## eCopy® PDF Pro Office

eCopy PDF Pro Office, the latest enterprise-ready PDF solution from Nuance for every desktop that's easy to use. Automatically receive files from the eCopy ShareScan, create, convert and collaborate with PDF like never before. Nuance PDF solutions are the world's leading replacement for Adobe® Acrobat®, delivering superior speed, functionality and ease of use at a significantly lower cost.

With more than 6,000 employees and millions of business users worldwide, Nuance is a leading provider solutions for enterprise speech and customer care; mobile devices and networks; healthcare dictation and transcription; and PDF and document capture and conversion. Every day, Nuance's technologies, applications

and services make the user experience more compelling by transforming the way people interact with information and how they create, share and use documents.

### Get a complete pdf solution for every desktop

Designed specifically for the business user, eCopy PDF Pro Office is intelligent and easy to use, putting commonly used creation, conversion and collaboration features just a click away. So you can enjoy incredible time savings and the flexibility of a universal document format for higher productivity and seamless information exchange.

Instantly create 100% industry-standard, universally viewable PDFs files—including all PDF and PDF/A versions—from any PC application. Convert to PDF from within Microsoft® Office documents or create PDF files of any document with a single click while browsing with Windows®.

eCopy PDF Pro Office provides the most accurate conversion of PDF files into editable, searchable XPS, Corel® WordPerfect® and Microsoft® Word, Excel® or PowerPoint documents—complete with fully-formatted text, columns, tables and graphics. It even lets you combine all pages of a PDF document into a single Excel worksheet. Support for Windows 7 Jump Lists provides quick access to recent files and common PDF creation and conversion tasks.

Combine files and remove or replace pages with drag-and-drop ease. View and select pages from a source document—Word, Excel, PowerPoint, WordPerfect, XPS, JPG, BMP or TIF—to insert into a target document. It makes document assembly faster and simpler than ever.

### Enjoy cost savings without compromise

More affordable than Adobe Acrobat, eCopy PDF Pro Office lets you do more with your limited budget. It offers powerful functionality, proven reliability and remarkable ease of use in a small footprint solution that doesn't eat up resources or impede system performance. Plus, it's fully compatible with popular document management systems to give users across the enterprise controlled access to PDF files—without placing an additional burden on IT.

eCopy PDF Pro Office is fast and easy to install, too. You can conveniently service all enterprise users with network push install and software access options through virtualized software environments.

### Fill and save PDF forms

Use FormTyper™ to convert static forms into fillable PDF forms that you can complete, save and email.

### Scan directly to PDF

Get one-click scanning to PDF by pre-setting your scanner preferences. Scan and highlight, cross-out, underline or redact—all in a single step.

### Manage multi-layer graphics

View, select, merge and flatten layers created by programs like AutoCAD® and Microsoft Visio®.

### Bring multimedia to PDF

Embed Flash and Microsoft Silverlight into PDF files to create attention-grabbing multimedia documents — quickly and easily.

### Protect sensitive documents

Control viewing, printing and modifications by adding passwords with secure encryption and permission controls to PDF documents. Or flatten everything in a document to protect sensitive information during file sharing or archival.

### Meet accessibility standards

Automatically tag PDF files to ensure document compliance with Section 508 and other accessibility standards.

### Connect to document management systems

Connect seamlessly to Microsoft® SharePoint® Services v3, Servers 2003, 2007, 2010; Autonomy iManage WorkSite 8.3.8.5; OpenText DocsOpen 4, Connectivity Solutions (eDocs/Hummingbird) 6, 5.2 LiveLink 9.7; and LexisNexis CaseMap 8.5 for enterprise-wide document management from each user's desktop.

Users across the enterprise can collaborate more effectively with annotation tools that let you add notes, stamps, call-outs and more to PDF documents. Plus, it's easy to view, organize, prioritize and update comments using the convenient Comment Panel.

### Produce impressive documents that mean business

eCopy PDF Pro Office enables you to deliver documents that look as good in print as they do on the screen—no matter where you send them. Combine any type of file and/or folder into striking PDF Portfolios that are viewable with any popular PDF reader. Add attractive, interactive cover pages that guide the audience. Even include photos, graphics, movies, audio or 3D drawings to convey messages with attention-grabbing style!

