohio Transit Authority, OH</i>	<i>Temporary Personnel Services</i>
<i>Chicago Public Schools, IL</i>	<i>Technical Service Consultants</i>
<i>City of Redmond, WA</i>	<i>Temporary Technology Staffing</i>
<i>Department of Enterprise Services, WA</i>	<i>IT Project Management Services</i>
<i>Gwinnett County, GA</i>	<i>ITS Professional Staffing Resource</i>
<i>State of Florida</i>	<i>Prequalification for IT Staff Augmentation Services</i>
<i>San Francisco Unified School District, CA</i>	<i>Temporary Staffing Services</i>
<i>State of Louisiana</i>	<i>Statewide IT Staffing Support</i>
<i>Salt River Pima-Maricopa Indian Community, AZ</i>	<i>IT Recruiting/Consulting Services</i>
<i>Virginia Employment Commission, VA</i>	<i>Temporary Personnel Services</i>
<i>Washington County, OR</i>	<i>Staff Augmentation for IT Services</i>

For over two decades, InficareTech has successfully placed Junior to Senior level candidates in both long- and short-term IT positions like the ones described in the CRFQ. Our candidates are working in roles that are on-site, remote, and hybrid in nature. We have placed over several hundred skilled candidates in the last one (1) year with various Government and Commercial clients. Our candidates have accumulated many person-hours of experience with our clients across multiple platforms and skills. Our ATS database currently consists of over 2 million qualified candidate resumes with whom we have interacted during the hiring process. We have a qualified recruitment team and processes in place and can present the first resume quickly after starting the candidate search.

InficareTech has carefully reviewed the State's temporary IT staffing requirements, and we are confident we can provide the State with high-quality and reliable staffing solutions for IT skills. Enclosed, please find our proposal, which includes detailed information about InficareTech and its qualifications and a broad description of our proposed solution. Our proposal provides a comprehensive and cost-effective solution that meets all the requirements outlined in the CRFQ.

This proposal outlines the services that we can provide, including temporary IT recruitment, placement and candidate replacement, temp/temp-to-hire conversions, invoices and payment procedures, equipment, services support team, and compensation. We have also included details of our experience in providing IT staffing solutions to similar agencies and companies, as well as our track record of success in meeting the needs of our clients, resulting in long-term strategic partnerships.

InfiCareTech assures that the State can accomplish its temporary IT staffing goals in a timely and cost-effective manner through our vast technical expertise, relevant experience, practical knowledge of the Government's business processes, and total commitment of our management. With its strength and capabilities, InfiCareTech is fully prepared and committed to providing the required technical and consulting services to the State in the best possible manner.

Acknowledgment of Addendum:

Our acknowledgment of the receipt of the CRFQ Addendum is as follows:

Addendum for CRFQ No.: CRFQ-0231-OOT2700000006	Acknowledgment of Addendum
1	✓
2	✓

Authorized Representative:

This proposal is made without collusion with any other person, persons, company, or parties submitting a proposal; it is fair and in good faith without collusion or fraud.

The contents of InfiCareTech's response to this solicitation shall constitute a binding offer, and the signatory below shall be legally authorized to execute all the contractual obligations of the resulting contract with the State.

If you have any questions or concerns about evaluating this response, please get in touch with Charit Mathur at (571) 246-3799 or govt@inficare.com.

Thank you,

Charit Mathur, Vice President
InfiCareTech.

