# GENERAL TERMS & CONDITIONS
## PURCHASE ORDER/CONTRACT

1. **ACCEPTANCE:** Seller shall be bound by this order and its terms and conditions upon receipt of acceptance of this order.

2. **APPLICABLE LAW:** The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.

3. **NON-FUNDING:** All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the terms of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.

4. **COMPLIANCE:** Seller shall comply with all Federal, State and local laws, regulations and ordinances including, but not limited to, the prevailing wage rates of the WV Division of Labor.

5. **MODIFICATIONS:** This writing is the parties final expression of intent. No modification of this order shall be binding unless agreed to in writing by the Buyer.

6. **ASSIGNMENT:** Neither this Order nor any monies due, or to become due hereunder may be assigned by the Seller without the Buyer's consent.

7. **WARRANTY:** The Seller expressly warrants that the goods and/or services covered by this Order will: [a] conform to the specifications, drawings, samples or other description furnished or specified by the Buyer; [b] be merchantable and fit for the purpose intended; and/or [c] be free from defect in material and workmanship.

8. **CANCELLATION:** The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the Seller.

9. **SHIPPING, BILLING & PRICES:** Prices are those stated in this order. No price increase will be accepted without written authority from the Buyer. All goods or services shall be shipped on or before the date specified in this Order.

10. **LATE PAYMENTS:** Payments may only be made after the delivery of goods or services. Interest may be paid on late payments in accordance with the *West Virginia Code*.

11. **TAXES:** The State of West Virginia is exempt from Federal and State taxes and will not pay or reimburse such taxes.

12. **RENEWAL:** Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.

13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this Contract is automatically null and void, and is terminated without further order.

14. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (http://www.state.wv.us/admin/purchase/vrc/hipaa.htm) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

    - Solocast (1 and 20)

1. "Single use license" means a license must be dedicated for each computer or network access point that has use rights for the Software, Data, or Documentation. Licensee may make a second copy for Licensee's exclusive use on a portable computer so long as only one (1) copy of the Software, Data, and Documentation is in use at any one time.
2. "Concurrent use license" means a license that permits execution of the Software on any computer on the network. The number of simultaneous/concurrent users may be controlled by a License Manager to access and use the Software, Data, or Documentation.
3. "Server license" means a license for (server-side) Software that (i) resides on a server computer and provides services to multiple users and/or client computers in a distributed computing environment, or (ii) resides on an individual desktop computer and provides services to that computer in conjunction with ArcGIS Desktop or other Server Software. For

example, an ArcSDE direct connection with an ArcGIS Desktop application, or an ArcSDE direct connection with ArcIMS or ArcGIS Server is a server license.

4. A "Stand-alone Deployment license " grants the right to Licensee to redistribute a stand-alone application to end users, provided the application is installed on each computer on which the application is run. The Stand-alone Deployment license requires payment of redistribution or deployment fees, except for MapObjects LT.

5. A "Server Deployment license" grants the right to Licensee to redistribute an application via a network, the Internet, or Intranet to end users of the application (also known as an "Internet Redistribution license"). The Server Deployment license does not require payment of additional deployment or redistribution fees, except for MapObjects—Java Edition.

6. Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs. For example, if Licensee orders Concurrent Use ArcInfo, then any associated extension is also licensed for concurrent use or if Licensee orders an ArcGIS Server extension, that extension is also licensed for use on a server.