## System Requirements

- A computer with an Intel® Pentium® III or higher processor or equivalent
- Supported operating systems:
  - Windows 7 32-bit and 64-bit Editions
  - Windows Vista 32-bit or 64-bit Editions with Service Pack 2
  - Windows XP 32-bit Edition with Service Pack 3
- Microsoft® Internet Explorer®7 or above
- 512 MB of memory (RAM), 1 GB recommended
- 500 MB of free hard disk space for application files plus 50 MB working space during installation
- CD-ROM drive for installation
- Web access needed for product registration, activation and obtaining live updates for the program.
- To save DOCX, XLSX and PPTX files (for Microsoft Office 2007 or 2010 Word, Excel and PowerPoint) you should have or install Microsoft .NET Framework 3.0 on Windows XP (free download available at [www.microsoft.com](http://www.microsoft.com)).

Note: Performance and speed will be enhanced if your computer's processor, memory and available disk space exceed minimum requirements.

# The All-In-One Browser-Based Document Management Solution

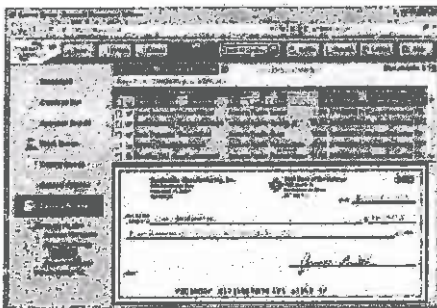

## General Overview of Content Central

Content Central sets the standard for document management and workflow solutions. Users access and interact with the application by logging in using a preferred Web browser, from Internet Explorer to Mozilla Firefox and Google Chrome. Every operation occurs within this browser-based interface, from capturing, indexing, and retrieving documents to approving and distributing them.

Take advantage of the many benefits a browser-based application offers, including quick deployment, controlled & logged access, and remote connectivity. Administrators install Content Central on a single Microsoft Windows server or across multiple servers for performance. After user accounts have been defined, users connect from available Windows, Mac, or Linux computers on the network.

Inside Content Central you can create documents using PDF-based electronic forms. Documents and other files can be captured from document scanners, network folders, e-mail accounts, or user interaction. Content Central converts scanned images into fully searchable PDF files, and all documents can be retrieved using content keywords and other index information based on the type of document. Integrated e-mail and fax tools allow you and your team to distribute documents without requiring external software. A powerful workflow engine can manage your information behind the scenes based on system events or schedules.

Best of all, you receive every feature for one affordable price, paying only by the number of users required; there aren't any confusing add-on modules to worry about.

From small business applications to enterprise solutions, organizations that utilize document-intensive processes rely on Square 9 to streamline their workflows as they eliminate inefficiencies. SmartSearch builds the bridge between people, paper and processes.

### People

All documents are securely deposited in Archives you designate. You dictate permissions, guaranteeing compliance while ensuring that documents are available 24/7. You determine who will have access to your files and what can be done with them.

### Paper

Reduce paper consumption by storing all of your documents in a centralized content repository. SmartSearch's broad adaptability allows you to store both scanned and electronic documents including PDF, JPG, TIF, Word, Excel, Outlook files and more.

### Processes

Drive efficiency by streamlining repetitive business processes including document routing, notification and approval. Time spent searching for documents is drastically minimized resulting in increased productivity and reduced spending.

Are you ready to take your office paperless? SmartSearch is the proven answer!

- ✓ Eliminate paper-based filing systems
- ✓ Streamline business processes
- ✓ Automate document routing and notifications
- ✓ Increase document security and compliance
- ✓ Easily share and collaborate on documents

SmartSearch offers affordable, award-winning document management that can be adapted to any paper-intensive business. No matter what the size of your company, or in what field you work, SmartSearch offers value-driven solutions that are easy to use, learn and support.

#### Professional Edition ●●●

The perfect document management software solution for the Small to Medium Business (SMB) and departmental applications. With its modular design, the Professional Edition offers maximum flexibility in both pricing and configuration by allowing organizations to select only the tools needed for their specific business application.

#### Corporate Edition ●●●●

Designed for organizations looking to leverage the full spectrum of what SmartSearch has to offer. As a comprehensive solution which includes licensing for disaster recovery and test bench applications, the Corporate Edition delivers a tremendous balance of value and enterprise class functionality.

