1. SPECIFICATIONS

The following sections of the West Virginia Department of Transportation, Division of Highways Standard Specifications Roads and Bridges, adopted 2000, as modified by the current Supplemental Specifications shall apply to the administration of this Contract: Sections 101, 102.4, 102.5, 105.1, 105.3, 105.4, 105.10, 105.11, 105.12, 105.13, 106.3, 106.4, 106.5, 106.6, 106.7, 106.9, 107.1, 107.2, 107.3, 107.14, 107.19, 107.20, 108.8, 108.9, 109.1, 109.2 and 109.20.

Materials and equipment shall conform to the requirements of Section 219 and 601.

Section 601.7 is amended as follows:

DELETE THE SECOND AND THIRD PARAGRAPHS AND SUBSTITUTE THE FOLLOWING:

Concrete may be made by volumetric batching and continuous mixing (concrete mobile) as designated in AASHTO M241, except as otherwise specified herein.

When a truck mixer or agitator is used for transporting concrete, the concrete shall be delivered to the site of the work and discharge shall be completed within 1 1/2 hours after the addition of the cement to the aggregates. Each batch of concrete delivered at the job site shall be accompanied by a batch ticket (ST-17) bearing complete batching information. In adverse weather or under other conditions contributing to quick stiffening of the concrete, or when the temperature of the concrete is 85° F. or above, the time between the introduction of the cement to the aggregates and discharge shall not exceed one hour. When a truck mixer is used for the complete mixing of the concrete, the mixing operation shall begin within one hour after the cement has been added to the aggregate.

The addition of water after completion of initial mixing will not be permitted, except that when concrete is delivered in truck mixers additional water may be added to adjust to a specified consistency. In this event, a minimum of 20 additional revolutions of the truck mixer drum at mixing speed shall be required before discharge of any concrete. The maximum allowable number of revolutions at mixing speed shall not be exceeded in total mixing; and the maximum allowable time between the addition of the cement to the aggregates and the discharge of the batch shall not be exceeded. Concrete that is not within the specified consistency limits at the time of placement shall not be used.

Section 601.9.2 is amended as follows:

IN THE FIRST SENTENCE OF THE THIRD PARAGRAPH, CHANGE "45 minutes" to "one hour."

The terms "Contractor" and "Vendor" used in the above specifications or this contract are interchangeable. Contractor shall mean Vendor and Vendor shall mean Contractor.

West Virginia Department of Transportation, Division of Highways Standard Specifications Roads and Bridges, adopted 2000 and the current Supplemental Specifications may be obtained from:

West Virginia Division of Highways Contract Administration Division 1900 Kanawha Blvd., East Building 5, Room A-729 Charleston, West Virginia 25305

2. BIDDING INSTRUCTIONS

Any qualification of bids or any modification of the specifications or conditions governing the bids may be cause to reject bids.

If a Vendor is bidding materials from more than one plant, a set of bid schedules with all required information shall be provided for each source.

3. DETERMINING LOW BID

State Contract Purchase Orders (SCO) for individual projects will be based on the lowest overall total cost of the material (Items A through I) plus the haul cost (Item L) plus any additional charges (Items J, K, M, N and O).

The haul distances allowed for Item L will be over suitable routes selected by the District Engineer and shall be measured from the Vendor's plant to the job site. All such chosen routes shall have acceptable load limits for both roads and bridges. If a Vendor inserts prices for both options of Item I, Additional Haul, the Division will calculate payment under this item using the option that will result in the least expense to the Division.

4. CONTRACT AWARD

All qualified Vendors who submit a valid bid will be awarded a contract for those items bid.

The Division will only buy concrete and controlled low-strength material (CLSM) produced in a certified plant. Therefore, State Contract Orders (SCO'S) will only be issued to Vendors with a certified plant. Bids submitted from Vendors whose plant is not certified will be considered valid, but SCO's will not be issued to a Vendor until such time as his plant becomes certified.

If the Vendor's plant certification expires during the life of this contract, SCO's will not be issued for concrete and controlled low-strength material (CLSM) from that plant until such time as the plant's certification is renewed.

In the event a Contractor fails to conform to the requirements set out in this contract document, the State Contract Purchase Order or the governing specifications, the SCO may be canceled and reissued to the next low bidder.

5. MATERIAL TESTING

The Vendor will conduct all tests required by the specifications to be performed at the plant. Any job site testing required by the specifications will be performed by the Division.

6. ACCEPTANCE PLAN

Material failing to comply with the quality requirements will not be accepted, and will be returned at the Vendor's expense.

7. DELIVERY

The unit Bid Price quoted for Concrete and Controlled Low-Strength Material (CLSM) Items A through I shall include delivery within five (5) miles of the Vendor's Plant.

8. TEMPERATURE CONTROL

The Vendor is required to meet the temperature requirements as set forth in the Standard Specifications.

9. ADMIXTURES

All concrete shall be air-entrained. The cost of the air-entraining agent shall be included in the Unit Bid Price of the concrete and no additional charge for air-entraining agent will be allowed under Item J, Admixture.

10. VENDOR'S INVOICE

Vendor's invoices must be submitted in original and one copy and contain the following:

a. Division of Highways State Contract Order (SCO) Number and this Contract Number.

b. Total quantity and unit price with all additional charges itemized, and the total cost for the material furnished.

Note: Under no circumstance will the West Virginia Division of Highways accept, or pay for, quantities of material in excess of the quantity stated on the SCO.

11. BIDDING SCHEDULE (Continued)

Unit Bid Price for Items A through I, to include delivery within five (5) miles of Vendor's Plant.

AFFIDAVIT

West Virginia Code §5A-3-10a states:

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.
