RE: MPLS07EEEE

Dear Mr. McAllister:

Per the email dated December 6th, West Virginia Office of Technology is requesting a continuation of MPLS services under an Emergency Replacement Contract according to all Terms and Conditions, Pricing and Specifications contained in the original MPLS07 Contract including all authorized Change Orders which is necessary to continue supporting the current operating environment without change or disruption of services for the period January 1, 2019 to June 30, 2019 during which time certain provisions of the original MPLS07 contract, "Section 3.16.12 Disentanglement", are to commence and be completed. Verizon is agreeable to an additional six (6) month continuation of the existing services during the transition period and implementing the disentanglement provisions of Section 3.16.12 of MPLS07, subject to and incorporating all terms & conditions, pricing, specifications and authorized Change Orders contained in the original MPLS07 Contract. Verizon is also willing to pass through any price increases proposed by co-prime Frontier and accepted by WVOT as presented by Frontier to Verizon for billing purposes without any associated one-time billing change charges. Notwithstanding the foregoing, Verizon understands that new service request must be provided either from the DTATRANS contract or separately bid with WVOT approval.

Verizon's acceptance of WVOT's request is contingent upon: (i) co-prime Frontier's agreement to the above, and (ii) Frontier's agreement to continue supporting the Coordinated Performance Agreement between Verizon and Frontier under the same terms and conditions. Frontier's support is necessary in order to provision the existing services (including; billing, ordering, repair, etc.) as they are today.

Thank you again for the opportunity to provide your telecommunications needs.

Sincerely,

Sandra Hawkins
