To: West Virginia Army National Guard
RE: Request for Proposals for Engineering Services for the design to remedy excessive storm water run off and slope erosion at the Center for National Response, Gallagher Tunnel, Gallagher, WV.

Dear Sir,

G.A. Covey Engineering appreciates the opportunity to submit this proposal Engineering Services.

G.A. Covey Engineering was established in 1991 in Sutton by Gary Covey, who has worked in the community doing engineering with Brackenrich and Associates of Sutton, Monongahela Power, of Gassaway and Oneida Coal Company, of Wolf Creek, since 1977. G.A. Covey Engineering has been involved with drainage design and slope erosion and stability with the Mining industries West Virginia Department of Highways and private developers throughout West Virginia. We have also assisted contractors on bidding and construction layout, compaction, materials control and assisting in design changes in the field and assisting the contractors on critical construction and installation phases of the projects.

G.A. Covey Engineering has a field office in Beckley near the project site in southern West Virginia. The Project Manager, Major George Caldwell, out of the Beckley Office has a long History with the Army Guard in the engineering division and would be assigned to this project.

We have also worked with various mining companies over the years in permitting, valley and refuse fill design, water studies and analysis, water treatment and storm water runoff and sediment control and stream relocations.

We have worked with the Braxton and Gilmer County commission on various waterline projects and Industrial Development Parks, Involved with all phases of engineering design, permitting, construction specifications, contracting and construction monitoring.

Our work with Go mart Corporation over the last several years has had us extensively working on all phases of engineering design and construction bidding and inspection throughout West Virginia and Ohio.

Our staff of engineers surveyors and quality control technicians and inspectors, have a wide range of experience in engineering design and construction. We are very aware of the growing cost of these projects and utilize our recent construction experience on projects throughout the State to keep cost down and best serve the State of WV and the local communities.

Sincerely

Gary A. Covey Owner RPE
