Due to the size of this bid, it was impractical to scan every page for online viewing. We have made an attempt to scan and publish all pertinent bid information. However, it is important to note that some pages were necessarily omitted.

If you would like to review the bid in its entirety, please contact the buyer. Thank you.

R.D. Zande & Associates, Inc.

October 18, 2007

Mr. John P. B. Stafford, P.E., Design Administrator West Virginia Department of Environmental Protection Office of Abandoned Mine Lands 601 57th Street, SE – Box 20 Charleston, West Virginia 25304-2345

Re: Rhodell Refuse and Portals Phase II, P.O. No. DEP14138

Dear Mr. Stafford:

Please find enclosed a completed "AML Consultant Confidential Qualification Questionnaire" for R. D. Zande and Associates, Inc. (RDZ) to perform engineering services for Rhodell Refuse and Portals Phase II, P.O. Number DEP 14138. RDZ is a 308-member engineering firm with offices in five states, including two offices in West Virginia at Charleston and Buckhannon. RDZ recently hired Mr. Will Thornton, P.E., who will be working from our Charleston Office. Mr. Thornton has AML experience through his employment at DLZ and Woolpert. RDZ has Project specific experience successfully completing Projects for the West Virginia Department of Environmental Protection, Office of Abandoned Mine Lands (WVAML) Program; for the West Virginia Department of Environmental Protection, Office of Special Reclamation; for the Ohio Department of Natural Resources (ODNR) AML Program; and for the West Virginia Conservation Agency. In addition, RDZ has employee project-specific experience completing additional Projects for the WVAML and WV Special Reclamation Programs. Our AML Project experience includes: surveying and mapping; subsurface investigations; groundwater and surface water testing and analyses; wet mine seals and modified wet mine seals with bat gates design; mass balanced earthwork quantities; structure demolition and removal plans; permitting (COE 404 and WV 401); concrete and steel structural designs; site drainage design including hydrologic and hydraulic studies for bridges, natural stream design; channels, ditches, pipes and box culverts; civil site design; sediment control; and revegetation plans as well as construction plans and specifications. 15 of these 34 Projects involved passive acid mine drainage designs ranging from simple limestone beds to complex interactive systems that boost AMD pH to precipitate metals, settle and filter dissolved metals, and polish effluent water waters near neutral release of with alkalinity prior to

the Project area. In addition, RDZ designed the first active alkaline treatment system for the State of West Virginia (Special Reclamation), which is nearing construction completion and start-up operations.

Project-Specific AML reclamation and related experience competed for the WVDEP includes:

1. \$2,200,000 Eng. Estimate	WVDEP: Weaver Porta 162,821 C.Y. Earthwork 6,543 L.Ft. "V" Ditches 1,947 L.Ft. Flt Btm Ditches 321 L.Ft. Culverts	als and Mine Drainage, Pl 14 Wet Mine Seals 1,170 L.Ft. Subs. Drain Debris Removal De-watering Plan Six Limestone Beds w/Aluminators and Flush Ponds	hase I and Phase II; Construction Plans and Specifications Project Mapping Hydrologic Investigation 404 COE Permit (NW27)
2. \$250,000 Bid Estiamte	WVDEP: Nixon Run A 1,800 C.Y. Earthwork 240 "V" Ditches 601 L.Ft. Grouted "V" Ditch 387 L.Ft. Culverts 75 L.Ft. Subsurface Drain	1 Wet Mine Seal with Bat Gate	Construction Plans and Specifications Project Mapping Hydrologic Investigation 404 COE Permit (NOI)
3. \$96,000 Eng. Estimate	ODNR AML: Nutter B 14,200 C.Y. Earthwork 1,500 L.Ft. Ditches 225 L.Ft. Subsurface Drain	rothers Tipple, Permit D- HAZMAT Debris Removal (UST's, AST's) 7.2 Ac. Resoiling Plan with Refuse Neutralization Structure Removal	Construction Plans and Specifications Project Mapping Hydrologic Investigation 404 COE Permit (FONSI)
4. \$27,300,000 Eng. Estimate	WVDOH: U.S. Route 3 1,780,000 C.Y. Earthwork 4 Bridges 29-foot box culvert 10' x 6' 23,500 L.Ft. Ditches 6,510 L.Ft. Culverts	35 Little Five Mile Creek Demolition of 21 buildings 550 L.Ft. Natural Stream Design	to County Route 17/1; Construction Plans and Specifications, Project Mapping, Subsurface Investigation, Hydrologic Investigation 2-404 COE Permit (NW14)

RDZ provides Quality Control/Quality Assurance and Construction Inspection to governmental and private agencies on a regular basis. Some Project-Specific QA/QC experience includes:

WVDEP: Glady Fork Mining D-35-82 Bond Forfeiture \$3.0M Active 1. Alkaline Treatment Plant: Concrete Aeration Basin Construction Inspection: Active Alkaline Treatment \$3,100,000 Concrete testing and reporting, Concrete Flocculator Plant - Single Train to Treat Bid Compaction testing and reporting, Concrete Settling Basin Estimate 1.000 GPM **Full Time Construction** Concrete Sludge Thickener Construction Plans and Observation and Reporting Concrete Geo-Tube Slab Specifications Project Bridge over Stonecoal Mapping Hydrologic Investigation Creek

2. WVCA: Fisher-Mill Creek Bank Stabilization;

\$284,000 Eng. Est. 148 L.Ft. Drilled Pile and Lag Wall, Ground Water and

Surface Water Diversions

Construction Inspection:
Concrete testing and reporting,
Compaction testing and reporting,
Full Time Construction Observation
and Reporting

Construction Plans and Specifications, Project Mapping, Hydrologic Investigation

The above Projects demonstrate some of our Project-Specific experience and details a "one-stop shopping" solution for the Rhodell Refuse and Portals Phase II AML Project. Projects outlined in our attached AMLCCQQ provide more details on the above Projects as well as ourer Projects completed by RDZ and our employees for the West Virginia Department of Environmental Protection AML and Special Reclamation Programs; the Ohio Department of Natural Resources AML Program; the West Virginia Conservation Agency; and others. RDZ also has employee experience with numerous Small Operators Assistance Program Applications for surface and deep mine applications in West Virginia and Maryland, as well as over 438 hydrologic investigations for Special Reclamation on bond forfeited sites, all involving hydrologic and geologic investigations and Probable Consequences of Mining in different geologic and hydrologic settings across the State.

RDZ can allot three (3) design teams to this project. Design Team leaders are: Gregory Linder, P.E., Will Thornton, P.E., and Randy Calkins, P.S. each design team will have necessary support personnel including CADD Operators, Staff Engineers, Survey Crews, and other support personnel to ensure the project is completed within WVDEP timeframes. In addition, Randy Calkins will serve as AML Corporate Manager.

We are very excited about the opportunity to continue our working relationship with the West Virginia Department of Environmental Protection and look forward to providing engineering services on this most important Project. We believe no other company can meet our quality of work, which, when coupled with our experience, allows us to be more efficient and therefore very cost competitive. Our Buckhannon Office will respond quickly, effectively, and in the most economical way. If chosen, our primary objective will be to address WVAML needs with numerous professionals in varying fields of expertise available on an "as needed" basis from our Columbus and Charleston Offices.

Should any questions arise, or if we can supply additional information or be of further service to you, the Purchasing Division, or the West Virginia Department of Environmental Protection, please contact me anytime at (304) 472-7140.

Respectfully Submitted,

R. D. ZANDE AND ASSOCIATES, INC.

Dennis E. Miller, Senior Associate / Office Manager