7. MapObjects—Java Edition and "Server Software" licenses are licensed per Server/CPU. Each Server Software license may be installed on up to 2 CPUs in one server; licenses for additional CPUs are available. Server licenses include the rights to develop, test, and deploy applications to end users via a network, the Internet, or Intranet on or from the same licensed server, provided the source and object code are not accessible to users of the application and that Licensee does not generate revenue directly by charging for access to the site or service by selling data, pay-per-view, subscription fee, or similar means by utilization of the Software. Licensee shall not use any type of development or testing licenses, including those licenses installed in a staging server environment (Staging Server licenses) to deploy applications for production use by end users. The administration tools for ArcIMS, ArcSDE, ESRI Image Server, and MapObjects—Java Edition may be copied and redistributed throughout Licensee's organization. User developed ArcGIS Server administration tools may be copied throughout Licensee's organization, but the ArcCatalog application (found in the ArcGIS Desktop (ArcView, ArcEditor, or ArcInfo) may not be copied unless part of a licensed ArcGIS Desktop installation. The ArcIMS license includes the right to deploy MapObjects—Windows Edition applications on the Internet or Intranet. Licensee shall not develop client/server solutions with the ArcIMS Java Archive (JAR) files without a license for the MapObjects—Java Edition Developer Kit.

8. ESRI and its licensor(s) grant Licensee a nonexclusive, nontransferable, limited license to use, copy, and prepare derivative works by

   (a) Translating "alroute.mld" (hereinafter "Dictionary") from the original text in the English language;
   (b) Editing Geographic Data Technology (GDT) Data included within ArcLogistics Route; and
   (c) Adding Data (owned by Licensee or others) to ArcLogistics Route Software.

   The license grant is conditioned as follows:

   (a) The derivative works are for Licensee's internal use only;
   (b) ESRI and its licensor(s) retain all exclusive right, title, and interest in and benefits from the derivative works, except Data owned by Licensee or others; and
   (c) Licensee expressly waives and relinquishes any and all ownership including, but not limited to, copyright, moral rights, or any other statutory or common law claims to the derivative works, except for Data owned by Licensee or others.

   Licensee shall not translate, modify, or edit in any way the software name "ArcLogistics Route," software logo, any third party software, any text other than the Dictionary, or any Data other than GDT's.

   The amount of Data used by Licensee is limited by Data credits purchased. Additional license fees are required if ArcLogistics Route with Data is to be accessed by more than one (1) ArcLogistics Route license.

9. ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.

10. This is a "Dual Use License," meaning the Software may be installed on a desktop computer and may be used simultaneously with either a Personal Digital Assistant (PDA) or handheld mobile computer provided that the Software is only used by a single individual at any one (1) time.

11. Licensee shall not redistribute or disclose the MapObjects developer license file (*.lic). Developers must attribute as follows: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."

12. Redistribution rights for standard or Internet application(s) may be subject to payment of additional license fees. Other restrictions notwithstanding, Licensee may redistribute commercial applications to its sublicensee(s) provided Licensee uses a written sublicense agreement that protects ESRI's rights in its Software, Data, and Documentation to the same extent as the ESRI License Agreement, and that includes the following terms, as a minimum:

(a) Sublicensee may not reverse engineer, decompile, or disassemble the ESRI Software, Data, or Documentation, except to the extent permitted by applicable law, copy for commercial use, transfer, or assign its rights under the license grant; and

(b) Sublicensee may not use any ESRI Software, Data, or Documentation, in whole or in part, separate from Licensee's executable application.

(c) Third party dependent or required components are redistributable subject to permission from the owner or author.

13. Subject to an annual renewal fee.

14. Licensee may use Business Objects Crystal Reports software only with the ESRI Software with which it was acquired and subject to the Crystal Reports Professional License Agreement available on the media. However, for use of Crystal Reports software with Concurrent Use ArcGIS Software licenses, Licensee may install and use a Crystal Reports license on any computer on the network on which the ArcGIS Desktop Concurrent Use Software is used, but it may only be used with the ESRI Software with which it was acquired, as previously noted. Licensee may not use a software program or system to cache or queue report requests.

15. The Redistribution Stand-alone (or Deployment) license is per application per computer. For MapObjects—Windows Edition, Internet or Intranet Deployment requires an ArcIMS Internet Deployment License. Except for ArcIMS licenses, one (1) Internet Deployment license is required for each ArcIMS server/CPU that runs Web mapping applications built with MapObjects—Windows Edition. For MapObjects—Java Edition, Internet or Intranet Deployment requires a MapObjects—Java Internet Deployment License. An application upgrade is not a redeployment as long as it uses the same major revision of ArcGIS Schematics SDK, MapObjects—Windows Edition, or MapObjects—Java Edition.

