Myriad™ Keyboard with Mouse and Articulating Arm Systems

Myriad™ is the only product with a quick-connect hook and slot system. One thumbscrew needed to lock the tray and articulating arm together – cuts installation time up to **40%**.

Myriad™ keyboard trays are made of steel for long-lasting strength and powder coated with a rich, wrinkle finish for added durability. A raised lip keeps your keyboard and mouse in place and a contoured palm support is standard for the keyboard.
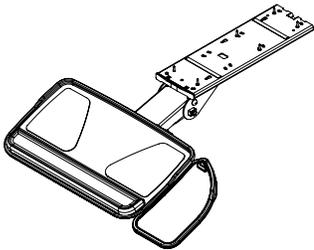

Myriad™ keyboard trays are designed to retrofit virtually any existing articulating arm, when used with our hook and slot adapter plate. Available with or without mouse tray.
