Addendum No. 1
P. 2

Clarification of the term "PARCEL" for bidding and billing purposes in the above referenced Request for Quotation.

For the purpose of bidding and for billing DEP for EROE and/or CROE, "Parcel" is defined by the description in Article 9. The definition of "Parcel" in Section A describes how a property is identified on the ground.

It is anticipated that the Contractor will be given a Work Directive for either EROE or CROE, not both. If the Contractor receives a contract for EROE, a Work Directive for CROE may or may not later be given to the Contractor. The Contractor may also receive a Work Directive for only CROE.

Examples of how Parcels will be calculated for billing purposes follow :

- 1.) Project effects one parcel of property (i.e. Tax Map 6, Parcel No.3), no lessees and no ingress/egress needed across adjacent properties.

Based on the contract being for EROE, the Contractor will be paid for ONE Parcel, but will be required to obtain EROE Agreements from all parties having a legal interest in the property whether it is a single person, husband and wife, multiple owners or ten heirs. The same would apply if the Contractor was later to receive a contract for CROE. The Contractor would be paid for CROE on ONE Parcel.

- 2.) Project effects five parcels of property (i.e. Tax Map 6, Parcel Nos. 3, 4, 5, 6 & 7) owned by different owners, three lessees, and one parcel of property (i.e. Tax Map 6, Parcel No. 8) needed for ingress/egress across adjacent property. Based on the contract being for EROE, the Contractor would be paid for NINE Parcels. EROE Agreements would be required from all parties having a legal interest in each of the five parcels of property effected by the project, from each of the three lessees and from all parties having a legal interest in the one parcel of property needed for ingress/egress. The same would apply if the contract was for CROE.

- 3.) Project effects five parcels of property owned by the same landowner(s) and leased by the same lessee(s) with no ingress/egress or borrow/disposal needed.

Based on the contract being for EROE, the Contractor will be paid for TWO Parcels with EROE Agreements being required from all parties having a legal interest in the property. The same would apply if the contract was for CROE.

- 4.) Project effects three parcels of property and a Borrow/Disposal Agreement is needed for one of the three same parcels of property. In addition the Contractor is able to obtain none or not all of the required Agreements for one of the parcels of property. Based on the contract being for EROE, the Contractor would be paid for THREE and ONE HALF Parcels (TWO for EROE Agreements completed on two parcels of property, ONE HALF for the uncompleted EROE Agreement(s) on the one parcel of property, and ONE for the Borrow/Disposal Agreement on one of the same parcels of property for which EROE Agreement(s) were obtained. The same would apply if the contract was for CROE.

SECTION B – INFORMATION FOR BIDDERS

The State of West Virginia, Department of Environmental Protection, Office of Abandoned Mine Lands and Reclamation, is requesting bid quotations for the performance of realty services for the Northern District of West Virginia. These services will result in the acquisition of right of entry agreements. A detailed description of the scope of work and services rendered may be found in Section C of this RFQ.

DEP will enter into an open-end contract for these realty services with one (1) contractor. Work Directives will be issued for individual sites or projects or groups of sites or projects in accordance with the criteria set forth in Section D of this RFQ.

A responsive submittal shall include an original bid quotation. The bid shall include the names, signatures and telephone numbers of persons authorized to conduct negotiations and contractually bind the Offeror. Also, a primary location (main office) of where most of the services will be completed must be identified. Bids will be considered only from those Offerors who can meet the minimum qualification criteria set forth in Section D herein. Offerors should be careful not to include in their bids items that are beyond the scope of services required in this RFQ. The bid should provide the State with the most favorable terms from a technical and cost standpoint.

SECTION C – SCOPE OF SERVICES

Scope of Work

I. General

- A. The scope of work shall include determining the property(ies) affected by the access and performance of reclamation projects; ascertaining and documenting the surface ownership of said property(ies); and obtaining properly executed and notarized right of entry agreements from all parties having a legal interest in said property(ies). All agreements and forms shall be standard DEP documents.

II. Material Provided