## Top New Features in SmartSearch

### GlobalAction

GlobalAction is Square 9's next generation Business Process Management engine, scaling easily across organizations of all sizes with the ability to map business process designs from any modern browser through a drag and drop interface. GlobalAction comes complete with Document History, which lists out the steps a document has taken in a workflow.

### GlobalAnalytics

GlobalAnalytics provides dashboard views of your GlobalAction process queues, giving you instantaneous visibility into your transactional activity. GlobalAnalytics adds business intelligence to GlobalAction Workflows by providing management reports on document-driven processes.

### Full API Access

SmartSearch supports direct access to documents via the API, which is designed to be used by service accounts, specifically for the new GlobalAction workflow engine. This option allows API access to circumvent search security for specific users.

### MFP Integration

Integrate with any product, including direct connectors. Gain full capture-and-retrieval support right from the control panel of any current version of a Konica Minolta®, Toshiba®, or OKI® multi-functional printer, which acts as the catalyst for workflow automation.

### On-Demand Localization

In addition to English and Romanian, both SmartSearch and GlobalSearch now include options for French, Spanish, Portuguese, Italian and German languages, enhancing global readiness through localization.

## Key Features & Benefits

Granular security in SmartSearch integrates with Active Directory greatly streamlining administration and providing users with single sign-on access. The built in audit trail proves your security is working by logging all document actions by date and user.

Now with KeyFree Indexing capabilities, GlobalSearch extends the reach of your SmartSearch installation beyond traditional LAN, WAN or VPN access by delivering anywhere, anytime access to documents from any browser or mobile device, increasing productivity while staying in constant contact with critical documents.

Completely automate the capture and indexing of documents from any source including Multi-function Printers, desktop scanners and line of business print output, using intelligent batch separation, image cleanup, zonal OCR and barcode recognition to eliminate the need for user intervention while maximizing your return on investment.

Using a key piece of data, SmartSearch can perform a database lookup either internally or to any OLEDB or ODBC compliant database to re-purpose data into SmartSearch index fields, saving time and eliminating indexing errors.

Click on any piece of data in your line of business application (accounting, CRM, HRM) and instantly retrieve all matching documents in SmartSearch, reducing training requirements and increasing end user adoption.

Giving Shape to Ideas

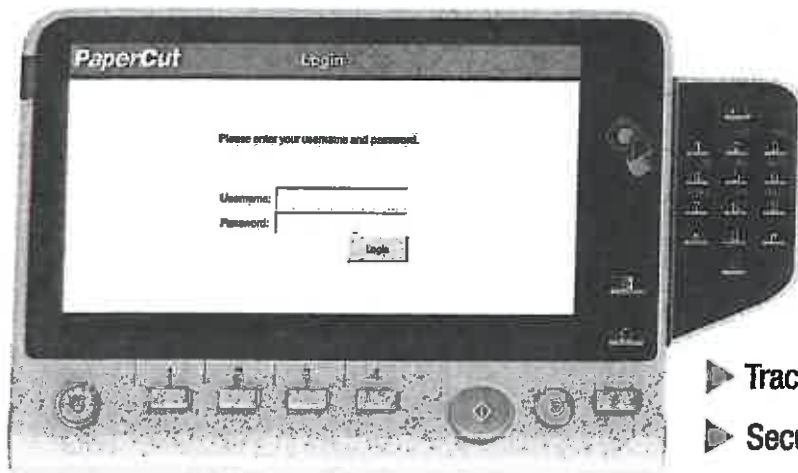

PaperCut<sup>MF</sup>

PaperCut MF: Complete control over print, copy, scan and fax.

cost accounting

Sample embedded screens

- ▶ Track all MFDs / Printers
- ▶ Secure Print Release
- ▶ Control and Report Use
- ▶ Recover Costs
- ▶ Enforce Print Policy
- ▶ Minimize Waste
- ▶ Web Print

## Streamline with Security.

Eliminate waste, encourage responsible behavior and make users and departments accountable for their print usage. PaperCut MF includes embedded software that runs on your copier/MFD to enable tracking, control and secure print release directly from the device's panel. PaperCut MF is suitable for sites of any size, with a cross-platform and vendor-neutral approach to technology and device support. PaperCut's solutions are currently in use in over 50,000 sites worldwide and translated into 20 languages, making PaperCut MF a product you can trust with a high return-on-investment.