1.0 COMPANY OVERVIEW

Legal Entity Name:	InfiCare Health Inc. dba InfiCareTech.
Main Office Address:	22375 Broderick Drive #225 Dulles, VA 20166
Telephone:	(703) 945-1800
Website:	www.infiCareTech.com
Year Established:	2001 (25years in business)
Certifications:	• SWaM Certified - Minority Business Enterprise (MBE) in the Commonwealth of VA • Certified by the National Minority Supplier Development Council (NMSDC)
Awards & Recognition:	• “Best of Staffing” Client and Consultant Award (Receiving satisfaction scores of 9 or 10 out of 10 from 93.8% of its clients and 93.2% of its consultants, significantly higher than the industry’s average.) • EcoVadis assessed our Corporate Social Responsibility (CSR) and sustainability efforts and rated them in the 90th percentile. • Great Place to Work Certified • Inc.’s Best Places to Work
Company History:	InfiCare (www.infiCareTech.com), incorporated in 2001, is a certified National Minority Supplier from the National Minority Supplier Development Council (NMSDC), a Minority Business Enterprise (MBE), and a GSA Schedule 70 Contract holder. We are an ISO 9001:2015 certified IT Staff Augmentation Services provider headquartered in the Washington DC metro region. We have extensive experience providing temporary, contractual, and direct hire IT staffing services in various domains ranging from Information Technology to Administration, Finance, Human Resources, Management, and Healthcare to various Educational Institutions, Government agencies, and Niche Companies to Fortune 500 Commercial clients across the US. For the past 25 years, InfiCare has provided temporary, contractual, and direct hire IT Staffing services to its clients across the US in the public and private sectors. We have successfully placed Junior to Senior level candidates in both long- and short-term IT positions (in the following functional areas: Network & Server Operations, Software Applications Design, Development & Maintenance, Business and Quality Assurance Analysis, Database Administration, IT Program & Project Management, Cloud Computing, Cyber Security, Enterprise Resource Planning (ERP), Enterprise Architecture (EA), Geographic Information System (GIS), IT and Telecom Infrastructure Services & Helpdesk/ Technical Support) similar to the ones described in the RFP. Our candidates are working in roles that are on-site, remote, and hybrid in nature. While we have expertise across various domains, we pride ourselves on delivering quality services and meeting our clients' unique needs, regardless of their position or domain. We have forged long-term strategic relationships with our clients, some of whom are as old as 16, through our excellent customer service delivery and creative solutions.
Minimum Qualifications:	InfiCareTech fulfills the minimum qualifications as it has over 25 years of experience providing IT Staff Augmentation services to its clients in the Government and commercial sectors.

1.1 IT Experience

1.1.1 Client List & Services Provided

As an IT staffing vendor, InfiCareTech takes pride in our ability to provide comprehensive and tailored IT recruitment solutions to our clients across a wide range of functional categories. With a proven track record of success, we have developed a deep understanding of our client's unique IT staffing challenges. We have honed our expertise in sourcing, screening, and placing top-quality candidates for various positions. We have the resources, network, and experience to identify the right talent to meet our clients' needs. Our team of dedicated technical recruitment professionals works closely with our clients to understand their staffing requirements, company culture, and strategic objectives, ensuring a seamless and effective recruitment process.

The table below provides a representative list of government and commercial clients we have worked with, and several temporary IT positions have been closed with them, like the ones mentioned in the CRFQ. We work with clients directly as well as through various Primes and Managed Service Providers (MSP):

