RE: Expression of Interest for Sundial (Hatfield) Refuse Piles
RFQ No. DEP14137
Potesta Project No. 0101-02-0311-100

Dear Mr. Bowman:

Attached is Potesta & Associates, Inc.'s (POTESTA) letter of interest for the Sundial (Hatfield) Refuse Piles, RFQ No. DEP14137. We believe that POTESTA is uniquely qualified to provide the professional services to review and update the design plans, technical specifications, and engineer's cost estimate as we are the engineer of record for the development of these documents as they currently exist. We performed the initial site reconnaissance, subsurface exploration, and site survey; developed the construction drawings, technical specifications, and engineer's cost estimate; and completed the Corps of Engineers 404 permit application. We are, therefore, thoroughly familiar with the details of the project. Our principal-in-charge, project manager, and project engineer as well as numerous design engineers, CADD designers and clerical staff who worked on the project initially are available to assign to the project. They can quickly assess what has or has not changed in the field and make the necessary changes to the drawings and specifications. They know the intent of the design intimately and will be invaluable at the pre-bid and pre-construction conferences.

We look forward to continuing to be of service to you on the Sundial (Hatfield) Refuse Piles project.

Sincerely,

POTESTA & ASSOCIATES, INC.
