Dear Ms. Murray,

Thank you for the opportunity to quote the State of West Virginia on your current tower modification project, RFQ Number EBA177. While the tower in question is in fact a Stainless built tower and we would very much like to do the work for the State, we are currently unable to meet the requirements as set forth in the bid documents and must therefore "no Bid" the project at this time. The main issue we cannot meet is the January 30, 2009 completion date. Based on our current booked projects we would be looking at March-April for a completion date.

Again, thank you for the consideration and please keep Stainless in mind for any of your future tower needs.

Best regards,

Ed Deetscreek
