**Re: RFQ # DEP14123
Lenox/Cuzzart Waterline Extension Project**

Dear Mr. Bowman:

Chapman Technical Group is one of West Virginia's largest homegrown engineering-architectural firms. Our headquarters is in St. Albans with additional offices in Buckhannon and Martinsburg. We specialize in water and wastewater engineering, airport engineering, landscape architecture and site development, architecture and highway and bridge design.

For over 22 years now, Chapman Technical Group has been responsible for the planning, administration, design and construction of over \$300 million of water and wastewater system improvements projects throughout West Virginia.

Chapman Technical Group is very interested in providing professional engineering services for the Lenox/Cuzzart Waterline Extension Project for the Preston County Public Service District #4 through the Abandoned Mine Lands Program. We have the ability to perform all of your required work for this project with our current in-house staff of nearly 40 personnel.

We are submitting herewith two (2) copies of our Statement of Qualifications in response to the Expression of Interest for the project, and we hope that you find all of the required information in order.

Chapman Technical Group has the experience, technical qualifications, and commitment to client satisfaction needed to assist you with the successful completion of this project. We would welcome the opportunity to present our firm's capabilities to your selection committee and look forward to hearing from you.

Very truly yours,

CHAPMAN TECHNICAL GROUP
