Data Rate Plans

Take it all on-the-go.
A plan just for you, any time ...

Choose the plan that is right for you.
DataPlus™ and DataPro™ plans.

Send an email, browse the web for the latest score or download a favorite song – all on-the-go.

Mobile Video.

Get streaming news, sports, stock quotes and much more – all on your compatible smartphone. Mobile Video is now included with all DataPlus and DataPro plans.*

DataConnect plans.

Take your laptop, netbook or tablet with you across town or across the country with access to email, the Internet and business and social networking applications along the way. Our standalone mobile hotspot devices allow you to carry your personal connection to the Internet with you. You can even share it with other users and devices.

Select a DataConnect plan and stay connected anywhere you get a signal on AT&T's wireless network.

There are several DataConnect plans available for tablets. To get your qualifying tablet at the lowest price, choose either the \$35 or \$50 qualifying plan with a two-year commitment.

Wi-Fi† usage.

Virtually all AT&T smartphones come with Wi-Fi technology embedded inside. Wi-Fi provides a fast connection at home, in the office and in thousands of hotspots. Using Wi-Fi is convenient and helps you save on your mobile data usage. Smartphone data plans include on-the-go access to the entire national AT&T Wi-Fi Hot Spot network.** Connect to a home or office Wi-Fi network by following a few simple steps on your device. Once you've connected successfully one time, your device will automatically connect you every time you're in range. Wi-Fi access is included with your DataPlus, DataPro or DataConnect plan. International Roaming not included.

Life moves.

We'll keep you connected.

Respond quickly on-the-go. AT&T offers a variety of wireless solutions to help you stay productive.

Smartphones with mobile hotspot.

Some smartphones allow you to create a mobile hotspot and share your data connection with multiple Wi-Fi enabled devices, such as laptops, tablets, MP3 players and much more. Stay connected to the people, places and information that are important to you so you never miss a thing. Requires compatible device and a DataPro 5GB plan.

Get out of the office.

Stay ahead of your competition in and out of the office by syncing your corporate email, calendar and contacts to your smartphone.† AT&T's enterprise-class wireless email solutions make it all possible.

Ask your IT organization which solutions your company supports. Then ask an AT&T sales representative to help you choose a compatible smartphone and the right plan for you.

* Compatible smartphone and applicable data plan required. Service not available outside AT&T's mobile broadband coverage area. Additional charges for premium content apply.

** Access includes AT&T Wi-Fi Basic. A Wi-Fi enabled device required. Other restrictions apply. See attwifi.com for details and locations.

Choose a plan that meets your needs.

Early Termination Fee (ETF): None if cancelled in the first 30 days, but restocking fees may apply to equipment returns; thereafter up to \$325 (details att.com/equipmentETF). ETF applies to equipment purchased with a service commitment. For information on equipment returns, go to att.com/returns.

- 3 Limited 4G LTE availability in select markets. 4G speeds delivered by LTE, or HSPA+ with enhanced backhaul, where available. Deployment ongoing. Compatible device and data plan required. LTE is a trademark of ETSI. Learn more at att.com/network.
- 1 See Terms and Conditions for details on voice calling, prohibited/ permissible uses, eligibility, billing, and other restrictions at att.com/wirelessterms. In addition to the monthly cost of the rate plan and any selected features, AT&T imposes the following charges: (i) a Regulatory Cost Recovery Charge of up to \$1.25 to help defray its cost incurred in complying with obligations and charges imposed by state and federal telecom regulations, (ii) a gross receipts surcharge, (iii) state and federal universal service charges, and (iv) other government assessments on AT&T. These fees are not taxes or government-required charges.
- 2 DataPlus and DataPro plans include access to personal email, such as Yahoo!®, AOL® and POP3/IMAP4 Internet Service Providers. BlackBerry Internet Service (BIS) is included on these plans if a BlackBerry device is selected.
- 3 Data Rate Plans include access to AT&T Wi-Fi Basic. Wi-Fi enabled device required. Other restrictions apply. See attwifi.com for details and locations. International Roaming not included.
- 4 Compatible smartphone and one of the following email solutions required: BlackBerry Enterprise or Microsoft Direct Push.
- 5 With respect to both Corporate Responsibility Users (CRUs) and Individual Responsibility Users (IRUs), the Service Discount described in your AT&T business agreement is NOT available on the DataPlus 300MB plan or the DataConnect 250MB and 3GB Tablet plans. With respect to IRUs, the Service Discount is NOT available on the DataPro 3GB plan. DataPlus 300MB plan not available for Corporate Responsibility Users.
- 6 On DataPlus, DataPro and DataConnect plans of DataConnect 250MB, 3GB and 5GB Tablet plans with a monthly megabyte (MB) or gigabyte (GB) allowance, once you exceed your monthly allowance or any subsequent overage allowance during the billing period, you will be automatically provided an overage data allowance and charged for each data overage allowance provided as specified in the applicable rate plan information/chart, except when overage is charged on a per-MB basis. All data allowances, including overages, must be used in the billing period in which the allowance is provided or they will be forfeited. An Enterprise DataPro or DataConnect plan for LaptopConnect devices or standalone mobile hotspot devices is required for corporate email, company intranet sites and business applications.
- 7 Tethering and/or mobile hotspots require a DataPro 5GB plan and an AT&T approved tethering or mobile hotspot device. Data used by devices connected to a tethering device or mobile hotspot is deducted from the data allowance included in your DataPro 5GB plan in addition to the data your device consumes. Mobile hotspot performance may vary depending on the number of devices connected, proximity, and other factors. The number of devices you can connect to a mobile hotspot device depends on its capabilities. If you do not use a password, others will be able to use your mobile hotspot connection.
- 8 DataConnect 250MB, 3GB \$30/month and 5GB Tablet plans are billed monthly and automatically renew every month, unless you cancel service prior to the start of the monthly renewal. Service may be cancelled at any time by visiting a retail store or by calling 1-800-331-0500. No term commitment or termination fees apply. Offer not available for on-tablet activation. Plans are for compatible tablets. Credit check may be required.
- 9 Plan is for compatible standalone mobile hotspot devices and 4G LaptopConnect and 4G LTE devices only. Handsets with mobile hotspot capability do not qualify. If you do not use a password, others will be able to use your mobile hotspot connection. The number of devices you can connect to a mobile hotspot device depends on its capabilities. Mobile hotspot performance may vary depending on the number of devices connected, proximity and other factors.
- 10 The DataConnect \$35/3GB Tablet plan requires a two-year service agreement. The DataConnect \$50/5GB Tablet plan is available monthly or with a two-year service agreement. Compatible tablet required for two-year agreement.
- 11 Limited-time offer. Plan is only available for Corporate Responsibility Users for a limited time. Mobile Hotspot and Tethering not available with this plan.

