**West Virginia Code §5A-3-10a states:**

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

**EXCEPTION:**

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**LICENSING:**

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

**CONFIDENTIALITY:**

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit [www.state.wv.us/admin/purchase/privacy](http://www.state.wv.us/admin/purchase/privacy) for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.

WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

RESPONSE TO VENDOR QUESTIONS, AS FOLLOWS:

1. Question: Who installs the concrete generator pad referred to on P10?  
Response: The installation of the pad is not a part of the bid.
2. Question: Who supplies/installs the LP gas tank, gas piping, tank regulator and concrete tank pad?  
Response: The installation of the LP system is not a part of this bid.
3. Question: We need a list of the sites so that we can go to each site and determine what materials and labor are needed?  
Response: This is an open end contract and involves many different sites and many which are not yet determined. It is not practical to "visit" the sites. This is a generic open end bid for the generator and its installation and hook-up. All sites are essentially the same with only minor variations. This should be clear after reading response to questions 4 and 5, below.
4. Question: Should we include an allowance for a concrete pad or is it existing?  
Response: No. Do not include the cost of the concrete pad. It will already be in place. Also, the main large conduit from the generator to the building will be in place with pull cord in place. The average distance from the generator pad to the building is 50 feet.
5. Question: Are there any blueprints for this project?  
Response: There are drawings for some of the current sites. However, again this is an open end contract and my sites are not yet determined. For the purpose of this open end contract, there is adequate information with the above clarifications to provided a bid.
6. Question: What is the location of each Communication Tower Site? This is needed to determine freight.  
Response: As stated in the specifications, this is for many different sites throughout West Virginia. Since this is an open end contract, many of the sites are not known at this time.
7. Question: What are the Offloading conditions? This is needed to determine if boom truck or crane will be needed.  
Response: Off-loading is onto a concrete pad which is already provided. There is road access to the tower sites.
8. Question: Are these new generators replacing any old ones or are they all new installs?  
Response: All new.

9. Question: What is the layout of the project? We need this information to estimate materials for install, wiring, etc.

Response: As was answered before, each site could be slightly different, but for the purpose of the bid the generator will be an average of 50 feet from the building. The concrete pad will be in place and the large conduit from pad to building will be in place with pull string.

10. Question: What lead-time is required? The lead time may vary for each type, size of generator. What are your requirements?

Response: Lead time ASAP (4-6 weeks)
