- 3.1 Standard Specifications Roads and Bridges:** The following Standard Specs Sections shall apply, as applicable, to the administration of this contract: 101, 102, 103, 104, 105, 106, 107, 108, 109, and 110, as amended.

Materials, equipment, and performance of this contract shall conform to, but are not limited to, the requirements of Section 401, as amended.

Free electronic copies of the Standard Specs and Supplementals are available at:
<https://transportation.wv.gov/specifications-standards-and-publications>.

REQUEST FOR QUOTATION
Asphalt Material Pick Up by Agency

3.2 Contract Items and Mandatory Requirements: Vendor shall provide Agency with the Contract Items listed below on an open-end and continuing basis. Contract Items must meet or exceed the mandatory requirements as shown below.

3.2.1 Asphalt Material - Contract Items 1 through 17 are considered asphalt material. Material from this contract SHALL ONLY be purchased when the pick-up of those materials is by WVDOT forces or other agency as described in Section 6.3. All materials used on this contract shall be from MCS&T approved sources/plants, as amended.

<https://transportation.wv.gov/division-approved-product-lists-apls>.

3.2.2 Plant Run Asphalt - Contract Item 18 may be substituted for **Contract Items 1 through 17** only when the use of Plant Run has been requested by the WVDOT District Engineer, or their designee, having determined that the Plant Run material is suitable for use; and only when all other equivalent items of material are not available. All Plant Run material shall meet the Standard Specs, or in instances where the Plant Run material was produced for a neighboring state, must meet the specifications of the adjacent state highway department, unless otherwise deemed acceptable by the WVDOT District Engineer, or their designee.

3.2.3 Performance Graded Binder - Contract Items 19 through 21 – Surcharges to compensate Vendor for supplying asphalt when the referenced binder is substituted for the standard binder.

3.2.4 Seasonal Readiness: It is WVDOT's intention that WVDOT forces shall commence spring pothole patching as early as the weather permits and once started, early pothole patching work shall be continuous, as weather permits. Awarded Vendors should have their asphalt plant(s) operational and available for asphalt production, upon WVDOT request and weather permitting, no later than March 16th. As per Section 8.1, if the low bid Vendor is not operational and available for asphalt production, WVDOT will consider this as a Delivery Order refusal, and the WVDOT will obtain the goods or services from the next low bid Vendor who is available.

3.2.5 Off-Season Plant Opening - Contract Items 22 and 23: If a Vendor is required to open their plant in the off-season to service the needs of the WVDOT, an additional payment will be made. The Vendor will be paid an additional day charge for each additional consecutive day that the plant is open after the first day to service the needs of the WVDOT. If the plant produces no material for any use on any calendar day, either during the week or on the weekend, the WVDOT will pay the first day rate for off-season plant opening on the next day of the WVDOT usage. Payment for this item is subject to the following conditions:

REQUEST FOR QUOTATION
Asphalt Material Pick Up by Agency

3.2.5.1 Payment for this item can only be authorized and made during the winter months, i.e., between December 15th and March 15th, and then only if the plant would not have otherwise been open. These dates may be revised by the WVDOT District Engineer or their designee, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

3.2.5.2 Payment will always be made at the full contract awarded bid price for the first day of plant opening; however, the amount paid from each additional day of plant opening will be reduced as follows:

3.2.5.2.1 Payment for additional day charge will not be made if the plant has produced over 500 tons on that day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the contract awarded bid price for the additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the WVDOT, other local governments and all private work.

3.2.5.2.2 The WVDOT will only pay its share of the amount determined to be due for additional day charge as described above. For example, if the plant produces 375 tons and the WVDOT takes 150 tons of the total, 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due 50% of the additional day charge. Because the WVDOT's share of this daily production is 40%, the WVDOT would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charges.

3.2.5.3 A certified statement shall accompany the invoice stating the total quantity produced on the additional day. If payment does not qualify due to tonnage produced, the next consecutive day of plant operation, if any, will qualify for payment at the additional day rate rather than the first day rate for plant opening.

4. PRICE ADJUSTMENTS:

The bidding index for asphalt cement and fuel will be listed on the Contract Administration website for Fuel, Asphalt Cement Prices Adjustments listed for

REQUEST FOR QUOTATION
Asphalt Material Pick Up by Agency

September 2026. Contract Base Price at time of bid will be based on September 2026. Reference: <https://transportation.wv.gov/fuel-asphalt-and-cement-prices>.

If the adjusted price of any contract item is less than \$0.00, WVDOT will limit the adjustment to \$0.00.

- 4.1 Price Adjustment of Asphalt Cement (Binder):** Due to the uncertainty in estimating the cost of petroleum products that will be used during the life of this contract, adjustment in compensation for **Contract Items 1 through 18** is provided for in the Standard Specs Section 109.10, as amended.

The Price Adjustment for Asphalt Cement formula to be utilized for this contract is:

$$Pa = (Ip - Ib) \times AC / 100 \times Q$$

Where: Pa = Price Adjustment

Ip = Price index at the time of placement

Ib = Price index for Bidding

AC = Asphalt Content as per Figure 4.1

Q = 'As Constructed' Quantity

Where: Pa = Price Adjustment

Mbp = Monthly base price at time of placement

Cbp = Contract Base Price at time of bidding

C = Cost Adjustment Factors per Unit, as per Figure 4.2