Representative Client List
Government and Commercial Clients: Department of Health and Human Resources, West Virginia, State of Alabama, State of Florida, State of Kansas, County of San Diego, CA; City of Irvine, CA; San Francisco Unified School District (SFUSD), CA; Calbright College, CA; Allegheny County, PA, Salt River Pima-Maricopa Indian Community (SRPMIC), AZ, City of Redmond, WA, Department of Corrections, VA, Virginia Employment Commission, VA, Central Ohio Transit Authority, OH, Department of Enterprise Services, WA, Washington County, OR, Gwinnett County, GA, Maryland DOT SHA, United States Department of Agriculture (USDA), United States Postal Service (USPS), University of South Carolina, Columbia University, Tufts University, University of Massachusetts (UMASS), Columbia University, Mississippi State University, Boston College, MA, Chicago Public Schools, IL, CISCO, Google, ATOS, Zensar, UPS, FedEx, LinkedIn, Microsoft, Leidos, Happiest Minds, JP Morgan Chase, Charles Schwab Bank, PNC Bank, First Republic Bank, Bank of America, Wells Fargo, Hospital Corporation of America (HCA), Myris Health, Christus Health, Cleveland Clinic, Universal Health Services (UHS), Massachusetts (MA) State Department of Health, Worcester Recovery Center and Hospital (WRCH), Baptist, Walgreens, Kaiser Permanente, BCBS, Pfizer, Walmart, HCF, Sanford, HCA, INOVA, Mphasis, Peraton, Metaprocure, FedEx, Kroger, Progressive, Advantasure, Hilton, Medefis, Harman.
IT Services Provided
IT Project Management: InfiCareTech has been implementing IT strategies to deliver projects on schedule and within budget, conducting project risk assessments, using project management tools to track project performance and schedule adherence, and coordinating with project team members to develop schedules and individual client responsibilities. Web Applications: InfiCareTech has been using programming languages to design software programs, meeting with clients to determine software needs, coding and testing software to ensure functionality, & updating software programs to refine components like cybersecurity measures & data storage capacities. Software Testing: Our candidates have been creating testing procedures to evaluate the software's performance, building software testing programs that automate testing processes, running the software testing procedures to assess the software, documenting all testing procedures, reporting bugs, and making recommendations to improve the software product. Cyber Security: InfiCareTech has been running diagnostic tests and analyzing data to spot threats to computer systems, developing firewalls and other security measures to safeguard systems, making recommendations regarding software and hardware that can strengthen information storage and security

records, staying up to date on the newest viruses and malware being used by cybercriminals and aiding in the development and implementation of best practices that employees can follow to reduce the risk of data theft.

Cloud Computing: InfiCareTech has been overseeing the design and management of cloud systems, applications, policies, and strategy, managing the development of scalable architecture to support applications and infrastructure on IaaS and PaaS platforms, leading the evaluation process to select, implement, and maintain the best cloud solutions, guiding requirements gathering activities with stakeholders and vendors and ensuring that robust security management and privacy requirements are incorporated into cloud hardware, software, and applications.

Database Management: Our candidates have been managing the administration of the database, analyzing database needs, developing a long-term strategy for data storage, establishing policies and procedures related to data security and integrity, monitoring and limiting database access as needed, and overseeing the design, maintenance, and implementation of the systems that manage an internal database.

IT Infrastructure: InfiCareTech has been managing and coordinating all IT infrastructure projects to meet the client's needs, ensuring that standards and procedures are followed during the design and implementation of information systems, and responsible for monitoring the systems to provide the highest level of infrastructure performance and assist in network interface planning, hardware resource availability and the development of new applications.

Help Desk Support: InfiCareTech candidates have been identifying, researching, and resolving complex technical problems, providing support to end users for computer, application, system, device, access, and hardware issues, and documenting, tracking, and monitoring the problem using applicable systems and tools, responding to telephone, email and online requests for technical support, coordinating with other teams/specialists to resolve and be responsible for the resolution of escalated issues of more incredible difficulty.

Data Science and Analytics: Our candidates are responsible for data analysis, predictive modeling, machine learning, data visualization, statistical analysis, big data technologies, business intelligence, and data governance and ethics. They focus on extracting actionable insights and making data-driven decisions using advanced analytical techniques and technologies.

Mainframe: Our candidates have analyzed designs, developed and executed custom application features and functions, interacted with integration infrastructure and varied systems, designed and developed code applications to technical and functional programming standards, and provided prime assistance toward application release installation into production under given direction.

ERP/CRM: Our candidates have been developing, planning, and implementing the ERP system, determining the scope of the project, setting deadlines, assigning responsibilities, monitoring the progress of the ERP system, and evaluating and recommending changes to current and future ERP system requirements to meet our client's needs.