## Intuitive and Easy to Use

PaperCut MF is regarded as the simplest system of its type to deploy and manage. System administrators have full access to administration and configuration via a familiar web interface. It offers:

- User directory (eg. Active Directory and others) integration and automatic user account creation
- Secure print release and Find-Me printing
- Administrator dashboard with real-time status updates
- Review job content visually
- Optional client and account billing
- Ability to encourage responsible use via popup notifications

## Detailed Reporting

PaperCut includes over 80 one-click reports available for online viewing, printing or export. Reports address all areas ranging from detailed page logs to summaries by user, department, device or environmental impact. Administrators can create ad-hoc reports by applying filter conditions and reports can be emailed to specified people on a regular schedule.

More information is at:  
[www.papercut.com/tour/report/](http://www.papercut.com/tour/report/)

## Web-Based Administration

PaperCut MF provides "out of the box" browser-based administration access from any network location enabling centralized management of every user and device. Web technologies make cross-platform support easy as there is no need for additional software to be installed and no web server configuration.

A key feature of the administration interface is the dashboard tab – an easy-to-read single page view of the printing environment for administrators. The Dashboard page utilizes a number of gadgets to present key real time information such as system activity and status updates, along with trend information and statistics from past activity such as number of pages printed and environmental impact measures.

## Rules-Based Printing

Advanced rules can be used to define and finely tune your printing policy, and support your organization in eliminating waste and changing user behavior.

With PaperCut you can:

- Automatically route large jobs to detected high-volume printers
- Discourage printing of emails via popup print policy warnings
- Convert jobs to grayscale and duplex
- Discourage or disable color printing by user group
- Least-cost routing (suggest more cost-effective devices based on conditions)
- Allow free printing (e.g. during class times)
- Define action by job attribute, user/group, period of day, device feature/type.

## 'Find Me' Printing

PaperCut's Find-Me printing feature enables users to print to a global virtual queue. Jobs are paused and only printed when the user releases the job at any compatible MFD/printer:

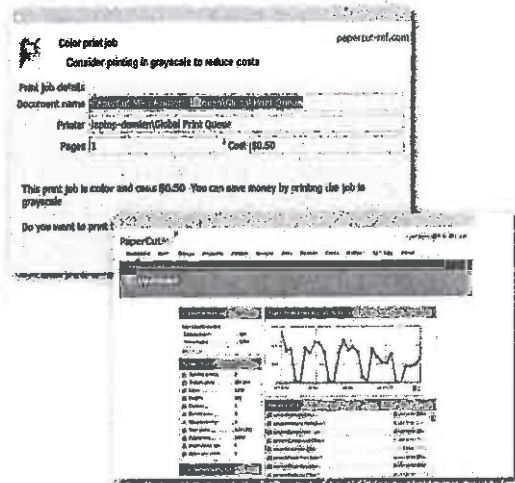

- Improved document security and convenience.
- Reduce IT administrators' need to manage multiple print drivers and queues for both workstations and notebooks.
- Find-Me printing minimizes waste and has been shown to reduce printing output by up to 20% in busy office environments.
- Support for multiple release methods ranging from auto release on authentication to active release job-by-job.

## Secure Authentication

Today's MFDs are smarter. They have touch screens and the ability to run software directly on the device's panel. PaperCut leverages this technology to bring new features to each device.

One of the key features is user authentication – only allowing device access to authorized users. At the simplest level users can authenticate with network user name and password via an onscreen keyboard. In addition, many environments will implement ID card authentication. Card numbers can be extracted from your network's user directory or a database (e.g. door access control system), alternatively, users can self-associate their card upon first use.

Card types include magnetic stripe, proximity (HID, Mifare, and LEGIC) and bar codes, and PaperCut supports many brands of USB card readers including RFIdeas, and HID Global.

# PaperCut MF

## Features

### Print Archiving & Watermarking

PaperCut administrators can utilize these features to ensure users are answerable to their printing.

PaperCut's Print Archiving empowers approved administrators to browse and review the content of print activity within their environment. Alongside the powerful tracking and reporting functionality built into PaperCut, this gives system administrators a wide range of auditing functions.

Watermarking can automatically add a user name or other metadata to the bottom of every page e.g. to indicate the document owner. Watermarking may include a unique digital signature which allows you to track document origin to enhance security and encourage responsible printing.

### iPad, Mobile and Driverless Web Printing

The introduction of iPads, mobile devices, tablets, netbooks and BYO devices have brought a new set of challenges to the printing landscape.

