4. **Application is made for 5% resident vendor preference for the reason checked:**
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

ADDENDUM #2
DEP14471
Collect and Conduct Water Sample Tests
Up To 250 Sites

1. Are the 250 site locations throughout the state of West Virginia? Yes

2. Using EPA's Rapid Bio-assessment Protocols III, please provide more specifics on the number of organisms to be identified. The protocols and methods for sorting were written for a 200 organism subsample but can be used for 100, 200 or more. What organism count does WV require – 100, 200, or other? 200

3. Also these methods state that identifications for RPB III is lowest practical level (generally genus or species). Please verify the level of taxonomic identification required – is to Genus level? Also, are there any exceptions to this (i.e. like oligochaetes only to group level, or chironomids to family only)? (WVSCI) Family

4. Also it appears that benthic sampling is required biannually. Does this mean both spring and fall? What are the biological index periods (i.e. specific months during spring and fall when sampling is to be done)? Will sampling begin in spring 2009, fall 2009 or spring 2010? Yes and depending on award of purchase order will decide when testing will begin. It could be Feb. 15 – April 15, 2009 and October 15 – Dec. 30, 2009 or October 15 – Dec. 30, 2009 and Feb. 15 – April 15, 2010.

5. Is there a required turn-around time for the completion of benthic sample identifications once collected? Within 30 days

6. What is the final product desired – is it a spreadsheet of benthic taxa and counts, for example, or is the contractor to compute benthic indicator scores? Yes and data should be based on the WVSCI scale of 1-100.

7. On the bid sheet, does benthic sample cost include all field, laboratory, and data management cost? Yes

8. Is a final written report to be produced, and should that cost be included in benthic per-sample cost? More than report station data, Benthic WVSCI Score, RBP Score and a CD/DVD of this and all data.

9. On the bid sheet, under Labor, are you simply asking for an hourly rate for a single field person? What if 2-person crews are to be used? Whatever personnel is used by your firm, it will be up to you if you use a one or two person crew.

10. Should we account for management time, data management, and reporting, or is this only a quote for field cost? Yes all costs.

11. On the bid sheet, what is meant for flow monitoring? Do you use instantaneous flow rate using a cross section with wading rod, etc.? **Yes**
12. The RFQ directs all test results be submitted to DEP electronically. Should we infer EQUIS (MEDD format) is required? **No, DEP will direct the successful vendor the submission site.**
13. Can vendor submit as a prime and team with a WV certified lab? **Yes**
14. Bid is for one year with option to renewal. In past, during low flow and high flow sampling events, how many sites were flowing? **Approximately 25% could be dry and also if flooding is occurring there could be up to 25% you can't get to.**
15. For metal analysis, what should be the MDL level? **Below standard of water quality level.**
16. Is the labor of 500 hours (cost per site); item #36 on the bid schedule, referring to labor cost for Benthic sampling only, or is it for monthly sampling as well? **The labor is for all sampling. Invoicing format will be given after the contract is awarded.**