Additional Charges

The amounts shown below are based on the highest fee/surcharge rates assessed in your state; your actual fees/surcharges may be less.

State	WEST VIRGINIA
Regulatory Cost Recovery Charge	\$1.09
Federal Universal Service Fund	14.4%
State 911 Fee	\$3.00

Regulatory Cost Recovery Charge

The Regulatory Cost Recovery Charge is a charge assessed by AT&T associated with payment of government imposed fees and to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes.

Components of the Regulatory Cost Recovery Charge

This charge is composed of the following elements:

Federal Regulatory Fee

This component is designed to recover the annual fee imposed on AT&T by the Federal Communications Commission (FCC); this fee is assessed by the FCC on each of the entities it regulates.

Telecommunications Relay Service (TRS)

This component is designed to recover the contributions that AT&T is required to make into the Federal TRS fund. This fund is designed to assist hearing and speech impaired persons with making and receiving messages.

Wireless Number Portability and Number Pooling

This component is designed to recover the costs associated with the federal mandates of number portability and number pooling:

Wireless Local Number Portability (WLNP)

This enables customers to keep their wireless telephone numbers when they switch wireless service providers.

Number Pooling

This is a telephone number conservation method that helps to delay area code exhaust situations.

Enhanced 911 (E911)

This component is designed to recover the costs in certain states where E911 cost recovery for wireless carriers does not exist or exists in a fashion that only provides partial recovery of E911-related costs. These E911 costs relate to government mandates requiring wireless carriers to deploy advanced technology to help

emergency response agencies to better determine the location of the customer calling 9-1-1.

Wireless Tower Mandates Costs

This component is designed to recover certain costs incurred by AT&T to comply with the additional administrative requirements associated with regulations relating to wireless towers, including regulations imposed by the National Environmental Protection Act, Clean Water Act, Clean Air Act, Resource Conservation and Recovery Act, Endangered Species Act, and the Emergency Planning and Community Right to Know Act. This charge also recovers certain costs associated with regulations relating to historic properties impact studies, antenna registration, and costs incurred to comply with requirements related to the inspection of marked and lighted cell towers.

State Area Code Relief Costs

This component is designed to recover certain costs incurred by AT&T to comply with mandated geographic splits to implement new area codes in areas where an existing area code is close to number exhaustion.

Customer Proprietary Network Information (CPNI) Notification Costs

This component is designed to recover costs incurred by AT&T to comply with FCC CPNI notice requirements.

Network Outage Reporting Costs

This component is designed to recover certain costs incurred by AT&T to comply with FCC-mandated network outage reporting requirements.

State Commission Annual Reporting Costs (Applies only in IN, KY, LA, NM, OH, VA, WI, WV, WY)

This component is designed to recover certain costs incurred by AT&T to comply with state-mandated annual reports and filings required to be filed with the state utility commission or other state governmental entities.

Gross Receipts Surcharge (Missouri Only)

This component is designed to cover costs incurred and payments made by AT&T Mobility to settle claims related to past gross receipts taxes claimed by certain municipalities applicable to Missouri customers who are also billed a Municipal Gross Receipts Surcharge.

