West Virginia Division of Culture and History  
Request for Quotation-DCH09069  
HVAC Air Filtering Media

The West Virginia Division of Culture and History is soliciting bids for procurement of air filtering media required for the HVAC system located in the Cultural Center on the Capitol Complex in Charleston, West Virginia.

It is anticipated that the Agency will require 448 units of each type of media annually. Minimum individual order for each type of media will be Fifty-Six (56) units. Piecemeal ordering is due to lack of storage space for the full procurement quantity. Media shall meet the specifications below.

Vendor shall be required to accept a VISA/State of West Virginia Purchasing Card as payment in arrears for the commodity delivered. Bid shall include the cost of shipping to the point of delivery and any other charges required for delivery. Prices shall remain constant for the life of the contract.

### **SPECIFICATION**

- **Pre-Filter:** Fiberbond Dustlok filter panel, synthetic media w/ internal wire support, w/ SPOR-AX Anti-microbial agent or, approved equal.
  - **Nominal Size:** 24 "x 24" x 1-1/2"
  - **Construction:**
    - Multi-layered, air laid 100% polyester media securely heat-sealed around an internal wire support grid.
    - Panel shall contain four (4) long, continuous parallel internal seal bars to prevent media fluttering.
    - Panel shall provide three distinct progressive layers for dust entrapment. Final stage shall be tightly needled and shall contain a non-migratory, non-drying adhesive throughout the entire final layer.
    - Panel shall contain an anti-microbial that -effectively controls the growth of mold, algae, mildew, and fungi on the media. Anti-microbial agent shall not off gas, migrate, or leach into the air stream.
    - Filter shall be Underwriters Laboratory (UL) listed as Class II
    - Panel shall provide a minimum ASHRAE efficiency of 25 %.
- **Primary Filter:** Airflow Products: extended surface self supported mini-pleat box filter: AMFP95-24244, 95% efficiency or, approved equal.
  - **Nominal Size:** 24" x 24" x 4"
  - **Construction:**
    - Frame construction shall be composed of injection molded polypropylene
    - Filter pack shall consist of non-shredding, gradient density, polypropylene media.

West Virginia Division of Culture and History  
Request for Quotation-DCH09069  
HVAC Air Filtering Media

- Media shall cover a minimum of 120 Square Feet Media shall be bonded to the frame using polypropylene adhesive.
- Filter shall be rated for at least 2,000 CFM.
- Filter shall provide a minimum ASHRAE efficiency of 95%.
- Filter shall be Underwriters Laboratories rated Class II per UL 900 standard.
- Filter shall be suitable for Variable Air Volume (VAV) Systems. Filter shall be able to withstand turbulent airflow conditions.

West Virginia Division of Culture and History  
 Request for Quotation-DCH09069  
 HVAC Air Filtering Media

**BID COST SHEET:**

PRODUCT	ESTIMATED QUANTITY	UNIT COST	EXTENDED COST
PRE-FILTER PANEL	448	\$ 5.31	\$2,378.88
PRIMARY MINI PLEAT BOX FILTER	448	\$59.52	\$26,664.96
TOTAL			\$29,043.84

VENDOR: Applied Industrial Technologies

SIGNATURE: Wendell White DATE: 2/12/2009

STATE OF WEST VIRGINIA  
Purchasing Division

**PURCHASING AFFIDAVIT**

**VENDOR OWING A DEBT TO THE STATE:**

*West Virginia Code* §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

**PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:**

If this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code*. The vendor must make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code* and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the *West Virginia Code* may take place before their work on the public improvement is begun.

**ANTITRUST:**

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

**LICENSING:**

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

**CONFIDENTIALITY:**

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

Vendor's Name: Applied Industrial Technologies  
Authorized Signature:  Date: 2/12/09

# State of West Virginia VENDOR PREFERENCE CERTIFICATE

Certification and application\* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

- 1. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,  
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,  
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,

- 2. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

- 3. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

- 4. **Application is made for 5% resident vendor preference for the reason checked:**  
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,

- 5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,

- 6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: Applied Industrial Technology Signed: [Signature]  
 Date: 2/12/2009 Title: General Manager

2-Ply MERV-6

3-Ply MERV-7

- **Self-Sealing**
- **Eliminates Bypass**
- **Moisture Resistant**
- **Totally Unitized Assembly**
- **Fast, Easy Installation**
- **No Latches Required**
- **Compact Packaging**

## General Product Information

The Activator Series panels and links consist of layers of multi-denier polyester media sealed around a heavy duty 9 gauge internal wire frame with integral cross wire support members.

