TOTAL MARKED VOLUME BY SPECIES AND DIAMETER

This sheet is part of an excel file – it required hand entry of timber data and then would generate this report, by cutting unit, in both International ¼ inch and Doyle tree scale. This system must be able to provide a similar looking report -- that fits on an 8.5" x 11" piece of paper. There can be a different sheet for each scale and each cutting unit. A summary sheet of the entire sale must also be part of a final report.
