Subject: **Expression of Interest for RFQ - DEP14171**
Thomas (Sunrise) Sanitation
Thomas, West Virginia
Civil Tech Proposal No. P08501

To Whom it May Concern:

CIVIL TECH ENGINEERING INC. is pleased to present this EOI for the subject RFQ. **Our company is currently providing engineering services for the City of Thomas and we have worked in the town continuously since 1999.** Projects completed in Thomas since 1999 have included:

- Modification of the concrete dam in the Blackwater River
- A storm water improvement project
- A sewer – storm water segregation project which is ongoing.

These projects have allowed us to develop a unique understanding of the stormwater issues and people in the City of Thomas. We are also very familiar with the mine drain which flows through Sunrise Sanitation property and the stream channel which will require armoring to stop erosion. In addition, our company has completed over 40 dam modification projects and countless site development projects involving storm water controls and erosion control measures. All of these projects have required hydrologic/hydraulic analysis and armoring to prevent and stop erosion. **We believe our experience in the City of Thomas and stormwater/erosion controls makes our company uniquely qualified to provide the requested engineering services for this project.**

We look forward to meeting with the selection committee to discuss the project and our qualifications.

Very truly yours,

CIVIL TECH ENGINEERING INC.

Mark E. Pennington MS, PE