## Bio-Pure® Antimicrobial Treated Panel

To inhibit microbial growth on the filters, 2-ply Bio-Pure panels are available treated with an EPA Registered antimicrobial agent.

Activator panels offer wide flexibility in meeting the needs of a variety of filtration applications, including:

- General ventilation
- Prefilters
- Stand alone, single stage filtration
- Built up frame banks
- Side access systems
- Rooftop air handlers
- Air supply for paint spray booths
- Economical upgrade from fiber glass or synthetic framed disposable panel filters

Select from 2-ply or 3-ply models to provide the right combination of filter construction, performance and budget to meet your needs.

### 2-Ply - MERV 6

The 2-ply filter is a dual layer design with a multi-denier, blended fiber pad on the air entering side followed by a denser, needled media on the air leaving side that forms a final barrier to capture dirt particles. A dry tack adhesive applied on the air leaving side holds dirt and prevents particles from breaking loose. No particle migration down stream.

*Recommended for normal dirt loading applications.*

### 3-Ply - MERV 7

The upstream media is a stratified, dual layer pad made with two distinct layers of polyester fibers for greater depth loading. The down stream media pad is a denser, needled media that forms a final barrier to capture dirt particles. A dry tack adhesive applied on the air leaving side holds dirt and prevents particles from breaking loose. No particle migration down stream.

*Recommended for heavier dirt loading conditions or where higher efficiency particulate removal is desired.*

2-Ply

3-Ply

**2-Ply**

Layers of multi-denier polyester fibers capture dirt particles throughout the entire depth of the filter - prevents faceloading, increases dust holding capacity, and extends service life.

**3-Ply**

**Pressure Sensitive Tackifier**

The air leaving side of the panel is applied with a tackified adhesive to retain collected particles. The adhesive maintains its tacky nature over the life of the filter - does not dry out or blow off the media.

**Fast, Easy Installation**

Just push the filter into the frame. No clips, no latches, no leakage.

**Heavy Duty Internal Wire Frame**

The layers of media are heat sealed around a heavy duty, 9 gauge internal wire frame. Cross wire supports welded to the frame provide additional structural strength and hold the media in place to prevent billowing or fluttering in operation.

**Full Media Utilization**

Panel filters have no perimeter frame or supporting grids to obstruct air flow and block off media. The entire face of the filter is exposed to the air stream.

**Retains Collected Dirt Load**

Layers of multi-denier fibers hold collected dirt particles throughout the depth of the media. Pressure sensitive tack on the air leaving side assures that the dirt load stays in the filter and does not blow down stream.

**Media Does Not Support Microbial Growth**

The polyester media does not support microbial growth.

**Self-Sealing, Leak-Free -**

A unique characteristic of panel filters. The layers of media are larger than the internal wire support frame creating a built in gasket when the filters are installed. They are automatically sealed in the frame or side access track without the use of clips or latches. No dirty air bypass.

**Tough, Durable Polyester Media**

The inherent strength of polyester fibers combined with the internal frame construction make Activator panels unusually strong. They withstand rough handling and difficult operating conditions without damage or loss of performance.

**Moisture Resistant**

100% polyester fiber media is completely resistant to moisture. This makes panel filters ideally suited for rooftop installations or other locations where they can be exposed to moisture.

**Compact Packaging**

Internal frame construction with no perimeter frame creates a low profile design that permits packaging in a compact, space saving carton. Save on shipping, handling and storage, plus easy transportation to the air handler.

Nominal Size (In.)	Actual Size of Internal Frame (In.)	Rated Air Flow Capacity (CFM)	
		300 FPM	500 FPM
10 x 20	9½ x 19½	425	700

AIRGUARD, a CLARCOR Company, is very excited to announce the release of a "NEW" filter called LEGACY™ 4" and 12" High Efficiency Rigid Cell Extended Surface Filter.

\* 4" offered in MERV 11 & 14 and 12" offered in MERV 11 & 15

The new AIRGUARD LEGACY™ high efficiency filter is a perfect sustainable component for your next LEED/Green Building initiative. The LEGACY™ is a MERV 15 (Standard 52.2 Minimum Efficiency Reporting Value) product with extremely low initial resistance characteristics. MERV 15 is hospital compliant for full patient care. The LEGACY™ will help you increase your overall filter efficiency, to exceed LEED requirements of MERV 13, while maintaining or lowering your energy costs.

