RE: DEP14348 – Summit Park Waterline Replacement

Dear Mr. Bowman,

HMB Professional Engineers, Inc. (HMB) is pleased to submit our Expression of Interest for the Summit Park Waterline Replacement project. HMB has extensive project experience helping the WVAML office provide domestic water service to the areas affected by coal mining. As a leader in Phase I and Phase II Water Feasibility Studies, HMB has paved the way for countless water line extension projects in rural West Virginia. In addition to our Feasibility Study experience, HMB has an impressive list of successful water line extension projects. This combination of planning and design experience, along with familiarity with the project area, makes HMB's qualifications stand out above the competition.

HMB has a multi-disciplined staff that includes five engineers with water line design experience. These engineers are the key ingredient of a project team that also includes engineering technicians and construction inspectors that are all experienced with water line design and construction. We hope that you will agree that HMB is uniquely qualified to design this project.

Sincerely,
HMB PROFESSIONAL ENGINEERS, INC.

Greg Boleyn, PE
West Virginia Office Manager
