Cisco Pricing and Ordering Terms:
1. This Price Quotation does not constitute an offer by Cisco to sell, but is instead an invitation for intended recipient to issue a purchase order to Cisco, subject to your purchasing agreement with Cisco and Cisco's standard purchase order requirements.
2. Pricing Notice: Net Price Protection will expire on the Price protection date. Upon expiration of net price protection, all prices will be subject to change without prior notice and may vary based on market conditions, product availability, and other factors. Intended recipient must confirm pricing at the time of order placement.
3. Any acceptance (prior to shipment) by Cisco of your purchase order which includes compute products is a conditional acceptance subject to the following:
3a. Order Cancellation: Due to changing component costs and supply constraints, Cisco may cancel Compute orders, in whole or in part, up to forty-five (45) days prior to the estimated ship date.
3b. Price Adjustments: Cisco reserves the right to adjust pricing on any or all Compute order lines in the event of significant increases in component costs, manufacturing costs, tariffs, exchange rate fluctuations, or other external factors beyond Cisco's control that may occur from order date to shipment date.
4. Additional Charges: Your purchase order may be subject to additional charges, including but not limited to taxes (e.g. VAT, GST, sales tax or other indirect taxes), duties, freight, handling, insurance, shipping, fees, and other purchasing-related charges not included on this Price Quotation.
5. "Deal Expiration" date means the last date approved discounts that meet eligibility criteria may be applied to this transaction. After Deal Expiration date, intended recipient must request a new Price Quotation.
6. "Effective Discount %": This value represents the overall discount for this transaction, which includes the applied discount as well as credits and adjustments.
7. "Commercial Invoice (CI) Value" is an indicative value and might be different from customs value in the Commercial Invoice.

If price, discount, or service duration columns are blank for child (minor) lines and those values are present on the bundle (parent) line, this means the value for those child lines is included in the bundle pricing above. This is intentional to avoid double-counting and to clarify that the bundle price covers these components for the affected lines.