For more information regarding the new LEGACY™ from AIRGUARD, please contact your nearest AIRGUARD Stocking Distributor, local AIRGUARD Territory Manager or a Customer Service Associate at 1-866-247-4827. You can also click the **Distributor Locator Button** at [www.airguard.com](http://www.airguard.com)

Patent #6,685,833 

**Unique Channel Flow Molded Media:**

- 4" is MERV 11 & 14 and 12" is MERV 11 & 15
- Very Low Resistance
- High Dust Holding Capacity
- All Plastic Construction
- Light Weight
- Class 1 per U.L. Standard 900

**LEED/Green Building**

- Sustainable Component for a LEED/Green Building Initiative (Leadership in Engineering and Environment Design)
- Exceeds LEED/Green requirement of MERV 13
- Lower Energy Cost

# LEGACY

Channel Flow Molded Media

## 4" Deep Filters - MERV 11 & 14

For use where space is limited. 4" deep LEGACY filters operate at 500 FPM at substantially lower resistance than competitive 4" - 6" deep filters.

## 12" Deep Filters - MERV 11 & 15 Single Header Construction

LEGACY filters replace traditional 12" deep rigid cell filters operating at 500 - 625 FPM with substantially lower resistance.

### Unique Channel-Flow Molded Media Produces Lowest Resistance

LEGACY media is molded into a series of preformed channels that direct the air smoothly through the filter. This unique process results in the lowest resistance of any high efficiency filter on the market. Low resistance maximizes energy savings.

*LEGACY Close up view shows how beads of adhesive applied to the media hold the channels open to permit free flow of air for low resistance and complete use of the media.*

### **Reverse Flow Installation For Front Load Applications (12" Deep Filters)**

For front load installations, or where there is no down stream access, 12" deep LEGACY filters are available in a reverse flow model.

### **Glue Bead Adhesive Strips Stabilize Pleat Pack**

Beads of adhesive applied to the media bond the pleats into a totally rigid, solid pack. The pleats hold their shape and the molded channels are held open for free flow of air in all types of operating conditions. No pleat deformation, no blocking off.

### **Rigid Cell Design Handles Difficult Operating Conditions**

Rigid cell design, all plastic components and Dura-Tuff 100% synthetic media make Legacy filters ideal for the most demanding operating conditions, including variable air volume systems, high air flow, turbulence, repeated fan shut down, high moisture, and some chemical or corrosive conditions. These filters are designed for tough installations.

### **Full Media Exposure Produces High Dust Holding Capacity**

The Channel-Flow molded media design not only produces low resistance, it also allows the media to be completely exposed to dirt laden air. Dirt loads evenly over every square foot of filter surface area for maximum dust holding capacity and long service life.

### **All Plastic Construction – Completely Incinerable, Light Weight**

The cell sides are made of high strength, high impact polystyrene plastic. They are moisture, chemical and corrosion resistant. Legacy filters contain no metal components – no rust, no corrosion. The elimination of metal also makes these filters completely incinerable and light weight.

*Spring latches are used to secure the 12" Reverse Flow LEGACY filter to the holding frame.*

*2" & 4" Pre-filter clips hold the prefilter to the Reverse Flow LEGACY filter.*

*Various sized metal frames are available to make the LEGACY suitable for most any application.*

### **Dura-Tuff™ 100% Synthetic Media**

LEGACY filters are made with Dura-Tuff synthetic media. It is extremely durable, resists tearing, abrasion and is highly damage resistant. No more media damage during shipping, handling or installation. Dura-Tuff media is also unaffected by exposure to moisture and some chemicals. This media is just plain tough.

*See how the preformed channels allow dirt to be collected all the way to the back of the pleats. Every square foot of media is fully utilized for maximum dust capacity.*

Legacy Extended Service Life Filters for Air Conditioning and Heating

Part Number	Filter Size (WxHxD)	Filter Size (WxHxD)	Filter Area (sq. ft.)	Filter Area (sq. ft.)	Filter Area (sq. ft.)	Filter Area (sq. ft.)

\* Reverse size pleat on 25" height product.

IMPORTANT NOTES:

- All performance data is based on the ASHRAE 52.2 Test Standard
- Width and height dimensions are interchangeable. LEGACY filters can be installed with the pleats vertical or horizontal
- Continuous Operating Temperature: 140°F (60°C).

Underwriters Laboratories Inc. Classification:

LEGACY filters are classified Class 1 per U.L. Standard 900.