PaperCut can help solve these problems with native iPad print support and web-based driverless printing – core features in PaperCut.

Users of these devices have access to the full range of features including authenticating, account selection and "find-me" printing in a simple user interface.

### Managing Quotas

Users can operate in either credit or debit, with defined account rules, including how and how often an account is credited. Use network groups to define how additional quota/credit is assigned; for example, allow a specific group of users to accumulate their quota while others operate on a "use it or lose it" basis.

### Pre-Paid Cards

PaperCut MF comes with a simple to implement voucher system for purchasing additional print credit. Administrators can print out a batch of single-use cards with a predefined value. Users redeem cards by entering the card's unique code on a web page.

### Payment Gateways

Give end users the ability to make payments into their PaperCut account using payment gateways. Payment gateways allow third-party systems to connect to PaperCut. Common gateways include leading providers like PayPal and Authorize.net, which allow real-time online payments via credit card. PaperCut also supports closed or internal payment systems such as main college billing systems, including CBOARD and Blackboard. Hardware gateways are available to support a range of cash loaders, self-service kiosks and bill and coin boxes. For hardware, please refer to a PaperCut MF Authorized Solution Center.

### User Web Interface

End users have access to a set of web tools to track their own activity in real-time, query their account balances, and view their transactions without the need for intervention from administrators. The end user interface is fully customizable, so you can design a look and feel to match your website or intranet pages.

## Partnership.

Konica Minolta can help give shape to your ideas and partner with you to achieve your corporate objectives. Contact us to realize opportunities in:

### Information Management

## eCopy® ShareScan® Office

Every day, knowledge workers, managers, and administrative personnel need to get more done in less time by transforming paper into electronic documents. More than ever, on-demand scanning solutions are key to increasing productivity and accelerating business processes by automating workflows that anyone can access right at the copier.

eCopy ShareScan Office lets you scan paper documents and bring them into your daily collaboration, desktop publishing, and archiving workflows. In addition to secure scan-to-Email, scan-to-PC, and scan-to-file functionality, ShareScan Office can automatically convert those scanned documents into searchable PDFs or editable Microsoft Word and Microsoft Excel files and connect to your document management system.

eCopy ShareScan Office can also be expanded with numerous Nuance and partner connectors and extenders to further automate and integrate document workflows. From simple scanning to sophisticated conversion, eCopy ShareScan Office delivers exceptional speed, accuracy, productivity, and cost savings.

A simple interface enables users to quickly scan and send documents to their destination—right from the copier.

Touch screen user interface may vary by device.

eCopy ShareScan Office is the preferred MFP scanning and OCR solution to integrate paper documents into electronic office workflows. ShareScan Office captures paper-based information and brings it directly into Microsoft Office, eliminating the need to rekey, distribute, or archive paper. Built on a highly scalable, open, modular, device-independent, client-server platform, ShareScan Office delivers enterprise-grade performance and high ROI.

### Features and benefits

- **The Best MFP Scanning and OCR Solution for Productivity**—Our best-in-class UI eliminates training, ensures rapid adoption, and generates the fastest ROI.
- **Superior Usability**—From single sign-on and one-button OCR and routing, to scrolling/fly-out menus and fast access to personal favorites, ShareScan Office is the easy answer streamlining paper-intensive office workflows. See a preview image, select from your personal Email address book or choose Email distribution lists—right from the copier's touch screen.
- **Automatically Convert Hardcopy Originals into Accurate, Formatted, Editable Softcopy**—Scan, convert, and edit Microsoft Word, Excel, and PDF files—including columns, graphics, and tables. You save time and money, with high accuracy and less reformatting.
- **Industry-Leading Mail and File System Integration**—Access global and personal address books and browse folders right at the copier—no need to go back to your desk to file or route documents. The "Express" mode automates routine Email distributions and sent Email appears in the user's personal "Sent Items" folder. And offline processing and notification means you can submit large batches and return to your office before completion.
- **Streamlined Archival with Flexible ECM Options**—eCopy ShareScan Office provides complete integration to content management, network folders, SQL databases, and more. Connect with your choice of leading ECMs such as SharePoint, RightFax, EMC Documentum, iManage WorkSite, OpenText DM, or OpenText eDOCS.
- **Leverage Microsoft investments**—ShareScan office integrates with Active Directory®, Exchange, SharePoint1, Access®, as well as additional application connectors created by third-party software companies using the ShareScan SDK.
- **Lower Document-Processing Costs**—Fast, accurate recognition and conversion means you can automate more processes, improve productivity, and keep your business moving faster.