Geographical Information Systems (GIS): InfiCareTech candidates have been maintaining the digital databases that house geospatial information, implementing spatial analysis, and developing mapping applications and similar tools regarding geographical mapping. We have placed candidates with experience in AutoCAD, CAD, JavaScript, Agile, GIS, SQL, Python, and Geo Database software systems.

1.1.2 Functional Categories & Related Positions

InfiCareTech has provided resources in the following functional categories and positions (onsite and remote) to both its Government and Commercial clients.

Functional Category	Position
IT Project Management:	Program Manager, Project Manager, Project Coordinator, Business Analyst, Business Systems Analyst, Identity & Access Manager, Change Management Specialist
Web & Mobile Applications:	Technical Architect, Web Applications Specialist, Applications Developer, Mobile Applications Developer, Trainer, Technical Writer
Software Testing:	DB Tester, Manual Tester, Automation tester, Cloud Tester, QA Analyst
Cyber/IT Security:	Cyber Security Architect, IT Security Engineer
Cloud Computing:	Cloud Architect, AWS Cloud Administrator, Azure Cloud Administrator
Database Management:	SQL Database Administrator, Oracle Database Administrator, Teradata Database Administrator
IT Infrastructure:	Storage Engineer, Network Engineer, Cisco Support Specialist, DevOps Engineer, MS Exchange Engineer, Datacenter Engineer, IT Support/System Engineer, Systems Administrator, Desktop Engineer, Telecom Technician
Help Desk Support:	Help Desk Specialist, Help Desk Technician
GIS:	GIS Analyst, GIS Technical Lead, GIS Consultant, GIS Developer, GIS Programmer Analyst, GIS Technician
Mainframe:	Mainframe Developer, Mainframe Tester, IMS DB Developer
ERP/CRM:	Oracle Developer, Oracle Implementation Consultant, SAP Technical Consultant, SAP Program Manager, SAP HANA Product Owner, ABAP Developer, Techno-Functional Consultant, SAP Administrator
Data Science & Analytics:	Data Architect, Data Visualization Specialist, Data Scientist, Data Engineer, Business Intelligence (BI) Analyst, Data Analyst

1.1.3 Partial List of Candidate Placements

InfiCareTech has successfully closed several hundred IT positions (both onsite and remote) with its clients in the last year. The table below provides a partial list of such positions closed. Most of our candidates continue to offer services to clients in these positions.

Frequently Filled Roles	Candidates Placed (Annually)
Project Manager	21
Applications/Security/Data Architect	22
ERP Consultant	20
IT Security Consultant	29
Business Analyst	18
Software Developer	62
Quality Assurance Tester	39
Network Engineer	40
Systems/Backup Administrator	32

InfiCareTech, 22375 Broderick Drive #225, Dulles, VA 20166

Frequently Filled Roles	Candidates Placed (Annually)
Help/ Service Desk Specialist	82

1.2 Staff Certifications

InfiCareTech provides candidates with the certifications for the position specified in our clients' job descriptions. Our recruitment team finds the most suitable candidate for our client with the relevant certifications for the requested position. We have placed candidates in various IT positions like those requested in the CRFQ with certifications in Project Management, Software Applications Development, Database Administration, GIS, Cyber Security, Cloud Computing, IT Infrastructure, Telecommunications, and Helpdesk-related functional categories. Below is a partial list of certifications that our placed candidates possess.

