Requesting such fees or charges be paid after the contract has been awarded may result in cancellation of the contract.

**18. FUNDING:** This Contract shall continue for the term stated herein, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise made available, this Contract becomes void and of no effect beginning on July 1 of the fiscal year for which funding has not been appropriated or otherwise made available. If that occurs, the State may notify the Vendor that an alternative source of funding has been obtained and thereby avoid the automatic termination. Non-appropriation or non-funding shall not be considered an event of default.

**25. WAIVER:** The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

**41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS:** Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

**42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL:** In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**NOTE:** Failure to provide the required reports may result in cancellation of contract and exclusion from future bid participation.

**4. CONTRACT AWARD:**

- 4.1 Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. The Contract shall be awarded to the vendors that provide the Contract Items meeting the required specifications for the lowest Total Life Cycle Cost per fuel type vehicle class as shown on the Pricing Pages.

Each vehicle fuel type (Gasoline, Flex-fuel, Diesel, CNG/Bifuel, and Hybrid) contained in a given class, represents an opportunity for a separate bid response. Each of these vehicle fuel types shall be evaluated independently and awarded to the lowest responsible bidder meeting the specifications of the given vehicle fuel type in that vehicle class.

- 4.2 Life of Contract:** This contract shall become effective upon award and extends for one year or until such time as the vendor notifies the Purchasing Division that the model year build-out date has been reached, unless the vendor chooses to supply next model year vehicles at the price quoted, or until contracts are issued for the next model year.
- 4.3 Pricing Pages:** Vendor should complete the Pricing Pages by responding to the information requested in the “Vendor Name”, “Manufacturer/Brand”, “Model & Number”, “EPA HIGHWAY MPG Rating”, “EPA CITY MPG Rating”, “Vendor Contact”, “Phone Number”, “Email Address”, “Standard Color Code”, “Color Description”, and “Unit Price” fields for each vehicle class. Utilizing the provided excel files will self-tabulate the “Total Life Cycle Cost” fields.

**Vendor Bid Response Section:** The vendor must use the EPA mileage ratings from the Official 2022 Fuel Economy Guide for Highway and City MPG ratings for each vehicle class. If the vehicle is not present in the 2022 Fuel Economy Guide, vendors must utilize the EPA Mileage rating provided in the 2021 EPA Fuel Economy Guide for the 2022 model vehicles provided as the basis for the life cycle Cost calculations.

REQUEST FOR QUOTATION

**\*\*\*\*\*IMPORTANT\*\*\*\*\***

Vendor **SHOULD SUBMIT** with their bid, a copy of the Official 2022/2021 EPA Fuel Economy Guide (<https://www.fueleconomy.gov/feg/printGuides.shtml>) as verification of MPG rating for each vehicle bid. Vendor should clearly mark by circling or highlighting the CITY and HIGHWAY MPG ratings and the Fuel Type for each vehicle in each class bid and should type or write in the corresponding Vehicle Class, Engine Fuel Type, and Transmission Speed (i.e., 4, 5, 6, 8, 10) on the EPA MPG submitted sheet. See EXHIBIT\_B for an example of the requested information. This information must be provided upon request if not submitted with bid.

In the event a vehicle being bid is not listed in either the 2022 or 2021 Official EPA Fuel Economy Guide, the EPA Mileage Rating for City and Highway MPG provided from the manufacturer for the bid vehicle should be submitted and clearly marked on the provided document(s). Any vehicle class that contains a vehicle evaluated on the basis of the EPA Mileage rating provided by the manufacturer instead of the Official 2021/2022 Fuel Economy Guide may be re-evaluated at the sole discretion of the Purchasing Division if the subsequently published Official 2022 Fuel Economy Guide would result in a change to the Total Life Cycle Cost of 5% (.05) or more.  
Example:

Manufacturer utilized EPA Mileage rating resulting in a Total Life Cycle Cost of \$45000.00 for vehicle class bid. If the EPA Official 2021 Fuel Economy Guide published mileage rating differs from the manufacturer mileage rating and results in a Total Life Cycle Cost change exceeding \$2,250.00 for the vehicle class bid [ $\$45,000.00 \times .05 (5\%) = \$2,250.00$ ], a re-evaluation of vehicle class bid may result.