## Solutions

At a time of shrinking budgets, rising costs and increasing expectations, government agencies are naturally looking for new ways to increase productivity, streamline processes and serve the public with greater speed, accuracy and efficiency. Konica Minolta's Dispatcher Phoenix Government provides government employees with the tools they need to handle their documents – quickly, efficiently and securely.

With Dispatcher Phoenix Government, state and federal employees can have instant access to the information they need while complying with security regulations. And manual document processes can be automated, reducing the risk of human error while optimizing operational efficiency.

#### **Fast, Efficient Document Distribution.**

Dispatcher Phoenix Government automatically collects, processes and distributes government documents such as records, applications, cross-agency communications and other filings to multiple outputs – all in a single step. Document files can be sent to network/local folders, email recipients, printers, and popular document management systems such as Microsoft SharePoint. With its visually appealing folder browsing feature at the MFP, Dispatcher Phoenix Government gives you a familiar, Windows Explorer-like view of your directory structure to help you select the correct folder as your scan destination.

#### **Integration with Secure Infrastructure.**

Through Konica Minolta MFPs, Dispatcher Phoenix Government integrates with the federal government's smart card platform to provide a seamless, secure solution that addresses federal security concerns and mandates. With support for both authentication via CAC and PIV cards and Active Directory, Dispatcher Phoenix Government meets the Two-Factor Homeland Security Presidential Directive known as HSPD-12.

#### **Protecting Documents.**

Along with CAC/PIV authentication, other security features include:

- Copy Defender process to prevent unauthorized copying of sensitive documents.
- Intelligent redaction, which permanently removes personal information from documents.
- File conversion to password-protected PDFs.
- Fully integrated support for Microsoft Windows local and domain policies for security audit and tracking.

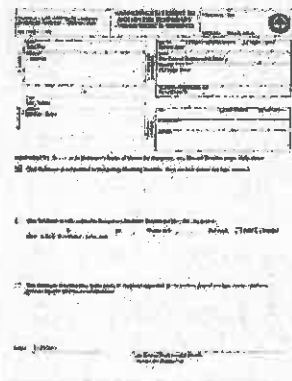

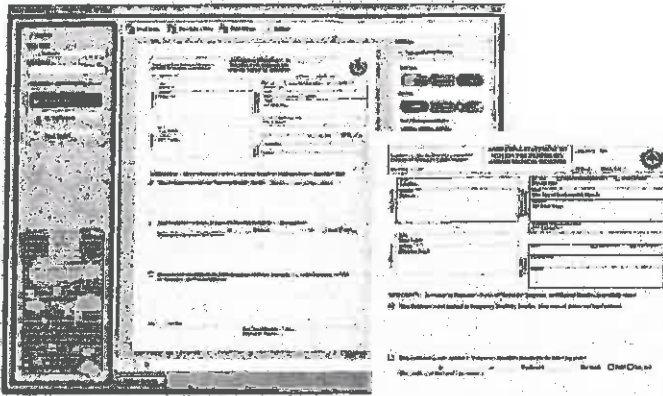

#### **Streamlining Government Workflows.**

To help state and federal agencies as well as public sector organizations optimize workflow efficiency, Dispatcher Phoenix Government includes automated processes that get the job done quickly and accurately. You can make information instantly retrievable by converting paper-based files into PDF Searchable. Read and route invoices based on barcode. Edit scanned images by converting files to Microsoft Office formats, such as Word or Excel. Rename files at the MFP. Other advanced automated processes include zonal OCR for data extraction, metadata routing, ODBC connectivity for integration with common databases – and much more.

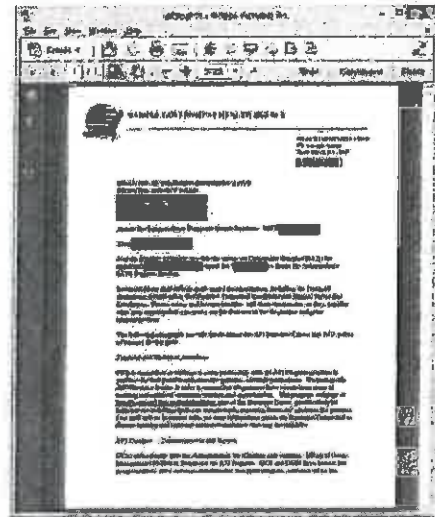

#### **SharePoint Connectivity.**

Dispatcher Phoenix Government includes a connector to Microsoft SharePoint for document storage, accessibility and collaboration. Files can be automatically distributed to SharePoint or directed to SharePoint at the MFP during time of scanning. Just scan, index, and send each document to the appropriate SharePoint folder – all with a few quick taps on your MFP control panel.

