The requirements of the West Virginia Department of Transportation, Division of Highways, Standard Specifications Section 109.20, PRICE ADJUSTMENT FOR LOAD LIMIT VIOLATIONS shall apply to all material supplied under this contract. This will include material loaded by the vendor into Division of Highways owned and/or rented trucks.

The terms "Contractor" and "Vendor" used in the above specifications of this contract are interchangeable. Contractor shall mean Vendor and Vendor shall mean Contractor.

West Virginia Department of Transportation, Division of Highways' Standard Specifications Roads and Bridges, adopted 2000 as modified by the current Supplemental Specifications may be obtained from:

West Virginia Division of Highways
Engineering Division, Technical Division
Building 5, Room A-650
1900 Kanawha Blvd., East
Charleston, West Virginia 25305
Phone: 304-558-2885

Sodium Chloride shall conform to the requirements of ASTM D632-83 and Type I, Grade 1 and shall be delivered in bulk.

2. ACCEPTANCE AND DELIVERY GUARANTEE

The Division of Highways guarantees acceptance of seventy (70) percent of the total estimated quantity awarded to an individual vendor. However, conditions may dictate adjustment of the actual quantities delivered to specified sites.

The Vendor shall guarantee delivery, as requested by the Division of Highways, of one hundred and twenty-five (125) percent of the total estimated award quantity stated in this contract. All guaranteed deliveries shall be completed prior to March 15, 2008.

Bidder agrees, by execution of this bid, that the guaranteed accepted quantity (seventy percent of total estimated needs) shall be delivered to Division of Highways storage sites or in a Department of Environmental Protection approved stockpile(s) by December 15, 2007.

3. BIDDING INSTRUCTIONS

The purpose of this contract is to provide for the delivery of Sodium Chloride to the various locations listed in the bidding schedule. Actual quantities to be delivered to each location will be specified in State Contract Purchase Orders (SCO), which will be issued by the Department of Highways at the time delivery is required.

Bidders submitting bids for a specific county shall bid all of that county's locations - one unit price - for the county sites listed on the attached Bid Schedules. This shall apply to the listed Interstate and Corridor sites as well.

Any qualification of bids or any modification of the specifications or conditions governing the bids may be cause for their rejection.

4. CONTRACT AWARD

All qualified Vendors who submit a valid bid for "FOB Vendor's Storage Site" will be awarded a contract for this item (see section 11).

Qualified Vendors who submit a valid bid for "FOB Division's Storage Site" will be awarded a contract for those locations for which their bid is low.

In the event a Vendor fails to conform to the requirements set out in this contract document, the State Contract Purchase Order or the governing specifications, the Purchase Order Contract may be canceled and re-awarded to the next low bidder.

5. DELIVERY

State Contract Purchase Orders (SCO) for delivery to individual Division of Highways Storage Sites will be issued to the Vendor awarded a contract for the county locations (see Bid Schedule).

From December 1, 2007 through March 31, 2008 delivery shall be made within seven (7) calendar days after vendor is notified by the Division of Highways.

Original delivery tickets for each delivered load to the Division's storage sites must be signed and retained by a DOH employee at the delivery location.

In the event the Vendor to which the SCO is issued is unable to comply with the specified delivery schedule the Division may, at its option, cancel all or part of the SCO and obtain the required quantity of Sodium Chloride from the most economical available source.

6. SAMPLING AND TESTING

Upon award of contract, the Vendor shall provide the Division with the proposed source of supply. Acceptance shall be based on suppliers' certification of quality and gradation. This information shall be directed to:

West Virginia Division of Highways
Materials Division
190 Dry Branch Road
Charleston, West Virginia 25306
Phone Number 304-558-3175

The Division may conduct sampling and testing to verify material quality or gradation.

7. WEIGHING MATERIALS DELIVERED BY TRUCK

Material delivered by truck shall be weighed in accordance with Section 308.5 of the West Virginia Department of Transportation, Division of Highways Standard Specifications Roads and Bridges, Adopted 2000 as modified by the current Supplemental Specifications.

8. SUPPLYING OTHER ORGANIZATIONAL ENTITIES

In accordance with Chapter 5A, Article 3, Section 9 of the Code of West Virginia the commodities or services contracted for herein shall be available to all local governmental bodies in accordance with the same prices, terms and conditions afforded to the State of West Virginia.

In the event any Vendor does not wish to extend the above prices, terms and conditions of his bid and subsequent contract to all political sub-divisions of the State, he must so indicate in a clear and unambiguous manner in his bid. This indication does not prejudice the award of the contract. If a Vendor does not indicate his refusal to extend the prices, terms and conditions of his bid to other entities of the State he is bound to extend them upon issuance of a purchase order by these entities.

Other organizational entities using this provision of the contract shall do so without any involvement of the Division of Highways. That is, the entity shall make its own purchase arrangements with the Vendor and shall make its own arrangements for payment.

9. VENDOR'S INVOICES

Vendor's invoices must be submitted in original and one copy and contain the following:

- a) All Weight Ticket numbers for material delivered during the invoicing period.
- b) Division of Highways State Contract Purchase Order (SCO) Number, and this Contract Number.
- c) Total quantity and unit price with the total cost of each type of material furnished.

NOTE: Under no circumstance will the West Virginia Division of Highways accept, or pay for, quantities of materials in excess of the quantity stated on the State Contract Purchase Orders (SCO).

Technical Information

Bulk Ice Control Salt

DESCRIPTION:

Bulk Ice Control Salt is a coarse screened, translucent to white crystalline solid obtained from domal salt deposits in Louisiana by physical mining. The salt is exploited by drilling and blasting with explosives in a manner similar to that used in other types of mineral mining. The mined salt is then crushed, screened and hoisted to the surface where it is stockpiled awaiting distribution as a highway deicing product.

COMPLIANCE:

Bulk Ice Control Salt is not approved for human or animal consumption. It is intended for use only as a chemical deicer on roadways and thoroughfares. This salt complies fully with ASTM Specification D 632-99 Type 1, Grade 1.

ADDITIVES:

Bulk Ice Control Salt may contain Yellow Prussiate of Soda, which is added to improve caking resistance.

APPLICATIONS:

Bulk Ice Control Salt is intended for use as an ice and snow removal agent on highways and other roadways.

PACKAGING AND SHIPPING:

Bulk Ice Control Salt is available only in bulk form. Bulk quantities are shipped by rail or truck.

METHODS OF ANALYSIS:

Methods of analysis and product performance evaluation are taken from the ASTM designations D 632-99 and E 534-98.