Functional Categories	Certifications
Networking:	• Cisco Certified Network Associate (CCNA) • Cisco Certified Network Professional (CCNP) • CompTIA Network+ • Juniper Networks Certified Internet Associate (JNCIA) • Certified Information Systems Security Professional (CISSP)
Cybersecurity:	• Certified Information Systems Security Professional (CISSP) • Certified Ethical Hacker (CEH) • CompTIA Security+ • Certified Information Security Manager (CISM) • Certified Information Systems Auditor (CISA)
Cloud Computing:	• Amazon Web Services Certified Solutions Architect (AWS CSA) • Microsoft Certified: Azure Solutions Architect Expert • Google Cloud Certified Professional Cloud Architect • CompTIA Cloud+ • Cisco Certified Network Associate (CCNA) Cloud
Database Administration:	• Oracle Certified Associate (OCA) • Oracle Certified Professional (OCP) • Microsoft Certified: Azure Database Administrator Associate • MySQL Database Administrator • IBM Certified Database Administrator
Programming and Development:	• Microsoft Certified: Azure Developer Associate • Microsoft Certified: Azure DevOps Engineer Expert • Microsoft Certified: Azure Solutions Architect Expert • Microsoft Certified: Power Platform Developer Associate • AWS Certified Developer - Associate • Oracle Certified Professional, Java SE Programmer (OCPJP) • Certified ScrumMaster (CSM) • Python Institute Certified Python Programmer (PCPP)
Project Management:	• Project Management Professional (PMP) • Certified ScrumMaster (CSM) • PRINCE2 Practitioner • Agile Certified Practitioner (PMI-ACP) • CompTIA Project+

Functional Categories	Certifications
Data Science and Analytics:	• Microsoft Certified: Azure Data Scientist Associate • AWS Certified Data Analytics - Specialty • Certified Analytics Professional (CAP) • Google Professional Data Engineer • Cloudera Certified Associate (CCA) Data Analyst
Systems Administration:	• Microsoft Certified: Azure Administrator Associate • Microsoft Certified: Azure Security Engineer Associate • Microsoft Certified: Security, Compliance, and Identity Fundamentals • CompTIA A+ • Red Hat Certified System Administrator (RHCSA) • Linux Professional Institute Certification (LPIC) • VMware Certified Professional (VCP)
Helpdesk Support:	• CompTIA A+ • CompTIA Network+ • CompTIA Security+ • Microsoft Certified: Modern Desktop Administrator Associate • Apple Certified Support Professional (ACSP) • HDI Desktop Support Technician (HDI-DST) • ITIL Foundation • Zendesk Support Administrator Certification • ServiceNow Certified System Administrator • Cisco Certified Entry Networking Technician (CCENT)

2.0 REFERENCES

Listed below are InfiCareTech's five (5) current client references within the last three (3) years, along with a brief description of IT services of similar complexity and scope provided under similar functional areas and position categories.

2.1 Zensar Technologies

Client Name:	Zensar Technologies	
Address:	2 Research Way, First Floor, Princeton, NJ 08540	
Project Title:	Temporary, Temp-to-Perm, and Direct-Hire IT Staffing Services	
Start & End Date:	2010 - Present	
POC Name & Designation:	Sanju Soni, Director of Staffing	
Contact Details:	Phone: 972.261.8044	Email: s.soni@zensar.com

Description of Services Provided:

InfiCareTech has supported Zensar Technologies since 2010 as a primary staffing partner, providing contract and direct-hire professionals for enterprise IT initiatives serving Zensar and its Fortune 1000 customers. The engagement requires InfiCareTech to respond to both ongoing and surge staffing needs across distributed, technically complex environments.

Scope and Positions Relevant to Sate: InfiCareTech has recruited and placed junior-, mid- and senior-level personnel across the following State-aligned positions and functional areas:

Zensar Positions/Services	Comparable State Functional Area
<i>IT Architects and Project Architects</i>	Enterprise architecture, solution architecture and technical design
<i>Programmers and Software Developers</i>	Software application design, development, integration and maintenance
<i>Quality Assurance Analysts</i>	Manual and automated testing, test planning and quality assurance
<i>Business Analysts</i>	Requirements analysis, business-process assessment and stakeholder coordination
<i>Project Managers</i>	IT project management, implementation planning, risk management and governance
<i>Help Desk Analysts and Support Personnel</i>	Help desk, end-user support and technical troubleshooting
<i>Data Architects and Data Modelers</i>	Data architecture, database design and enterprise data management
<i>Data Pipeline and Analytics Resources</i>	Data engineering, data warehousing, analytics and reporting
<i>Cloud Support Professionals</i>	Cloud platform implementation, administration and support
<i>AI and Analytics Specialists</i>	AI-enabled insights, advanced analytics and data-driven decision support

The engagement included data modeling, data architecture design, pipeline development, analytics and reporting, AI-driven insights, cloud platform support, and cross-functional project coordination.