16. The MapObjects—Java Edition contains Java Archive (JAR) files, which indicate they are authentic ESRI-certificated files when used over the Internet. Any Licensee certificate placed on the modified "re-jarred" files cannot reference ESRI as a source of trusted content. In addition to any other rights and restrictions in the Agreement, Licensee may use the MapObjects—Java Edition on a single computer to

(a) Build applet(s) that are used only as an internal component in end user interfaces, and to copy the applet(s) to additional computers (e.g., Web Server) from which Licensee may deploy the applet(s) to end users via download in the course of browsing or interacting with Licensee's Web pages. End user redistribution of the applet(s) is not allowed; and

(b) Build stand-alone Java Applications. Licensee may deploy the Java class ESRI certificated libraries as an integral part of Licensee's application(s); and

(c) Build servlets and/or Enterprise JavaBeans with MapObjects—Java components, requiring a MapObjects—Java Internet Deployment License for each server configuration; and

(d) Distribute MapObjects Java applets, provided (i) Licensee's Web pages or software application(s) is targeted at end users and not as a development tool; (ii) Licensee does not use ESRI's name, logos, or trademark to market Licensee's Web pages or application(s); and (iii) Licensee includes a valid Licensee copyright notice on Licensee's Web pages and software application(s).

17. ArcSDE is licensed on a Server/CPU basis and on a one-to-one basis with a relational database. Licensee may run ArcSDE on a Server to connect to a DBMS, or may connect directly to a DBMS by running ArcSDE on an individual desktop computer. Each ArcSDE Server license permits multiple ArcSDE instances on one (1) server or one (1) desktop computer if Licensee has multiple database instances on the corresponding database Server. Licensee may not connect to more than one (1) database server with an ArcSDE license. ArcSDE for Coverages is licensed only in conjunction with ArcView, ArcEditor, or ArcInfo concurrent use licenses, or ArcSDE Server or ArcIMS Server licenses. Licensee may reproduce and redistribute ArcSDE for Coverages for its internal use.

18. Licensee may reproduce and redistribute the ArcReader and/or ArcExplorer Software provided all of the following occur:

(a) The ArcReader or ArcExplorer Software is reproduced and redistributed in its entirety whether as a stand-alone application or as an embedded GIS viewing tool on Licensee's own deliverable;

(b) An Agreement accompanies each copy of the ArcReader or ArcExplorer Software that protects the ArcReader or ArcExplorer Software to the same extent as the ESRI License Agreement, and the recipient agrees to be bound by the terms and conditions of the Agreement;

(c) All copyright and trademark attributions/notices are reproduced;

(d)  There is no charge or fee attributable to the use of the ArcReader or ArcExplorer Software; and

(e)  Sourcebook America may not be redistributed.

19.  Data provided with ArcPad StreetMap may be used for mapping, geocoding, and routing purposes but may not be used for dynamic routing purposes. Dynamic routing or "real-time guidance" is predictive routing and is not included in the ArcPad StreetMap functionality. For instance, ArcPad StreetMap may not be used to alert a user about upcoming maneuvers (such as warning of an upcoming turn) or calculating an alternate route if a turn is missed.

20.  Notwithstanding the Term and Termination provision of the General License Terms and Conditions, Tapestry and Community Coder are term licenses. ESRI Software, Data, and Documentation shall be subject to the Permitted Uses and Uses Not Permitted described below

"Permitted Uses:

(a)  Licensee is granted permission to include resultant maps, reports, or other data output derived from ESRI Software, Data, and Documentation only as part of Licensee's value-added products and/or services (e.g., Licensee's client reports, presentation packages, marketing studies, etc.) to current or prospective clients, so long as the resultant maps, reports, or other data output derived from ESRI Software, Data, and Documentation comprises less than twenty percent (20%) of the total value of the Licensee's client reports, presentation packages, or marketing studies.

