NORTHROP GRUMMAN*Electronic Systems*

M949 Aviator's Night Vision Imaging System

M949 Increases Aviation Night Mission Capability and Effectiveness

Northrop Grumman has made significant design improvements to the Aviator's Night Vision Imaging System (ANVIS). Improved situational awareness, system performance, in addition to ergonomic and technological enhancements benefit both military and civil operators.

M949 features binocular viewing for optimized depth perception. The large (25mm) eyepieces provide improved eye-relief enabling excellent peripheral viewing while easily accommodating eye glasses and laser eye protection devices. Ergonomically designed interface controls including dual independent interpupillary adjustments and vertical, fore-aft, and tilt adjustments provide improved viewing of the entire system field-of-view (40 degrees).

A variety of mounting options ensures M949 compatibility with virtually all flight helmets. M949 interfaces with the selection of mounts and flight helmets shown on the reverse side of this page.

Northrop Grumman's new contoured design, Low-Profile Power Pack (LPPP) securely attaches to flight helmets using "hook and Pile" fasteners. Twin compartments accept two AA batteries each, for primary and alternate power. Additionally, LPPP incorporates an aircraft power interface port, enabling the use of aircraft supplied power for improved life-cycle cost savings and serves as an additional power source. The triple redundancy of the LPPP provides operator's complete system confidence.

M949's 4-lobe, bonded to eliminate de-rotating, objective assemblies enable a smooth, fine-thread, positive focus through infinity. Each objective is filtered for operation with NVG compatible aircraft lighting. Filter options are also listed in the selection chart. M949 is fully compatible with the AN/AVS-7 HUD.

For customer requirements from Gen III High Definition and beyond, M949's design allows direct drop-in interface with all 18mm MX-10160 series image intensifiers. This enables users to upgrade to higher performing image intensifiers without requiring system replacement.

Answers to Technical Questions

1.) Page 7 & 8-There is no reference as to the image intensifier performance required in your specifications. The M949 can be supplied with three image intensifier tube performances.

- M949 Delta Series Gen III 64 Ip/mm
- M949 Omega Series Gen III Autogated 64 Ip/mm
- M949 Infinity Series Gen III Autogate Unfilmed 64 Ip/mm-72 Ip/mm (top of the line and the recommended tube performance)

Answer: Please provide with the M949 Infinity Series Gen III NCG's.

2.) Page 8-List of Accessories & Optional Accessories calls for the requirement of the HGU56 Quick Don Mount Assembly (a non-standard accessory) Nevertheless, the HGU56 helmet does not use the Quick Don Mount, but the (V)1A mount. The Quick Don Mount is used by the HGU-84P helmet.

Answer: Please provide the HGU 56 helmet with associated correct mounting system (V)1A mount.

3.) Page 8-List of Accessories & Optional Accessories calls for the requirement of the M949 Spare Parts Kit (also a non-standard accessory). Nevertheless, there is only one line for the unit pricing quoting, so the questions is whether the quote is to include all of the items listed on page 8 including the helmet mount and M949 spare parts kit in one price.

Answer: Please see attached pricing page.

West Virginia Code §5A-3-10a states:

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