Resources supported enterprise-wide data initiatives and coordinated activities between business and technical stakeholders across distributed teams.

These services closely align with State's required functional areas, including IT infrastructure, network and server operations, cloud computing, enterprise architecture, IT program and project management, application development and maintenance, business and quality analysis, database administration, data science, analytics, and data warehousing.

2.2 Happiest Minds Technologies Ltd.

Client Name:	Happiest Minds Technologies Ltd.	
Address:	30 Knightsbridge Rd, Suite 525, Piscataway, NJ 08854	
Project Title:	Temporary, Temp-to-Perm, and Direct-Hire IT Staffing Services	
Start & End Date:	2019 - Present	
POC Name & Designation:	Naveen Mantri, Director of Staffing	
Contact Details:	Phone: 718.795.6465	Email: Naveen.mantri@happiestminds.com

Description of Services Provided:

InfiCareTech has supported Happiest Minds since 2019 as a prime staffing partner, providing contract and direct-hire personnel for enterprise technology projects serving the company and its Fortune 1000 customers. The engagement requires rapid fulfillment of both steady-state and project-driven needs across application, infrastructure, networking, support, and project-management functions.

Scope and Positions Relevant to State: InfiCareTech has recruited and placed personnel across the following positions and functional areas relevant to State:

Happiest Minds Positions/Services	Comparable State Positions
System Administrators	Infrastructure Engineer; Systems Engineer – covering servers, storage, virtualization, operating systems, enterprise infrastructure, system configuration, availability, security, troubleshooting, and capacity planning.
Project Architects	Application Architect; Cloud Architect; Network Architect – covering enterprise/solution architecture, application architecture, cloud and infrastructure design, technical standards, scalability, security, and implementation planning.
Network Support Professionals	Network Engineer – responsible for designing, implementing, maintaining, monitoring, and troubleshooting routers, switches, firewalls, wireless networks, connectivity, network performance, and security.
Desktop Support Personnel	Technology Support Technician; Field Support Technician; IT Support Specialist – providing desktop/laptop, hardware/software, user-device, system, connectivity, installation, maintenance, troubleshooting, and field technical support.
Quality Assurance/Test Analysts	QA / Test Engineer; Automation Test Engineer – covering test planning, test cases, defect identification, functional validation, automated testing, regression and performance testing, and overall software quality assurance.
Application Programmers	Software Engineer / Developer; Back-End Developer; Front-End Developer; Full Stack Developer; API Developer – covering software

	design, development, testing, integration, APIs, application enhancement, debugging, maintenance, and end-to-end application development.
Program and Project Managers	Program Manager; Project Manager (Agile, Scrum, or Traditional PMP) – covering program/project governance, schedules, budgets, resources, risks, dependencies, stakeholder communication, change management, and successful delivery.
Help Desk Analysts	Help Desk / Service Desk Technician – providing first-level technical support, service-request response, troubleshooting, system access and software support, incident escalation, and general IT assistance.

The Happiest Minds engagement covers project management, application development and maintenance, quality assurance, server and desktop support, networking and help desk services. These areas align closely with State's requirements for IT infrastructure, network and server operations, help desk and technical support, enterprise architecture, IT program and project management, application development and quality assurance.