(b)  If Licensee orders a license for ArcGIS Business Analyst with a subset of the national data set (i.e., Region, State, Local), Licensee may use only the licensed subset, and may not use any other portion of the national data set.

Uses Not Permitted:

(a)  Licensee shall not sell; rent; lease; sublicense; lend; assign; time-share; or act as a service bureau or Application Service Provider (ASP) of full, complete, stand-alone reports, maps, or data output created from ESRI Software, Data, and Documentation without first entering into an appropriate reseller-type agreement with ESRI.

(b)  Unless Licensee has separately licensed a copy of Community Coder, or ESRI Data that permits appending of the Community Tapestry market segmentation system codes ("Tapestry Codes"), Licensee shall not use the ESRI Data to assign or append Tapestry Codes to addresses or geographical data not included with ESRI Software, Data, and Documentation. If Licensee is granted the right to assign Tapestry Codes to Licensee's own files or records (i.e., profiling), Tapestry Codes shall not be disclosed to or used for the benefit of third parties nor shall Licensee provide any third party with mapping, indexing or delivery services made possible through the use of the deliverables without ESRI's express written permission.

(c)  Licensee shall not use, copy, redistribute, publicly display, rebroadcast, or otherwise retransmit the ESRI Software, Data, and Documentation on the Internet without first entering into an appropriate Internet/Intranet Deployment-type agreement with ESRI.

(d)  Licensee shall not withhold any substantial right (e.g., extension of credit) from any individual based solely on the Community Tapestry market segmentation systems type of said individual's place of residence.

21.  The ArcGIS Engine Developer Kit grants the right to develop an unlimited number of applications on a single computer and to deliver the applications with or without the Engine Runtime Software to end users. The ArcGIS Engine Developer Kit licenses and Engine Runtime licenses may be licensed independent of the other. Licensee shall not redistribute the Engine Developer Kit authorization file. The Engine Runtime licenses shall not be used for development of Engine applications. Internet and Server development and deployment is not permitted. An end user must license either ArcGIS Engine Runtime Software or other ArcGIS Desktop Software (ArcView, ArcEditor, or ArcInfo) to obtain the right to run an unlimited number of applications built from the ArcGIS Engine Developer Kit on one (1) computer. The ArcGIS Engine Runtime Extensions shall not be used in combination with ArcGIS Desktop Software to run ArcGIS Engine applications. Developers must attribute as follows: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."

22.  Server Software may be used in logical, virtual, and "on-demand" server configurations. When counting the number of CPU licenses required for each type of server configuration, ESRI counts all the physical CPUs in a server where the Server Software is installed and/or running. In logical server configurations each Server Software license may be installed on up to two (2) CPUs in one (1) logical server. For "on-demand computing" dormant CPUs do not need to be licensed until they are activated. In virtual server configurations all CPUs in the server must be licensed.

## General Information and Disclaimers

1.  The following software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.

2.  The listed prices are exclusive of shipping and handling. Delivery terms are FOB Redlands, California. Shipping and handling will be prepaid and charged back, i.e. included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your ESRI Sales Representative can provide a specific quote including applicable shipping and handling charges.

3.  Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:

    (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
    (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the software, and extension software is only functional in combination with the corresponding core software. If you have questions regarding your configuration, please contact your ESRI representative for additional information.
    (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.
    (d) Some items are not offered to all potential customers. For example, certain software upgrades are only offered to customers who have acquired the most recent versions of the software and local government licenses are only offered to local government customers.
    (e) Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-site training information at ESRI's Web site (www.esri.com/training/site_training.html) for details.
    (f) ESRI Site Training (i.e. Training at one of ESRI's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at ESRI's Web site (www.esri.com/training/register.html) for details.

4.  Support services are defined at ESRI's Web site (www.esri.com) within the user support section. Particular attention should be paid to the fact that some ESRI software comes with complimentary maintenance for the first year and other software features different support plans.

5.  New software releases for most software products are provided exclusively through maintenance programs. In these cases, software upgrades are not sold separately.