**Protect Your Documents.**  
Dispatcher Phoenix Government comes with a Copy Defender process that prevents the unauthorized copying of sensitive documents. Add Copy Protection features to documents automatically, such as pantograph backgrounds, stamps that mark copies as "Unauthorized," "Illegal Copy," etc., and more.

**Automatic Redaction.**  
With Dispatcher Phoenix Government's intelligent redaction, confidential information can be automatically and permanently removed from your document. And redaction search terms can be modified or added at the MFP panel for the utmost flexibility.

**Direct Integration at the MFP.**  
Dispatcher Phoenix Government provides a fully integrated experience at the MFP using a unique, visually appealing display. And folder browsing at the MFP is simple and intuitive with Dispatcher Phoenix Government's Windows Explorer like view of your directory structure. Select what folder you'd like to browse to, view files within folders and sub-folders, and even create a new folder – all directly at the MFP.

**Customized.** Dispatcher Phoenix is a family of automated document workflow solutions from Konica Minolta. For government, professional and general business applications, Dispatcher Phoenix can optimize business processes, reduce costs and increase productivity – providing advanced automation features that minimize time-consuming manual document handling and processing tasks.

Dispatcher Phoenix is available in several versions to best suit different needs. All versions of Dispatcher Phoenix include a graphical Workflow Builder tool, an intuitive Workflow Scheduler, full MFP integration with a visually enhanced display, document indexing and folder browsing capabilities at the MFP, robust authentication options, and add-in options that allow you to enhance the speed and efficiency of your document workflow. Add-in options include:

- Forms processing to automatically extract and process unique identifiers from forms (social security numbers, birth dates, etc.) using pattern matching so you don't have to know the specific content.
- Connectors to cloud storage providers – Box, Dropbox, WebDAV, Microsoft OneDrive, FileAssist (Konica Minolta's new cloud document management solution), etc.
- Advanced Bates stamping to automatically apply counters, metadata, static text, and more – anywhere on the page.
- Advanced job routing features to send your print job to the most suitable or cost-effective printer.
- Connectors to other content management systems, including OnBase® by Hyland and Worldox® by World Software.

# **General Ordering Information – DIGCOP12A -**

## ***Ordering Address and Procedures***

**Orders will be accepted for the State of West Virginia - State Agencies and Political Subdivisions within the State of West Virginia. All orders must be placed as follows:**

**KOMAX, LLC  
500 "D" Street  
South Charleston, WV 25303**

**Phone: 888-483-7440 or (304) 744-7440**

**Fax: (304) 744-7450**

**Attn: David Humphrey**

Information on orders, invoices, payments, etc. should be directed to the number indicated above. Facsimile purchase orders are acceptable. Purchase orders made out to Konica Minolta or other authorized dealers will not be accepted.

### **All purchase orders must include the following information:**

- The purchase Order Number
- The Contract Number (DIGCOP12A -
- Band & Model Number
- Additional accessories ordered (please list separately)
- Quantity of items being ordered
- Purchase or Rental Price of items ordered
- Contact name and phone number, and delivery address. Also meter contact information if different.
- If connected for scanning/printing, must include Office of Technology Approval Letter
- Send WV-39 with Request to [Consulting.Services@WV.gov](mailto:Consulting.Services@WV.gov)

### **Payment Terms:**

Net thirty (30) days

### **Delivery:**

Please allow up to thirty (30) days after receipt of order (unless notified otherwise by KOMAX). For better delivery accuracy, you can process a PO 60-90 days early, and specify the Start Date.

### **Transportation, delivery, installation and training:**

FOB Destination

### **Copier/Printer Product Questions:**

All inquiries regarding product information, demos, etc. should be directed to:

**David Humphrey  
State Contract Manager  
888-483-7440 or (304) 744-7440  
Fax(304) 744-7450**