2.3 Oakland County, MI

Client Name:	Oakland County, MI	
Address:	1200 N Telegraph Rd, Bldg. 49W, Pontiac, MI 48341-0421	
Contract Number(s) & Type:	Temporary, Temp-to-Perm, and Direct-Hire IT Staffing Services	
Contract's Start & End Date:	2024 - Present	
Performed As:	Prime Vendor	
Dollar (\$) Value:	\$ 0.7 Million	
POC Name & Designation:	Adam Frantz, Information Technology Supervisor II (InfoSec)	
Contact Details:	Phone: (248) 466-5752	Email: frantza@oakgov.com

Description of Services Provided:

InfiCareTech provides IT staff augmentation and professional staffing support to Oakland County, a large local government organization with diverse technology systems and public service responsibilities. The engagement is managed in coordination with the County's Information Technology and Information Security leadership and includes urgent, specialized, and project-based IT staffing requirements.

Scope and Positions Relevant to State: InfiCareTech has recruited and placed professionals across the following Oakland County positions and functional areas relevant to State:

Oakland County Positions/Services	Comparable State Functional Area
Data/BI Architect	Enterprise data architecture, data warehousing, business intelligence and analytics
ServiceNow Administrator	IT service management, workflow configuration, platform administration and incident/change management
Server Administrator	Server operations, infrastructure administration, system availability and performance monitoring
Application Support Specialist	Application maintenance, production support, troubleshooting and issue resolution

Software Developer	Application design, development, integration, enhancement and maintenance
Business Analyst	Requirements gathering, business-process analysis, documentation and stakeholder coordination
Project Manager	IT project planning, governance, scheduling, risk management and performance reporting

The engagement covers IT project management, application development and maintenance, business-analysis support, and related operational staffing.

These positions closely align with State's requirements for enterprise applications, data and analytics, infrastructure operations, server administration, IT service management, application support, software development, business analysis and project management.

Oakland County is particularly relevant to State because both organizations operate in public-sector, compliance-driven environments where technology systems support essential public services. The engagement demonstrates InfiCareTech's ability to rapidly deliver qualified professionals across data and BI architecture, ServiceNow, server administration, application support, software development, business analysis, and project management while reducing the administrative effort required from client hiring managers.

2.4 Nora Concierge Care

Client Name:	Nora Concierge Care	
Address:	109 East 17th Street, Suite 510, Cheyenne, WY 82001	
Project Title:	Temporary, Contractual, and Direct-Hire IT Staffing Services	
Start & End Date:	2022 - Present	
POC Name & Designation:	Marshall Taylor, HR Manager	
Contact Details:	Phone: 307-316-2378	Email: marshall.taylor@noraconciergecare.com

Description of Services Provided:

InfiCareTech supports Nora Concierge Care, a health-technology organization that provides streamlined access to healthcare services through a national, decentralized service model. InfiCareTech has supplied technical professionals to support Nora's platform development, virtual-care operations, and application support requirements, while also providing personnel for its distributed service locations.

Scope and Positions Relevant to State: InfiCareTech has recruited and placed personnel across the following positions and functional areas relevant to State:

Nora Concierge Care Positions/Services	Comparable State Functional Area
Mobile Application Developers	Application design, development, integration, enhancement and maintenance

<i>UI Designers</i>	User-interface design, application usability and digital-service improvement
<i>Web Administrators</i>	Web-platform administration, application availability, configuration and support
<i>Data Analysts</i>	Data analysis, operational reporting, business intelligence and decision support
<i>Business Analysts</i>	Requirements gathering, workflow analysis, documentation and stakeholder coordination
<i>Quality Assurance Resources</i>	Application testing, defect identification, release validation and quality control
<i>Cybersecurity Resources</i>	Application security, information protection, vulnerability controls and secure access
<i>Content Writers</i>	Technical documentation, user guidance, platform content and training materials

The engagement includes HER workflow support, requirements gathering, system configuration, interface and integration development, testing, user training and issue resolution. Assigned resources work with clinical and administrative stakeholders to improve workflows, enhance application usability and support distributed virtual-service delivery.

These services correspond to State's requirements for application development and maintenance, business analysis, quality assurance, cybersecurity, data and analytics, technical documentation, and IT project coordination.