Any re-evaluation will utilize the EPA mileage ratings from the Official 2022 Fuel Economy Guide in place of the EPA Mileage rating from the manufacturer. In the event the two EPA mileage ratings differ and exceed a 5% change in the overall Total Life Cycle Cost, the re-evaluation may result in cancellation of the existing award and re-awarding of a vehicle class to another vendor. Orders placed with an awarded vendor prior to a contract re-award will remain valid. Once a re-award is made and officially becomes effective, all new orders for that vehicle class will be placed with the re-awarded vendor.

**4.3.1 “Vehicle Fuel Type” segment:**

- A. Vendors bidding vehicle fuel type “Gasoline” shall use the MPG ratings for gasoline.
- B. Vendors bidding vehicle fuel type “Flex-fuel” shall use the MPG ratings for E85.
- C. Vendors bidding vehicle fuel type “Diesel” shall use the MPG ratings for diesel.
- D. Vendors bidding vehicle fuel type “CNG/Bifuel” shall use the MPG ratings for gasoline.
- E. Vendors bidding vehicle fuel type “Hybrid” shall use the MPG ratings for gasoline.

**4.3.2 “EPA HIGHWAY MPG Rating” & “EPA CITY MPG Rating” segments:** The EPA mileage ratings for Highway and City MPG are supplied by the US Environmental Protection Agency at the following website: <https://www.fueleconomy.gov/feg/printGuides.shtml> Vendor shall provide each corresponding EPA MPG rating in the cell provided and should submit proof from the guide with their bid.

**4.3.3 “Unit Price” segment:** The Unit Price is the base vehicle price including standard equipment requirements, vehicle requirements and any additional requirements for the given vehicle class.

**4.3.4 “Total Life Cycle Cost” segment:**

The Total Life Cycle Cost is tabulated using the following formula for all fuel types *except* diesel:

$$75,000/\text{EPA Highway MPG Rating} + 25,000/\text{EPA City MPG Rating}] \times 2.75) + \text{Unit Price}$$

The above formula is derived from an estimated vehicle life of 100,000 miles; where an estimated 75,000 miles will be highway use and an estimated 25,000 miles will be city use. The combined averages of the two MPG ratings are then multiplied by an estimated gasoline price of \$2.75 per gallon.

The Total Life Cycle Cost tabulation formula for diesel is as follows:

$$75,000/\text{EPA Highway MPG Rating} + 25,000/\text{EPA City MPG Rating}] \times 3.05) + \text{Unit Price}$$

CRFQ 0212 SWC2100000005  
REQUEST FOR QUOTATION  
MV22 – 2022, or latest model year, Motor Vehicles

---

The above formula is derived from an estimated vehicle life of 100,000 miles; where an estimated 75,000 miles will be highway use and an estimated 25,000 miles will be city use. The combined averages of the two MPG ratings are then multiplied by an estimated diesel price of \$3.05 per gallon.

For example, if a gasoline vehicle were to have an EPA MPG rating of 22 MPG Highway and 18 MPG City with a Unit Price of \$22,000.00, the Total Life Cycle cost would equal \$35,194.44. (First find the product of 75,000 miles divided by the EPA Highway MPG Rating, and then find the product of 25,000 miles divided by the EPA City MPG Rating. Next, add the two products together and multiply by the fuel type cost of 2.75 per gallon (for gasoline). Lastly add the product of the preceding calculation to the Unit Price of the vehicle being bid.)

**NOTE:** The pricing pages have been formatted to calculate the Total Life Cycle Cost when the cells for “EPA HIGHWAY MPG Rating”, “EPA CITY MPG Rating”, and “UNIT PRICE” are entered.

#### **4.3.5 “Options”**

Mileage charges for delivery should be listed under the “Options” section of each vehicle class pricing page. FOB Dealership (Deduct) and FOB Other than Metro Charleston refers the delivery charges, that, at time of order, the vendor will add to or deduct from their final bid amount for each vehicle class awarded. If no response is received in either the FOB Dealership (deduct) or FOB Other than Metro Charleston fields, it will be assumed the vendor will not be charging delivery. These options will not be evaluated as part of the award.

**General:** Vendors should complete the Pricing Pages in their entirety as failure to do so may result in Vendor’s bids being disqualified.

The Pricing Pages contain a list of the Contract Items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

Vendor should electronically enter the information into the Pricing Pages through wvOASIS, if available, or as an electronic document. In most cases, the Vendor can request an electronic copy of the Pricing Pages for bid purposes by sending an email request to the following address: [Mark.A.Atkins@wv.gov](mailto:Mark.A.Atkins@wv.gov)

The Department of Administration, Fleet Management Division (FMD) arranges third-party financing.