Puerto Rico Regulatory Fee (Puerto Rico Only)

This component is designed to recover the Intra-Island fee imposed on AT&T by the Puerto Rico Telecommunication Regulatory Board (PRTRB); this fee is assessed by the PRTRB on Telecom Service Revenue.

Federal Universal Service Fund Fee

The Federal USF, created by the federal government, is designed to help ensure first-class, affordable telecommunications service for all consumers across the country, especially residents in high cost rural communities and low-income customers. Additionally, the Federal USF provides for discounted telecommunications services for schools, libraries and rural health-care facilities. All telecommunications providers are required to pay into the Federal USF, and their contributions may be recovered from customers.

State 911 Fee

A charge imposed on each subscriber to fund and finance the maintenance and operation of a 911 emergency communication system.

Change Order 21
Attachment A
Additional Charges

The amounts shown below are based on the highest fee/surcharge rates assessed in your state; your actual fees/surcharges may be less.

State	WEST VIRGINIA
Regulatory Cost Recovery Charge	\$1.09
Federal Universal Service Fund	14.4%
State 911 Fee	\$3.00

Regulatory Cost Recovery Charge

The Regulatory Cost Recovery Charge is a charge assessed by AT&T associated with payment of government imposed fees and to recover the costs of compliance with government imposed regulatory requirements. It may include costs incurred in prior years that are not yet fully recovered. It is not a tax or charge which the government requires AT&T to collect from its customers. This charge is subject to change from time to time as the cost of compliance changes.

Components of the Regulatory Cost Recovery Charge

This charge is composed of the following elements:

Federal Regulatory Fee

This component is designed to recover the annual fee imposed on AT&T by the Federal Communications Commission (FCC); this fee is assessed by the FCC on each of the entities it regulates.

Telecommunications Relay Service (TRS)

This component is designed to recover the contributions that AT&T is required to make into the Federal TRS fund. This fund is designed to assist hearing and speech impaired persons with making and receiving messages.

Wireless Number Portability and Number Pooling

This component is designed to recover the costs associated with the federal mandates of number portability and number pooling:

Wireless Local Number Portability (WLNP)

This enables customers to keep their wireless telephone numbers when they switch wireless service providers.

Number Pooling

This is a telephone number conservation method that helps to delay area code exhaust situations.

Enhanced 911 (E911)

This component is designed to recover the costs in certain states where E911 cost recovery for wireless carriers does not exist or exists in a fashion that only provides partial recovery of E911-related costs. These E911 costs relate to government mandates requiring wireless carriers to deploy advanced technology to help

emergency response agencies to better determine the location of the customer calling 9-1-1.

Wireless Tower Mandates Costs

This component is designed to recover certain costs incurred by AT&T to comply with the additional administrative requirements associated with regulations relating to wireless towers, including regulations imposed by the National Environmental Protection Act, Clean Water Act, Clean Air Act, Resource Conservation and Recovery Act, Endangered Species Act, and the Emergency Planning and Community Right to Know Act. This charge also recovers certain costs associated with regulations relating to historic properties impact studies, antenna registration, and costs incurred to comply with requirements related to the inspection of marked and lighted cell towers.

State Area Code Relief Costs

This component is designed to recover certain costs incurred by AT&T to comply with mandated geographic splits to implement new area codes in areas where an existing area code is close to number exhaustion.

Customer Proprietary Network Information (CPNI) Notification Costs

This component is designed to recover costs incurred by AT&T to comply with FCC CPNI notice requirements.

Network Outage Reporting Costs

This component is designed to recover certain costs incurred by AT&T to comply with FCC-mandated network outage reporting requirements.

State Commission Annual Reporting Costs (Applies only in IN, KY, LA, NM, OH, VA, WI, WV, WY)

This component is designed to recover certain costs incurred by AT&T to comply with state-mandated annual reports and filings required to be filed with the state utility commission or other state governmental entities.

Gross Receipts Surcharge (Missouri Only)

This component is designed to cover costs incurred and payments made by AT&T Mobility to settle claims related to past gross receipts taxes claimed by certain municipalities applicable to Missouri customers who are also billed a Municipal Gross Receipts Surcharge.

Puerto Rico Regulatory Fee (Puerto Rico Only)

This component is designed to recover the intra-island fee imposed on AT&T by the Puerto Rico Telecommunication Regulatory Board (PRTRB); this fee is assessed by the PRTRB on Telecom Service Revenue.

Federal Universal Service Fund Fee

The Federal USF, created by the federal government, is designed to help ensure first-class, affordable telecommunications service for all consumers across the country, especially residents in high cost rural communities and low-income customers. Additionally, the Federal USF provides for discounted telecommunications services for schools, libraries and rural health-care facilities. All telecommunications providers are required to pay into the Federal USF, and their contributions may be recovered from customers.

State 911 Fee

A charge imposed on each subscriber to fund and finance the maintenance and operation of a 911 emergency communication system.
