FLEXIBLE PLASTIC TRAFFIC CONTROL DRUMS

SCOPE OF CONTRACT

To provide Flexible Plastic Traffic Control Drums, including bases, with sheeting pre-applied, and replacement bases, as needed.

MATERIAL SPECIFICATIONS

Flexible Plastic Traffic Control Drums supplied as part of this Contract shall be low density, reboundable type barrels manufactured using polyethylene, or equal material. The drums shall be manufactured bright orange in color and shall be resistant to impact as well as deterioration and fading from UV light exposure. The drums shall be designed to be easily stackable after removal of the base. The cross section of the bottom portion of the drums, or the entire drum cross sections, shall be non-circular to inhibit rolling of the drums after impact. The drums shall be manufactured using a tiered construction, with the bottom section of the drums having the largest diameter, and successively narrower tiers corresponding with the alternating bands of sheeting above the bottom section. The drums shall meet the following requirements, based on the 2003 Manual on Uniform Traffic Control Devices (MUTCD):

- Height: 36 inches minimum
- Diameter: 18 inches minimum, top to bottom
- Markings on drums: Horizontal, circumferential, alternating orange and white retroreflective stripes 6 inches wide. Drums shall have a minimum of two orange and two white stripes with the top stripe being orange. Any nonretroreflectorized spaces between the horizontal orange and white stripes shall not exceed 3 inches
- Tops: Shall be closed to not allow collection of debris

Sheeting used on drums shall be TYPE ASTM-III - HIGH INTENSITY GRADE. The sheeting used by the supplier shall be a Type ASTM-III material, approved for used on reboundable drums, listed on the WVDOH Approved Products List for Retroreflective Sheetings.

Bases for drums shall be black rubber weighing 40 pounds minimum. The bases shall have molded in carrying handles. The drums and bases shall be designed for the drum to fit onto the base by snapping over a lip on the base. The drums and bases shall be designed such that the drum is not easily removable from the base, but will separate when the drum is struck by an errant vehicle.

APPROVED PRODUCTS

Flexible Plastic Traffic Control Drums bid by vendors shall be a model drum off of the current Approved Product Lists (APL's) meeting the above Materials Specifications. Approvals of Flexible Plastic Traffic Control Drums are based on results from NTPEP and/or WVDOH testing and demonstration projects. The Division reserves the right to remove products from the APL based on actual field performance. The current products on the APL for Flexible Plastic Traffic Control Drums applicable to this Contract are as follows:

MANUFACTURER	MODEL
Traffix Devices	1800 Low Density with 40# rubber base
Allsafe Serices and Materials	1510 (Low Density) with 35# rubber base
Work Area Protection	B400 Low Density with 40# rubber base
Bent Manufacturing	Superdome Low Density with 40# rubber base
Plastic Safety Systems	Lifeguard Low Density with 40# rubber base
Plastic Safety Systems	Lifeguard II Low Density with 40# rubber base
Plasticade Products	454 Low Density with sand-filled base
Eastern Molding International	HTLD-6HI with 40# rubber base

Approved Type ASTM-III sheeting applicable to this Contract is as follows:

MANUFACTURER	PRODUCT
3M	Scotchlite 381XI Series

DRUM MANUFACTURER SHEETING APPLICATION CERTIFICATION

The drum manufacturer will be required to submit a copy of a letter from 3M to the drum manufacturer, stating that the drum manufacturer has been certified by 3M to apply the sheeting specified to the product to be supplied. This letter should be included with the vendor's bid package.

NCHRP-350 CERTIFICATION

The drum manufacturer will be required to submit a letter self certifying that the product to be supplied meets the crashworthiness requirements of NCHRP-350. This letter should be included with the vendor's bid package.

BID ITEMS

Flexible Plastic Traffic Control Drums shall be bid complete with bases and pre-applied sheeting. Replacement drums with pre-applied sheeting and replacement bases shall also be available for purchase separately.

MINIMUM ORDER

A minimum order of Flexible Plastic Traffic Control Drums, or parts thereof, shall consist of 25 (twenty-five) complete units or \$1,500.00, whichever is less.

DELIVERY

All prices bid shall be FOB destination in accordance with the list of delivery destinations made a part of this contract. All orders shall be shipped complete within thirty (30) days A.R.O. Late delivery charges against the vendor may be assessed at a rate of \$50.00 per calendar day beyond thirty (30) days A.R.O. Notification of shipment from vendor shall be received a minimum of 48 hours before delivery of material at the location indicated on the release.

The following estimated quantities are for bid purposes only. Actual quantities will be determined by needs of the West Virginia Division of Highways and may be increased or decreased.

Item Number	Estimated Quantity	Description	Unit Cost	Total Cost	Inventory Subcode (DOH Use Only) (Class 019 Type 008)

* District/Division headquarters phone number

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING: Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.

August 13, 2007

To: Rick Bielski - Vice President of Work Area Protection

Dear Rick,

3M Traffic Safety Systems Division Technical Service Department certifies that Work Area Protection (WAP) is fully trained and complies with appropriate procedures to laminate all 3M reflective sheetings designed for the use on the WAP polyethylene reboundable devices used in the construction work zone traffic market:

1. PE (polyethylene) traffic barrels or drums.
2. PE cones, tubes or other channelizers type devices.
3. PVC cones
4. Such other PE devices that are flame treated and laminated with correct squeegee/roller pressure.

If you or your customers have questions regarding this certification, please contact me at the numbers below, or 3M Technical Service at 800-553-1380.

Sincerely,

A handwritten signature in black ink that reads "Bill C. Boyd".
